Filing Description:
RE:Genworth Life Insurance Company (GLIC)
Company NAIC No: 70025
Policy Forms: 7042 et al, 7044 et al, 7042 Rev et al, 7044 Rev et al

The referenced filing is a Long Term Care (LTC) rate schedule change request submitted for your review.

These existing policy forms provide benefits for institutional confinement and home care. These forms, also referred to as Choice 2 and 2.1, were issued in Pennsylvania between November 2004 and December 2013. These forms are no longer being marketed in any state.

On March 7, 2014, Pennsylvania approved a 12.8% premium rate increase on the above-referenced policy forms (filing no. GEFA-129136840).

In this filing, GLIC requests an additional premium rate increase of 48.1% in accordance with the requirements of Section 20 of the Long Term Care Insurance Model Regulation. In determining the need for a premium rate increase, GLIC considered the following.

a)Without this requested rate increase, additional future earned premiums driven by lower than originally expected Active Lives terminations are inadequate to offset additional future incurred claims that are also a function of lower than expected Active Lives terminations.
b)Both claim continuance and claim utilization have been and are projected to be higher than expected.
c)The Moderately Adverse Experience (MAE) included in the prior filing has been exceeded.
d)Delays in filing or approving warranted premium rate increases will require higher percentage increases to fewer policyholders in the future in order to obtain the same Lifetime Loss Ratio.
While we strongly encourage policyholders to maintain coverage, we believe it is important to provide a comprehensive set of options.

GLIC will offer insureds affected by the premium increase several options to change their benefits in order to maintain a premium rate level reasonably similar to what they were paying prior to the rate increase. The benefit and rate combinations are consistent with the rate tables approved by the Department.

Additionally, GLIC will make an optional limited benefit available to those policyholders who wish to elect a limited paid-up Long Term Care insurance benefit. This option provides a paid-up policy with benefits equal to the total of premium paid, less any claims paid.

Pennsylvania Department of Insurance

RE: Genworth Life Insurance Company (GLIC)
Company NAIC No: 70025
SERFF Tracking No: GEFA-130531643
Policy Forms: 7042 et al, 7044 et al, 7042 Rev et al, 7044 Rev et al

The referenced filing is a Long Term Care (LTC) rate schedule change request submitted for your review.

These existing policy forms provide benefits for institutional confinement and home care. These forms, also referred to as Choice 2 and 2.1, were issued in Pennsylvania between November 2004 and December 2013. These forms are no longer being marketed in any state.

On March 7, 2014, Pennsylvania approved a 12.8% premium rate increase on the above-referenced policy forms (filing no. GEFA-129136840).

In this filing, GLIC requests an additional premium rate increase of 48.1% in accordance with the requirements of Section 20 of the Long Term Care Insurance Model Regulation. In determining the need for a premium rate increase, GLIC considered the following.

a) Without this requested rate increase, additional future earned premiums driven by lower than originally expected Active Lives terminations are inadequate to offset additional future incurred claims that are also a function of lower than expected Active Lives terminations.
b) Both claim continuance and claim utilization have been and are projected to be higher than expected.
c) The Moderately Adverse Experience (MAE) included in the prior filing has been exceeded.
d) Delays in filing or approving warranted premium rate increases will require higher percentage increases to fewer policyholders in the future in order to obtain the same Lifetime Loss Ratio.

While we strongly encourage policyholders to maintain coverage, we believe it is important to provide a comprehensive set of options.

GLIC will offer insureds affected by the premium increase several options to change their benefits in order to maintain a premium rate level reasonably similar to what they were paying prior to the rate increase. The benefit and rate combinations are consistent with the rate tables approved by the Department.

Additionally, GLIC will make an optional limited benefit available to those policyholders who wish to elect a limited paid-up Long Term Care insurance benefit. This option provides a paid-up policy with benefits equal to the total of premium paid, less any claims paid.

The following electronic items are included in this submission:

- This Cover Letter;
- Confidential Actuarial Memorandum;
- Public Actuarial Memorandum;
- Status of Filings Exhibit; and
- Current and Proposed Rate Schedules.

In the submitted actuarial memorandum, you will find a detailed rate increase justification, and additional state specific information such as the average policyholder issue age and attained age.

Any applicable fees will be submitted as an EFT payment via SERFF.

The contact person for this filing is:

Actuarial Memorandum
April 2016

Policy Forms 7042 et al, 7044 et al, 7042 Rev et al, 7044 Rev et al

These forms were issued in Pennsylvania between November 2004 and December 2013 and are no longer being marketed in any state. Forms 7042 and 7044 are also referred to by Genworth Life Insurance Company ("GLIC") as "Choice 2"; forms 7042 Rev and 7044 Rev are also referred to by GLIC as "Choice 2.1". The Choice 2.1 policy forms adjusted the Choice 2 forms to make benefits and features as consistent as possible across all states and to update new business rates. Forms 7042 and 7042 Rev were marketed by the name "Classic Select" and the 7044 and 7044 Rev forms were marketed under the name "Privileged Choice". Privileged Choice policies have many features built into the base policy that were only available as riders for Classic Select policies.

For all the policies issued in Pennsylvania to which the current rate increase filing applies, the following table shows the exposed lives by policies issued and exposed lives by policies in-force, by policy form number as of December 31, 2014.

As of 12/31/2014	7042	7044	7042 Rev	7044 Rev	Total
Policy Lives Inforce	2,510	9,104	1,302	4,187	17,103
Policy Lives Issued	2,971	10,400	1,402	4,410	19,183

1. Purpose of Filing and Justification of Requested Premium Rate Increase

On March 7, 2014, Pennsylvania approved a 12.8% premium rate increase on the above-referenced policy forms (filing no. GEFA-129136840). That filing was limited by the new business rate comparison requirement of Section 20 of the Long Term Care Insurance Model Regulation (hereinafter referred to as the Rate Stability regulation) and was based on GLIC's best estimate actuarial assumptions at the time. Without the new business rate comparison limitation, GLIC would have pursued the maximum allowable rate increase under the 58%/85% test of the Rate Stability regulation of 30.4%.

In this filing, GLIC requests a premium rate increase of 48.1% on the above-mentioned policy forms. We demonstrate below that this revised requested premium rate increase satisfies both the Long Term Care regulatory requirements of Pennsylvania and the Rate Stability regulation. This new filing is based on emerging experience and updated assumptions, which were revised following a comprehensive Long Term Care assumption reviews in 2014 and 2015.

This actuarial memorandum may not be suitable for other purposes.

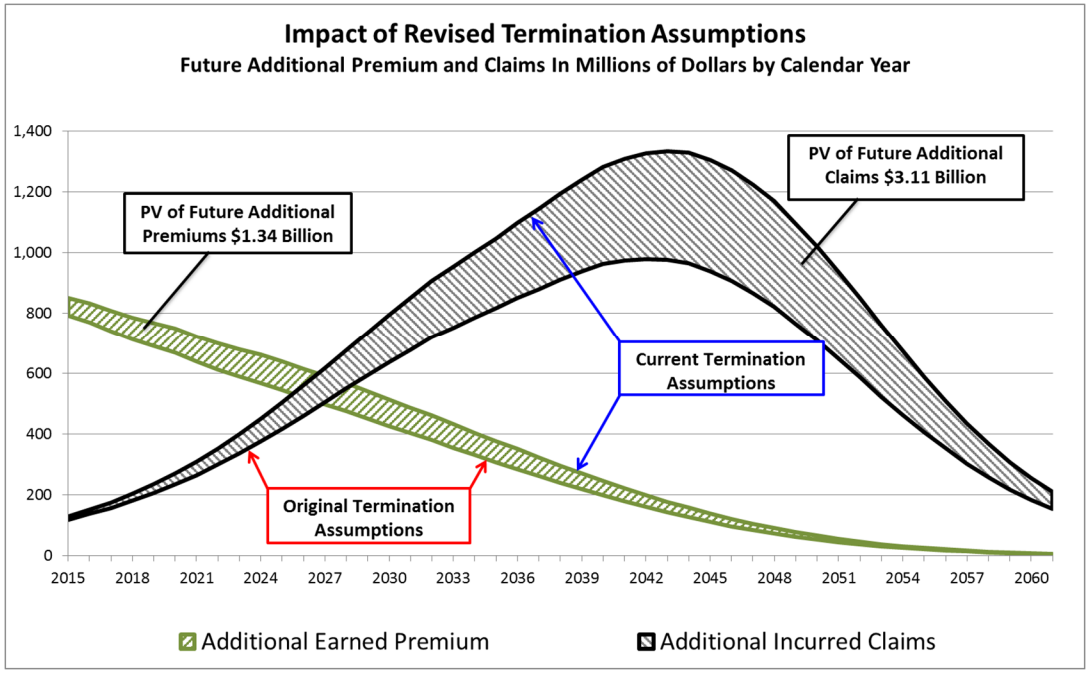
In determining the need for a premium rate increase, GLIC considered the following.

a) Without this requested rate increase, additional future earned premiums driven by lower than originally expected Active Lives terminations are inadequate to offset additional future incurred claims that are also a function of lower than expected Active Lives terminations.
b) Both claim continuance and claim utilization have been and are projected to be higher than expected.
c) The Moderately Adverse Experience ("MAE") included in the prior filing has been exceeded.
d) Delays in filing or approving warranted premium rate increases will require higher percentage increases to fewer policyholders in the future in order to obtain the same Lifetime Loss Ratio.

This filing has been informed by Genworth's actual nationwide experience on older blocks of business. Our objective is to avoid the consequences of reacting too slowly to emerging trends. Rate changes made today to this relatively young block are intended to avoid more severe rate changes in the future.

a) Without this requested rate increase, additional future earned premiums driven by lower than originally expected Active Lives terminations are inadequate to offset additional future incurred claims that are also a function of lower than expected Active Lives terminations.

With fewer Active Lives terminations, more policyholders persist into the tail where claims incidence is expected to be significantly higher. The graph below isolates the impact of revised termination assumptions on future Earned Premium and future Incurred Claims. While GLIC will earn additional premium as a result of lower than expected termination experience, this additional premium will be inadequate to offset the additional claims expected to be incurred.



Present Values in Billions of Dollars			
Future as of 2014 Year-End	**Original Termination Assumptions**	**Updated Termination Assumptions**	**Difference**
Future Earned Premium	9.09	10.43	1.34
Future Incurred Claims	10.72	13.84	3.11

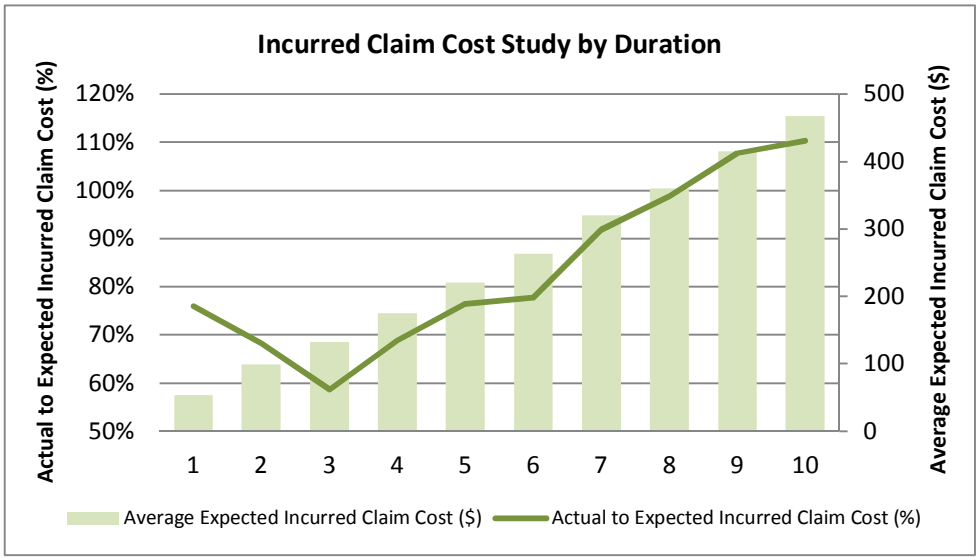
b) Both claim continuance and claim utilization have been and are projected to be higher than expected.

Choice 2 and 2.1 morbidity trends are troubling. Not only are more policyholders persisting to longer policy durations, but actual claims are trending higher than originally expected. In updating assumptions during 2014 and 2015, GLIC considered both Choice 2 and 2.1 claim trends as well as more credible claims experience data from older blocks of business with policyholders at more advanced ages and with longer duration claims. Based on this analysis, future claim severity assumptions increased during 2014.

Updated claim severity assumptions led to the significant strengthening GLIC made to its long-term claims reserves in the third quarter of 2014. As a result of the updated assumptions, claimants are expected to stay on claim longer and use more of their available benefits than had been previously assumed.

The chart below shows that while early duration actual claims are lower than expected, later duration claims (where expected claim costs per life exposed are much higher) are projected to be higher than expected.

We have reacted to emerging trends and applied learnings from our older blocks of business to adjust claims assumptions to project future claims in this rate filing and in testing the adequacy of our assets. These adjustments have led to significant increases in our Disabled Life reserves and to this rate increase request.



c) **The Moderately Adverse Experience (MAE) included in the prior rate increase filing has been exceeded.**

The chart below outlines how the Lifetime Loss Ratio has evolved, the need for a rate increase, and the impact of the requested rate increase:

Description	Loss Ratio	Experience Data	Assumptions	MAE	Conclusion
Prior Lifetime Loss Ratio with MAE and requested (12.8%) rate increase	67.4%	2012	Consistent with 2013 Asset Adequacy Testing*	Addition to claims that increases Lifetime Loss Ratio by 10%	Original Loss Ratio (64.3%) has been exceeded
Updated Lifetime Loss Ratio without MAE or requested rate increase	69.7%	2014	Consistent with 2015 Asset Adequacy Testing*	None	Prior MAE has been exceeded
Updated Lifetime Loss Ratio with MAE, without requested rate increase**	76.7%	2014	Consistent with 2015 Asset Adequacy Testing*	Addition to claims that increases Lifetime Loss Ratio by 10%	Rate increase is justified
Updated Lifetime Loss Ratio with MAE and requested rate increase***	64.7%	2014	Consistent with 2015 Asset Adequacy Testing*	Addition to claims that increases Lifetime Loss Ratio by 10%	Requested rate increase returns block closer to profitability

**Assumptions in Asset Adequacy Testing contain additional Provisions for Adverse Deviation (PADs)*
***See Exhibit I*
****See Exhibit II*

With the requested rate increase, the expected Lifetime Loss Ratio of these policy forms is not expected to be lower than the originally filed Lifetime Loss Ratio. If the requested rate increase is approved and experience develops as expected, no further rate increases are anticipated on these policies.

The definition of MAE included in the 2013 filing is that rate increases are triggered "if future experience exceeds a 10% margin for adverse experience. For this purpose, we defined 'exceeds a 10% margin' as any change that results in a Lifetime Loss Ratio greater than projected in Exhibit III of this memorandum."

The Lifetime Loss Ratio in Exhibit III of the actuarial memorandum filed in 2013, which included a 12.8% proposed rate increase (limited by the new business rate comparison) and a provision for 10% MAE, was 67.4%. The Lifetime Loss Ratio reflecting new best estimate assumptions (as described in Section 8 of this actuarial memorandum), and the 12.8% rate increase approved by your state, with no MAE, is 69.7%. Since 69.7% is higher than 67.4%, MAE has been exceeded and additional rate increases are justified.

d) Delays in filing or approving warranted premium rate increases will require higher percentage increases to fewer policyholders in the future in order to obtain the same Lifetime Loss Ratio.

If experience emerges as currently expected, timely implementation of the requested 48.1% premium rate increase should prevent the need for future premium rate increases. However, if rate increases are delayed, due to late filings or approvals, less future premium capacity remains in these blocks to absorb the rate increase. As a result, a higher percentage future premium rate increase must be applied to fewer policyholders in order to obtain the same Lifetime Loss Ratio.

The calculations below assume a delay in premium rate increases but no other change. Note that, if the requested 48.1% premium rate increase is delayed six years, the increase necessary to achieve the same Lifetime Loss Ratio roughly doubles.

Impact of Rate Increase Delay	
Years Delayed	**Required Increase**
None	48%
1	54%
2	60%
3	68%
4	76%
5	87%
6	99%

It is our intent to learn from the past, act early, and seek to avoid significant premium rate increases when the average policyholder's attained age is higher.

2. Confidentiality

Pursuant to 65 P.S. § 67.708(b)(11), Genworth Life Insurance Company ("GLIC") respectfully requests that Section 8 of this Actuarial Memorandum (entitled, "Actuarial Assumptions"), Section 20 of this Actuarial Memorandum (entitled, "Nationwide Distribution of Business as of December 31, 2014 (Based on Exposed Lives)"), Exhibit I of this Actuarial Memorandum (entitled, "Choice 2 and Choice 2.1 Policy Forms – Nationwide Experience Projection with Pennsylvania Approved Rate Increase with MAE"), Exhibit II of this Actuarial Memorandum (entitled, "Choice 2 and Choice 2.1 Policy Forms – Nationwide Experience Projection with 48.1% Rate Increase with MAE"), and Exhibit III of this Actuarial Memorandum (entitled, "Rate Stabilization 58/85 Test"), be treated as confidential and not subject to disclosure (the materials sought to be maintained as confidential are referred to herein as the "GLIC Confidential Materials"). The GLIC Confidential Materials are being filed in connection with GLIC's request for a rate increase on certain long term care insurance products. However, these materials contain GLIC's confidential trade secrets, and/or other confidential proprietary information, including but not limited to actuarial formulas, statistics and/or assumptions, which are not generally known to, or ascertainable by proper means by, persons or entities other than GLIC who could obtain economic value from its disclosure or use.

65 P.S. § 67.101(a) sets forth Pennsylvania's general rule that a public record should generally be available for inspection by members of the public. However, under 65 P.S. § 67.708(b)(11), "trade secrets" and "confidential proprietary information" are explicitly excluded from the list of records that are subject to public disclosure. Specifically, § 67.708(b)(11) states as follows:

> (b) Exceptions: Except as provided in subsections (c) and (d) [neither of which apply here], the following *are exempt from access by a requester* under this act:
>
> (11) A record that constitutes or reveals a *trade secret* or *confidential proprietary information*.

(Emphasis added). In turn, 65 P.S. § 67.102 (the "Definitions" section of Pennsylvania's Right to Know Law) defines the term "trade secret," in pertinent part, as follows:

> Information, including a formula, drawing, pattern, compilation, including a customer list, program, device, method, technique or process that:
>
> (1) derives independent economic value, actual or potential, from not being generally known to and not being readily ascertainable by proper means by other persons who can obtain economic value from its disclosure or use; and
>
> (2) is the subject of efforts that are reasonable under the circumstances to maintain its secrecy.

Section 67.102 defines the term "confidential proprietary information" as follows:

> Commercial or financial information received by an agency: (1) which is privileged or confidential; and (2) the disclosure of which would cause substantial harm to the competitive position of the person that submitted the information.

The GLIC Confidential Materials fall squarely within the disclosure exemptions for "trade secrets" and "confidential proprietary information" embodied within § 67.708(b)(11). In *Christopher M's Hand Poured*

Fudge, Inc. v. Hennon, 699 A.2d 1272 (Pa. Superior Ct. 1997), Pennsylvania's Superior Court set forth six factors that courts can consider in determining whether information qualifies as a trade secret, including:

> (1) the extent to which the information is known outside the owner's business; (2) the extent to which it is known by employees and others involved in the owner's business; (3) the extent of measures taken by the owner to guard the secrecy of the information; (4) the value of the information to the owner and to his competitors; (5) the amount of effort or money expended by the owner in developing the information; and (6) the ease or difficulty with which the information could be properly acquired or duplicated by others.

Id. at 1275. Each of these factors, along with the "substantial harm" element of the "confidential proprietary information" definition weighs heavily in favor of maintaining the confidentiality of the GLIC Confidential Materials. GLIC and its predecessors have been providing long term care insurance coverage to policyholders for more than 35 years. GLIC's lengthy experience in the long term care insurance business has placed it in a unique position in the long term care marketplace, in that no other long term care carrier has as much experience in that line of business as GLIC and its predecessors. Because GLIC has been marketing long term care products longer than its competitors, it has been able to accumulate experience-related data that its competitors have not been able to gather. This data is held and maintained as confidential by GLIC and, among other things, is used to price GLIC's long term care products. If disclosed, the GLIC Confidential Materials would permit GLIC's competitors to exploit GLIC's confidential proprietary information for their own benefit, and to GLIC's competitive and economic disadvantage. Simply put, GLIC's hard-earned information should be kept confidential so that others cannot gain from GLIC's experience in order to more effectively compete with GLIC in the long term care insurance marketplace. The GLIC Confidential Materials include, among other things, compilations of information regarding GLIC's assumptions in pricing certain long term care products, GLIC's proprietary persistency and incurred claims statistics, and GLIC's policy demographics. None of this information is available to GLIC's competitors or to the public generally, and it is plainly protectable under the statutes discussed above. *See Giurintano v. Dep't of General Services*, 20 A.3d 613, 615-17 and n.5 (Pa. Cmwlth. 2011) (holding that the identities of interpreters hired by state contractor were excluded from public disclosure under 65 P.S. §67.708(b)(11) because the contractor (a) kept their identities confidential "to protect its investment," (b) the interpreters were "business assets," and (c) disclosing the identities "would cause substantial harm to the [contractor's] competitive position in the industry"). For these reasons, GLIC respectfully submits that the GLIC Confidential Materials are exempt from disclosure pursuant to 65 P.S. §67.708(b)(11), and requests that they be treated as confidential by the Pennsylvania Insurance Department.

This submission redacts the GLIC Confidential Materials identified above. A complete, confidential, unredacted version of GLIC's Actuarial Memorandum has been filed separately.

3. Description of Benefits

These are federally tax-qualified, individually underwritten policies that provide comprehensive long-term care coverage. They cover the reimbursement of expenses incurred by the insured(s) subject to the amount of coverage purchased. Premium payments are waived after the elimination period has been satisfied.

The Privileged Choice (7044 and 7044 Rev) policy forms pay benefits on a monthly basis and include a 10-year survivorship benefit. The 10-year survivorship benefit waives future premium payments upon the death of one spouse if both spouses are insured and have met certain requirements. It also includes a waiver of elimination period for home health care benefits, and home health care service days are applied to the facility elimination period. The optional non-forfeiture benefit, restoration of benefit, 7-year survivorship benefit and return of premium riders were available for purchase for an additional premium.

The Classic Select (7042 and 7042 Rev) policy forms are comprehensive products with benefits payable on a daily basis. Riders include 7-year and 10-year survivorship, waiver of elimination period for home health care benefits, monthly maximum benefit (as opposed to daily), restoration of benefits, and non-forfeiture benefits.

These policy forms can cover an individual or a couple (joint policy). The joint policy operates as two individual policies, except that the two insureds draw from one shared policy benefit pool.

These forms require an insured to meet benefit eligibility requirements that are triggered by Activities of Daily Living ("ADL") deficiencies or cognitive impairment. The daily or monthly benefit, benefit period, and elimination period are selected at issue.

In addition, a simple benefit increase or compound benefit increase option can be selected at issue. The simple Benefit Increase Option (BIO) increases the original daily maximum by 5% each year starting with the second policy year and continuing for the life of the policy, unless terminated earlier by the insured. The compound BIO increases the prior year's daily maximum by 3% or 5% each year starting with the second policy year and continuing for the life of the policy, unless terminated earlier by the insured. The 3% compound BIO was only made available on the Choice 2.1 (7042 Rev and 7044 Rev) versions of these policy forms.

The available choices for benefit period, elimination period, issue ages, and benefit increase option are set forth in the attached rate tables, Appendix A and B.

4. Marketing Method

Policies were sold by independent agents, independent agents working through broker general agencies, financial advisors, and agents working through financial institutions.

5. Underwriting Description

The underwriting process included an assessment of functional and cognitive abilities at issue ages that were deemed by GLIC to be appropriate at the time. Various underwriting tools were used in accordance with our underwriting requirements, including an application, medical records, an attending physician's statement, telephone interview, and/or face-to-face assessment.

6. Renewability and Applicability

These policies are Guaranteed Renewable for life, as provided for under the terms and conditions of the policies. This filing is applicable to all in-force policies and associated riders issued in Pennsylvania on the above-referenced forms, except for policies sold through AARP. AARP policies sold in Pennsylvania are subject to contractual agreements with AARP governing rate increases, and are excluded from this rate increase request. Equivalent rate increase requests for AARP policies are scheduled to be filed with the Department at a later date.

7. Area Factors

Geographic area factors are not used in rating these policies.

8. Actuarial Assumptions

Redacted pursuant to Section 2, above.

9. Riders

Riders were accounted for in the projection of both earned premium and incurred claims. GLIC intends to implement the requested premium rate increase on both base policy and rider premium.

10. Rate Comparison Statement

As required by Pennsylvania Code 031 Chapter §89a.118.(b)4, the renewal rate levels, incorporating the requested 48.1% rate increase, do not exceed new business rate schedules, except for differences attributable to benefits, or as justified below.

Product Comparison
GLIC's current product offering in Pennsylvania, Policy Form Number 8000R1, was approved for sale on June 12, 2015. There are significant differences in benefits and other product features between the Choice 2 and 2.1 products (for which GLIC is seeking the 48.1% increase) and the product form series GLIC currently offers for sale. These differences affect the rate comparison in the following ways:

a. Benefit Differences:

Several benefits, available in prior product generations, including Choice 2 and 2.1, are no longer offered in Policy Form Number 8000R1, currently marketed in Pennsylvania, including benefit periods of eight (8) years or longer, limited premium payment options, and survivorship. (None of these benefits are currently marketed.) Policies with these benefit differences are not considered to exceed new business rates.

b. Difference in Other Product Features Include:

1. Underwriting – Product Form Number 8000R1 is subject to several underwriting enhancements that did not apply to Choice 2 and 2.1:
   i. More stringent laboratory guidelines for diabetes,
   ii. Elimination of insurability for those with diabetes who use tobacco products,
   iii. More rigorous tests of cognition,
   iv. Use of a paramedical examinations (including blood and labs), and
   v. New underwriting categories.

   While these underwriting enhancements are not directly reflected in benefits, they impact both original and new business pricing.

   In addition, Product Form Number 8000R1 has four underwriting categories (Standard, Select, Preferred, and Best), while Choice 2 and 2.1 had only two such categories (Standard and Preferred). We have made a good faith effort to compare these policies despite these differences.

2. Gender Based Pricing – Product Form Number 8000R1 was priced on a gender-specific basis, as opposed to the unisex basis applicable to Choice 2 and 2.1. Although the unisex version of the rates applicable to Product Form Number 8000R1 (Product Form Number 8001R1) were used in the comparison, the underlying gender mix may limit comparability of the premium rates.

3. Informal Home Care – Product Form Number 8000R1 covers services provided by informal caregivers to policyholders receiving care at home, but requires caregivers to be registered, and reimburses that care only up to 50% of the available nursing home benefit. Choice 2 and 2.1 covers services provided by informal caregivers to policyholders receiving care at home,

does not require caregivers to be registered, and reimburses that care up to 100% of the available nursing home benefit.

4. Claims Offset – Product Form Number 8000R1 reduces available benefit by claims paid before benefit increases are calculated. Choice 2 and 2.1 products reduce available benefits by claims paid after benefit increases are calculated.

c. Results of Rate Comparison: With the requested 48.1% rate increase:
   - Before adjusting for the differences in product features noted under b. above, 413 of the Choice 2 and 2.1 policies in Pennsylvania have premium rates that exceed the new business rates.
   - These 413 policies represent 2% of the total number of Choice 2 and 2.1 policies in Pennsylvania
   - 207 of these 413 policies exceed new business rates by less than $10 per month.

Furthermore, we believe the differences noted above sufficiently justify a rate level greater than the new business rates for the 413 Choice 2 and 2.1 policies. The greater rate level is required in order to certify that no further rate increases are anticipated.

11. Premium Classes

Premium rates are unisex, level (with the exception of approved rate increases), and payable for life (except for 322 limited pay policies on these forms in Pennsylvania). Premiums vary by issue age, daily benefit, benefit period, elimination period, benefit increase option, and any applicable riders selected.

Certain underwriting discounts may have been applied to the premium rates. A preferred risk discount of 10% or 20% may have been provided to applicants in response to specified health underwriting criteria. Where the criteria for a couples discount were met, a discount of 40% was provided to both individuals when both submitted valid applications and both were issued coverage. If only one member of a couple was approved, the discount was reduced to 25%. Where a shared policy was issued, a couples discount was factored into the shared policy form rates. If only one member of a couple applying for shared coverage was approved, an individual policy was issued and the couples discount was reduced to 25%.

12. Premium Modalization Rules

The following modal factors and percent distributions are applied to the annual premium on a nationwide basis.

Premium Mode	Modal Factor	Percent Distribution
Annual	1.000	64.8%
Semi-Annual	0.510	6.7%
Quarterly	0.260	16.2%
Monthly	0.090	12.4%
Total		100.0%

13. Active Life Reserves and Claim Liability Reserves

Active Life Reserves were not used in the rate increase analysis. Claim reserves (*i.e.*, Disabled Life Reserves and Pending Claims reserves), Incurred But Not Reported reserves, and Dead But Not Reported reserves as of December 31, 2014, have been discounted to the date of incurral of each respective claim and included in historical incurred claims. Discounting occurs at 4.12%.

14. Trend Assumptions

As this is not medical insurance, we have not included any explicit medical cost trends in the projections.

15. History of Previous Rate Revisions

Pennsylvania Rate Increases on These Policies:

A 12.8% rate increase on the policy forms subject to this filing was accepted in Pennsylvania on March 7, 2014.

Rate Increases on Similar Policies or Certificates Over the Past 10 Years in This State or Any Other State:

Policy Form Series - Not every series was available in every state	**Years Marketed**	**Percentage of Increase[1]**	**Effective Year[2]**
7000, 7002, 7011, 7020, 7022, 50024, 50027, 50109, 50110, 51001, 51002	1993-2005	0-12% 0-25% 0-118%	2007-2010 2011-2015 2012-2015

[1] The amount of the increase may vary by state, policy form series, or policy type. The actual effective increase may be higher as a result of the compounding effect of prior rate increases.

[2] Future effective dates reflect rate increases requested, but not yet implemented. Each date range represents a separate rate increase request.

16. Development of Requested Rate Increase

In developing the 48.1% premium rate increase request, the following process has been followed:

a) Consideration of policy design, underwriting, and claims adjudication practices

b) Update of business mix and assumptions as described in Section 8

c) In order to avoid subsidization among states, all prior approved rate increases have been removed from nationwide premium and then your state's approved rate increases have been applied to nationwide data at the date of approval

d) Verification that MAE from prior filing has been triggered, as described in Section 1.a of this actuarial memorandum

e) Calculation of the Lifetime Loss Ratio without the proposed rate increase, including new MAE

f) Calculation of the proposed rate increase that brings these policies closer to the original loss ratio, assuming full approval

g) Verification of compliance with the 58%/85% premium test defined in the Rate Stability regulation

h) Verification of rate comparison requirement of the Rate Stability regulation, as described in Section 10

Lifetime projections of Earned Premium and Incurred Claims assuming that no future rate increase is implemented is set forth in Exhibit I. Lifetime projections of Earned Premium and Incurred Claims assuming the requested rate increase is implemented on October 1, 2017 is set forth in Exhibit II. Exhibits I and II include provision for Moderately Adverse Experience. GLIC has used nationwide data for developing these exhibits to ensure maximum credibility.

Corresponding rate tables reflecting the requested increase are included with this memorandum as Appendix B, attached separately. Current rate tables have also been included in Appendix A. Please note that actual rates implemented may vary slightly from those set forth in Appendices A and B due to implementation rounding algorithms.

Earned Premiums and Incurred Claims projected through 2074 are developed from an asset share model representing actual contracts in-force as of December 31, 2014. The assumptions described in Section 8 above for morbidity, voluntary lapse and Active Lives mortality are used to project life years, Earned Premiums and Incurred Claims.

Historical experience is shown by claim incurral year with the loss ratio for each loss year calculated by the following formula:

$$LR_j = \frac{\sum_{t=j}^{2014} Pmt_t^j \, v^{t-j} + {}_jCR_{2014} \, v^{2014-j+1/2} + {}_jIBNR_{2014} \, v^{2014-j+1/2} + DBNR_{2014}}{EP_j}.$$

LR_j = Loss Ratio for year j

Pmt_t^j = claim payments in year t on claims incurred in year j, assumed to occur mid-year

${}_jCR_{2014}$ = open Claim Reserve held on December 31, 2014 for claims incurred in year j

${}_jIBNR_{2014}$ = Incurred But Not Reported reserve as of December 31, 2014 attributable to claims incurred in year j

$DBNR_{2014}$ = Dead But Not Reported reserve as of December 31, 2014

EP_j = earned premium in year j, assumed mid-year

j = year of incurral

v = 1/1.0412 = 0.96043

Annual Loss Ratios are calculated as anticipated incurred claims divided by earned premiums.

Lifetime Loss Ratios as of December 31, 2014 are calculated as the sum of accumulated past experience and discounted future experience where accumulation and discounting occur at 4.12%.

17. Future Rate Increases

Policies to which this premium rate increase filing applies may also be subject to future additional rate increases if future experience exceeds a 10% margin for adverse experience or if the full amount of the rate increase requested in this filing is not approved. We defined "exceeds a 10% margin" as any change that results in a Lifetime Loss Ratio greater than projected in Exhibit II of this memorandum. For this purpose, future claims in Exhibit I have been adjusted upward to the level which increases the Lifetime Loss Ratio by 10%.

18. Pennsylvania Average Annual Premium Based on Exposed Lives

	Before Rate Increase*	After Rate Increase*
Average Annual Premium	$2,316	$3,429

**Note that some previously approved rate increases may have been partially implemented as of December 31, 2014*

19. Proposed Effective Date

This rate increase will apply to policies on their next Anniversary Date of issue or last coverage change, following a minimum 60-day policyholder notification period.

20. Nationwide Distribution of Business as of December 31, 2014 (Based on Exposed Lives)

Redacted pursuant to Section 2, above.

21. Number of Exposed Lives

As of December 31, 2014, the number of exposed lives in-force in Pennsylvania and nationwide is:

	Number of Exposed Lives	Inforce Annualized Premium
Pennsylvania*	17,103	$39,603,312
Nationwide	413,067	$880,448,111

**945 policies were sold in Pennsylvania through AARP and are subject to contractual agreements with AARP pertaining to rate increases. Those policies are excluded from this rate increase and from the Pennsylvania-specific information included in this filing. Equivalent rate increase requests for AARP policies are scheduled to be filed with the Department at a later date*

22. Average Issue Age and Average Attained Age

	Average Issue Age	Average Attained Age
Pennsylvania	58	64
Nationwide	58	65

23. Actuarial Certification

I am an Associate of the Society of Actuaries, and I meet the American Academy of Actuaries' qualification standards for rendering this opinion and am familiar with the requirements for filing for increases in long-term care insurance premiums.

This memorandum has been prepared in conformity with all applicable Actuarial Standards of Practice, including ASOP No. 8, 18, 23, 25 and 41.

I have relied on projections completed by GLIC's in-force actuarial team and peer reviewed by Long Term Care Group using data, assumptions and methodologies provided by GLIC.

I have also relied on assumptions developed by GLIC's Long Term Care Experience Studies team in collaboration with other GLIC actuaries. The assumptions were subsequently analyzed by two leading external actuarial firms. Both external firms have strong Long Term Care experience. The external peer analysis concluded that the assumptions in the aggregate are reasonable and supported by evidence. GLIC's Executive Operating Committee reviewed and formally approved the assumptions.

I have reviewed and taken into consideration the policy design and coverage provided and GLIC's underwriting and claims adjudication processes.

I hereby certify that, to the best of my knowledge and judgment, this premium rate filing is in compliance with the applicable laws and regulations of Pennsylvania and Section 20 of the Long-Term Care Insurance Model Regulation. If the requested premium rate schedule increase is implemented and the underlying assumptions, which reflect moderately adverse conditions, are realized, no further premium rate schedule increases are anticipated.
