2017 Rates Table Template v6.0

All fields with an asterisk (*) are required. To validate press Validate button or Ctrl + Shift + I. To finalize, press Finalize button or Ctrl + Shift + F.

If you are a community rating state, select Family Option under Age and fill in all columns.

If you are not community rating state, select 0-20 under Age and provide an Individual Rate for every age band.

If Tobacco is Tobacco User/Non-Tobacco User, you must give a rate for Tobacco Use and Non-Tobacco Use.

To add a new sheet, press the Add Sheet button, or Ctrl + Shift + H. All plans must have the same dates on a sheet.

HIOS Issuer ID*	55957
Federal TIN*	23-2905083
Rate Effective Date*	1/1/2017
Rate Expiration Date*	3/31/2017

Plan ID*	Rating Area ID*	Tobacco*	Age*	Individual Rate*
Required: Enter the 14-character Plan ID	Required: Select the Rating Area ID	Require: Select if Tobacco use of subscriber is used to determine if a person is eligible for a rate from a plan	Required: Select the age of a subscriber eligible for the rate	Required: Enter the rate of an Individual Non-Tobacco or No Preference enrollee on a plan

2017 Rates Table Template v6.0	*All fields with an asterisk (*) are required. To validate press Validate button or Ctrl + Shift + I. To finalize, press Finalize button or Ctrl + Shift + F.*			
	If you are a community rating state, select Family Option under Age and fill in all columns.			
	If you are not community rating state, select 0-20 under Age and provide an Individual Rate for every age band.			
	If Tobacco is Tobacco User/Non-Tobacco User, you must give a rate for Tobacco Use and Non-Tobacco Use.			
	To add a new sheet, press the Add Sheet button, or Ctrl + Shift + H. All plans must have the same dates on a sheet.			
HIOS Issuer ID*	55957			
Federal TIN*	23-2905083			
Rate Effective Date*	7/1/2017			
Rate Expiration Date*	9/30/2017			

Plan ID* Required: Enter the 14-character Plan ID	**Rating Area ID*** Required: Select the Rating Area ID	**Tobacco*** Require: Select if Tobacco use of subscriber is used to determine if a person is eligible for a rate from a plan	**Age*** Required: Select the age of a subscriber eligible for the rate	**Individual Rate*** Required: Enter the rate of an Individual Non-Tobacco or No Preference enrollee on a plan

Unified Rate Review v3.3

Company Legal Name: **First Priority Life Insurance Co** State: **PA**
HIOS Issuer ID: **55957** Market: **Small Group**
Effective Date of Rate Change(s): **1/1/2017**

Market Level Calculations (Same for all Plans)

Section I: Experience period data

Experience Period: 1/1/2015 to 12/31/2015

	Experience Period Aggregate Amount	PMPM	% of Prem
Premiums (net of MLR Rebate) in Experience Period:	$188,549,084	$405.31	100.00%
Incurred Claims in Experience Period	$163,753,832	352.01	86.85%
Allowed Claims:	$190,800,682	410.15	101.19%
Index Rate of Experience Period		$410.00	
Experience Period Member Months	465,201		

Section II: Allowed Claims, PMPM basis

Projection Period: 1/1/2017 to 12/31/2017 Mid-point to Mid-point, Experience to Projection: 24 months

	Experience Period on Actual Experience Allowed				Adj't. from Experience to Projection Period		Annualized Trend Factors		Projections, before credibility Adjustment			Credibility Manual		
Benefit Category	**Utilization Description**	**Utilization per 1,000**	**Average Cost/Service**	**PMPM**	**Pop'l risk Morbidity**	**Other**	**Cost**	**Util**	**Utilization per 1,000**	**Average Cost/Service**	**PMPM**	**Utilization per 1,000**	**Average Cost/Service**	**PMPM**
Inpatient Hospital	Admits	63.88	$14,208.49	$75.64	1.169	0.929	1.070	1.021	77.85	$15,112.32	$98.04	0.00	$0.00	$0.00

Pennsylvania Actuarial Memorandum

First Priority Life Insurance Company

Small Group – ACA Compliant

Effective 1/1/2017

REDACTED

1. Basic Information and Data

A. Company Information

As shown on the Cover letter, below is the company information.

- Company Name: First Priority Life Insurance Company (NAIC 60147)
- Market: Small Group
- On and Off Exchange
- Effective: January 1, 2017
- Average Rate Change Requested: 3.5%
- Range of Rate Change Requested: -13.9% to 9.5%.
- Products: PPO
- Rating Areas: 3
- Metal Levels and Catastrophic Plans: Platinum, Gold, Silver, Bronze
- Current Number of Covered Lives: 4,448
- Current Number of Policyholders: 2,837
- Number of plans offered in 2017: 39
- Contract Form #s:

Small Group Product	**Form #**
Lehigh Valley Flex Blue QHDPPO off exchange	FP-1-SG-LVFB-EHB-QHDPPO-1/1/17
Lehigh Valley Flex Blue PPO off exchange	FP-1-SG-LVFB-EHB-PPO-1/1/17
BlueCare PPO off exchange	FP-1-SG-EHB-PPO-1/1/17
BlueCare PPO SHOP	FP-1-X-SG-PPO-1/1/17
BlueCare Custom PPO off exchange	FP-1-SG-EHB-CustomPPO-1/1/17
BlueCare Custom PPO SHOP	FP-1-X-SG-CustomPPO-1/1/17
BlueCare QHDPPO off exchange	FP-1-SG-EHB-QHDHP-1/1/17
AffordaBlue off exchange	FP-1-SG-EHB-AffordaBlue-1/1/17
AffordaBlue SHOP	FP-1-SG-X-AffordaBlue-1/1/17

- SERFF ID #: HGHM-130536975
- SERFF Binder #: HGHM-PA17-125061839
- HIOS ID #: 55957
- HIOS Submission Tracking #: 55957-687033686918477945
- Inclusion of premium rates in this filing for a given offering should not be construed to mean that the offering will ultimately be made available for sale in the market. Final offering decisions will be made consistent with and within the timelines set forth in CMS rules and/or ACA regulations.

B. Rate History and Proposed Variations in Rate Changes

- 2014 – SERFF ID# BCNP-129018157 & BCNP-129063510
  - In 2014, there were no prior rates from which to calculate a rate change.
- 2015 – SERFF ID # BCNP-129633483
  - The quarterly index applied to the 2015 rates was 1.8% which was slightly lower than the 2014 quarterly index of 2.1%.
  - The 1Q2015 rate increase was 0.1%.
- 2016 – SERFF ID # BCNP-130071709
  - The average rate increase was 9.5%, with the same quarterly index applied as in 2015.

C. Average Rate Change

- The SERFF Rate Review Detail Screen presents the "percent rate change requested" as 3.5%, which is consistent with the increase calculated in Table 10, cell AC15.
- FPLIC is calculating the average increase as 1.6% consistent with the URRT.
  - The increase calculated in Table 11 is, in part, a function of the quarterly distribution used to calculate each of the 2016 average monthly premium and the 2017 monthly premium.
  - In 2017, a lower percentage of projected enrollment is concentrated in the first quarter than was used in the 2016 filing. Therefore, the increase calculated on this worksheet is higher than the increase input in the SERFF Rate Review Detail Screen.
  - In addition, the increase calculated in Table 10 is based on enrollment by product as of February 2016, whereas the increase calculated by FPLIC is based on the projected enrollment consistent with that provided in the URRT.
  - There is also a difference due to rounding between the Age 21 rate calculated in Table 11 and the Age 21 rate filed by FPLIC.
  - There is also a difference between the increase calculated in Table 11 and Table 10. The Table 11 increase is calculated as 5.2% whereas the Table 10 increase is calculated as 5.7%.
    - The Table 10 increase is based on the average 2017 rate divided by the average 2016 rate.
    - The Table 11 increase is based on the weighted average of increases by plan.

- Below is a breakout of the difference between the increase calculated by the PID Actuarial Memorandum exhibits compared to the increase calculated by FPLIC:

Increase – PID Exhibits - Table 11	**3.0%**
Impact of enrollment Distribution mix	-0.1%
Increase - Using Table 11 Rates with Projected 2017 enrollment	**2.9%**
Impact of 2016 vs. 2017 quarterly distribution	-0.8%
Required Increase - using projected enrollment by product and quarter	**2.1%**
Difference between calculated Table 11 2017 Age 21 rate and FPLIC filed Age 21 rate (due to rounding)	-0.1%
FPLIC Calculated Required Increase	**2.0%**

D. Membership Count

- Please see Table 1 for the age breakdown and the total number of members for the periods shown.

E. Benefit Changes

- Many plans required benefit changes because of the new Actuarial Value (AV) calculator released for 2017 effective dates. The plan changes were mostly required so that plans remained within the defined metal level AV requirements.
- In addition, certain benefit changes were made to align the benefits with Highmark's standards, including removing any deductibles from drug benefits, except under the QHD plans. The specialty drug benefit is also changing from copay to 20%/30% member coinsurance up to $350/$500
- The following were changes to the Essential Health Benefits due to the 2017 Benchmark Plan:
    - Hospice Benefit – addition of respite care for 7 days per six months.
    - Coverage for Artificial Insemination, including specific related medical conditions
    - Coverage for Dental Accident
    - Added visits for Habilitative Therapy services.
- The screenshots from the AV calculator, showing the plan benefits and the resulting actuarial value have been submitted as separate attachments in SERFF. This exhibit is consistent with Table 2.3 in the Part III Actuarial Memorandum.

F. Experience Period Claims and Premium

- Please see Table 2 for the experience period data for the most recent calendar year. The experience period paid claims data represents the 2015 calendar year results for all non-grandfathered policies (including transitional policies) in the single risk pool, with runout through February 2016. This data is consistent with the data reported in Section I of Worksheet 1 of the URRT.
- The components of this exhibit are:
  - The Earned Premium represents actual revenues earned in the experience period. The Earned Premiums in Table 2 have not been adjusted for anticipated risk adjustment transfer payments.
  - The Allowed Claims represent our best estimate of the total claims prior to member cost sharing incurred during the experience period. The allowed claims include:
    - Two months of runout from the end of the experience period.
    - Claims processed outside the Company's claims system
    - Our best estimate of incurred but not paid as of the end of the runout period.
    - Note that the Incurred Claims and Allowed Claims presented in the URRT are net of the Prescription Drug Rebates, while Table 2 has the Prescription Drug Rebates separately identified.
  - There were non-EHB benefits and costs for emergency care outside the United States.
  - There are no capitated claim services in the experience period.
  - Prescription drug rebates are used to reduce the level of Incurred Claims in the experience period.
  - The Estimated Risk Adjustment represents our best estimate of the year end risk adjustment transfer payment that FPLIC will incur based on the results in the experience period.
  - The Small Group Market is ineligible for reinsurance recoveries

G. Credibility of Data

- The experience period data for this Company is large enough to be fully credible. The results are based 100% on the experience period data.

H. Trend Identification

- The development of the premium rates reflects and annual trend rate of 8.9% developed by FPLIC. The information below reflects FPLIC's expectations regarding increases in in-network contractual reimbursement as well as utilization. The annual trend estimates include in-area hospital, out-of-area hospital, doctor, and prescription drug utilization and cost.
- The analysis was based on utilization and unit costs for FPLIC PPO and CustomPPO small group markets. Given relatively minor changes in age/gender and that benefit mix changes were incorporated elsewhere, these were not incorporated in the trend.
- Given that we're seeing medical trends rise in our PPO and CustomPPO business through the end of 2015 (8.6% as of the end of 2015 paid through March 2016), we expect trend levels to remain at that level on average through 2016 and 2017. This is driven in large part due to overall increasing hospital costs as well as significant increases in out of area hospital costs.
- The table below summarizes the projected 2014 to 2017 annual utilization, unit cost and claim cost trends:

FIRST PRIORITY LIFE INSURANCE COMPANY Trend Projection			
Service Type	**Cost**	**Utilization**	**Total**
Hospital In Area	6.5%	2.0%	8.7%
Hospital Out of Area	8.0%	2.2%	10.4%
Total Hospital	**7.0%**	**2.1%**	**9.2%**
Doctor	5.6%	1.5%	7.2%
Total Medical	**6.6%**	**1.9%**	**8.6%**
Rx	**7.8%**	**2.0%**	**10.0%**
Overall Trend			**8.9%**

I. Historical Experience

- Table 4 presents the most recent 36 months of Company data with runout through February 2016.
    - Note that Table 4 consists of experience for the SG ACA products.
    - Table 4b consists of experience for the SG ACA products plus the transitional products combined. This data was used for trend development.
- The IBNR reserve was estimated using the standard lag development method. We calculated completion factors separately for the medical and prescription drug claims.
    - For the small group ACA compliant claims, completion factors are calculated using only the small group ACA compliant pool.
    - For the small group transitional non-ACA compliant plans, the completion factors are based on all plans except for the SG ACA and

Individual ACA compliant plans, including large group, small group and individual products.
    - For the more recent months, we used a combination of historical trends, seasonality patterns, and actuarial judgment to develop pure premiums.
- For each product, the completion factors for the medical and prescription drug claims for all FPLIC products were the starting point. We then applied these completion factors to the small group paid and incurred claims, separately. We reviewed the incurred claims for the most recent months for reasonableness and adjusted them. FPLIC does not adjudicate claims by product, so we would expect the completion factors for all the medical claims to be similar. Paid and allowed claims were completed using the same methodology.

2. Rate Development and Change

A. Development of Projected Index Rate, Market-Adjusted Index Rate, & Total Allowed Claims

- The development of the Projected Index Rate, Projected Market-Adjusted Index Rate, and Projected Total Allowed Claims, shown in Table 5, closely follows that utilized in the development presented in Worksheet 1 of the URRT, a discussion of which can be found in the Part III Actuarial Memorandum submitted in the Rate Filing Justification. Some of the items separately identified in Table 5 include:
    - The Change in Demographics adjustment reflects the change in age and geography factors we expect from the experience period to the projection period.
    - The Change in Network Adjustment reflects the change in the allowed claims we anticipate due to network contracting changes between the experience period and the projection period.
    - The Change in Benefits adjustment reflects the change in the EHB benefits we anticipate between the experience period and the projection period.
    - The Change in Other adjustment reflects the change in the utilization of services due to benefit elections we anticipate between the experience period and the projection period.
- Note that the URRT develops the Index Rate and the Plan Adjusted Index Rate using the projected distribution of members by plan, whereas Table 5 uses a recent distribution of members by plan. Any comparison between the URRT values and the Table 5 values will show variances to the extent that there are variances in the assumed underlying membership distributions.
- For this Small Group Market filing, Table 5A has been completed, showing the number of member months renewing by quarter, and the quarterly Single Risk Pool Projected Allowed Claims.

B. Retention Items

- Table 6 has been completed with the requested retention elements for the proposed rates for the rating period. The amounts are presented separately. Administrative costs reflect internal costs that FPLIC is projected to incur in the projected experience period, and are developed from standard expense allocation methods. Agent/broker fees and commission reflect our anticipated costs for these items in the experience period.
- Note the following regarding plan level retention items
    - These revised rates reflect a 0% risk/contribution to surplus margin for all products and plans.
    - The Health Insurer Provider Fee is being applied quarterly, at a prorated level appropriate for the level of premium in 2018. Although this fee will not be collected in 2017, the fee will be collected in 2018. As such, for any groups with renewal dates other than January 1, 2017, the group's renewal period will extend into 2018, where the premiums will need to include a charge for this fee. For the 2017 rate development, the quarterly rates have been adjusted so that the appropriate pro rata portion of this fee is collected based on the group's renewal quarter as follows:

Renewal Quarter	Health Insurance Provider Fee
1Q	0.0%
2Q	0.5%
3Q	1.0%
4Q	1.5%

    - The administrative expenses as a percent of premium do not vary by plan.
    - 2.0% premium tax is included
    - The $0.19 PMPM PCORI fee was factored into the taxes/fees percent of premium.

C. Normalized Market-Adjusted Projected Allowed Total Claims

- The normalization factors presented in Table 7 are each determined from the underlying membership demographics expected in the projected rating period. The 2016 values are pulled from the prior year's filing, while the 2017 values represent our projection for 2017 assumed in the 2017 rate development.

D. Components of Rate Change

- Table 8 presents the components of change in the proposed 2017 Calibrated Plan Adjusted Index Rate (PMPM). The 2016 base period allowed claims as developed from the 2016 rate filing. Row H of Table 8 may differ from Row A due to the detailed breakdown of all the components of the increases in rows B through G not calculating exactly to the change in the calibrated plan adjusted index rate in Row A.
- Table 9 presents the data elements supporting the calculations in Table 8. Note the following differences between the Table 9 values presented for 2016 and the values from the 2016 URRT:
  - The Risk Adjustment shown in Table 9 is the average risk adjustment charge for the projected experience year. In the URRT, the Projected Risk Adjustments represent the risk transfer adjustment for January 1 effective dates only.
  - Taxes and Fees shown in Table 9 differ from the Taxes and Fees from the URRT as the Table 9 separates out the Exchange User Fee into a separate line item. In the URRT the Exchange User Fee is included in the Taxes and Fees line item.

3. Plan Rate Development

- Table 10 showing the plan rate development has been completed following the instructions in the Health Insurance Rate Filing Guidance. This table shows the plans that the company intends to offer in 2017, as well as plans recently discontinued from the 2016 portfolio for 2017 and plans from the 2015 portfolio as members are still enrolled in 2015 plans as of February 1, 2016. Small groups in these 2015 plans have not renewed yet in 2016 and were included to complete the company's enrollment in ACA plans as of February 1, 2016. The calibrated plan adjusted index rates for 2017 and 2016, and all supporting factors, are calculated according to the instructions.
- The rate change percentages calculated in Table 10 column AC by plan design will slightly differ between URRT worksheet 2 row 27 since the PID spreadsheet maintains the 2016 quarterly distribution of enrollment as filed last year while the URRT values utilizes a consistent enrollment distribution by quarter for both years based on this year's distribution. Please refer to Section 1.C for a more detailed discussion.
- Note that the HHS Actuarial Value Calculator was able to accommodate all of the Company's benefit designs and so no adjustments were needed from the values produced by the calculator.

4. Plan Premium Development for 21-Year Old Non-Tobacco User

- Table 11 presents the Company's 21-year-old non-tobacco premium in the Market, premium weighted for quarterly trend and the prorated quarterly insurer fee. As mentioned in Section 1.c above, the change in the 21-year-old non-tobacco premium PMPM calculated in this table is 3.0%. Please refer to Section 1.C discussing this increase percentage.

5. Plan Factors

A. Age and Tobacco Factors

- Please see Table 12 for FPLIC's age and tobacco factors

B. Geographic Factors

- Please see Table 13 for FPLIC's geographic factors. The Company's factors for the rating period are unchanged from the currently approved factors.

C. Network Factors

- Please see table 14 for FPLIC's network rating factors. These factors are unchanged from the currently approved factors. A factor for the new Lehigh Valley plans has been added.

D. Service Area Composition

- FPLIC follows the Rating Area designations created by the State. All counties within a Rating Area are serviced by the Company, according to the Rating Areas specified in Table 14.

E. Composite Rating

- The Company is currently not planning to use CMS's composite rating method for any of its off-SHOP plans offered during the rating period; however, the Company is interested in the state adopting a methodology for the PA Marketplace that is more consumer friendly than the CMS method by utilizing composite rating tiers similar to transitional small group policies currently in the market (i.e. rates by contract types of Individual, Parent/Child(ren), Two Person (Adults), and Family).

6. Actuarial Certifications

I, [redacted], am a member of the American Academy of Actuaries and meet its qualification standards for actuaries issuing statements of actuarial opinions in the United States. This filing is prepared on behalf of First Priority Life Insurance Company (FPLIC) to accompany its rate filing (for calendar year 2017) for the small group combined Market on and off the Pennsylvania Exchange.

As originally filed, the rates were not excessive, inadequate, or unfairly discriminatory, and were reasonable in relationship to the benefits provided. The Pennsylvania Insurance Department has required FPLIC to re-submit lower rates.

I hereby certify that the projected index rate is, to the best of my knowledge and understanding:

- In compliance with all applicable State and Federal Statutes and Regulations (45 CFR 156.80(d)(1)),
- Developed in compliance with the applicable Actuarial Standards of Practice
- Reasonable in relation to the benefits provided and the population anticipated to be covered
- Neither excessive nor deficient.

I certify that the index rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2) were used to generate plan level rates. The allowable modifiers used to generate plan-level rates were:

- The actuarial value and cost-sharing design of the plan.
- The plan's provider network, delivery system characteristics, and utilization management practices.
- The benefits provided under the plan that are in addition to the essential health benefits. These estimated benefits were pooled with similar benefits within the single risk pool and the claims experience from those benefits was utilized to determine rate variations.
- Administrative costs, excluding Exchange user fees.

I certify that all factors, benefit and other changes from the prior approved filing have been disclosed in the 2017 PA Actuarial Memorandum Rate Exhibits.

I certify that the percent of total premium that represents essential health benefits included in Worksheet 2, Sections III and IV were calculated in accordance with actuarial standards of practice.

I certify that the benefits included in FPLIC's plans are substantially equivalent to the Essential Health Benefits (EHBs) in the State of Pennsylvania's benchmark plans. I certify that any benefit substitutions are:

- Actuarially equivalent to the benefits being replaced,
- Are made within only the same essential health benefit category,
- Are based on a standardized plan population,

- Are determined regardless of cost-sharing,
- Are not prescription drug benefits, and
- Are based on an analysis performed in accordance with generally accepted actuarial principles and methodologies.

I certify that new plans are not considered modifications of existing plans (per the uniform modification standards in 45 CFR 147.106).

I certify that the AV Metal Values included in Worksheet 2 of the Part I Unified Rate Review Template were based entirely on the Federal AV Calculator.

I certify that the geographic rating factors reflect only differences in the costs of delivery (which can include unit cost and provider practice pattern differences) and do not include differences for population morbidity by geographic area.

The Part I Unified Rate Review Template does not demonstrate the process used by Highmark to develop the rates. Rather, it represents information required by Federal regulation to be provided in support of the review of rate increases, for certification of qualified health plans for federally facilitated exchanges and for certification that the index rate is developed in accordance with Federal regulation and used consistently and only adjusted by the allowable modifiers.

I certify that the information presented in the PA Actuarial Memorandum and PA Actuarial Memorandum Rate Exhibits is consistent with the information presented in the 2017 Rate Filing Justification.

Date: 8/12/2016
