Geisinger Health Plan

July 13, 2017

Ms. Johanna Fabian-Marks – Special Deputy and Acting Director
Bureau of Life, Accident and Health Insurance
Commonwealth of PA – Department of Insurance
1311 Strawberry Square
Harrisburg, PA 17120

Dear Ms. Fabian-Marks,

The following is in response to the Department's guidance as of July 6, 2017:

1. Company Name & NAIC#: Geisinger Quality Options – NAIC# 12743
2. Market: Small Group
3. Off Exchange only
4. Effective date of coverage: January 1, 2018
5. Average rate change requested: 14.8%
6. Range of rate change requested: 7.3% to 24.8%
7. Product: PPO
8. Rating areas: 2, 3, 5, 6, 7 and 9 (NO change from 2017)
9. Metal Levels & Catastrophic Plans: Platinum, Gold, Silver, and Bronze plans
10. Current number of covered lives and of policyholders as of 2/1/17: 5,358 covered lives and 3,284 policyholders
11. Number of plans offered in **2018**: 8 platinum plans, 16 gold plans, 6 silver plans, and 1 bronze plan (for a total of 31 plans); Number of plans offered in **2017**: 8 platinum plans, 14 gold plans, 10 silver plans, and 1 bronze plan (for a total of 33 plans)
12. Contract form #: M-152-121-F Rev. 01/18, M-152-122-F Rev. 01/18, M-152-243-F Rev. 01/18, M- 152-249-F Rev. 01/18; SERFF #: GSHP-131024110; Binder ID #: GSHP-PA18-125072379
13. HIOS issuer ID: 75729; HIOS submission tracking#: 75729-963513410203478020

For a detailed explanation of our rate development, please refer to the "actuarial memorandum and attestation" uploaded in SERFF under the "supporting documentation" tab.
Thank you for your consideration. Please contact me if you have any additional questions.

Sincerely,

Kurt J. Wrobel, FSA, MAAA
Chief Financial Officer and Chief Actuary

cc. Sarah MacDerment, FSA, MAAA, Actuarial Director
Everard Riley, ASA, MAAA, Associate Actuary
Victoria Bardsley, Actuarial Manager

Geisinger Health Plan may refer collectively to Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted.

Geisinger Quality Options – Small Group Plans

Rate request filing ID # GSHP-131024110 - This document is prepared by the insurance company submitting the rate filing as a consumer tool to help explain the rate filing. It is not intended to describe or include all factors or information considered in the review process. For more information, see the filing at http://www.insurance.pa.gov/Consumers/ACARelatedFilings/

Overview

Initial requested average rate change:	14.2%
Revised requested average rate change:	14.8%
Range of requested rate change:	7.3%-24.8%
Effective date:	1/1/2018
People impacted:	5,358
Available in:	Rating areas 2, 3, 5, 6, 7 and 9

Key information

Jan. 2016-Dec. 2016 financial experience

Premiums	$100,288,444
Claims	$83,324,094
Administrative expenses	$9,643,116
Taxes & fees	$5,667,655
Company made (after taxes)	**$1,653,578**

How it plans to spend your premium
This is how the insurance company plans to spend the premium it collects in 2018:

Claims:	81.60%
Administrative:	6.98%
Taxes & fees:	6.42%
Profit:	5.00%

The company expects its annual medical costs to increase 8.6%.

Explanation of requested rate change

Geisinger Quality Options has proposed an overall base rate increase of 14.8% for Small Group PPO members renewing in the Marketplace effective January 1, 2018 through December 1, 2018. The actual range of proposed rate increases vary from a minimum of 7.3% to a maximum of 24.8%. The overall increase is due to the claims experience in ACA compliant Small Group market plans being higher than what was assumed in the current rates. Other contributing factors include annual claims trend, taxes and changes in the federal risk adjustment program. The total projected 2018 administrative costs are approximately the same as those used for the current 2017 rates. As required by federal regulations and using the Federally prescribed MLR methodology, the projected loss ratio exceeds 80%. There were minimal benefit changes proposed for 2018.

Actuarial Memorandum – Small Group PPO

General Information

Company Identifying Information (as included in **Table 0**)

Company Legal Name: Geisinger Quality Options State: Pennsylvania

HIOS Issuer ID: 75729

NAIC Number: 12743 Market: Small Group

Effective Date: 1/1/2018

Company Contact Information

Primary Contact Name: Sarah MacDerment

Primary Contact Phone: 570-214-2348

Primary Contact email address: smmacderment@thehealthplan.com

Filing Information

HIOS Submission Tracking Number: 75729-963513410203478020

Contract Form Number: M-152-121-F Rev. 01/18, M-152-122-F Rev. 01/18, M-152-243-F Rev. 01/18, M-152-249-F Rev. 01/18

SERFF Number: GSHP-131024110

Binder ID Number: GSHP-PA18-125072379

Rate History and Proposed Variations in Rate Changes

Rate History

The recent historical rate increases are summarized in the table below.

Year	Average Increase	SERFF ID#
2015	24.3%	GSHP-129625169
2016	9.9%	GSHP-130072619
2017	-0.3%	GSHP-130558380

For 2015, the increase was not uniform, but varied by plan. These increases varied from 21.2% to 26.9%. For 2016, the increases also varied by plan and ranged from -7.9% to 11.6% for an overall increase of 9.9%. The increases for 2017 also varied by plan and ranged from -5.9% to 1.4% increase for an overall decrease of -0.3%.

Proposed Rate Increase

This filing applies to PPO products, sold off exchange in rating areas 2, 3, 5, 6, 7 and 9. There will be 8 platinum plans, 16 gold plans, 6 silver plans, as well as 1 bronze plan for a total of 31 plans offered in 2018. As of February 2017, 5,358 covered lives and 3,284 policyholders will be impacted by this filing. The proposed overall rate increase is 14.8% but is not uniform by plan. The rate increases range from 7.3% to 24.8%. Table 11 shows the increases at the plan level. These increases vary by plan due to benefit changes necessary to maintain the desired metal level and cost sharing changes mandated by ACA as well changes in pricing factors.

Average Rate Change

The average rate change entered as the "percent rate change requested" in the SERFF Rate Review Detail Screen is the same as listed in Table 10, cell AC15. It is the change in the Calibrated Plan-adjusted Index rate (as instructed by the Department). In addition, the change in 21-year-old non-tobacco premium PMPM, as calculated in Table 11, cell AN13, is 14.3%. Finally, the URRT Worksheet 1 "percent increase over Experience Period" (in cell V45) is 36.73% and the "percent increase annualized" (in cell V46) is 16.93%.

Membership Count

Table 1 shows the average age and the member months in the experience period of calendar year 2016, as well as the average age and the current members as of February 1, 2017 by age range. The projected member months for the rating period are also included.

Benefit Changes

There are many benefit and cost sharing changes to the plans covered by this filing. Benefits for adult eye exam were removed from the experience period as a result of the change in the 2017 benchmark plan for Pennsylvania. These services are estimated to account for .08% of the claims cost. As a result of changes to the AV calculator, several plan's cost sharing elements were slightly adjusted to maintain the same metal level. To meet the metallic level, plans were adjusted by first changing the out-of-pocket maximum, then the deductible, and finally the copays while only adjusting as necessary to meet the metallic level and still offer a competitive product.

Reason for Rate Increase

The components of this rate decrease are:

- Single Risk Pool experience (i.e. the "Base period allowed claims before normalization" on Table 8) which is more adverse than assumed in current rates;
- Medical Inflation;
- Utilization trend;
- Changes in administrative expenses;
- Changes in ACA fees;
- Changes in covered benefits
- Changes in Risk Adjustment.

Each of these components is discussed in detail under the "Adjustments Made to the Data" section of this document and are displayed in Table 8 of the exhibits.

Experience Period Premium and Claims

Paid Through Date

The Experience Period data provided in the URRT Worksheet 1, Section I and in Table 2 is incurred in calendar year 2016 and paid through February 2017. As discussed below, the data in Table 2 of the exhibits is consistent with the data provided in the URRT in Worksheet 1, Section 1 (except for the incurred claims and the allowed claims).

Premiums (net of MLR Rebate) in Experience Period
Premiums include earned premiums for calendar year 2016 for the Single Risk Pool. Premiums are not reduced by taxes and/or assessments. MLR rebates are not expected to be paid for this block of business. Initial estimates of rebates have been completed utilizing the methodology required for the CY 2015 rebate filing. Estimates suggest that the small group market MLR will be above the minimum MLR target of 80%.

Allowed and Incurred Claims Incurred During the Experience Period
The Experience Period Claims are based on small group non-grandfathered business incurred and paid claims with IBNR added for the tail of claims incurred but not paid. Allowed claims are directly from claim records. However, per the 2018 URRT Instructions, we have added all private reinsurance recoveries back into both our paid and allowed claims (since our claims records were net of these recoveries). For both paid and allowed claims the same IBNR factors were used. The IBNR factors were based on legal-entity level claims completion tables which include individual and group commercial experience. This method is appropriate in order to assure proper credibility and because timing of claims payment to providers does not vary by market or product.

There were no non-EHB benefits in the experience period.

Geisinger outsources several benefits and therefore has capitation expenses. The capitated expenses cover chiropractic services, nurse line, and mental health services including autism. The capitation amount for the experience period is displayed on Table 2 and is included in both the Incurred Claims and Allowed Claims on Worksheet 1 of the URRT. The capitation charges are uniform and do not vary by age. NOTE: The capitation amount paid for our private reinsurance program (net of actual recoveries) has been removed from the capitation amount in Table 2 and moved to the "Change in Other" category in Table 5.

Pharmacy rebates are listed on Table 2. These rebate dollars would be removed from the Ultimate Incurred Claim liability to the insurer and are removed from the Incurred Claims and the Allowed Claims on Worksheet 1 of the URRT.

The estimated risk adjustment for the experience period are based on an external analysis performed by the Department. They estimated the Risk Adjustment transfer payment based on the population risk scores relative to an assumed market average risk score and market average premium.

Benefit Categories

Benefit Category	Description
Inpatient Hospital	Determined by place of service (Hospital—IP)
Outpatient Hospital	Determined by place of service (Hospital—OP)
Professional	Determined by place of service (Physician's office)
Other Medical	N/A
Capitation	Claims per Financial Department
Prescription Drug	Claims per contracted PBM

Credibility of Data

The Credibility Manual Rate is a combination of our HMO and PPO experience, giving us an even more credible manual rate. Combining the HMO and PPO Single Risk Pools also aids in consistency between the products. In order to avoid double counting the Experience Period and avoid complicated adjustments, the credibility of the Experience Period is set to 0.0%. This approach is consistent with the Actuarial Standard of Practice #25.

As requested by the Department, the experience period data for our transitional (non-ACA non-GF) Small Group PPO block is:

Premium = $77,383,553

Incurred Claims = $63,813,421

Member Months = 173,621.

Adjustments Made to the Data

Morbidity Adjustments

The morbidity of the base period is expected to continue into the projection period.

Changes in Benefits

Additional benefits due to Essential Health Benefits requirements are included in the ACA Compliant Experience:

+ Pediatric Dental: $3.40 PMPM

Changes in Demographics

The Projection Period is expected to have a similar demographic distribution as represented in the 2016 Base Period. There is no adjustment for demographic changes to any population segments.

Change in Other

As noted above, the capitation amount paid for our private reinsurance program (net of actual recoveries) has been removed from the capitation amount in Table 2 and moved to the "Change in Other" category in Table 5.

Trend Factors

Experience data was trended using an annual trend of 8.6%. Table 3 shows the breakdown between service category and cost vs. utilization. Table 3 uses the PMPM by service category to weight to develop the total composite trend. Trend factors are projected for unit cost and utilization components:

- Unit cost trend factors are based on recorded anticipated increases in facility and professional fees from the Experience to Projection Period. These increases are composited across all facilities and provider groups.

- Utilization trend projections are based on least-square regression modeling, taking into account historical claims patterns, anticipated economic activity and changes in care patterns.
- Seasonality adjustments are made to the claims to account for changes in work days.
- Further adjustments have been made to the trends to reflect expected changes due to new medical management initiatives that are expected to yield savings in the projection period.

Our trends are analyzed at a higher level and are the same for the experience data and the credibility manual data. Due to the lack of stability in the ACA experience, we based our trends on data from our commercial large group experience. Table 4b is provided for this large group experience.

Inclusion of Capitation Payments

If a capitated benefit is not in the experience period, an adjustment was added to account for those services (ex. Pediatric dental).

Historical Experience

Table 4 includes the most recent 36 months of data with run out through February 2017. Allowed claims are directly from claim records. As mentioned above, Table 4b displays the large group data that was used to determine the trends used.

As requested by the Department, the most recent 36 months of data for our transitional (non-ACA non-GF) Small Group PPO block is:

Non-ACA non-GF PPO	2014	2015	2016
Premium	$120,853,386	$87,143,561	$77,383,553
Incurred Claims	$106,515,589	$65,943,783	$63,813,421
Member Months	356,883	210,310	173,621

Paid to Allowed Ratio

The Projected Paid to Allowed Average Ratio is displayed on Table 5. It is determined for the Projection Period based on the member weighted average Pricing AV for each plan and the projected member months in each plan. There are variations between the AV Pricing Values and the AV Calculator values because of different cost structures and management approaches than what is reflected in the national average data used in the AV Calculator.

Risk Adjustment and Reinsurance

Experience Period Risk Adjustment and Reinsurance Adjustments PMPM

As stated above, the estimated risk adjustment transfer payment for the experience period (in Table 2) was based on an external analysis performed by the Department.

Projected Risk Adjustments PMPM

Our small group Exchange population is expected to have had a healthier risk profile than the state average in 2016 resulting in potential payment transfers into the Risk Adjustment program. Since transitional relief has been extended through 2018, it is expected that this population will not change significantly. Premium levels for 2018 need to incorporate the expected payment to the Risk Adjustment program. We have used the Department's estimated 2016 Risk Adjustment (for the Small Group block) for 2018. The adjustment is shown on Table 5.

Projected ACA Reinsurance Recoveries Net of Reinsurance Premium
ACA Reinsurance does not apply to small group

Non-Benefit Expenses and Profit & Risk

Administration Expense Load
Administration expenses are based on activity-based allocation by product for calendar year 2018. This methodology applies for all variable costs and all fixed costs. Table 6 provides a breakdown of the administrative expenses, as well as the taxes and fees. The administrative expenses are a consistent percentage of premium and do not vary by plan. The proposed percentage of premium for 2018 is shown in both Tables 6 and 10.

Profit & Risk Margin
The risk margin is set at 5% of premium.

Taxes, Fees, and Subsidies
Table 6 displays these items. For 2018, the federal government will collect the Health Insurer Provider Fee. For small group, the amount of this fee varies by quarter.

Projected Loss Ratio
The anticipated loss ratio is **87.8%** in aggregate as shown below using the Federally-prescribed MLR methodology:
MLR Numerator = Projected Claims + Quality Initiatives = 517.70 + .0109*656.82 = 524.86
MLR Denominator = Projected Premiums – Taxes and Fees + Risk Adjustment = 656.82 – 42.17 + (18.26) = 596.39
Federal MLR = 524.86 / 596.39 = 88.0%
The Quality Initiatives amount is based on the latest estimate for this product.

Development of Projected Index Rate, Market-Adjusted Index Rate & Total Allowed Claims

Single Risk Pool
The Single Risk Pool has been established in accordance with the requirements in 45 CFR 156.80(d) as was discussed previously in the Experience Period Premium and Claims section. The Experience Period includes transitional policies while the Projection Period does not include transitional policies since members are not expected to transition into the ACA Compliant products.

Index Rate
The Experience Period Index Rate is based on the manual Allowed Claims PMPM and is the starting value on Table 5. The Credibility Manual Rate is a combination of our HMO and PPO experience, giving us an even more credible manual rate. No benefits were covered in addition to Essential Health benefits in the policies being offered.

The Projected Index Rate for this Single Risk Pool is the Adjusted Projected Allowed EHB Claims PMPM and is the manual rate. The projected claims reflect the trend and benefits described earlier in this memorandum. There are no benefits covered in addition to Essential Health benefits in the policies being offered.

Market Adjusted Index Rate

The Market Adjusted Index Rate and Market Adjusted Total Allowed Claims are calculated in Table 5. The Projected Index Rate is converted to paid basis by multiplying by the Projected Paid to Allowed ratio (described above). The allowable market-wide modifier (Risk Adjustment Program) is added to this paid basis PMPM. This PMPM is then converted back to an allowed basis, again using the projected paid to allowed ratio. Any non-EHB claims would then be added to this value. We have none, so this PMPM is the Market-Adjusted Projected Total Allowed Claims PMPM.

Normalized Market-Adjusted Projected Allowed Total Claims

The Market-Adjusted Projected Allowed Total Claims is normalized using the projected average factors for age, geography, tobacco, benefit richness (induced demand) and network. These average factors for 2017 and 2018 are displayed on Table 7.

Projected Membership

Members were projected for each plan to be sold in 2018. Sales and marketing were consulted in developing these projections. Overall for the small group Exchange, membership is expected to remain at approximately the current levels, so February 2017 membership is expected to best represent calendar year 2018 for *existing* plans. We do expect some movement between the HMO and PPO products. Members from discontinued plans are assumed to move to the plan where they are mapped, in general. Since all new plans also need projected members, we assumed each new plan would have five members. This movement was modeled based on internally developed expectations. The projected membership for the new plans is added to the February 2017 membership to get the total 2018 projected membership. Projected membership is used to calculate the normalization factors discussed below.

Plan Factors

Age Factor

The federal age curve, as shown in Table 12, is used to determine a normalization factor to account for the age mix of business used in generating the Index Rate. The average age factor includes a factor of 0 for non-billable members. The average factors for 2017 and 2018 are shown on Table 7.

Geographic Factor The geographic rating area factors used to determine premium rates are shown on Table 13. These factors are consistent with the current approved factors. The normalization factor is determined using these factors weighted using projected membership by area.

Tobacco Factor

A standard **10%** load is applied for applicants who indicate tobacco usage by affirmatively answering the question—"Have you used tobacco at least four times a week for the past six months?" This load assumption was validated using the study "*Impact of height, weight, and smoking on medical claims costs*", a research report done by Milliman to update their Medical Underwriting Guidelines in April 2009. We utilized the 2016 ACA compliant population to determine the percentage of members that admit to the use of tobacco and pay the increased premium for their entire contract in 2016. The average tobacco factor is shown on Table 7. Table 12 shows the age bands, age factors and tobacco factors where it demonstrates that the tobacco factors are uniform across all age bands (for 18+).

Benefit Richness (Induced Demand)
Induced Demand factors are applied to each metallic to reflect the expected utilization, not the expected health status. To ensure revenue neutrality, a normalization factor is applied. The average benefit richness factor is shown on Table 7 and the factors by plan ID are shown below (under the "Plan Rate Development" section).

Network Factor
Only one network rating factor per market is used for each network. In 2017, we introduced a Select Network which features efficient cost providers. There are separate HIOS ID's for these plans. A network factor of .951 is applied to these plans to represent the cost savings of the providers in this network. The average network factor is calculated using the projected enrollment in this Select network and the .951 network factor. This is shown in Table 14.

Service Area Composition
All the counties and services areas are defined in the QHP Service Area Template.

Components of Rate Change
Table 8 shows the components of the Rate Change developed in this filing. The key drivers of this increase are the increase in morbidity of the ACA population, as well as annual claims trend and changes in the federal risk adjustment program. Table 9 supports the calculations in Table 8.

Plan Rate Development
The projected market-adjusted index rate is used to develop the calibrated plan adjusted index rates in columns Z and AA of Table 10. Each plan's rate is developed as the product of the market-adjusted index rate, the allowable factor and calibration for age and geography.

Each plan is identified as either modified, new or "discontinued & mapped". Discontinued plans are mapped to plans which will be in existence in 2018. Column G lists the metallic tier. This is the value we calculated using the HHS Actuarial Value Calculator. Screen shots of this calculation are provided in the file "GQO SG Screen Shots 20170516.pdf." The Actuarial Certification, at the end of this document, includes attestation that the Federal AV calculator was used to determine the metallic values. Please also refer to the "Unique AV Plan Justification" documents for further details. As directed by the Department, columns L, N and P were normalized using projected (CY2018) membership. The supporting exhibit for column L ["Benefit Richness (induced demand)"] is shown below:

Induced Utilization Exhibit								
Plan ID	Metal Level	Projected Membership	Projected Allowed Claims	Projected Paid Claims	Paid to Allowed Factor	Average Tobacco Factor	AV & Cost Sharing Factor	(8)/(6*7)
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)

Plan Premium Development for 21-Year-Old Non-Tobacco User

The projected calibrated plan-adjusted index rate is used to develop the 21-year-old non-tobacco premium in the small group market. These rates are displayed on Table 10, column AA. Table 11 uses the 21-year-old non-tobacco premiums from Table 10, adjusted by the current approved geographic factors (from Table 13), to develop the 21-year-old non-tobacco premiums by rating area.

Consumer Adjusted Premium Rate Development

The Consumer Adjusted Premium Rates are developed by applying the following allowable rating factors to the ***calibrated*** Plan Adjusted Index Rates:

1. Age – reflecting the HHS defined age curve
2. Geographic – as discussed previously
3. Tobacco status – as discussed above.

The final Premium rates for ***all*** filed benefit plans are displayed in the QHP Rating Template.

The Index Rate, the Market Adjusted Index Rate, and the Plan Adjusted Index Rate reflect the member weighted average premium over the calendar year. As such, in the development of the Consumer Adjusted Premium Rates for small group plans, the Plan Adjusted Index Rate must be adjusted to reflect the appropriate quarter when the consumer level modifiers are applied. The Consumer Adjusted Premium Rates in the small group market increase each quarter with trend, and the factors used to determine the quarterly rates are shown below.

	1st Quarter	**2nd Quarter**	**3rd Quarter**	**4th Quarter**
Trend Adjustment Factor	-3.3221%	-1.3085%	0.7471%	2.8455%

Composite Rating

Composite rating is not used.

Terminated Plans and Products

Terminated plans are noted on Table 10.

Plan Type

All plan offerings meet the plan type definitions available in the URRT Worksheet 2, Section I.

Changes to URRT

We acknowledge that each time the URRT is changed in SERFF, it will also be updated in HIOS.

Reliance

We relied on the Department's 2016 projected risk adjustment payment to develop the estimate for 2018.

Warning Alerts

No Warning Alerts appeared in Worksheet 2.

Additional Exhibits

The following required exhibits have been uploaded in SERFF under the tabs noted next to the exhibit:

- Department Plan Design Summary – submitted under the "Rate/Rule Schedule" tab;
- Service Area Map – submitted under the "Supporting Documentation" tab.

Actuarial Certification

I certify that:

1. I am a member of the American Academy of Actuaries, meet the Qualification Standards for Actuaries Issuing Statements of Actuarial Opinion in the United States promulgated by the American Academy of Actuaries, and have the education and experience necessary to perform this work.
2. The projected Index Rate is:
    a. In compliance with all applicable state and Federal regulations including 45 CFR 156.80(d)(1)
    b. Developed in compliance with the applicable Actuarial Standards of Practice,
    c. Is reasonable in relation to the benefits provided and the population anticipated to be covered,
    d. Is neither excessive nor deficient based on available information.
3. The Index Rate is used to develop the plan level rates using only the allowable modifiers in accordance with 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2).
4. The essential health benefits are determined in accordance with 45 CFR Part 156 and that the percentage of total premium (in Worksheet 2, Sections III and IV of the URRT) that represents the essential health benefits is calculated in accordance with actuarial standards of practice.
5. The geographic rating factors reflect only differences in the costs of delivery and do not include differences for population morbidity by geographic area.
6. The Federal AV Calculator was utilized, with an acceptable alternative methodology when appropriate, to determine the AV Metal Values shown above and in Worksheet 2, Section I of the URRT, following ASOP 50. Please refer to the "Unique AV Plan Justification" document for further details.
7. All factor, benefit and other changes from the prior (2017) approved filing have been disclosed in the actuarial memorandum.
8. New plans have not been considered modifications of existing plans under the uniform modification standards in 45 CFR 147.106.
9. The information presented in the PA Actuarial Memorandum and PA Actuarial Memorandum Rate Exhibits is consistent with the information presented in the 2018 Rate Filing Justification.

I confirm that the rates submitted comply with the ACA rating requirements and with the Single Risk Pool per market requirement. The URRT does not demonstrate the process used to develop the rates. Rather it represents information required by Federal regulation to be provided in support of the review of rate increases, for certification of Qualified Health Plans for Federally-facilitated Marketplaces, and for certification that the Index Rate is developed in accordance with Federal regulation and used consistently and only adjusted by the allowable modifiers.

Completeness and Redaction Justification Checklist

Instructions for Completion and Redaction Justification Checklist

This checklist is required for all issuers submitting ACA-Compliant rates for 2017 comprehensive major medical rate filings and should be submitted, as supporting documentation, with each 2017 ACA-Compliant comprehensive major medical rate filing. The checklist is organized by heading, section and subsection as outlined in the Draft 2018 ACA-Compliant Health Insurance Rate Filing Guidance (Guidance) released on February 8, 2017.

"Completed" Column

The first input column is labeled "Completed". In order for the filing to be considered complete and ready for department review, X must appear in each field in the column, except where data tables are marked "if applicable". The X indicates that the actuary has read the Guidance and has provided the requested information and data, as required in the PA Actuarial Memorandum and Rate Exhibits and further, that the data templates are completely and appropriately populated.

"Redaction Justification" Columns

The "Redaction Justification" section contains three columns. If the issuer's filing contains redacted information or data in the named section, "Y" must be populated in the "Redacted" column.

New this year, each issuer should submit a "Public Rate Filing PDF." The PDF document must contain all required documents, tables and exhibits. If the issuers chooses to make the limited redactions anticipated by the Department, those redactions should be made only in this document. The "Page # in Public PDF" section should reference the page number of the Public Rate Filing PDF where the redacted information and/or data can be located.

If any informations is redacted, a justification must be submitted that specifically justifies why that information should be redacted. Correspondingly, the "Justification" column should be populated with a "Y" in any rows where it is indicated that information is redacted, and with an "NA" if if information is not redacted. To reiterate the redaction criteria contained in the Guidance, only information that is trade secret or confidential commercial or financial information as defined in HHS's Freedom of Information Act (FOIA) regulations at 45 CFR§ 5.65 may be redacted.

Consistent with guidance provided during the 2017 annual rate review cycle, the Department does not anticipate redactions other than the following items:

1. AV screenshots
2. Statements specifying a company's anticipated risk level in relation to the state average risk level (e.g., the underlined portion could be redacted in the following statement: "we expect the risk level of membership to be X% higher/lower than the state average risk level")
3. Opining actuary's name
4. Specific provider contracting information (note: such information was not submitted in plan year 2017 rate filings and the department does not anticipate receiving such information in plan year 2018 rate filings)
5. Commission schedules

Please remain cognizant that non-redacted information and data must be submitted for review.

You may contact Johanna Fabian-Marks at jfabianmar@pa.gov if you have any questions regarding this checklist.

HIOS Part 2 Consumer Justification Narrative
Small Group PPO

Geisinger Quality Options has proposed an overall base rate increase of 14.8% for Small Group PPO members renewing in the Marketplace effective January 1, 2018 through December 1, 2018. The range of proposed rate increases vary from a minimum of 7.3% to a maximum of 24.8%. The overall increase is due to the claims experience in ACA compliant Small Group market plans being higher than what was assumed in the current rates. Other contributing factors include annual claims trend, taxes and changes in the federal risk adjustment program. The total projected 2018 administrative costs are approximately the same as those used for the current 2017 rates. As required by federal regulations, the projected loss ratio exceeds 80%. There were minimal benefit changes proposed for 2018.

2018 Rates Table Template v7.1	*All fields with an asterisk (*) are required. To validate press Validate button or Ctrl + Shift + I. To finalize, press Finalize button or Ctrl + Shift + F.*				
	If you are in a community rating state, select Family-Tier Rates under Rating Method and fill in all columns.				
	If you are not in a community rating state, select Age-Based Rates under Rating Method and provide an Individual Rate for every age band.				
	If Tobacco is Tobacco User/Non-Tobacco User, you must give a rate for Tobacco Use and Non-Tobacco Use.				
	To add a new sheet, press the Add Sheet button, or Ctrl + Shift + H. All plans must have the same dates on a sheet.

75729PA0050101 Rating Area 9	Tobacco User/Non-Tobacco User	64 and over	1102.73	1213.00

1. Please confirm HIOS submission and update the cover letter to include the HIOS submission tracking number.

The RRJ Parts I, II & III have been submitted in HIOS. The HIOS submission tracing # is 75729-963513410203478020.

2. Please confirm that you have tested to ensure that the PID rate exhibits and the Federal rates template included in this filing and the binder are all the same.

Confirmed.

3. The Rates by County tab, in the Plan Design Summary Workbook, is not populated. Please provide.

This tab was populated and the workbook was uploaded in SERFF on 6/15/17. Please note that we were informed by the Department on 5/16/17 that this tab did NOT need to be populated for Small Group.

4. Please provide the experience period data for the manual claims data in the same format as Worksheet I, sections I and II in the URRT.

This data is contained in the file "Manual Claims CY2016 Data" and has been uploaded in SERFF.

5. The Rate Rule Schedule tab show 3,284 policy holders while cell V15 of Table 10 shows 5,358 covered lives as of February 1, 2017. Be advised that the 2018 Guidance, consistent with the 2017 guidance, states that the policy holders in the Rate/Rule Schedule tab should show data for the number of covered lives. Please review and revise.

The Rate Rule Schedule tab will be revised to reflect the 5,358 covered lives.

6. Your cover letter indicates that 31 plans will be offered in 2018, however, only 21 AV screenshots have been provided. Please provide AV screenshots for all plans for which rates have been submitted.

All 31 plans to be offered in 2018 are included on the 21 AV screenshots. We have several plans with the exact same cost-sharing (and AVC values) but different HIOS ID #'s. The multiple HIOS ID #'s for the 31 plans are displayed under the "Plan Description, Plan HIOS ID" section of the 21 screenshots (i.e. bottom right side of exhibit).

7. Please provide a detailed quantitative exhibit displaying the development of the Changes in Benefit adjustment being utilized in the Index Rate Development.

This exhibit is contained in the file "Changes in Benefit Adjustment" and has been uploaded in SERFF.

8. A demographic adjustment equal to 1.000 is being applied in the development of the Index Rate. Please provide the distribution of membership by age for those members underlying the 2016 manual rate as well as for those currently in force in 2017, demonstrating that it is reasonable to assume the demographic mix should not be expected to change substantially between 2016 and 2018.

A file showing these membership distributions has been uploaded to SERFF (see "Manual CY16 Membership" and "Current Manual Membership"). The average age factors changed only

slightly (i.e. within 1%). Given the uncertainty of the membership distribution for 2018, we decided to not adjust for this.

9. Please provide a quantitative exhibit demonstrating the development of the risk adjustment transfer PMPM, as shown in Table 5 of the PA Actuarial Memorandum Rate Exhibits excel file. Please explicitly show that the statewide average premium is adjusted downward by a factor of 0.860 to account for the change to the risk transfer formula as outlined in the 2018 Benefit and Payment Parameters Notice.

We do not know what to expect for 2018 so our best estimate, at this time, is to use the full 2016 risk adjustment transfer. While it's acknowledged that the risk adjustment formula will be adjusted to remove admin expenses, the overall impact of the risk adjustment transfer is still unknown.

10. Please justify quantitatively how the paid-to-allowed ratio shown in Worksheet I of the URRT was developed.

This ratio is also used in Table 5 of the PA Actuarial Memorandum Rate Exhibits excel file. The derivation of this ratio can be seen in Table 10, cell K15 (i.e. it is the weighted average of the pricing AV's and the projected membership as calculated by plan).

11. The following questions pertain to Market Adjusted Index Rate calibration factors, as shown in Table 7 of the PA Actuarial Memorandum Rate Exhibits excel file.
a. Please quantitatively demonstrate the calculation of the age curve calibration factor, additionally providing the projected distribution of members by age. Please clarify whether an age rating factor of 0.000 was assumed for members expected to pay no premium (i.e., for cases where there are more than three dependent children under the age of 21 within a given family).

A file showing the development of the age calibration factor has been uploaded to SERFF (see "Age Calibration"). As referenced on page 7 of the Actuarial Memorandum, we did account for this regulation in the development of our average age factor, i.e. a factor of "0" was used for all "non-billable" members (e.g. all dependent children beyond the third child on a family contract). This calculation is illustrated in the file noted above.

b. Please quantitatively demonstrate the calculation of the geographic calibration factor, including the assumed distribution of members by rating region.

A file showing the development of the geographic calibration factor has been uploaded to SERFF (see "Area Calibration").

c. Please quantitatively demonstrate the calculation of the tobacco calibration factor, including the assumed distribution of tobacco/non-tobacco users by age.

A file showing the development of the tobacco calibration factor has been uploaded to SERFF (see "Tobacco Calibration").

d. Please quantitatively demonstrate the calculation of the induced calibration factor. Please quantitatively show and provide a detailed description as to how the induced demand factor shown in Table 7 relates to the induced utilization factors calculated in the Induced Utilization Exhibit shown in the Actuarial Memorandum.

The Induced Utilization Exhibit shown in the Actuarial Memorandum shows the factors after normalization has been applied. Therefore, the result is a 1.0 at the bottom of column (9). The file provided in Excel named "Induced Utilization Exhibit 2018_GQO_SG.xlsx" shows this development with the pre-normalization factors calculated.

12. On page 14 of the 2018 Guidance, the Department requested data regarding the development of the Pricing AV's and Induced Demand in Table 10. Please provide this data in Excel.

The pricing AV's and Induced Demand factors shown on page 9 of the PA AM were internally developed based on the cost sharing design for each plan. Adjustments from our internal pricing model were performed in order to reflect the unique ACA benefit designs as well as the metallic levels indicated by the Federal AV Calculator. The exhibit is provided in Excel in the file named "Induced Utilization Exhibit 2018_GQO_SG.xlsx".

13. The following questions relate to the retention items populated in Table 6 of the PA Actuarial Memorandum Rate Exhibits excel file.
a. Please describe the differences in expense structures between the Geisinger Health Plan and Geisinger Quality Options entities.

There are basically no differences in expense structure which is why the same admin expense PMPM (for the "General and Claims" category) was used for both Small Group HMO & Small Group PPO.

b. Please explain why it is necessary and/or appropriate to increase the after-tax profit and risk margin from 2% in 2017 to 5% in 2018.

We feel that 5% is an appropriate risk factor given the volatility of the ACA market.

c. Please provide a quantitative exhibit demonstrating the development of the assumed Health Insurer Fee and the federal income tax as a percent of premium.

A file showing the development of these fees/taxes has been uploaded to SERFF (see "Taxes & ACA Fees-SG").

14. Table 6, cell B54, indicates the PCORI fee is $0.09. The 2018 PCORI pmpm amount should be $0.20. Please revise. Also, review the percent of premium in cell C54 to ensure the yielding amount is consistent with $0.20.

The PCORI fee for the projection period is an estimate based on the annual fee for plans that end on or before October 1, 2017 plus inflation. If the PID requests that we change our estimate to $0.20 PMPM we will update the rate filing documents to reflect this amount. If we update this PMPM amount, the percent of premium will change as well. In the small group market the PCORI fee due varies by effective date and begins to phase out during calendar year 2018 effective dates. The average estimated fee within a quarter is weighted on membership to develop the $0.09 PMPM.

15. Regarding the credibility of data on page 4 of the PA AM, for each identified segment with the exception of the non-ACA Non-GF HMO, please provide the number of member months, the associated total incurred claims and premium.

This data consists of the Small Group HMO ACA plus the Small Group PPO ACA and is shown in the file referenced in Item #4.

16. Table 2 shows an experience PMPM of $430.50 with 216,943 member months. Table 2b shows an experience PMPM of $460.35 with 157,213 members. Table 5 lends 100% credibility to the manual data when the entity experience data is credible. Please discuss why no credibility is given to the entity specific data.

Table 2b excludes our non-ACA transitional (non-grandfathered) blocks. Given our high retention rate for these blocks, we do not expect them to move to the ACA market in 2018. Thus, we excluded them from the development of our credibility manual rate.

17. Table 6 cell C63 indicates the Single Risk Pool PMPM is $643.24, while the Single risk pool in the URRT in cell V43 indicates $622.46. Please reconcile.

The URRT develops an average premium PMPM based on a projected Index Rate without consideration of quarterly rate increases. The Actuarial Memorandum Rate Exhibits Table 5 develops a weighted average Index Rate and shows both the URRT value and the value used to develop rates in cells C26 and C27 respectively.

18. Page 3 of the PA AM discusses capitated expenses and includes reinsurance expenses for private reinsurance.
a. Please show the experience period pmpm and the projected rating period pmpms associated with each named expense category (chiropractic, nurse line, mental service including autism and reinsurance). What is the basis for the projected PMPM?

A file showing these adjustments has been uploaded to SERFF (see "Capitated Benefits").

b. Remove the reinsurance expense. As an Effective Rate Review State, Pennsylvania has determined that neither reinsurance expenses nor recoveries should be included in allowed/incurred claims. These items should be included elsewhere.

We can move the reinsurance expenses out of the Allowed Claims Index rate and slot them to the "Other" category (as directed in the 2018 URRT Instructions). There will be no net impact on the 2018 rates themselves.

c. What is the basis for the assumed 5% capitation trend in Table 3 and the URRT?

This trend is based on an average of expected capitation increases.

19. Please show the development of the 1.007 Other adjustment in cell D19 of Table 5.

This exhibit is contained in the file "Changes in Benefit Adjustment" and has been uploaded in SERFF.

20. Page 5 of the PA AM, Inclusion of Capitation Payments, states if a capitated benefit is not in the experience period an adjustment was added to account for those services (pediatric dental). Is this the case with Geisinger? If so, please show all adjustments and discuss where they are included in the filing. Additionally, why is pediatric dental specifically called out when this benefit was included in the benefit changes identified on the top of page 4?

A file showing these adjustments has been uploaded to SERFF (see “Capitated Benefits”). It was our understanding that the instructions wanted us to refer to this (i.e. pediatric dental) in both the discussion of capitated benefits and in the discussion of benefit changes since it applies to both categories.

21. Table 14 shows NA for the current network factor for geographic areas 3, 5, 6, and 9 when this network was approved in the 2017 rate filing. Please review and update or explain.

Table 14 for Small Group PPO should show the correct factor of 0.952 from the 2017 filing and not “NA”. This can be corrected when the final Filing files are uploaded in SERFF.

22. Please show the development of the average commission and circumstances in which broker commissions will be paid and if they will vary based on geographic location, metal level, plan, open enrollment vs SEP enrollment, etc. Additionally, the current and 2018 broker agreements should be included and used to develop the percent shown in Table 6 as well as the associated pmpm.

The commission fee (paid to brokers for Small Group ACA) does not vary by any of the items mentioned above. The broker agreements are considered ***proprietary*** documents.

1. The following questions pertain to the response to question 9.

a. The CMS 2016 benefit year risk adjustment transfers were released on 6/30/2017. As stated in the response to question 9, Geisinger expects to assume the same risk adjustment transfer in 2018 as in 2016. Please update the rate development to reflect the updated risk adjustment transfers from the 6/30/2017 CMS risk adjustment transfer report for the 2016 benefit year. Provide narrative and an Excel spreadsheet demonstrating the development and assumptions.

The June 30th Risk Adjustment Program payment notices from CMS match the transfer payment estimates provided to Geisinger from the PID on May 12th. Geisinger utilized the transfer payment estimates provided by the PID.

b. Please confirm whether any anticipated changes in the statewide average premium (relative to calendar year 2016) were taken into account in the projected 2018 risk adjustment transfer amount, including whether the 0.860 state wide average premium adjustment as outlined in the 2018 Benefit and Payment Parameters Notice, was accounted for.

We do not know what to expect for 2018 so our best estimate, at this time, is to use the full 2016 risk adjustment transfer. While it's acknowledged that the risk adjustment formula will be adjusted to remove admin expenses, the overall impact of the risk adjustment transfer is still unknown. Also, the increase in premiums in 2017, and expected increases in 2018, will increase any risk adjustment transfers and negate this reduction of 0.860.

2. The following questions relate to the response provided to question 11.

a. Please explain the purpose of and quantitatively demonstrate the development of the 0.973 "pre-normalization" adjustment shown in cell K3 of the "Induced Utilization Exhibit 2018_GQO_SG" was developed.

The 0.973 factor is the projected weighted average factor to normalize the induced utilization factors. This is demonstrated in the "Induced Utilization Exhibit 2018_GQO_SG" file and is necessary to keep the average allowed PMPM a true weighted average. That is, the induced utilization factors must not change the total allowed PMPM. This normalization ensures that is true by making the weighted average a 1.000, as demonstrated in the "Induced Utilization Exhibit 2018_GQO_SG" file.

b. Please reconcile the membership counts provided in the "Tobacco Calibration" (5,373), "Area Calibration" (5,358), and "Induced Utilization Exhibit 2018_GQO_SG" (5,448) excel files.

The total members shown in "Area Calibration" of 5,358 also matches Table 1 of the "PA Actuarial Memorandum Rate Exhibits 2018_GQO_SG.xlsx" file. This is the current member count as of 2/1/2017. The "Induced Utilization Exhibit 2018_GQO_SG" showing 5,448 is projected members. Our projected membership is increased to include additional members in plans with no enrollment and new plans. The "Tobacco Calibration" showing 5,373 is from an alternative data source that captures tobacco status. Unfortunately, a small amount of members are included in this alternative data source that have termed before 2/1/2017. Since the factor is applied as a relativity, we've assumed that the rate of tobacco use is the same for all members.

3. The experience of the HMO, POS, and PPO products has been combined for the purpose of developing rates for 2018. Further, the projected 2018 Index Rate which has been developed is the same between the GHP and GQO Individual rate filings. Because the projected Index Rate is the same between the two filings, this implies that the projected mix of membership by age and gender, geographic rating area, tobacco use, and morbidity is also being projected to be the same.

a. Please confirm that this is correct. If so, it is our expectation that the projected risk adjustment payment PMPM, age calibration factor, geographic calibration factor, and tobacco use calibration factor would also each be the same between the two filings. In that case, please revise the proposed rates and corresponding rate development exhibits to reflect these four items being the same between the two filings.

This is correct, we believe the combined GHP and GQO experience projected to 2018 is our best estimate of the projected total allowed costs, or Index Rate. We do not believe that (b) below is a better approach, so we have revised the filings to reflect your expectations on calibration. We believe that, in addition to the calibration factors and risk adjustment, we must also normalize the induced utilization factors to reflect the combined experience of GHP and GQO.

b. If the projected mix of membership is not expected to be the same, please revise the Index Rate for each filing such that it reflects the projected mix of membership by age and gender, geographic rating area, tobacco use, and morbidity specific to each product (i.e. HMO/POS and PPO)

We believe the combined GHP and GQO experience projected to 2018 is our best estimate of the projected total allowed costs, or Index Rate. We do not believe that the product differences between GHP and GQO warrant a different Index Rate. The differences in the products offered can be captured in the factors allowed to develop premium after the Index Rate, i.e. taxes, AV, etc.

4. Given that the manual rate reflects the claims experience of the HMO, POS, and PPO products combined, it is not clear why the GQO Index Rate was not adjusted to reflect the cost level associated with a different product mix (i.e. PPO only).

a. Please provide the estimated difference in costs (on a normalized basis) which would be associated with the product mix of PPO only as compared to HMO, POS, and PPO combined.

There is no difference in contracted costs for these products at Geisinger.

b. Please either (1) revised the GQO Index Rate and resulting rates to reflect the difference in costs that would be expected for a product mix of PPO only relative to the product mix underlying the manual rate or (2) provide justification as to why it is reasonable to assume there is no cost differential between the two product mixes (i.e. PPO vs. HMO & POS & PPO).

There is no difference in contracted costs for these products at Geisinger.

5. The following questions relate to the retention items populated in Table 6 of the "PA Actuarial Memorandum Rate Exhibits" excel file.

a. Please provide a quantitative exhibit demonstrating the development of the assumed Health Insurer Fee and the Federal Income Tax (3.33%) as a percent of premium.

The FIT amount is determined by dividing the Profit/Contingency (after tax) by the estimated effective tax rate, as demonstrated in the file: "Tax Exhibit SG 20170713.xlsx". The HIF is determined by estimating the data year (CY 2017 and CY 2018) total national and GQO premiums to determine an estimated applicable fee as a % of premium. This is then converted to a % of estimated fee year (CY 2018 and CY 2019) total GQO premiums. Since the HIF is paid on a CY basis the fee is determined for each filed quarterly rate and weighted on projected enrollment in each quarter. This calculation is also demonstrated in the exhibit.

6. In response to question 14, it is my understanding that the PCORI fee for 2018 is $2.47 pmpy/12 = $0.20 pmpm. If you have conflicting information, please share your source and show the development of the $0.09.

Since the PCORI is paid on a CY basis the fee is determined for each filed quarterly rate and weighted on projected enrollment in each quarter to develop the $0.09 PMPM. This calculation is also demonstrated in the exhibit: "Tax Exhibit SG 20170713.xlsx".

7. In response to question 18, you provided an Excel worksheet that included an item labeled "Quality Fund PQS" and the associated capitated expense of $4.70 pmpm for the rating period. This item was not mentioned in the actuarial memorandum nor was it included in the response discussion. Section D.1.f on page 9 of the PA guidance specifically addresses the issue of "quality incentive payments" and directs issuers to include such payments in the administrative expenses in Table 6. Additionally, Table 6 also includes a load for quality improvement expenses of 1.09%. This appears to be double counted. Please review and revise.

The items shown in our 6/23/17 response to question 10 are capitated medical expenses, including "Quality Fund PQS". This item is not an administrative expense and therefore does not meet the federal definition of a quality incentive payment. The term "Quality Fund" is internal Geisinger nomenclature and should not be confused with the quality incentive category referenced in the federal guidelines.

a. In your response to question 18a. you indicated that the reinsurance expense item would be moved to "Other" but did not do so. Please revise.

Reinsurance expense has been moved out of claims and into the "Other" category with the updated rate filing.

b. In response to question 18c., you indicate that the capitation trend is based on average of expected capitation increases. What is the bases for the assumed 5% capitation trend in Table 3 and the URRT? What informs your expectation? Please provide a detailed response.

The historical cap increases for the two significant items are included in an amended copy of our 6/23/17 "Capitated Expenses" file. While each of these items have increased by more than 5% historically, Geisinger continues to strive to limit increases with our capitated vendors. We feel 5% is a reasonable estimate.

8. In response to question 22, you did not show the development of the average commission nor did you provide the broker agreements as requested. Please show the development of the average commission. Additionally, the current and 2018 actual broker schedule (or estimated if actual not yet set) should be included and used to develop the percent shown in Table 6 as well as the associated pmpm.

Please see file "Broker Fees-SG PPO-20170713.pdf".

9. In your June 14th response you indicated that corrections would be when the final files are uploaded in SERFF. Be advised, all revisions must be reflected in this resubmission.

We will be submitting all revised Exchange filing files, along with our responses to the Department, by the requested deadline.

10. Please provide a PDF file for public review (Public Rate Filing PDF) in SERFF to show the updated rate request. The following updated supporting items must be included:

- Cover Letter
- Rate Change Request Summary (Attachment 1)
- Part 1 - Unified Rate Review Template (URRT)
- Part II – Consumer Friendly Justification
- Part III – Federal Actuarial Memorandum (redacted)
- PA Actuarial Memorandum (redacted)
- PA Actuarial Memorandum Rate Exhibits
- PA Plan Design Summary and Rate Tables
- Federal Rates Templates
- Service Area Maps
- Correspondence – Q&A's

We will be submitting the revised Public Rate Filing PDF by the requested deadline of COB July 18th.
