Aetna HealthAssurance of PA – Small Group Plans

Rate request filing ID # AETN-130533528 - This document is prepared by the insurance company submitting the rate filing as a consumer tool to help explain the rate filing. It is not intended to describe or include all factors or information considered in the review process. For more information, see the filing at http://www.insurance.pa.gov/Consumers/ACARelatedFilings/

Overview

Requested average rate change:	27.3%
Range of requested rate change:	6.6% to 64.5%
Effective date:	January 1, 2017
People impacted:	26,468
Available in:	All rating areas, statewide

Key information

Jan. 2015-Dec. 2015 financial experience

Premiums	$220.4M
Claims	$189.3M
Administrative expenses	$18.6M
Company made (before taxes)	**$12.5M**

The company expects its annual medical costs to increase **10%**.

How it plans to spend your premium
This is how the insurance company plans to spend the premium it collects in 2017:

Claims:	85.5%
Administrative:	9.9%
Taxes & fees:	2.6%
Profit:	2.0%

Explanation of requested rate change

Medical costs are going up, and we are changing our rates to reflect this increase. Medical costs go up for two reasons – providers raise their prices and members get more medical care. Rate increases differ by plan. The exact rate change depends on what benefit plan the group chooses, where the group is located, when the group's contract renews, and the ages and family sizes of enrolling employees. Rates charged to employees also depend upon any change in the amount of premium paid by the employer.

Aetna HealthAssurance of PA
Pennsylvania Small Group
PPO Products

Summary

Aetna is filing premium rates for Small Group plans in Pennsylvania.

The new rates will apply to plan years effective in 2017. The current membership and range of rate changes by product are:

Product Name	# Members (as of Feb 2016)	Range of Increases
Aetna PPO	0	14.9% - 40.7%; avg 29.6%
Aetna Fee for Service	0	41.9%

Why We Need to Increase Premiums

Medical costs are going up and we are changing our rates to reflect this increase. We expect medical costs to go up 10% excluding the effect of benefit or cost sharing changes. Medical costs go up for two reasons – providers raise their prices and members get more medical care. Examples of increasing medical costs we have experienced over the last year include:

- The cost of Prescription Drug scripts has increased 9%
- The cost of Inpatient Facility visits has increased 6%

What Else Affects Our Request to Increase Premiums

Claims experience for this market has been worse than anticipated. Much of the rate increase is needed to ensure that we can continue to offer coverage in this market.

Our estimate of average population health and the expected risk adjustment transfers for Affordable Care Act (ACA) products have changed to reflect new data on market average premiums and population health. These changes are affected by the movement of business between the ACA market and other options, including grandfathered/transitional/state high risk pool/ Medicaid/alternative coverage.

Will Premiums for All Small Groups Increase 29.6% for PPO and 41.9% for Fee For Service?

No, increases differ by plan. The exact rate change depends on what benefit plan the group chooses, where the group is located, when the group's contract renews, and the ages and family sizes of enrolling employees. Rates charged to employees also depend upon any change in the amount of premium paid by the employer.

How does this request align to Minimum Loss Ratio Requirements (MLR)?

These rates are expected to produce an MLR equal to or above the 80% requirement for Small Group business. Under the ACA, at least 80% of the premiums collected by health plans are expected to pay for medical care and activities that improve health care quality for members. If the actual MLR turns out to be less than 80%, rebates will be issued to members in accordance with the law.

Aetna makes significant investments that benefit our members that the government does not allow us to use in this calculation. These investments include customer service, health quality activities like disease management programs, and the development of new information technologies.

What is Aetna doing to keep premiums affordable?

Aetna strives to keep our products as affordable as possible and to address the underlying cost of health care. We are:

- Developing new agreements, arrangements, and partnerships with health care providers that base provider compensation on the quality of care.
- Creating medical management programs that address potential health issues for members earlier, improving health outcomes and reducing the need for high-cost health care services.
- Working to reduce the ability of out-of-network providers to collect unreasonably excessive payments for services they provide.

We are dedicated to increasing transparency within the health care system and helping members best utilize the plans that they have. Members can access Aetna Navigator, a secure member website, which allows them to research their specific plan benefits, health care providers in a given area, and in some locations, the cost of certain health care services. The Aetna Navigator streamlined mobile app is also available to allow members to take their care on the go.

Additionally, Aetna's Plan for Your Health website aims to educate all consumers on how to take advantage of their health care benefits.

2017 Pennsylvania Actuarial Memorandum

1. Basic Information and Data

A. Company Information

Company Legal Name:	Aetna HealthAssurance of PA
NAIC #:	18527
Market:	Small Group Off-Exchange
Effective Date:	01/01/2017
Avg rate change requested:	27.3%
Range of rate change requested:	6.6% - 64.5%
Products:	PPO, Indemnity
Rating Areas:	Rating Areas 1-9
Metal Levels:	Platinum, Gold, Silver, Bronze
Current # covered lives:	26,468
Current # policyholders:	15,043
Number of plans offered:	20
HIOS Issuer ID / Binder #:	18939
Rate Filing Tracking Number:	AETN-130533528
Policy Form(s):	AHASPA SG HCOC-2017-PPO 01; AHASPA SG HCOC-2017-TC 01; AHASPA SG COCAmend-ET 01
Form Filing Tracking Number:	AETN-130496655

B. Rate History and Proposed Variations in Rate Changes

- April 1, 2016
  - Introduction of legal entity
  - AETN-130242360

C. Average Rate Change

The average rate change, as noted in cell AC13 of Table 10 and the percent change rate requested on the SERFF Rate Review Detail screen, is shown as 27.3%. The change in the 21 year old non-tobacco premium pmpm as stated in cell AZ13 on Table 11 is also shown as 35.7%, as this is a new legal entity introduced April 1, 2016. Aetna HealthAssurance of PA will issue PPO-based coverage to PA in-state employees, while ALIC will offer coverage to out of area employees. Both entities will offer the same plan designs and charge the same rates.

D. Membership Count

Total current membership by age bucket is shown on Table 1.

E. Benefit Changes

The products included in this filing include benefits necessary to comply with the Essential Health Benefit requirements. The experience data includes experience for both Single Risk Pool products that have essentially identical benefits and coverage issued outside the Single Risk Pool which does not cover all EHBs. The projection factor reflects the pro-rated impact of these additional benefits, as well as any changes in 2017 State Benchmark EHBs, and newly mandated benefits.

The change in projected utilization due to changes in benefits is also considered. As cost sharing decreases (measured by increasing Actuarial Value), utilization increases. This pattern is reflected in the factors that are built into the federal risk adjustment mechanism that started in 2014. The federal risk adjustment program factors and other proprietary models were considered in the development of the utilization change. The average cost sharing in the experience period was compared with the average cost sharing in the projection period. From the average cost sharing change, an expected utilization change was derived.

F. Experience Period Claims and Premium

The experience data reported in Worksheet 1, Section I of the Part I Unified Rate Review Template reflects incurred claims from January 1, 2015 through December 31, 2015 and paid through February 29, 2015, for Aetna HealthAssurance of PA. This entity did not exist in 2015 and therefore has no experience from 2015.

Allowed and incurred claims are sourced from our actuarial experience databases. These databases provide member-level detail on total allowed and incurred claims but do not include unit cost or utilization metrics. We allocate claims to cost categories and estimate the corresponding unit costs and utilization metrics by using an alternate reporting system that calculates unit cost and utilization metrics by medical cost category but only permits inclusion/exclusion of experience at the market and segment levels. A reconciliation of aggregate data in our actuarial experience databases is performed to ensure that data is consistent with the experience data contained in our enterprise-wide data warehouse.

Total incurred claims are developed by estimating the incurred but not paid (IBNP) reserves using aggregate block of business paid claims. Paid claims are adjusted using the IBNP completion factors. More specifically, historical claim payment patterns are used to predict the ultimate incurred claims for each date-of-service month. The IBNP is estimated using actuarial principles and assumptions which consider historical claim submission and adjudication patterns, unit cost and utilization trends, claim inventory levels, changes in membership and product mix, seasonality, and other relevant factors including a review of large claims. This same process is used to develop IBNP estimates for allowed claims.

Experience period premiums are date-of-service premiums from our actuarial experience databases for non-grandfathered Small Group business in Pennsylvania, The premiums have been decreased for expected risk adjustments payables. Our internal projections indicate that no MLR rebate is expected to be paid in 2016 (for 2015 experience) for the Small Group MLR Pool in Pennsylvania. As such, no adjustment was made to premiums to account for expected rebates.

The products discussed in this filing provide coverage for only those benefits defined as Essential Health Benefits (EHB).

The experience includes capitation for the same services that are expected to be capitated for the products in this filing in 2017. We have adjusted the manual experience for known or anticipated changes in capitation contracts and projected changes in demographics where capitation rates vary based on demographics.

Transitional Reinsurance recoveries do not apply to Small Group business. The experience period data reflects the Reinsurance Contribution of $3.67 PMPM assessed during 2015. Risk Adjustment transfer is accrued at the issuer and market level based on 2014 CMS data. The transfer is allocated to the member-level based by applying the HHS risk transfer calculation to each member relative to the imputed market average, such that members with higher resulting relative transfers scores may have a receivable and

members with lower resulting scores may have a payable, regardless of the net market risk transfer result. The resulting member transfers are summed to the HIOS plan level and adjusted for 2015 Risk Adjustment fees of $0.08 PMPM in Worksheet 2.

G. Credibility of Data

No credibility is assigned to the experience data. This is due to the use of alternate experience data that more accurately captures the essential characteristics of the market for which we are developing rates.

The source data for our manual rate is the experience incurred from January 1, 2015 to December 31, 2015 and paid through February, 2016 for Aetna and Coventry community-rated ACA policies in the Pennsylvania Small Group (HMO / PPO) market. The Small Group market experience is considered an appropriate source for the manual rate.

The Small Group experience used as the basis for the manual rate was adjusted in a similar manner as the base period experience for changes in population risk morbidity, benefits, and demographic and area normalizations. The data is further adjusted for projected changes in network, provider contract rates, and claims adjudication, in addition to unit cost and utilization trend.

H. Trend Identification

Medical trend factors are based on our Medical Economics Unit's local trend and network experience, based on analysis of a continuous normalized population, excluding catastrophic claims. Allowed medical trend includes known and anticipated changes in provider contract rates, severity and medical technology impacts, and expected changes in utilization. The impact of benefit leveraging is accounted for separately in the projected paid to allowed ratio.

Pharmacy trends are based on local market commercial group Rx trend analysis. Pharmacy trend considers the impact of formulary changes, patent expirations, new drugs, other general market share shifts, and overall utilization trend. Pharmacy Trend is expressed in terms of allowed trend less rebates.

Our internal systems assign claims to several benefit categories. We have mapped these categories to the categories described in the Unified Rate Review Instructions released February, 2016. Inpatient Hospital consists of care delivered at an inpatient facility and associated expenses, including day-based mental health services. Outpatient Hospital includes outpatient surgical as well as emergency care and associated expenses. Professional includes both specialty physician and primary care physician expenses, including visit-based mental health services. Other includes home health care, medical pharmacy expenses, laboratory expenses, and radiology expenses. Non-capitated ambulance is included in the Outpatient Hospital category when billed by the facility and included in Specialist Physician otherwise. Prescription Drug includes drugs dispensed by a pharmacy.

The utilization for these services are counted by service type, and aggregated for each benefit category. Inpatient Hospital utilization is counted as days; Outpatient Hospital, Professional, and Other Medical utilization are counted as visits. Prescription Drug utilization is counted per script.

Trend factors are developed from annual forward trend, leveraging, and also account for changes in the Health Insurers Fee. A trend factor of 1.00 corresponds to a policy period that begins January 1, 2017.

I. Historical Experience

As described above, medical trend factors are based on our Medical Economics Unit's local trend and network experience, and pharmacy trends are based on local market commercial group Rx trend analysis.

2. Rate Development & Change

Please refer to the file titled *2017 PA SG AHASPA Exhibits.xlsx* for any Exhibits referenced in the sections below.

A. Development of Projected Index Rate, Market-Adjusted Index Rate, & Total Allowed Claims
The index rates for the experience and projection periods are set equal to the actual and projected allowed claims, respectively, less non-essential health benefits.

The index rate reflects the projected mix of business by plan. The AV pricing values for each plan are based on our internal company modeling of plan cost-sharing designs, the plan's provider network, delivery system characteristics, and utilization management practices, the impacts of benefits in addition to EHBs, and the distribution and administrative costs applicable to the plan/product. Rates do not differ for any characteristic other than those allowable under the regulations as described in 45 CFR 156 §156.80(d)(2).

Exhibit 12 illustrates the quarterly trend factors, the resulting index rate for effective dates during each calendar quarter, the projected membership distribution by effective date, and the weighted-average index rate. Trend factors are developed from annual forward trend, leveraging, and also account for changes in the Health Insurers Fee. A trend factor of 1.00 corresponds to a policy period that begins January 1, 2017.

Exhibit E-1 illustrates the development of the Market Adjusted Index Rate. The market-wide adjustments (Risk Adjustment and Exchange User Fees) were discussed, previously. The risk adjustment on Worksheet 1 of the URRT is displayed on a paid-basis. The exchange user fee is estimated as a PMPM based on the target premium rate. The values reflected in Exhibit E-1 have each been divided by the paid to allowed ratio to convert them to an allowed-basis.

<u>Single Risk Pool Adjustment Factors</u>:
"Change in Morbidity" => The experience period data includes experience for both community-rated policies issued to small employers in 2015 and medically underwritten policies renewed under the Transitional Policy, while the credibility manual includes only experience for community-rated policies. We considered the expected relationships between the morbidity of each of these populations and the likely population that will be covered by Small Group Single Risk Pool policies in 2017. Exhibit 3 illustrates the resulting projection factor.

"Change in Benefits" => Discussed in Section 1E above.

"Change in Other" => The 'Other' adjustment includes, but is not limited to, the projected impact of changes in network composition, provider contracts, deductible suppression, and pooling.

B. Retention Items
The retention portion of the projected premium is illustrated in Exhibit 10.

The prospective general and administrative expenses are based on historical corporate Small Group market expense levels, current-year projections, and projected changes in expenses, inflation, and membership for 2017. The commission expense factor covers anticipated sales and marketing expenses. Those may include, without limitation, purchase of television, internet and other advertising; payments of commissions and other incentive compensation to the Company's internal sales force; and payment of commissions to external brokers. The exact amounts and distribution among the categories of sales and marketing expenses will depend on a variety of factors including competitive conditions, business

strategy, consumer behaviors, and legal and regulatory requirements. The consumer behaviors would capture whether they use a particular distribution channel, commissioned or not, as well as their experience.

Federal taxes include PPACA Taxes and Fees are based on the Notice of Benefit and Payment Parameters for 2017, as well as Federal income tax. The risk adjustment user fee, as previously mentioned in Section 9, is applied to the projected risk adjustment transfer and therefore, excluded from the taxes and fees shown under non-benefit expenses. State premium taxes are estimated on most current known levels and include any known assessments.

The profit and risk load is less than the target used in pricing our 2016 plans.

C. Normalized Market-Adjusted Projected Allowed Total Claims

The age factors are based on the HHS Default Standard Age curve. We project a premium-weighted average age factor for the 2017 membership using the prescribed age curve and the projected age distribution based on issuer January 2016 membership and projected changes in the market. The age that most closely corresponding to the weighted average age factor and the age calibration factor is the reciprocal of the weighted average age factor shown in Exhibit 13.

Exhibit 6 summarizes the rating area definitions and factors, and displays the projected membership by area to develop the projected average area factor. The geographic calibration factor is the reciprocal of the projected average area factor. The rates in this filing do not differ based on tobacco usage. As such, no adjustment is needed to remove the impact of rating for tobacco.

We used internal models developed on large group claims experience to estimate the impact of different cost sharing designs. We also reviewed the projected experience and the projected membership by plan to estimate an overall paid-to-allowed ratio. The combination of these two analyses is a projection of the relative paid to allowed ratio which also reflects the impact of out of network coverage. In addition, we applied an adjustment for the impact different levels of cost sharing have on the use of medical services, which is based in part on the induced utilization factors used in the Risk Adjustment program. These adjustments are first normalized to result in an aggregate factor of 1.0 when applied to the projected 2017 membership.

The factors in Column 5 reflect the impact of differences in the network size, efficiency, and provider contract terms. We worked with our contracting area and other subject matter experts to review the impact of these differences and the expected impact on allowed claims.

D. Components of Rate Change

Both Aetna Life Insurance Company and Aetna HealthAssurance of PA will offer the same plan designs and charge the same rates.

3. Plan Rate Development

The following briefly describes how each set of adjustments was determined.

Pricing AV / Benefit Richness:

These adjustments are discussed in Section 2C above.

Benefits in addition to EHBs:

The products discussed in this filing provide coverage for only those benefits defined as Essential Health Benefits (EHB). The factor for the impact of benefits in addition to EHBs is a 1.00.

Provider Network:
This adjustment reflects the impact of differences in the network size, efficiency, and provider contract terms. We worked with our contracting area and other subject matter experts to review the impact of these differences and the expected impact on allowed claims.

Catastrophic Eligibility:
This filing does not include Catastrophic plans.

Tobacco Surcharge Adjustment:
The rates in this filing do not differ based on tobacco usage. As such, no adjustment is needed to remove the impact of rating for tobacco.

Admin Costs / Taxes & Fees / Profit or Contingency:
These factors reflect the adjustment for projected administrative costs, including sales, marketing, and any commission expense, and profit & risk. These are discussed above in the Retention section.

An AV Certification is included in this filing, titled *PA_SG_18906_AVCCert_Off_2017_v1.pdf*.

4. Plan Premium Development for 21-Year-Old Non-Tobacco User

The Calibrated Plan Adjusted Index Rates for 2016 and 2017 are shown in Columns Z and AA. The 2017 rates in Column AA differ from the Calibrated Plan Adjusted Index Rates on Exhibit E-2 because the trend factor proposed in our filing includes the additional impact of HIF, as described in Section 2A above.

5. Plan Factors

A. Age and Tobacco Factors

The age factors are based on the HHS Default Standard Age curve. The rates in this filing do not differ based on tobacco usage. As such, no adjustment is needed for tobacco rating and factors of 1.0 have been entered.

B. Geographic Factors

The proposed geographic factors are different than the current approved factors. We compared the relative unit costs by rating area, and considered the convergence of Aetna and Coventry provider contracts, in order to develop the proposed geographic factors.

C. Network Factors

There are no narrow networks included in this filing.

D. Service Area Composition

The Service Area composition for the broad network is statewide, while the Service Area composition for the narrow networks is listed in Table 13.

E. Composite Rating

While PA allows composite rating, we are not offering this option at this time. However, the member level rates in this filing would not be impacted if we allow the composite rating option at a later time.

6. Actuarial Certifications

Reliance

While I have reviewed the reasonableness of the assumptions in support of both the preparation of the Part I Unified Rate Review Template and the assumptions in support of the rate development applicable to the products discussed in this filing, I relied on the expertise of other Aetna employees, along with work products produced at their direction, for the following items:

- URRT Methodology and Data Definitions
- Experience Period MLR Rebates
- Actuarial Value, Modifications, and Benefit Relativities
- Supplemental EHB Pricing
- Population Risk Morbidity
- Medical Cost and Utilization Trend
- Rx Cost and Utilization Trend
- Pediatric Dental Claim Cost
- Components of Retention/Administrative Fees
- Value of Network Arrangements
- Experience Period Data – Small Group

Certification

While this memorandum discusses both our development of rates for these products and the completion of the Part I Unified Rate Review Template (URRT), the Part I URRT does not demonstrate the process used by Aetna to develop the rates. Rather, it represents information required by Federal regulation to be provided in support of the review of rate increases, for certification of qualified health plans for Federally-facilitated marketplaces, and for certification that the index rate is developed in accordance with Federal regulation, is used consistently, and is only adjusted by the allowable modifiers. The information provided above is intended to comply with these requirements.

I, [redacted] am a Fellow of the Society of Actuaries, a member of the American Academy of Actuaries, and am qualified in the area of health insurance. I hereby certify that to the best of my knowledge and judgment:

1. This rate filing is in compliance with the applicable laws and regulations of Pennsylvania, the requirements under federal law and regulation, and all applicable Actuarial Standards of Practice, including but not limited to:

    a. ASOP No. 5, Incurred Health and Disability Claims
    b. ASOP No. 8, Regulatory Filings for Health Benefits, Accident and Health Insurance, and Entities Providing Health
    c. ASOP No. 12, Risk Classification
    d. ASOP No. 23, Data Quality
    e. ASOP No. 25, Credibility Procedures Applicable to Accident and Health, Group Term Life, and Property/Casualty Coverages
    f. ASOP No. 26, Compliance with Statutory and Regulatory Requirements for the Actuarial Certification of Small Employer Health Benefit Plans
    g. ASOP No. 41, Actuarial Communications.

2. The Projected Index Rate is:

a. In compliance with all applicable State and Federal Statutes and Regulations (45 CFR 156.80(d)(1) and 147.102),
b. Developed in compliance with the applicable Actuarial Standards of Practice,
c. Reasonable in relation to the benefits provided and the population anticipated to be covered,
d. Neither excessive, deficient, nor unfairly discriminatory.

3. The Index Rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2) were used to generate plan-level rates.

4. The percent of total premium that represents essential health benefits included in Worksheet 2, Sections III and IV were calculated in accordance with actuarial standards of practice.

5. The geographic rating factors reflect only differences in the costs of delivery (which include unit costs and provider practice pattern differences) and do not include differences for population morbidity by geographic area.

6. The AV Calculator was used to determine the AV Metal Values shown in Worksheet 2 of the Part I Unified Rate Review Template for all plans. Adjustments made to reflect benefit features not handled by the AV Calculator are discussed in the attached certification required by 45 CFR Part 156, §156.135.

Actuarial Memorandum and Certification

General Information

Company Identifying Information:

Company Legal Name:	**Aetna HealthAssurance of PA**
State:	**Pennsylvania**
HIOS Issuer ID:	**18939**
Market:	Small Group
Effective Date:	01/01/2017
Rate Filing Tracking Number:	**AETN-130533528**
Policy Form(s):	**AHASPA SG HCOC-2017-PPO 01; AHASPA SG HCOC-2017-TC 01; AHASPA SG COCAmend-ET 01**
Form Filing Tracking Number:	**AETN-130496655**

Company Contact Information:

Name: [redacted]
Telephone Number:
Email Address:

1. Purpose, Scope, and Effective Date

The purpose of this filing is to:

1) Provide support for the development of the Part I Unified Rate Review Template;
2) Provide support for the assumptions and premiums rate development for the products supported by the policy forms referenced above;
3) Request approval of the proposed monthly premium rates; and
4) Provide benefit plan designs summaries for the products included in this filing.

The development of the rates reflects the impact of the market forces and rating requirements associated with the Patient Protection and Affordable Care Act (PPACA) and subsequent regulation.

These rates are for plans issued in Pennsylvania beginning January 1, 2017. The rates comply with all rating guidelines under federal and state regulations. The filing covers plans that will be offered outside the public Marketplace in Pennsylvania.

2. Proposed Rate Increase

Monthly premium rates for Small Group Market products in Pennsylvania are being revised for effective dates January 1, 2017 through December 31, 2017.

A. Reason for Rate Increase(s):

Revised rates for these products reflect the following:

- Impact of medical claim trend (including changes in provider unit costs and increased utilization of medical cost services) and pharmacy trend;
- Revisions to our assumptions about market-wide population morbidity and the projected population distribution;
- Revisions to administrative expense projections;

- Modifications in cost sharing to ensure that plans comply with Actuarial Value requirements;
- Updates to our pricing models used to determine the impact of cost sharing designs; and
- Changes in provider networks and contracts.

B. Variation in Rate Changes by Plan/Product:
Rate changes differ by plan for the following reasons:

- Provider cost estimates have been updated, and the change differs by network.
- Modification to cost sharing differs by plan in order to maintain compliance with Actuarial Value and other regulatory requirements.
- Our internal pricing models have been updated to reflect more current information on levels of induced demand associated with different benefit designs. These changes impact our estimates of the relative costs of the plan designs that will be offered.

Exhibit 1 shows the average threshold increases for products covered by this filing.

3. Experience Period Premium and Claims

A. Paid Through Date:
Aetna HealthAssurance of PA did not offer coverage in 2015 so there is no base experience for Worksheet 1.

B. Premiums (Net of MLR Rebate and Risk Adjustment) in Experience Period:
Aetna HealthAssurance of PA did not offer coverage in 2015 so there is no base experience for Worksheet 1.

C. Allowed and Incurred Claims Incurred During the Experience Period:
Aetna HealthAssurance of PA did not offer coverage in 2015 so there is no base experience for Worksheet 1.

4. Benefit Categories
Our internal systems assign claims to several benefit categories. We have mapped these categories to the categories described in the Unified Rate Review Instructions released February, 2016. Inpatient Hospital consists of care delivered at an inpatient facility and associated expenses, included day-based mental health services. Outpatient Hospital includes outpatient surgical as well as emergency care and associated expenses. Professional includes both specialty physician and primary care physician expenses, including visit-based mental health services. Other includes home health care, medical pharmacy expenses, laboratory expenses, and radiology expenses. Non-capitated ambulance is included in the Outpatient Hospital category when billed by the facility and included in Specialist Physician otherwise. Prescription Drug includes drugs dispensed by a pharmacy.

The utilization for these services are counted by service type, and aggregated for each benefit category. Inpatient Hospital utilization is counted as days; Outpatient Hospital, Professional, and Other Medical utilization are counted as visits. Prescription Drug utilization is counted per script.

5. Projection Factors

A. Changes in the Morbidity of the Population Insured:
The credibility manual data, described in detail below, includes experience for community-rated policies issued to small employers in 2015.

We considered the expected relationship between the morbidity of this population and the likely population that will be covered by Small Group Single Risk Pool policies in 2017. Exhibit 3 discusses the assumptions used to project the change in population morbidity, and illustrates the resulting projection factor.

B. Changes in Benefits:
The products included in this filing include benefits necessary to comply with the Essential Health Benefit requirements. The experience data includes experience for both Single Risk Pool products that have essentially identical benefits and coverage issued outside the Single Risk Pool which does not cover all EHBs. The projection factor reflects the pro-rated impact of these additional benefits, as well as any changes in 2017 State Benchmark EHBs, and newly mandated benefits.

The change in projected utilization due to changes in benefits is also considered. As cost sharing decreases (measured by increasing Actuarial Value), utilization increases. This pattern is reflected in the factors that are built into the federal risk adjustment mechanism that started in 2014. The federal risk adjustment program factors and other proprietary models were considered in the development of the utilization change. The average cost sharing in the experience period was compared with the average cost sharing in the projection period. From the average cost sharing change, an expected utilization change was derived.

C. Changes in Demographics:
The data was normalized for projected changes in the age/gender mix and area mix using internally-developed factors. Exhibits 5 and 6 contain detail on the calculations of the impact of demographic mix shifts.

D. Other Adjustments:
The 'Other' adjustment includes, but is not limited to, the projected impact of changes in network composition, provider contracts, deductible suppression, and pooling.

E. Trend Factors (Cost/Utilization):
Medical trend factors are based on our Medical Economics Unit's local trend and network experience, based on analysis of a continuous normalized population, excluding catastrophic claims. Allowed medical trend includes known and anticipated changes in provider contract rates, severity and medical technology impacts, and expected changes in utilization. The impact of benefit leveraging is accounted for separately in the projected paid to allowed ratio.

Pharmacy trends are based on local market commercial group Rx trend analysis. Pharmacy trend considers the impact of formulary changes, patent expirations, new drugs, other general market share shifts, and overall utilization trend. Pharmacy Trend is expressed in terms of allowed trend less rebates.

Exhibit 8 shows the anticipated annual trend from the experience period to the rating period.

6. Credibility Manual Rate Development
A. Source and Appropriateness of Experience Data Used:
The source data for our manual rate is the experience incurred from January 1, 2015 to December 31, 2015 and paid through February, 2016 for Aetna and Coventry community-rated ACA policies in the Pennsylvania Small Group (HMO / PPO) market. The Small Group market experience is considered an appropriate source for the manual rate.

B. Adjustments Made to the Data:

The Small Group experience used as the basis for the manual rate was adjusted for changes in population risk morbidity, benefits, and demographic and area normalizations. The data is further adjusted for projected changes in network, provider contract rates, and claims adjudication, in addition to unit cost and utilization trend.

C. Inclusion of Capitation Payments:
The manual experience includes capitation for the same services that are expected to be capitated for the products in this filing in 2017. We have adjusted the manual experience for known or anticipated changes in capitation contracts and projected changes in demographics where capitation rates vary based on demographics.

7. Credibility of Experience
No credibility is assigned to the experience data. This is due to the use of alternate experience data that more accurately captures the essential characteristics of the market for which we are developing rates.

8. Paid-to-Allowed Ratio
The projected paid to allowed ratio is 85%. Exhibit 9 illustrates the development of this number along with the projected membership distribution by metal tier. Paid to allowed ratios are based on 2014 experience that is adjusted for the impact of any plan benefit changes based on our internal pricing models and trend deductible-leveraging.

9. Reinsurance and Risk Adjustment
A. Reinsurance – Experience Period
Aetna HealthAssurance of PA did not offer coverage in 2015 so there is no base experience for Worksheet 2.

B. Risk Adjustment – Experience Period
Aetna HealthAssurance of PA did not offer coverage in 2015 so there is no base experience for Worksheet 2.

C. Risk Adjustment – Projection Period
We started with 2015 Risk Adjustment accruals to determine our current risk transfer relative to the market. We applied estimated changes in our risk relative to the market for 2017 that may be triggered by a shift in metal plan distribution/rating area or geographic cost/demographic distribution to determine our 2017 relativity to market. The difference between our projected relative risk and the market's is multiplied by the projected market average premium, which we trended at 8% annually. As a result, we project a risk adjustment payable, net of the 2017 user fee of $0.13 PMPM.

10. Non-Benefit Expenses and Profit & Risk
The retention portion of the projected premium is illustrated in Exhibit 10.

The prospective general and administrative expenses are based on historical corporate Small Group market expense levels, current-year projections, and projected changes in expenses, inflation, and membership for 2017. The commission expense factor covers anticipated sales and marketing expenses. Those may include, without limitation, purchase of television, internet and other advertising; payments of commissions and other incentive compensation to Company's internal sales force; and payment of commissions to external brokers. The exact amounts and distribution among the categories of sales and marketing expenses will depend on a variety of factors including competitive conditions, business strategy, consumer behaviors, and legal and regulatory requirements. The consumer behaviors

would capture whether they use a particular distribution channel, commissioned or not, as well as their experience.

Federal taxes include PPACA Taxes and Fees are based on the Notice of Benefit and Payment Parameters for 2017, as well as Federal income tax. The risk adjustment user fee, as previously mentioned in Section 9, is applied to the projected risk adjustment transfer and therefore, excluded from the taxes and fees shown under non-benefit expenses. State premium taxes are estimated on most current known levels and include any known assessments.

The profit and risk load is less than the target used in pricing our 2016 plans.

11. Projected Loss Ratio

The expected 2017 MLR for this filing, as defined by PPACA and before any credibility adjustment, is shown in Exhibit 11.

12. Single Risk Pool

The plans and rates included in the Part I URRT are those for all plans we intend to offer in the Small Group market in Pennsylvania through Aetna HealthAssurance of PA. The proposed rates comply with the Single Risk Pool requirements of 45 CFR §156.80(d). Rates for plans that may be renewed outside the Single Risk Pool (due to either being grandfathered or permissible transitional offerings) are not covered in this filing.

13. Index Rate

The index rates for the experience and projection periods are set equal to the actual and projected allowed claims, respectively, less non-essential health benefits.

The index rate reflects the projected mix of business by plan. The AV pricing values for each plan are based on our internal company modeling of plan cost-sharing designs, the plan's provider network, delivery system characteristics, and utilization management practices, the impacts of benefits in addition to EHBs, and the distribution and administrative costs applicable to the plan/product. Rates do not differ for any characteristic other than those allowable under the regulations as described in 45 CFR 156 §156.80(d)(2).

Small Group Market Trend Adjustments: Exhibit 12 illustrates the quarterly trend factors, the resulting index rate for effective dates during each calendar quarter, the projected membership distribution by effective date, and the weighted-average index rate. Trend factors are developed from annual forward trend, leveraging, and also account for changes in the Health Insurers Fee. A trend factor of 1.00 corresponds to a policy period that begins January 1, 2017.

14. Market-Adjusted Index Rate

Exhibit E-1 illustrates the development of the Market Adjusted Index Rate. The market-wide adjustments (Risk Adjustment and Exchange User Fees) were discussed, previously. The risk adjustment on Worksheet 1 of the URRT is displayed on a paid-basis. The exchange user fee is estimated as a PMPM based on the target premium rate. The values reflected in Exhibit E-1 have each been divided by the paid to allowed ratio to convert them to an allowed-basis.

15. Plan-Adjusted Index Rates

Exhibit E-2 illustrates the development of the Plan Adjusted Index Rates, and displays each plan-specific adjustment made to the Market Adjusted Index Rate. The Plan Adjusted Index Rates are displayed in Column 8. The following briefly describes how each set of adjustments was determined.

A. Actuarial Value, Cost Sharing, and Tobacco:
The factors in Column 2 are the product of three separate adjustments:

1. We used internal models developed on large group claims experience to estimate the impact of different cost sharing designs. We also reviewed the projected experience and the projected membership by plan to estimate an overall paid-to-allowed ratio. The combination of these two analyses is a projection of the relative paid to allowed ratio which also reflects the impact of out of network coverage.
2. We applied an adjustment for the impact different levels of cost sharing have on the use of medical services, which is based in part on the induced utilization factors used in the Risk Adjustment program. These adjustments are first normalized to result in an aggregate factor of 1.0 when applied to the projected 2017 membership.
3. The rates in this filing do not differ based on tobacco usage. As such, no adjustment is needed to remove the impact of rating for tobacco.

B. Distribution and Administrative Costs:
Exhibit E-2, Column 4 reflects the adjustment for projected administrative costs, including sales, marketing, and any commission expense, and profit & risk. These are discussed above in the 'Non-Benefit Expenses and Profit & Risk' section, and exclude the Risk Adjustment User Fee, and Exchange User Fee, which are reflected in the Market-Adjusted Index Rate.

C. Provider Network, Delivery System, and Utilization Management:
The factors in Column 5 reflect the impact of differences in the network size, efficiency, and provider contract terms. We worked with our contracting area and other subject matter experts to review the impact of these differences and the expected impact on allowed claims.

D. Benefits in addition to EHBs:
The factors in Column 6 adjust for the impact of benefits in addition to EHBs.

The products discussed in this filing provide coverage for only those benefits defined as Essential Health Benefits (EHB). Hence, all factors in Column 6 are 1.00.

E. Catastrophic Plan Eligibility:
This filing does not include catastrophic plans.

F. Experience Period Plan Adjusted Index Rates
Worksheet 2 of the URRT displays the Plan Adjusted Index Rates filed in 2015 for the experience period.

16. Calibration
A. Age Curve Calibration:
The age factors are based on the HHS Default Standard Age curve.

We project a premium-weighted average age factor for the 2017 membership using the prescribed age curve and the projected age distribution based on issuer January 2016 membership and projected changes in the market. The age that most closely corresponding to the weighted average age factor and the age calibration factor is the reciprocal of the weighted average age factor shown in Exhibit 13.

B. Geographic Factor Calibration:
Exhibit 6 summarizes the rating area definitions and factors, and displays the projected membership by area to develop the projected average area factor. The geographic calibration factor is the reciprocal of the projected average area factor.

C. Small Group Premium Rates:
The development of the average projected trend factor is discussed in Section 13.

17. Consumer-Adjusted Premium Rate Development
Rates are determined using the prescribed member build-up approach. In the event that a family includes more than three child dependents under age 21, only the three oldest child dependents will be considered in determining the family's premium. Additional child dependents (non-billable members) will not be included in the rate calculation.

The premium for each billable member is calculated as:
Calibrated Plan Adjusted Index Rate * Age Factor * Area Factor * Trend Factor

The resulting rate is rounded to the nearest cent, and rates are then summed for all billable family members.

An example of a contract's premium determined by the member build-up calculation for a family of six, with more than three dependents under age 21, is shown in Exhibit 14.

18. Composite Premiums
Small employers will not be able to elect to have rates set using a composite approach as permitted by Pennsylvania.

19. AV Metal Values
The AV Metal Values on Worksheet 2 were based on the AV Calculator. As applicable, entries were modified to reflect the plan appropriately and/or adjustments were made for plan design features that could not be entered in the calculator per 45 CFR Part 156, §156.135. The accompanying certification discusses how the benefits were modified to fit the parameters and the development of any adjustments. The AV screen shots provide detail on the modified entries and adjustments to AV, as applicable.

20. AV Pricing Values
The AV Pricing Values are calculated as the ratio of the Plan Adjusted Index Rate to the Market Adjusted Index Rate. The adjustments reflected in the AV Pricing Values are discussed in Section 15. AV Pricing Values do not differ based on morbidity differences or benefit selection anticipated within the Single Risk Pool.

21. Membership Projections
Exhibit 15 summarizes the membership projections by plan. Membership projections are based on historical experience, enrollment in ACA-compliant plans through January 2016, and our expectations for future sales as additional members move to these plans from grandfathered and transitional plans. We assume that total enrollment will be similar to our current enrollment.

Terminated Plans and Products
Exhibit 16 provides a plan and product crosswalk from 2016 to 2017. The crosswalk includes the list of single risk pool plans and products that have terminated prior to January 1, 2017, products that have experience in the single risk pool experience period, and products that were made available in 2016 and 2017.

Consistent with the URRT instructions, experience for non-single risk pool terminated products is reported in aggregate under the terminated product with the largest membership in the experience period.

22. Plan Type
All plans are consistent with the plan type indicated on Worksheet 2.

23. Warning Alerts
The Experience Period Plan Adjusted Index Rate on Worksheet 2 differs from the Experience Period Premium PMPM on Worksheet 1 since 1) the Experience Period Premium reflects the actual enrollment mix for all non -grandfathered business in the market in 2015 while the average Plan Adjusted Index Rate reflects the projected (vs. actual) ACA mix for single risk pool experience and a zero rate for non-single risk pool experience , and 2) premiums reported on Worksheet 1 are net of estimated risk adjustment transfers and MLR rebates while the Plan Adjusted Index Rates on Worksheet 2 do not consider the impact of risk adjustment transfers or MLR rebates.

For the same reasons, the experience period Total Premium (TP) differs between Worksheets 1 and 2.

The Experience Period Incurred claims and Incurred Claims PMPM on Worksheet 2 adjust for the impacts of Reinsurance and Risk Adjustment. The Incurred Claims on Worksheet 1 are not adjusted for the impact of Reinsurance and Risk Adjustment. The warning alerts on rows 68 and 73 of Worksheet 2 result from the different treatment of Reinsurance and Risk Adjustment on the two worksheets.

The Projected Plan Adjusted Index Rate on Worksheet 2 differs from the Gross Premium Average Rate on Worksheet 1. This difference results from the value on Worksheet 1 being the rate that corresponds to claims incurred in the 12 months starting January 1, 2017, while the average on Worksheet 2 is the average rate for the market for coverage that begins between January 1, 2017 and December 31, 2017.

For the same reason, Total Premium (TP) differs between Worksheets 1 and 2.

24. Benefit Design
This filing includes the following standard plans: one Platinum, 8 Gold, 8 Silver, and 3 Bronze.

Please refer to the corresponding policy forms for detailed benefit language. Information on the cost-sharing parameters of the covered benefit plans, including deductibles, copays, and Actuarial Values, is summarized in the AV Snapshots and Benefit Summaries. All benefit and cost sharing parameters comply with Pennsylvania benefit mandates and the requirements of PPACA, including preventive care benefits, deductible limits, and Actuarial Value requirements.

25. Marketing
Plans will be available outside of the public Marketplace. These plans may be marketed in a variety of means, including directly to consumers through direct mail, telemarketing, and the internet and indirectly through brokers and general agents. Marketing and distribution approaches may change from time to time at management's discretion.

26. Underwriting
Aetna will verify applicant eligibility for these plans based on any applicable age or geographic limitations.

27. Renewability
These policies are guaranteed renewable as required under §2703 of the Public Health Service Act.

28. Company Financial Condition

As of December 31, 2015, the capital and surplus held by Aetna HealthAssurance of PA was approximately $5 million. This amount is disclosed in page 3, line 33 of the Company's statutory financial statement dated December 31, 2015. The Company issues commercial and Medicare Advantage coverage in various states for multiple business segments, including to large employer, small employer, and individual purchasers.

Reliance

While I have reviewed the reasonableness of the assumptions in support of both the preparation of the Part I Unified Rate Review Template and the assumptions in support of the rate development applicable to the products discussed in this filing, I relied on the expertise of other Aetna employees, along with work products produced at their direction, for the following items:

- URRT Methodology and Data Definitions
- Experience Period MLR Rebates
- Actuarial Value, Modifications, and Benefit Relativities
- Supplemental EHB Pricing
- Population Risk Morbidity
- Medical Cost and Utilization Trend
- Rx Cost and Utilization Trend
- Pediatric Dental Claim Cost
- Components of Retention/Administrative Fees
- Value of Network Arrangements
- Experience Period Data – Small Group

Certification

While this memorandum discusses both our development of rates for these products and the completion of the Part I Unified Rate Review Template (URRT), the Part I URRT does not demonstrate the process used by Aetna to develop the rates. Rather, it represents information required by Federal regulation to be provided in support of the review of rate increases, for certification of qualified health plans for Federally-facilitated marketplaces, and for certification that the index rate is developed in accordance with Federal regulation, is used consistently, and is only adjusted by the allowable modifiers. The information provided above is intended to comply with these requirements.

I, [redacted] am a Fellow of the Society of Actuaries, a member of the American Academy of Actuaries, and am qualified in the area of health insurance. I hereby certify that to the best of my knowledge and judgment:

1. This rate filing is in compliance with the applicable laws and regulations of Pennsylvania, the requirements under federal law and regulation, and all applicable Actuarial Standards of Practice, including but not limited to:

    a. ASOP No. 5, Incurred Health and Disability Claims
    b. ASOP No. 8, Regulatory Filings for Health Benefits, Accident and Health Insurance, and Entities Providing Health
    c. ASOP No. 12, Risk Classification
    d. ASOP No. 23, Data Quality
    e. ASOP No. 25, Credibility Procedures Applicable to Accident and Health, Group Term Life, and Property/Casualty Coverages
    f. ASOP No. 26, Compliance with Statutory and Regulatory Requirements for the Actuarial Certification of Small Employer Health Benefit Plans
    g. ASOP No. 41, Actuarial Communications.

2. The Projected Index Rate is:
    a. In compliance with all applicable State and Federal Statutes and Regulations (45 CFR 156.80(d)(1) and 147.102),

b. Developed in compliance with the applicable Actuarial Standards of Practice,
c. Reasonable in relation to the benefits provided and the population anticipated to be covered,
d. Neither excessive, deficient, nor unfairly discriminatory.

3. The Index Rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2) were used to generate plan-level rates.

4. The percent of total premium that represents essential health benefits included in Worksheet 2, Sections III and IV were calculated in accordance with actuarial standards of practice.

5. The geographic rating factors reflect only differences in the costs of delivery (which include unit costs and provider practice pattern differences) and do not include differences for population morbidity by geographic area.

6. The AV Calculator was used to determine the AV Metal Values shown in Worksheet 2 of the Part I Unified Rate Review Template for all plans. Adjustments made to reflect benefit features not handled by the AV Calculator are discussed in the attached certification required by 45 CFR Part 156, §156.135.

2017 Rates Table Template v6.0

If macros are disabled, press and hold the ALT key and pres

All fields with an asterisk (*) are required. To validate press Validate button or Ctrl + Shift + I. To finalize, press Finalize button or Ctrl + Shift + F.
If you are a community rating state, select Family Option under Age and fill in all columns.
If you are not community rating state, select 0-20 under Age and provide an Individual Rate for every age band.
If Tobacco is Tobacco User/Non-Tobacco User, you must give a rate for Tobacco Use and Non-Tobacco Use.
To add a new sheet, press the Add Sheet button, or Ctrl + Shift + H. All plans must have the same dates on a sheet.
