re: Geisinger Quality Options Inc. (GQO)-NAIC #12743
Individual PPO-**Grandfathered Member** Filing
Effective **January 1, 2016**

Dear Mr. Camacci:

Enclosed for your review and approval is a copy of GQO's Individual PPO Filing for **Grandfathered** members. The main purpose of this filing is as follows:

To project the needed revenue increase based on updated experience trended to CY2016. This increase will be applied to the ***current-approved*** **rates (per SERFF Filing ID# GSHP-129664956)** which were effective through December 2015 effective dates. A rate increase of **15.8%** (medical & Rx) has been projected to develop rates **to be used for January 2016 through December 2016 effective dates**. The additional (annualized) revenue to be generated by the proposed rate increase is **$711K** and the number of members impacted is **1,330**.

The proposed rates are shown as separate attachments for your reference. Please note that the corresponding benefit forms are identical to those already approved in SERFF under ID#'s: GSHP-130092568, 130092599, 130092633, 130092676, 130092683, and 130092711.

An Actuarial Memorandum and an Actuarial Attestation are included below.

If additional documentation is required, please contact me at (570) 271-7842. Thank you for your attention to this matter.

Sincerely,

Victoria Bardsley
Manager Actuarial Services, FAHM

## Actuarial Memorandum

- **Attachment I** (see first tab of the submitted Rate Filing file [uploaded under "Rate/Rule" tab in SERFF]) shows the rate development using specific experience for all grandfathered Individual PPO members for the experience period May 1, 2014 through April 30, 2015.

- Base period claims are trended using an annual trend of 7.1% (as supported in the "Individual PPO Rate Filings-eff 1.1.16-Trend Support" file uploaded in SERFF under "Supporting Documents"). The support file shows the cost and utilization trends for all of our commercial products. The Cost trend is based on expected future provider contract terms as determined by GHP's Provider Contracting Department. The Utilization trends are based on regression models modified, where appropriate, based on feedback from GHP's Medical Management team. The methodology used for each trend was chosen to best reflect changes in medical management and provider practices.

- Administrative expenses are added using the latest corporate projections for CY2016 for our Individual PPO block of business. Please note that the significant decrease in our admin PMPM is due to the CY2016 expenses being allocated separately for non-Exchange and Exchange blocks of business (whereas they were combined in previous filings).

- A reserve contribution load of 5%, as well as the federal income tax load, are applied next.

- The ACA fees for reinsurance, PCORI and the insurer fee (based on CY2016 federal projections) are added.

- The sum of the previous four steps produces the projected required revenue.

- In the final step, the overall rate increase is developed by comparing the projected required revenue to the "current revenue" (i.e. the overall revenue PMPM as of 1st Quarter 2015 multiplied by the base period member months).

- This overall rate increase is applied ***unilaterally*** across all of the CY2015 rates to produce the CY2016 rates (displayed, by benefit plan, on each of the remaining tabs of the Rate Filing file).

**Actuarial Certification:** I, Sarah MacDerment, am a Fellow of the Society of Actuaries and a Member of the American Academy of Actuaries. I am a Manager in the Actuarial Services Department of Geisinger Health Plan. I am experienced in the development of rating methodologies for PPO products. I hereby certify that to the best of my knowledge and judgment:

1. This filing is in compliance with the applicable laws of the Commonwealth of Pennsylvania and with the rules of the Pennsylvania Department of Insurance.

2. This filing complies with the Actuarial Standard of Practice No. 8, "Regulatory Filing for Rates and Financial Projections for Health Plans," and Actuarial Standard of Practice No. 31, "Documentation in Health Benefit Plan Ratemaking,"as adopted by the Actuarial Standards Board.

3. The data and assumptions used in this rate filing produce rates that are not excessive, not inadequate and not unfairly discriminatory.

Sarah M MacDerment
