Submitted By: Maria Papagjika

Filing Description:

For your review and approval, the above referenced companies herewith submit revisions to our Automobile Casualty Manuals currently on file with your department.

Specifically, rates are revised with the below effect:
GE/GGGIGC oldGC REVO
Bodily Injury1.5--3.6
Property Damage9.58.58.510.3
FPB8.5-5.0-5.012.5
EMB8.5-5.0-5.012.5
Uninsured Motorists---1.3
UIM10.09.59.515.3
Collision--6.0-6.02.6
Comprehensive2.0--3.5
Emergency Road Service12.5--10.0
Rental Reimbursement10.5--14.9
TOTAL 4.00.00.05.6

Justification for the changes referenced above is set forth in the attached filing memorandum, exhibits and appendices.

Revised manual pages are enclosed for your convenience.

Once you have had an opportunity to review the enclosed, please forward your approval allowing us to implement these changes for all new business policies effective on and after September 03, 2015 and for all renewal policies effective on and after October 19, 2015.

Sincerely,

John Taylor
Senior Counsel

***RULE G-11. <u>RATE CAPPING</u>**

Renewal premium increases by policy will be capped at 10% by application of policy level factors, subject to and in accordance with this Rule. The cap will be calculated and applied as follows:

1. The premium is calculated for the renewal term (True Renewal Premium) and compared to the premium from the current term adjusted for changing policyholder characteristics such as changes in driving record, risk progression through rating plan, or changes to program or risk tier (Adjusted Current Term Premium).

2. If the True Renewal Premium exceeds the Adjusted Current Term Premium by more than 10%, the final renewal premium increase will be capped at 10%. To compute the final renewal premium, a cap factor is applied to each vehicle and coverage, including the policy and vehicle expense constants:

Cap Factor = (Adjusted Current Term Premium * 1.10) / True Renewal Premium

3. The cap factor is recalculated on each renewal. If the current term premium was a capped premium, the Adjusted Current Term Premium should include the cap factor from the current term.

4. The Adjusted Current Term Premium as well as the True Term Renewal Premium take into account renewal endorsements or policy changes that do not involve adding/replacing coverages or vehicles. If such endorsements occur mid-term, capping will be preserved.

5. Coverages or vehicles added or replaced at or subsequent to renewal are not eligible for capping.

GOVERNMENT EMPLOYEES INSURANCE COMPANY (GEICO)
GEICO GENERAL INSURANCE COMPANY (GG)
GEICO INDEMNITY COMPANY (GI)
GEICO CASUALTY COMPANY (GC)

Voluntary Private Passenger Automobile Insurance

Pennsylvania

Filing Memorandum

Government Employees Insurance Company/GEICO General Insurance Company

Government Employees Insurance Company (GEICO) and GEICO General Insurance Company (GG) propose a +4.0% rate change in voluntary automobile insurance rates as shown on Exhibit GE-1, Sheet 1. Proposals for GEICO and GG are shown separately on Exhibit GE-1, Sheets 2-3. Note that the impacts of these changes only affect the base rates.

Our Underinsured Motorists (UIM) rates continue to be a fixed percentage of our Uninsured Motorists (UM) rates, based on sector, as shown in Exhibit GE-2, Sheets 1-2. For UIM stacked coverages, our additional auto rate will be 150% of our first auto rate, as shown in Exhibit GE-3, Sheets 1-2. These relationships are the same as those currently in use.

Exhibit GE-4, Sheets 1-2 shows the impact of the rate changes on our policyholders. We estimate that the maximum increase resulting from this proposal is 8.3%. There is currently a 5% rate cap rule in effect. Exhibit GE-4, Sheet 2 shows the impact of the rate changes on our policyholders when considering our policy-level rate capping rule of 5%. The maximum increase will be capped at 5% at each renewal.

GEICO General Insurance Company (GG) rates are currently equal to those of GEICO. We propose to implement the same changes for GEICO and GG to maintain this relationship.

GEICO Indemnity Company/GEICO Casualty Company Old Product

GEICO Indemnity Company (GI) and GEICO Casualty Company (GC) Old Product propose a +0.0% rate change in voluntary automobile insurance rates as shown on Exhibit GIGC-1, Sheet 1. GEICO Casualty policies with inception dates prior to the introduction of our GEICO Casualty New Product on October 6, 2011 were included in the development of these indications. Proposals for GI and GC Old Product are shown separately on Exhibit GIGC-1, Sheets 2-3. Note that the impacts of these changes only affect the base rates.

Our UIM rates continue to be a fixed percentage of our UM rates, based on sector, as shown in Exhibit GIGC-2, Sheets 1-2. For UIM stacked coverages, our additional auto rate will be 150% of our first auto rate, as shown in Exhibit GIGC-3, Sheets 1-2. These relationships are the same as those currently in use.

Exhibit GIGC-4, Sheets 1-4 shows the impact of the rate changes on our policyholders. We estimate that the maximum increase resulting from this proposal is 5.58% for GI and 5.05% for GC Old Product. There is currently a

5% rate cap rule in effect. Exhibit GIGC-4, Sheets 3-4 shows the impact of the rate changes on our policyholders when considering our policy-level rate capping rule of 5%. The maximum increase will be capped at 5% at each renewal.

GEICO Indemnity Non-Standard Tier rates are currently equal to those of GEICO Casualty Old Product rates. We propose to implement the same changes for GI Non-Standard and GC Old Product to maintain this relationship.

GEICO Casualty Company New Product

Effective October 6, 2011, GEICO Corporation began writing all Pennsylvania new business policies in a new voluntary automobile product in GEICO Casualty Company (GC).

Exhibit GC-1, Sheet 2 shows the rate level indications for the GC new product for all risk groups combined. Exhibit GC-2 shows loss ratio relativities for each risk group.

With this filing, we are proposing base rate changes of +6.5% in Risk Group B, +4.5% in Risk Group C, and +4.5% in Risk Group D for an overall rate level change of +5.6% as shown on Exhibit GC-1, Sheet 1. Proposed changes will vary by coverage and by territory for major coverages. We propose no changes to expense constants at this time.

As shown on Exhibit GC-3, Sheets 1-48, we propose to revise our territorial relativities based on GEICO Casualty new voluntary automobile product experience, credibility weighted with current relativities. Proposed relativities are based on consideration for risk group specific loss experience and the loss experience of all risk groups combined. Individual losses have been capped at $50,000 for all coverages, and Comprehensive catastrophe losses have been removed from territorial loss experience. The proposed rate changes by territory have been capped at ± 3% around the statewide rate changes.

Proposed base rates for UM and UIM are shown on Exhibit GC-5, Sheets 1-6 and Sheets 7-12, respectively. For both UM and UIM stacked coverages, our additional auto rate will be 150% of our first auto rate. These relationships are the same as those currently in use.

Exhibit GC-7, Sheets 1-6 shows the impact of the rate changes on our policyholders. We estimate that the maximum increase resulting from this proposal is 13.39%. There is currently a 5% rate capping rule in effect. We are proposing to increase the policy-level rate cap to 10%. General Rule 11 (attached) has been revised to reflect this change. Exhibit GC-7, Sheets 4-6 show the impact of the rate changes on our policyholders when considering the proposed policy-level rate cap of 10%. The maximum increase will be capped at 10% at each renewal.

Government Employees Insurance/GEICO General Insurance/GEICO Indemnity/GEICO Casualty Companies

The indications are developed using accident year data ending December 31, 2014 evaluated as of March 31, 2015. Earned premiums are adjusted to current rate level. Comprehensive and Rental Reimbursement incurred losses are adjusted by excluding catastrophe losses and loading back in the expected catastrophe losses based on long-term average catastrophe factors of 9.9% and 1.8%, respectively. The determination of this factor is shown on Exhibit G-1, Sheet 1 for Comprehensive and Sheet 2 for Rental Reimbursement.

Incurred losses are developed to an ultimate settlement basis using factors shown on Exhibit G-2. We believe that our historical patterns are appropriate for projecting our ultimate losses and have not adjusted for any historical or anticipated changes that would have a substantial impact on the data.

Losses are trended to the average accident date anticipated under the proposed rates using the trend factors shown on Exhibit G-3, Sheet 1. These trend selections are based on the underlying frequency, severity, and premium drift data shown on Exhibit G-3, Sheets 2-9.

The factors used to adjust the incurred losses and allocated loss adjustment expenses to include unallocated loss adjustment expenses are calculated on Exhibit G-4.

To the extent that the experience data lacks credibility, the experience indications are weighted with the trended permissible loss and loss adjustment expense ratio underlying the current rates. The trend period is limited to one year. The credibility-weighted loss and loss adjustment expense ratio is compared to the permissible loss and loss adjustment expense ratio to calculate the indicated change.

Exhibit G-5, Sheet 1 presents the calculation of the permissible loss and loss adjustment expense ratio. The expense ratios used in this calculation are based on the Automobile Insurance Expense Exhibit data shown on Exhibit G-5, Sheet 2. The indicated underwriting profit provision has been calculated using an expected after-tax return on equity. These calculations are shown on Exhibit G-6, Sheets 1-2. On Exhibit G-6, Sheet 3, we show the calculation of the projected rate of return on assets after taxes.

Exhibit G-7 shows the impact of the proposed changes to each company and line of business.

No changes proposed in this filing will result in a reduction in coverage for current policyholders.

In addition, no changes proposed in this filing will force current policyholders to purchase additional coverage for additional premium.

Appendix

In accordance with the Personal Auto Filing Reform Information Notice on July 27, 2013 (43 Pa.B. 4292), we have provided the requested data for GEICO/GG and GC New Product as an Appendix in this filing.

Appendix GE-1 through GE-5 contains the requested data for GEICO/GG, while Appendix GC-1 through GC-5 contains this data for GC New Product. Appendix G-1 provides expense-related data for GEICO Corporation in order to avoid any distortions due to the implementation of our New Product in GC in 2011. Appendix G-2 provides loss development data for GEICO Corporation. Where appropriate, GEICO Corporation data is used in this filing in order to provide stability for assumptions.

Notes:
Rate Changes Have Been Capped at -0.5 and 5.5
Claims have been capped at 50000
The GEICO Base Rate Has Been Adjusted by a Factor of 1.000
Terr Relativities = Indicated Relativities Credibility Weighted With Current Relativities
To balance statewide target, rates have been spread uniformly by 0.003
Full Credibility is Assigned for Territories with 3000 claims
*All RG Indicated Relativities are developed in Exhibit GC-3, Sheets 37-48

GEICO Casualty Company

Notes:
Rate Changes Have Been Capped at 9 and 15
Claims have been capped at 50000
The GEICO Base Rate Has Been Adjusted by a Factor of 1.000
Terr Relativities = Indicated Relativities Credibility Weighted With Current Relativities
To balance statewide target, rates have been spread uniformly by 0.015
Full Credibility is Assigned for Territories with 1084 claims
*All RG Indicated Relativities are developed in Exhibit GC-3, Sheets 37-48

Notes:
Rate Changes Have Been Capped at 1 and 7
Claims have been capped at 50000
The GEICO Base Rate Has Been Adjusted by a Factor of 1.000
Terr Relativities = Indicated Relativities Credibility Weighted With Current Relativities
To balance statewide target, rates have been spread uniformly by 0.013
Full Credibility is Assigned for Territories with 1084 claims
*All RG Indicated Relativities are developed in Exhibit GC-3, Sheets 37-48

Notes:
Rate Changes Have Been Capped at 3 and 9
Claims have been capped at 50000
The GEICO Base Rate Has Been Adjusted by a Factor of 1.000
Terr Relativities = Indicated Relativities Credibility Weighted With Current Relativities
To balance statewide target, rates have been spread uniformly by 0.006
Full Credibility is Assigned for Territories with 3000 claims
*All RG Indicated Relativities are developed in Exhibit GC-3, Sheets 37-48

Notes:
Rate Changes Have Been Capped at -3 and 3
Claims have been capped at 50000
The GEICO Base Rate Has Been Adjusted by a Factor of 1.000
Terr Relativities = Indicated Relativities Credibility Weighted With Current Relativities
To balance statewide target, rates have been spread uniformly by 0.016
Full Credibility is Assigned for Territories with 3000 claims
*All RG Indicated Relativities are developed in Exhibit GC-3, Sheets 37-48

GEICO Casualty Company
New Product
Risk Group B

Development of Rate Level Changes by Territory
Private Passenger Automobile - Total Limits

Notes:
Rate Changes Have Been Capped at 11 and 17
Claims have been capped at 50000
The GEICO Base Rate Has Been Adjusted by a Factor of 1.000
Terr Relativities = Indicated Relativities Credibility Weighted With Current Relativities
To balance statewide target, rates have been spread uniformly by 0.009
Full Credibility is Assigned for Territories with 3000 claims
*All RG Indicated Relativities are developed in Exhibit GC-3, Sheets 37-48

Notes:
Rate Changes Have Been Capped at 2 and 8
Claims have been capped at 50000
The GEICO Base Rate Has Been Adjusted by a Factor of 1.000
Terr Relativities = Indicated Relativities Credibility Weighted With Current Relativities
To balance statewide target, rates have been spread uniformly by 0.003
Full Credibility is Assigned for Territories with 3000 claims
*All RG Indicated Relativities are developed in Exhibit GC-3, Sheets 37-48

Notes:
Rate Changes Have Been Capped at 5 and 11
Claims have been capped at 50000
The GEICO Base Rate Has Been Adjusted by a Factor of 1.000
Terr Relativities = Indicated Relativities Credibility Weighted With Current Relativities
To balance statewide target, rates have been spread uniformly by 0.016
Full Credibility is Assigned for Territories with 1084 claims
*All RG Indicated Relativities are developed in Exhibit GC-3, Sheets 37-48

Notes:
Rate Changes Have Been Capped at -3 and 3
Claims have been capped at 50000
The GEICO Base Rate Has Been Adjusted by a Factor of 1.000
Terr Relativities = Indicated Relativities Credibility Weighted With Current Relativities
To balance statewide target, rates have been spread uniformly by 0.016
Full Credibility is Assigned for Territories with 1084 claims
*All RG Indicated Relativities are developed in Exhibit GC-3, Sheets 37-48

Notes:
Rate Changes Have Been Capped at -3 and 3
Claims have been capped at 50000
The GEICO Base Rate Has Been Adjusted by a Factor of 1.000
Terr Relativities = Indicated Relativities Credibility Weighted With Current Relativities
To balance statewide target, rates have been spread uniformly by 0.004
Full Credibility is Assigned for Territories with 3000 claims
*All RG Indicated Relativities are developed in Exhibit GC-3, Sheets 37-48

GEICO Casualty Company
New Product
Risk Group C

Development of Rate Level Changes by Territory
Private Passenger Automobile - Total Limits

Pennsylvania

Uninsured Motorists

Notes:
Rate Changes Have Been Capped at 1 and 7
Claims have been capped at 50000
The GEICO Base Rate Has Been Adjusted by a Factor of 1.000
Terr Relativities = Indicated Relativities Credibility Weighted With Current Relativities
To balance statewide target, rates have been spread uniformly by 0.019
Full Credibility is Assigned for Territories with 3000 claims
*All RG Indicated Relativities are developed in Exhibit GC-3, Sheets 37-48

Notes:
Rate Changes Have Been Capped at 13 and 19
Claims have been capped at 50000
The GEICO Base Rate Has Been Adjusted by a Factor of 1.000
Terr Relativities = Indicated Relativities Credibility Weighted With Current Relativities
To balance statewide target, rates have been spread uniformly by 0.009
Full Credibility is Assigned for Territories with 3000 claims
*All RG Indicated Relativities are developed in Exhibit GC-3, Sheets 37-48

Notes:
Rate Changes Have Been Capped at 2 and 8
Claims have been capped at 50000
The GEICO Base Rate Has Been Adjusted by a Factor of 1.000
Terr Relativities = Indicated Relativities Credibility Weighted With Current Relativities
To balance statewide target, rates have been spread uniformly by 0.004
Full Credibility is Assigned for Territories with 3000 claims
*All RG Indicated Relativities are developed in Exhibit GC-3, Sheets 37-48

Notes:
Rate Changes Have Been Capped at 7 and 13
Claims have been capped at 50000
The GEICO Base Rate Has Been Adjusted by a Factor of 1.000
Terr Relativities = Indicated Relativities Credibility Weighted With Current Relativities
To balance statewide target, rates have been spread uniformly by 0.015
Full Credibility is Assigned for Territories with 1084 claims
*All RG Indicated Relativities are developed in Exhibit GC-3, Sheets 37-48

Notes:
Rate Changes Have Been Capped at 0 and 6
Claims have been capped at 50000
The GEICO Base Rate Has Been Adjusted by a Factor of 1.000
Terr Relativities = Indicated Relativities Credibility Weighted With Current Relativities
To balance statewide target, rates have been spread uniformly by 0.018
Full Credibility is Assigned for Territories with 1084 claims
*All RG Indicated Relativities are developed in Exhibit GC-3, Sheets 37-48

GEICO Casualty Company
New Product
Risk Group D

Development of Rate Level Changes by Territory
Private Passenger Automobile - Total Limits

Notes:
Rate Changes Have Been Capped at -3 and 3
Claims have been capped at 50000
The GEICO Base Rate Has Been Adjusted by a Factor of 1.000
Terr Relativities = Indicated Relativities Credibility Weighted With Current Relativities
To balance statewide target, rates have been spread uniformly by 0.003
Full Credibility is Assigned for Territories with 3000 claims
*All RG Indicated Relativities are developed in Exhibit GC-3, Sheets 37-48

Notes:
Rate Changes Have Been Capped at 0 and 6
Claims have been capped at 50000
The GEICO Base Rate Has Been Adjusted by a Factor of 1.000
Terr Relativities = Indicated Relativities Credibility Weighted With Current Relativities
To balance statewide target, rates have been spread uniformly by 0.018
Full Credibility is Assigned for Territories with 3000 claims
*All RG Indicated Relativities are developed in Exhibit GC-3, Sheets 37-48

Notes:
Rate Changes Have Been Capped at -3 and 3
Claims have been capped at 50000
The GEICO Base Rate Has Been Adjusted by a Factor of 1.000
Terr Relativities = Indicated Relativities Credibility Weighted With Current Relativities
To balance statewide target, rates have been spread uniformly by 0.008
Full Credibility is Assigned for Territories with 3000 claims
*All RG Indicated Relativities are developed in Exhibit GC-3, Sheets 37-48

Automobile Casualty Manual – Rate/Rule Revision
File No.:**2015-271**

Dear Commissioner Miller:

For your review and approval, the above referenced companies herewith submit revisions to our Automobile Casualty Manuals currently on file with your department.

Specifically, rates are revised with the below effect:

	GE/GG	GI	GC old	GC REVO
Bodily Injury	1.5	-	-	3.6
Property Damage	9.5	8.5	8.5	10.3
FPB	8.5	-5.0	-5.0	12.5
EMB	8.5	-5.0	-5.0	12.5
Uninsured Motorists	-	-	-	1.3
UIM	10.0	9.5	9.5	15.3
Collision	-	-6.0	-6.0	2.6
Comprehensive	2.0	-	-	3.5
Emergency Road Service	12.5	-	-	10.0
Rental Reimbursement	10.5	-	-	14.9
TOTAL	**4.0**	**0.0**	**0.0**	**5.6**

Justification for the changes referenced above is set forth in the attached filing memorandum, exhibits and appendices.

Revised manual pages are enclosed for your convenience.

Once you have had an opportunity to review the enclosed, please forward your approval allowing us to implement these changes for all new business policies effective on and after September 03, 2015 and for all renewal policies effective on and after October 19, 2015.

Sincerely,

John Taylor
Senior Counsel
