2017 Rates Table Template v6.0	*All fields with an asterisk (*) are required. To validate press Validate button or Ctrl + Shift + I. To finalize, press Finalize button or Ctrl + Shift + F.*			
	If you are a community rating state, select Family Option under Age and fill in all columns.			
	If you are not community rating state, select 0-20 under Age and provide an Individual Rate for every age band.			
	If Tobacco is Tobacco User/Non-Tobacco User, you must give a rate for Tobacco Use and Non-Tobacco Use.			
	To add a new sheet, press the Add Sheet button, or Ctrl + Shift + H. All plans must have the same dates on a sheet.			
HIOS Issuer ID*	79279			
Federal TIN*	46-4757476			
Rate Effective Date*	01/01/2017			
Rate Expiration Date*	03/31/2017

2017 Rates Table Template v6.0

All fields with an asterisk (*) are required. To validate press Validate button or Ctrl + Shift + I. To finalize, press Finalize button or Ctrl + Shift + F.

If you are a community rating state, select Family Option under Age and fill in all columns.

If you are not community rating state, select 0-20 under Age and provide an Individual Rate for every age band.

If Tobacco is Tobacco User/Non-Tobacco User, you must give a rate for Tobacco Use and Non-Tobacco Use.

To add a new sheet, press the Add Sheet button, or Ctrl + Shift + H. All plans must have the same dates on a sheet.

HIOS Issuer ID*	79279
Federal TIN*	46-4757476
Rate Effective Date*	04/01/2017
Rate Expiration Date*	06/30/2017

Plan ID*	Rating Area ID*	Tobacco*	Age*	Individual Rate*
Required: Enter the 14-character Plan ID	**Required:** Select the Rating Area ID	**Require:** Select if Tobacco use of subscriber is used to determine if a person is eligible for a rate from a plan	**Required:** Select the age of a subscriber eligible for the rate	**Required:** Enter the rate of an Individual Non-Tobacco or No Preference enrollee on a plan

I. General Information

Document Overview

This document contains the Part III Actuarial Memorandum for Highmark Coverage Advantage's ("HCA") small group block of business rate filing ("Filing"), for products with effective dates in calendar year 2017. This actuarial memorandum is submitted in conjunction with the Part I Unified Rate Review Template.

The purpose of the actuarial memorandum is to provide certain information related to the submission, including support for the values entered into the Part I Unified Rate Review Template, which supports compliance with the market rating rules and reasonableness of applicable rate increases. This information may not be appropriate for other purposes.

This information is intended for use by the State of Pennsylvania Department of Insurance, the Center for Consumer Information and Insurance Oversight (CCIIO), and their subcontractors to assist in the review of HCA's Filing. However, we recognize that this certification may become a public document. HCA makes no representations or warranties regarding the contents of this letter to third parties. Likewise, third parties are instructed that they are to place no reliance upon this actuarial memorandum prepared by HCA that would result in the creation of any duty or liability under any theory of law by HCA or its employees to third parties.

The results are actuarial projections. Actual experience is likely to differ for a number of reasons, including population changes, claims experience, and random deviations from assumptions.

I.1 Company Identifying Information:

- Company Legal Name: Highmark Coverage Advantage
- State: The State of Pennsylvania has regulatory authority over these policies.
- HIOS Issuer ID: 79279
- Market: Small Group
- Effective Date: January 1, 2017

II. Proposed Rate Increase(s)

For all rate increases by plan please see the 'Cum'tive Rate Change % (over 12 mos prior)' found in Worksheet 2 Row 27 of the URRT. The proposed rate increases for each plan differ due to benefit changes made in the plan designs from 2016 to 2017. Several plans required benefit changes because of the new Actuarial Value (AV) calculator released for 2017 effective dates. The plan changes were required so that the plans remained within the defined metal level AV requirements. The components of the rate increase by plan are shown in rows 34 to 42 of Worksheet 2 of the URRT.

Per discussion with the Pennsylvania Insurance Department, HCA has reduced the rate increase presented in this Filing to -8.9%. The primary driver of the originally filed -3.74% rate increase (weighted on the projected enrollment for renewing plans in the URRT) was a decrease (-5.3%) in the projected population change (morbidity) for 2017 versus 2016 due to the availability of transitional policies in the small group market. This decrease in morbidity is offset by increases in the projected risk adjustment transfer payment and administrative expenses for 2017 versus 2016.

Even though we expect that the lower cost small groups will continue to renew their transitional policies and stay outside of the small group single risk pool in 2017, while the higher cost small groups migrate into the ACA single risk pool, we anticipate that this will affect HCA less than anticipated in last year's filing.

III. Experience Period Premium and Claims

III.1 Paid through Date:

Experience period claims were based on incurred calendar year 2015, paid through January 2016. We only include the non-grandfathered, insured members in HCA's 2015 book-of-business.

Since the experience under HCA in 2015 was very limited, with little credibility, the rates were developed by using 100% manual rates, as described below in the Credibility Manual section.

III.2 Premiums (net of MLR Rebate) in Experience Period:

The premiums shown for the experience period were based on calendar 2015 actual revenues, adjusted for anticipated risk adjustment transfer payments, in accordance with the Unified Rate Review Instructions.

Based on preliminary information for calendar year 2015, no MLR rebates are anticipated to be refunded to enrollees. Therefore, we did not include an adjustment for MLR rebates in the 2015 premium amounts.

III.3 Allowed and Incurred Claims Incurred During the Experience Period:

- Historical Experience: To complete the URRT historical experience section we chose HCA's current experience for the small group block of business for the period January 1, 2015 through December 31, 2015, with claims paid through January, 2016.

- Claims Incurred During the 12-month experience period: Worksheet 1, Section I shows our best estimate of the amount of claims that were incurred during the 12-month experience period for HCA's book-of-business. This section includes:

  - The amount of claims which were processed through our claims system,

  - Claims processed outside of our claims system (Rx rebates, settlements), and

  - Our best estimate of claims incurred but not paid as of the Paid through Date stated above.

- Method for Determining Allowed Claims: For non-capitated claims, the allowed charges are summarized from HCA's detailed claim-level historical data. We only include the non-grandfathered, insured members from HCA's 2015 book-of-business.

- Paid Claims: We also summarized the paid claims from detailed member records. The paid-to-allowed ratio for the experience period reflects the 2015 plan designs chosen by each member.

- Incurred but Not Paid (IBNR) Claims Estimate: HCA's estimate of the remaining incurred but not recorded (IBNR) claims reflects the anticipated IBNR as of the end of the paid claim run out period. The IBNR completion factor of 0.977 was developed for HCA's total small group business through analysis of historical claim completion factors. The completion factor was applied equally to both paid and allowed total claims (as a change in utilization) to complete the experience.

IV. Benefit Categories

Historical cost and utilization data were pulled from HCA's claims systems by the defined benefit categories included in Worksheet 1, Section II of the URRT. This data was used to allocate HCA's total claims into its components on the URRT.

The data provided in this section closely adheres to the preferred definitions of the Benefit Categories included in the URRT instructions, including the "Other Medical" category. The "Other Medical" category units reflect visits for PDN/home health, trips for ambulance and

procedures for DME/prosthetics. Prescription drug utilization is converted to a 30-day script count.

V. Projection Factors

See the Credibility Manual section, just below, for a discussion of the projection factors.

VI. Credibility Manual Rate Development

VI. 1 Source and Appropriateness of Experience Data Used

Historical Experience: Since HCA's small group experience on its own would not be credible, HCA's experience was combined with experience from HCA's parent company, Highmark Inc., as well as Highmark Inc.'s other subsidiaries, Highmark Health Insurance Company and Highmark Choice Company, for the small group block of business for the period January 1, 2015 through December 31, 2015, with claims paid through January, 2016 as the basis for the 2017 projected small group market pricing. It is large and represents the closest experience base to the projected population. The benefit categories are the same as described in experience sections IV above**.**

VI.2 Changes in the Morbidity of the Population Insured

The morbidity adjustment reflects the anticipated changes in the average morbidity of the covered population (beyond allowable rating factors). HCA's experience is not credible. As discussed above, HCA utilizes the combined experience of several companies to estimate the impact of the changes in the morbidity of the population insured. Because of the transitional policies available in the small group market, the population expected to enroll in the ACA qualifying products is much smaller than the current 2015 experience population. We expect the relatively lower cost groups to remain outside the ACA single-risk pool. Based on the rates available to small groups under each rating structure, we estimate an increase of 29.1% over two years due to a combination of the disruptions affecting the small group market and the higher morbidity population selecting these products.

VI.3 Changes in Benefits

We made the following adjustments to reflect the expected differences in benefits between the experience period and projection period:

- We reflected the additional cost of the following benefits that must now be covered under the essential health benefit package for members moving into ACA compliant policies from the transitional pre-ACA policies which do not cover these benefits:
  - Pediatric dental and vision benefits: +$7.91
  - Autism benefits: +0.24%
- We reflected the following newly mandated benefits required under state law, which are not reflected in the experience period claims: None.

- We made an adjustment to reflect the removal of benefits covered in the experience period claims that will not be covered in the projection period: None.

VI.4 Changes in Demographics

We are projecting an increase in the average age from the experience period to the projection period due to the fact that the lower cost groups mentioned above in section VI.2 will be slightly younger than the remaining pool and will remain in transitional policies. There is no change assumed in the projected area factor.

VI.5 Trend Factors (cost/utilization)

This development of the CY 2017 rates reflects an annual trend rate of 9.0%. HCA is expecting an annual trend rate of 10.2% (7.0% cost, 3.0% utilization), as presented in the original filing, but reduced the trend used in the rate development based upon the request of the Pennsylvania Insurance Department. These trends reflect HCA's expectations regarding increases in in-network contractual reimbursement. The annual trend estimates include the impact of trends in both projected in-network and out-of-network costs. These estimates measure and normalize for benefit leverage, population aging, and historical changes for fee schedules, as well as company-wide utilization management programs, and external trend drivers.

The trend represents a blended average for all types of service and is applied to the aggregate experience for pricing. These trends represent assumed community-wide expectations. Claim variations due to the specific projected enrolled population in this single risk pool are reflected in the morbidity adjustment.

We reflected anticipated changes in the average utilization of services due to differences in average cost sharing requirements during the experience period and average cost sharing requirements in the projection period: -0.7%.

VII. Credibility of Experience

Our results are based 100% on the manual rate, developed from the combined experience for HCA, Highmark Inc., Highmark Health Insurance Company, and Highmark Choice Company non-grandfathered plans in 2015. This combined experience is large enough to be fully credible.

VIII. Paid to Allowed Ratio

For 2017, an average paid-to-allowed ratio of 85.0% is projected. This is a decrease from the 87.4% in the experience period due to anticipated employer selection of plan designs, along with historical benefit buy-down rates.

IX. Risk Adjustment and Reinsurance

IX.1 Projected Risk Adjustments PMPM:

As we have seen in 2014 and 2015, many of the Small Group market customers have retained their pre-ACA coverage through the transitional coverage provisions, and have yet to join the ACA risk pool. With the transitional coverage provisions extension through the end of 2017, we continue to believe that many groups will retain their current transitional coverage until required to transfer coverage by January 1, 2018. The customers who have transitioned to the ACA pool to date have included members with relatively higher morbidity and since that is the case across the ACA risk pool, we do not anticipate that the risk adjustment transfers will offset the higher average cost of these members.

To determine our estimated risk transfer for 2017, we examined historical risk scores calculated from the factors in the HHS Notice of Benefit and Payment Parameters, and other risk adjustment transfer formula components, for those members anticipated to be covered by HCA in 2017. We then estimate the statewide average risk scores and other transfer formula components by examining the risk transfer results from 2014, and utilizing other information we are able to obtain regarding the statewide risk profile. This information set includes the results from our participation in a risk adjustment study, which provides insight into the 2015 risk adjustment transfer results, and other publicly obtainable market-wide data, such as MLR reports. We do not anticipate significant migration into the small group risk pool from external populations (such as the uninsured).

Given the anticipated profile of the membership within HCA in 2017, and our estimated market-wide profile, we are assuming that HCA members will have a risk adjustment profile slightly more favourable than the market-wide averages, and that HCA will be making a small contribution into the risk adjustment program in 2017, increasing premiums in the rate development by $1.70 PMPM.

IX.2 Projected ACA Reinsurance Recoveries Net of Reinsurance:

The Individual ACA Reinsurance program will be terminating at the end of 2016. For the 2017 rating period, there is no Reinsurance Premium amount to include in the rate development.

X. Non-Benefit Expenses and Profit & Risk

X.1 Administrative Expense Load:

The proposed rates reflect internal administrative costs, including commissions and quality improvement admin. This cost was developed based on its standard expense allocation methods.

X.2 Profit (or Contribution to Surplus) & Risk Margin:

These revised rates reflect a 0% risk/contribution to surplus margin for all products and plans.

X.3 Taxes and Fees:

Although the Health Insurance Provider Fee will not be collected in 2017, the fee will be collected in 2018. As such, for any groups with renewal dates other than January 1, 2017, the group's renewal period will extend into 2018, where the premiums will need to include a charge for this fee. For the 2017 rate development, the quarterly rates have been adjusted so that the appropriate pro rata portion of this fee is collected based on a group's renewal quarter as follows:

Renewal Quarter	Health Insurance Provider Fee
1Q	0.000%
2Q	0.875%
3Q	1.750%
4Q	2.625%

In total, the following fees were added:

- $0.19 Per Member Per Month for the Patient Centered Outcomes Research Fee (included above in admin)

- Percent indicated as above based on renewal quarter for the Health Insurance Provider Fee; the premium weighted average of the above table is 1.6%, which is used in the URRT, Worksheet 2, in determining the projected period Plan Adjusted Index Rate

XI. Projected Loss Ratio

The anticipated medical loss ratio is about 91.6% relative to total premium less taxes and fees. This loss ratio is calculated consistent with the federally prescribed MLR methodology.

XII. Single Risk Pool

As described above the base experience used includes all of HCA's, Highmark Inc.'s, Highmark Health Insurance Company's, and Highmark Choice Company's small group non-grandfathered members in accordance with the Single Risk Pool regulations. The projected membership and their corresponding premiums and claims only include those members who will be enrolled in a fully ACA-compliant plan in 2017 under HCA.

XIII. Index Rate

The index rates as shown on Worksheet 1 of the URRT are simply the average allowed claims for the Essential Health benefits for the experience and projected populations, respectively, for HCA. It is not adjusted for the risk adjustment program or any other fee. For the projection period, it is the member-weighted average of the quarterly rate indices (Jan 1, Apr 1, Jul 1, and Oct 1) based on the assumed membership distribution effective in each quarter, as shown in the table below.

2017	% of Members	Projected Quarterly Index Rate PMPM
1Q	28.3%	$616.64
2Q	18.1%	$630.07
3Q	16.5%	$643.79
4Q	37.1%	$657.81
Composite	100.0%	$638.84

See the sections below for a description of how the projected index rate is adjusted to arrive at each plan adjusted index rate.

XIV. Market Adjusted Index Rate

Please see Exhibit I for a numerical demonstration of the Market Adjusted Index Rate development. The Market Adjusted Index Rate is the Index Rate further adjusted for risk adjustment and the exchange fee (all grossed up from paid to imputed allowed values). The Risk Adjustment factor is developed by taking one minus the grossed up expected risk transfer (net of the fee) and dividing by the projected incurred claims before risk adjustment. The Exchange User Fee factor is developed by adding the expected average exchange fee PMPM to the projected incurred claims after risk adjuster, then dividing by the projected incurred claims after risk adjuster. These adjustments were developed as factors in accordance with the Part III instructions.

XV. Plan Adjusted Index Rates

Plan Adjusted Index Rates are developed by taking the Market Adjusted Index Rate and adjusting for each plan's actuarial value, relative benefit richness, relative network, and remaining administrative expenses (including profit and risk, and taxes and fees). Please see Exhibit II for the development of the Plan Adjusted Index Rate for each plan. The administrative expenses do not vary by plan.

Note that component (iv) of the URRT AV pricing value (administrative costs, excluding Exchange user fees) includes the Health Insurance Provider Fee, which varies throughout the year based on renewal date (see section X.3 above). This component of the AV pricing value is presented in Exhibit II as the premium weighted average administrative charge for the year. The Plan Adjusted Index Rates presented in Exhibit II match those on the URRT.

XVI. Calibration

XVI.1 Age Curve Calibration (to age 46, non-smoker, area with 1.0 geographic factor, January 1 effective date):

The projected weighted average age factor is 1.479. Each Plan Adjusted Index Rate represents the rate for an average member (i.e., a member with an age factor is 1.479). Please note that no member will pay these rates because the age factor of 1.479 is not found

on the HHS Age Curve. It only represents the average age factor of the projected population. The closest age factor (1.500) is the factor for a person age 46. Please see Exhibit I for the development of the calibration factor.

XVI.2 Geographic Factor Calibration:

The projected weighted average geographic factor is 0.9702. Each Plan Adjusted Index Rate represents the rate for an average member with a geographic factor of 0.9702. Please note that no member will pay these rates because HCA is not using a geographic factor of 0.9702 for any of the Pennsylvania rating areas. It only represents the average geographic factor of the projected population. Please see Exhibit I for the development of the calibration factor.

XVI.3 Quarterly Trend Factor Calibration:

The Plan Adjusted Index Rate represents the average rate renewing over the four quarters of 2017. Exhibit I also shows the factor to de-trend to calibrate to the rate for a 1/1/2017 renewal.

XVII. Consumer Adjusted Premium Rate Development

The Plan Adjusted Index Rate represents the rate for a non-smoker average age and average geographic member for an average quarterly renewal. HCA is filing quarterly Index Rate trends of 2.17% per quarter. In addition to the Index Rate trends, the quarterly Plan Adjusted Index Rates will also increase by the quarterly change in the Health Insurance Provider Fee (discussed above). The Plan Adjusted Index Rates in Worksheet 2 Row 81 reflect an average combined trend of 5.3% for the four quarter renewal rating period.

The appropriate value to calibrate the Plan Adjusted Index Rate by is located at the bottom of Exhibit I. By applying the 'Combined Calibration Factor' found in Exhibit I to the Plan Adjusted Index Rates the resulting value will represent the plan premium for a 46 year old in a 1.0 area on 1/1/2017. The standard HHS Age Curve and area factors of 0.97 for regions 1, 2, 4, and 5; and 1.04 for region 6 can be used to calculate any rate found in the QHP rate template.

XVIII. AV Metal Values

The AV Metal Values included in Worksheet 2 of the Part I Unified Rate Review Template were based entirely on the Federal AV Calculator. No adjustments were needed for any benefits from those values produced by the AV calculator.

XIX. AV Pricing Values

The "URRT AV Pricing Value" shows the adjustment from the Market Average Index Rate to the Plan Adjusted Index Rates on Exhibit II. Please see Exhibit II for the portion of each AV pricing value that is attributable to each of the allowable modifiers.

As mentioned above, component (iv) of the URRT AV pricing value (administrative costs, excluding Exchange user fees) includes the Health Insurance Provider Fee, which varies throughout the year based on renewal date (see section X.3 above). This component of the AV pricing value is presented in Exhibit II as the premium weighted average administrative charge for the year.

XX. Membership Projections

We project that the bulk of the members in the small group market will remain outside of the ACA compliant products, and remain outside the single-risk pool. HCA offers broad network products in Western PA, and is not expected to gain enrollment from 2015 experience period levels. In 2017, we are anticipating a drop in enrollment from 2015 levels. We expect that most or our ACA enrollment in the Western PA region to enroll in Highmark Inc. products. See row 48 of Worksheet 2 to the URRT to see projected membership by plan.

XXI. Terminated Products

HCA is terminating 8 QHP products that were new in 2015 and 2016. These products need to be terminated due to changes in the CMS Actuarial Value calculator for 2016 and 2017, which would have valued these plans outside of the regulated metal level bands. These products will be mapped to a corresponding QHP product of similar metal level and plan design.

Exhibit III lists all terminating plans, as well as plan mappings for the terminated QHP plans.

XXII. Plan Type

The Plan types listed in Worksheet 2, Section I of the Part I Unified Rate Review Template describe HCA's plans adequately. No differences are needed.

XXIII. Warning Alerts

The following differences between the plan-level projections in Worksheet 2 and the total projected amounts found in Worksheet 1 were noted. Explanations regarding these differences are as follows:

- Total Premium in the Experience Period in Section III – The Total Premium in the Experience Period in worksheet 2 is a weighted average of the plan adjusted index rates. This result varies from the Premiums in the Experience Period from Worksheet 1 due to differences in the distribution of ages, geography, and benefits between what is assumed in the index rate development and the actual experience. In addition, the Premiums in the Experience Period from Worksheet 1 would include the anticipated risk adjustment transfer payments for 2015, which are significant enough to trigger the warning alert in comparing the two experience premium values.

XXIV. Actuarial Certification

I am a member of the American Academy of Actuaries and meet its qualification standards for actuaries issuing statements of actuarial opinions in the United States. This filing is prepared on behalf of HCA to accompany its rate filing (for calendar year 2017) for the small group combined market on and off the Pennsylvania Exchange.

I hereby certify that the projected index rate is, to the best of my knowledge and understanding:

- In compliance with all applicable State and Federal Statutes and Regulations (45 CFR 156.80(d)(1)), and
- Developed in compliance with the applicable Actuarial Standards of Practice.

As originally filed, the rates were not excessive, inadequate, or unfairly discriminatory, and were reasonable in relationship to the benefits provided. The Pennsylvania Insurance Department has required HCA to re-submit lower rates.

I certify that the index rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2) were used to generate plan level rates. The allowable modifiers used to generate plan-level rates were:

- The actuarial value and cost-sharing design of the plan.
- The plan's provider network, delivery system characteristics, and utilization management practices.
- The benefits provided under the plan that are in addition to the essential health benefits. These estimated benefits were pooled with similar benefits within the single risk pool and the claims experience from those benefits was utilized to determine rate variations.
- Administrative costs, excluding Exchange user fees.

I certify that the percent of total premium that represents essential health benefits included in Worksheet 2, Sections III and IV were calculated in accordance with actuarial standards of practice.

I certify that the benefits included in HCA's plans are substantially equivalent to the Essential Health Benefits (EHBs) in the State of Pennsylvania's benchmark plans. I certify that any benefit substitutions are:

- Actuarially equivalent to the benefits being replaced,
- Are made within only the same essential health benefit category,
- Are based on a standardized plan population,
- Are determined regardless of cost-sharing,
- Are not prescription drug benefits, and

- Are based on an analysis performed in accordance with generally accepted actuarial principles and methodologies.

I certify that the AV Metal Values included in Worksheet 2 of the Part I Unified Rate Review Template were based entirely on the Federal AV Calculator.

I certify that the geographic rating factors reflect only differences in the costs of delivery (which can include unit cost and provider practice pattern differences) and do not include differences for population morbidity by geographic area.

The Part I Unified Rate Review Template does not demonstrate the process used by HCA to develop the rates. Rather, it represents information required by Federal regulation to be provided in support of the review of rate increases, for certification of qualified health plans for federally facilitated exchanges and for certification that the index rate is developed in accordance with Federal regulation and used consistently and only adjusted by the allowable modifiers.

[1] **Permitted Plan-Level Adjustments to the Index Rate as prescribed in 45 CFR Part 156, §156.80(d)(2):**

(i) The actuarial value and cost-sharing design of the plan.
(ii) The plan's provider network, delivery system characteristics, and utilization management practices.
(iii) The benefits provided under the plan that are in addition to the essential health benefits.
(iv) Administrative costs, excluding Exchange user fees.
(v) With respect to catastrophic plans, the expected impact of the specific eligibility categories for those plans.

Pennsylvania Actuarial Memorandum

REDACTED VERSION

1. Basic Information and Data

A. Company Information

1. Company Name & NAIC #: **Highmark Coverage Advantage, NAIC # 15507 ("Company")**

2. Market (Individual or Small Group): **Small Group ("Market")**

3. On or Off Exchange: This Company sells Off Exchange only in the Small Group Market

4. Effective date of coverage: January 1, 2017

5. Average rate change requested: -8.99% increase

6. Range of rate change requested: -17.30% to -6.90% (PA Actuarial Memorandum Exhibits); -17.15% to -6.74% (URRT Worksheet 2 Row 27 Cumulative Rate Change % (over 12 mos prior))

   Please note the rate increases by plan design will slightly differ between the PID's Final 2017 PA Actuarial Memorandum Rate Exhibits Rev 4-21-2017.xlsx template and URRT worksheet 2 row 27 since we maintained the 2016 quarterly distribution of enrollment as filed last year when calculating the average 2016 Calibrated Plan Adjusted Index Rate PMPMs in column Z of table 10 in the PA Rate Exhibits while the URRT utilizes a consistent enrollment distribution by quarter for both years based on the 2017 projected distribution. Therefore, we have included above the range of rate changes requested from both templates. The range from the URRT would be the more accurate way to calculate the average rate increases since it uses a consistent enrollment basis and would not be skewed by the change in quarterly enrollment from one year to the next.

7. Product(s) (Indemnity, HMO, POS (HMOs only), PPO, or EPO): PPO

8. Rating Areas: Regions 1, 2, 4, 5, 6 (Western, PA only)

9. Metal Levels and Catastrophic Plans: This Company sells the following Metal Levels of coverage in the Small Group Market: Platinum, Gold, Silver, Bronze

10. Current number of covered lives and of policyholders: 1,927 covered lives; 1,020 policyholders

11. Number of plans offered in 2017: 22

    Inclusion of premium rates in this filing for a given offering should not be construed to mean that the offering will ultimately be made available for sale in the market. Final offering decisions will be made consistent with and within the timelines set forth in CMS rules and/or ACA regulations.

12. Corresponding contract form #, SERFF and Binder ID #s: The corresponding SERFF binder number is HGHM-PA17-125059897 affecting the following Company products and forms:

Product Name / Type	Contract Form & SERFF #
PPO	HCA/PPO-3; HGHM-130517558
HDHP PPO	HCA/HDHP-3; HGHM-130517613

13. HIOS Issuer ID # and submission tracking #: HIOS Issuer ID # 79279, Company Filing # 1A-SG-HCA-2016 (SERFF Filing # HGHM-130535903)

B. Rate History and Proposed Variations in Rate Changes

The three most recent rate changes in Pennsylvania for the Company are as follows:

Year	Avg. Increase	SERFF ID#
2016	9.7%	HGHM-130064398
2015	n/a – initial ACA rate filing	HGHM-129641968

Rate changes tend to vary by plan, as plan benefits may need adjusted to help maintain compliance with metal level requirements, and other base rate components are re-evaluated each year (pricing actuarial factor and network discount). For 2017, the Company's proposed rate revisions vary by plan, according to the detail presented in the URRT, Worksheet 2, and the PA Rate Template Table 10.

C. Average Rate Change

The SERFF Rate Review Detail Screen presents the "percent rate change requested" as a -8.99% increase.

For comparison, the change in 21-year-old non-tobacco premium PMPM calculated in Table 11, cell AZ13, is a -9.1% increase.

D. Membership Count

Please see Table 1 for the age breakdown and total number of small group members with ACA policies only for the periods shown.

E. Benefit Changes

Many plans required benefit changes because of the new Actuarial Value (AV) calculator released for 2017 effective dates. The plan changes were mostly required so that the plans remained within the defined metal level AV requirements, and were enacted by slightly increasing member cost sharing and the maximum out of pocket levels.

The following were changes to the Essential Health Benefits due to the 2017 Benchmark Plan:

- Hospice Benefit – addition of respite care for 7 days per six months
- Coverage for Artificial Insemination, including specific related medications
- Coverage for Dental Accident
- Added visits for Habilitative Therapy Services

In addition, the non-EHB benefit of the Adult Vision Eye exam was removed from plan coverage.

The screenshots from the AV calculator, showing the plan benefits and the resulting actuarial value, have been submitted as separate attachments in SERFF. Also submitted in SERFF is a detailed summary by plan design (including HIOS ID) highlighting the benefit changes from 2016 to 2017.

F. Experience Period Claims and Premium

Please see Table 2 for the experience period data for the most recent calendar year, for the Company and Market. The experience period paid claims data represents the 2015 calendar year results for all non-grandfathered policies (including transitional policies) in the single risk pool, with run out through January 2016. This data is consistent with the data reported in Section I of Worksheet I of the URRT (see below commentary).

The components of this exhibit were developed as follows:

- The Earned Premium represents actual revenues earned in the experience period. Unlike the Premiums shown in the URRT, the Earned Premiums in Table 2 have not been adjusted for anticipated risk adjustment transfer payments. The sum of the Earned Premium and Estimated Risk Adjustment from Table 2 total the Premiums in the URRT.
- The Allowed Claims represent our best estimate of the total claims prior to member cost sharing incurred during the experience period. The Allowed Claims include:
    - One month of run out from the end of the experience period,
    - Claims processed outside of the Company's claims system (e.g., claim settlement costs), and
    - Our best estimate of claims incurred but not paid as of the end of the run out period.

  Note that the Incurred Claims and Allowed Claims presented in the URRT are net of the Prescription Drug Rebates, while Table 2 has the Prescription Drug Rebates separately identified.
- There are no non-EHB benefits or costs in the experience period.
- There are no capitated claim services in the experience period.
- Prescription Drug Rebates are used to reduce the level of Incurred Claims in the experience period.
- The Estimated Risk Adjustment represents our best estimate of the year end risk adjustment transfer payment that the Company will incur based on the results in the experience period. This amount is developed based on an analysis of Company data (risk scores as defined in the HHS Notice of Benefit and Payment Parameters, as well as other risk transfer formula components), and an estimate as to the Market-wide risk transfer component profile. This Market-wide profile is developed from available Market data, including prior years' risk adjustment transfer results, publicly available data (such as MLR reports), and outside expertise from actuarial consultants.
- The Small Group Market is ineligible for Reinsurance Recoveries.

Note that the experience presented in Table 2 is not 100% credible (see Credibility of Data section below). Thus we have prepared the requested Table 2b showing the 100% credible experience used in the development of the rates.

G. Credibility of Data

The Company's experience is not credible on its own. To develop the experience used in the rating and trend analysis, the Company utilizes experience from its parent company, Highmark Inc., as well as Highmark Inc.'s other subsidiaries, Highmark Health Insurance Company and Highmark Choice Company. This combined experience is utilized to obtain a more credible and broader base from which to develop the rating and trend components. For the Company, the following additional companies' experience was used, limited to the Rating Areas specified in section 1.A.8: Highmark Inc., Highmark Health Insurance Company, and Highmark Choice Company.

Given the combined company experience used to develop the rating, the Company has provided the requested Tables 2b and 4b within this filing submission.

H. Trend Identification

Table 3 identifies the annual medical and prescription drug allowed claims cost and utilization trends, as requested by the Pennsylvania Insurance Department. The underlying total annual trend is 9.0%, which represents a reduction from the Company's requested annual trend of 10.2%. The definitions of service categories, cost, and utilization in Table 3 are consistent with the URRT instructions. The numbers entered in the Cost and Utilization columns are consistent with those entered in Worksheet I, Section 2 of the URRT, except as noted below.

The Company's originally filed cost trends reflect the Company's expectations regarding increases in in-network contractual reimbursement, as well as projected out-of-network costs. These estimates measure and normalize for benefit leverage, population aging, and historical changes for fee schedules, as well as company-wide utilization management programs, and external trend drivers.

The trend components represent a blended average for all types of service and are applied to the aggregate experience for pricing, and as such Table 2 shows the same trend components for each service category.

Note that the URRT instructions require that anticipated changes in the average utilization of services due to differences in average cost sharing requirements from the experience period to the projection period be reflected in the Utilization trend component shown in Worksheet I, Section 2. This component of the trend is not reflected in Table 3, as the inclusion of this component would have altered the underlying pricing trend required for our quarterly rate development in table 5A – Small Group Projected Index Rate with Quarterly Trend. Therefore, the Company has provided Table 3b, which would reflect the actual trend component values presented in the URRT. Table 3b was provided for informational purposes only.

For this Small Group Market filing, quarterly rates are proposed, with rates adjusted each quarter based on the Total Annual Trend presented in Table 3.

I. Historical Experience

Table 4 presents the most recent 36 months (3 calendar years) of Company data with run-out through January 2016.

As mentioned above within Credibility of Data section, the Company utilizes experience combined from several its available corporate entities to develop the experience used in the trend development. Combined Historical Experience data from the above referenced companies is presented in Table 4b.

2. Rate Development & Change

A. Development of Projected Index Rate, Market-Adjusted Index Rate, & Total Allowed Claims

The development of the Projected Index Rate, Projected Market-Adjusted Index Rate, and Projected Total Allowed Claims, shown in Table 5, closely follows that utilized the development presented in Worksheet 1 of the URRT, a discussion of which can be found in the Part III Actuarial Memorandum submitted in the Rate Filing Justification. Some of the items separately identified in Table 5 include:

- The Change in Demographics adjustment reflects the change in age and geography factors we expect from the experience period to the projection period.
- The Change in Network adjustment reflects the change in the allowed claims we anticipate due to network contracting changes between the experience period and the projection period.
- The Change in Benefits adjustment reflects the change in the EHB benefits (autism and pediatric benefits) we anticipate between the experience period and the projection period.
- The Change in Other adjustment reflects the change in the utilization of services due to benefit elections we anticipate between the experience period and the projection period.

Note that the URRT develops the Index Rate and the Plan Adjusted Index Rate using the projected distribution of members by plan, whereas Table 5 uses a recent distribution (as of February 1, 2016) of members by plan. Any comparison between the URRT values and the Table 5 values will show variances to the extent that there are variances in the assumed underlying membership distributions.

For this Small Group Market filing, Table 5A has been completed, showing the number of member months renewing by quarter, and the quarterly Single Risk Pool Projected Allowed Claims.

B. Retention Items

Table 6 has been completed with the requested retention elements for the proposed rates for the rating period. The amounts presented separately sum to the total administrative expenses and taxes and fees presented in the rate development. Administrative costs reflect internal costs that the Company is projected to incur in the projected experience period, and are developed from standard expense allocation methods. Agent/broker fees and commissions reflect our anticipated costs for these items in the experience period.

Note the following regarding plan level retention items:

- These revised rates reflect a 0% risk/contribution to surplus margin for all products and plans.
- The Health Insurer Provider Fee is being applied quarterly, at a prorated level appropriate for the level of premium renewing in 2018. Although the Health Insurance Provider Fee will not be collected in 2017, the fee will be collected in 2018. As such, for any groups with renewal dates other than January 1, 2017, the group's renewal period will extend into 2018, where the premiums will need to include a charge for this fee. For the 2017 rate development, the quarterly rates have been adjusted so that the appropriate pro rata portion of this fee is collected based on a group's renewal quarter as follows:

Renewal Quarter	Health Insurance Provider Fee
1Q	0.000%
2Q	0.875%
3Q	1.750%
4Q	2.625%

- The administrative expenses do not vary by plan.
- The $0.19 PMPM Patient Centered Outcomes Research Fee was factored into the administrative expense percentage of premium.
- Expenses for Quality Improvement Initiatives are included in the general and claims admin percentage and were not broken out separately.

Please note that for the Small Group Market the Projected Required Revenue PMPM shown in Table 6 will not match the URRT Worksheet 1 Single Risk Pool Gross Premium Average Rate PMPM since the value in the URRT is based on a January 1 effective date without reflecting the impact of quarterly rates in the small group market.

C. Normalized Market-Adjusted Projected Allowed Total Claims

The normalization factors presented in Table 7 are each determined from the underlying membership demographics expected in the projected rating period. The 2016 values are pulled from the prior year's filing, while the 2017 values represent our projection for 2017 assumed in the 2017 rate development.

D. Components of Rate Change

Table 8 presents the components of change in the proposed 2017 Calibrated Plan Adjusted Index Rate (PMPM). The 2016 base period allowed claims as developed from the 2016 rate filing. Row H of Table 8 may differ from Row A due to the detailed breakdown of all the components of the increases in rows B through G not calculating exactly to the change in the calibrated plan adjusted index rate in Row A, which is the more accurate percentage change based on the rate development.

Table 9 presents the data elements supporting the calculations in Table 8. Note the following differences between the Table 9 values presented for 2016 and the values from the 2016 URRT:

- The 2-year trend shown in the URRT (Cost and Util components combined) would include the anticipated changes in the average utilization of services due to differences in average cost sharing requirements from the experience period to the projection period. This trend

component is removed from the URRT Trend (2-Year Trend Factor) shown in Table 9 to be consistent with the reporting from Table 3.

- The adjustment representing the anticipated changes in the average utilization of services due to differences in average cost sharing requirements from the experience period to the projection period is included in the URRT "Other" factor shown in Table 9 (see preceding comment).
- The Risk Adjustment shown in Table 9 is the average risk adjustment charge for the projected experience year. In the URRT, the Projected Risk Adjustments represent the risk transfer adjustment for January 1 effective dates only.
- Taxes and Fees shown in Table 9 differ from the Taxes and Fees from the URRT as the Table 9 separates out the Exchange User Fee into a separate line item. In the URRT the Exchange User Fee is included in the Taxes and Fees line item.

3. Plan Rate Development

Table 10 showing the plan rate development has been completed following the instructions in the Health Insurance Rate Filing Guidance. This table shows the plans that the Company intends to offer in 2017, as well as plans recently discontinued from the 2016 portfolio for 2017 or the 2015 portfolio as members still exist in 2015 plans as of February 1, 2016 (small groups in these 2015 plans have not renewed yet in 2016 and were included to complete the company's enrollment in ACA plans as of February 1, 2016). The calibrated plan adjusted index rates for 2017 and 2016, and all of the supporting factors, are calculated according to the instructions. The rate change percentages calculated in Table 10 column AC by plan design will slightly differ between URRT worksheet 2 row 27 since the PID spreadsheet maintains the 2016 quarterly distribution of enrollment as filed last year while the URRT values utilizes a consistent enrollment distribution by quarter for both years based on this year's distribution.

Note that the HHS Actuarial Value Calculator was able to accommodate all of the Company's benefit designs, and that no adjustments were needed from the values produced by the calculator.

4. Plan Premium Development for 21-Year-Old Non-Tobacco User

Table 11 presents the Company's 21-year-old non-tobacco premium in the Market, premium weighted for quarterly trend and the prorated quarterly insurer fee. As mentioned in Section 1.C above, the change in 21-year-old non-tobacco premium PMPM calculated in this table is a -9.1% increase, which is close to the SERFF Rate Review Detail Screen "percent rate change requested" of -8.99% which comes from table 10.

5. Plan Factors

A. Age and Tobacco Factors

Please see Table 12 for the Company's age and tobacco factors.

B. Geographic Factors

Please see Table 13 for the Company's geographic factors. The Company's factors for the rating period are unchanged from the currently approved factors.

C. Network Factors

Please see Table 14 for the Company's network rating factors.

D. Service Area Composition

The Company follows the Rating Area designations created by the state. All counties within a Rating Area are serviced by the Company, according to the Rating Areas specified in Table 14.

E. Composite Rating

The Company is currently not planning to use CMS's composite rating method for any of its off-SHOP plans offered during the rating period; however, the Company is interested in the state adopting a methodology for the PA Marketplace that is more consumer friendly than the CMS method by utilizing composite rating tiers similar to transitional small group policies currently in the market (i.e. rates by contract types of Individual, Parent/Child(ren), Two Person (Adults), and Family).

6. Actuarial Certifications

I am a member of the American Academy of Actuaries and meet its qualification standards for actuaries issuing statements of actuarial opinions in the United States. This filing is prepared on behalf of the Company to accompany its rate filing (for calendar year 2017) for the small group combined Market on and off the Pennsylvania Exchange.

I hereby certify that the projected index rate is, to the best of my knowledge and understanding:

- In compliance with all applicable State and Federal Statutes and Regulations (45 CFR 156.80(d)(1)), and
- Developed in compliance with the applicable Actuarial Standards of Practice.

As originally filed, the rates were not excessive, inadequate, or unfairly discriminatory, and were reasonable in relationship to the benefits provided. The Pennsylvania Insurance Department has required the Company to re-submit lower rates.

I certify that the index rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2) were used to generate plan level rates. The allowable modifiers used to generate plan-level rates were:

- The actuarial value and cost-sharing design of the plan.
- The plan's provider network, delivery system characteristics, and utilization management practices.

- The benefits provided under the plan that are in addition to the essential health benefits. These estimated benefits were pooled with similar benefits within the single risk pool and the claims experience from those benefits was utilized to determine rate variations.
- Administrative costs, excluding Exchange user fees.

I certify that all factor, benefit and other changes from the prior approved filing have been disclosed in the 2017 PA Actuarial Memorandum Rate Exhibits.

I certify that the percent of total premium that represents essential health benefits included in Worksheet 2, Sections III and IV were calculated in accordance with actuarial standards of practice.

I certify that the benefits included in the Company's plans are substantially equivalent to the Essential Health Benefits (EHBs) in the State of Pennsylvania's benchmark plans. I certify that any benefit substitutions are:

- Actuarially equivalent to the benefits being replaced,
- Are made within only the same essential health benefit category,
- Are based on a standardized plan population,
- Are determined regardless of cost-sharing,
- Are not prescription drug benefits, and
- Are based on an analysis performed in accordance with generally accepted actuarial principles and methodologies.

I certify that new plans are not considered modifications of existing plans (per the uniform modification standards in 45 CFR 147.106).

I certify that the AV Metal Values included in Worksheet 2 of the Part I Unified Rate Review Template were based entirely on the Federal AV Calculator.

I certify that the geographic rating factors reflect only differences in the costs of delivery (which can include unit cost and provider practice pattern differences) and do not include differences for population morbidity by geographic area.

The Part I Unified Rate Review Template does not demonstrate the process used by the Company to develop the rates. Rather, it represents information required by Federal regulation to be provided in support of the review of rate increases, for certification of qualified health plans for federally facilitated exchanges and for certification that the index rate is developed in accordance with Federal regulation and used consistently and only adjusted by the allowable modifiers.

I certify that the information presented in the PA Actuarial Memorandum and PA Actuarial Memorandum Rate Exhibits is consistent with the information presented in the 2017 Rate Filing Justification.

Signed: [Redacted]
