Ms. Johanna Fabian-Marks, Special Deputy & Acting Director
Commonwealth of Pennsylvania Insurance Department
Bureau of Life, Accident & Health Insurance
1311 Strawberry Square
Harrisburg, PA 17120

Re: Highmark Inc. 2018 ACA Rate Filing (Small Group Market)
Highmark Filing # 1A-SG-HIGHMARK-2017 (SERFF Filing # HGHM-131014769)

This constitutes Notice pursuant to Section 707 of the Pennsylvania Right-to-Know Law that the attached Highmark Inc. 2018 Small Group Market Rates Filing contains Trade Secret and Confidential Proprietary Information. Therefore, Highmark Inc. must, prior to the release of any portion of this Filing, be notified of any request by a third party for access to this Filing, and the Trade Secret and/or Confidential Proprietary Information identified by Highmark Inc. should be redacted before release.

Dear Ms. Fabian-Marks:

This Filing update removes the impact of the proposed Pennsylvania premium tax from the original filing and includes the revised Highmark Inc. (NAIC # 54771; HIOS Issuer ID # 33709) Small Group Market Off Exchange ACA rates and the supporting rate development for policies with effective dates on or after **January 1, 2018**.

In the event the Department decides to publish this Filing in the PA Bulletin, the company information requested as per the Department's 2018 ACA-Compliant Health Insurance Rate Filing Guidance, Section B, is provided below:

1. Company Name & NAIC #: **Highmark Inc., NAIC # 54771 ("Company")**

2. Market: **Small Group ("Market")**

3. On or Off Exchange: This Company's products are offered **Off Exchange only.**

4. Effective date of coverage: **January 1, 2018**

5. Average rate change requested: **0.05% increase**

6. Range of rate change requested: **-5.3% to 7.5%** (PA Actuarial Memorandum Exhibits); -3.56% to 7.59% (URRT Worksheet 2 Row 27 Cumulative Rate Change % (over 12 mos prior))

7. Product(s): **PPO, EPO**

8. Rating Areas and the change from 2017: **Regions 1, 2, 4, 5, 6** (Western, PA only)

   There are no changes in our covered Rating Areas from the 2017 rate filing.

9. Metal Levels and Catastrophic Plans: This filing reflects that the Company anticipates selling the following Metal Levels of coverage in the indicated Market: **Platinum, Gold, Silver, and Bronze**

10. Current number of covered lives and of policyholders as of February 1, 2017: **12,178 covered lives; 6.843 policyholders**

11. Number of plans offered in 2018 and the change this represents from 2017: **40**

    The Company offered 35 plans in 2017. For 2018, the Company is offering 7 new plans in the Market, and removing 2 plans from the Market.

    Please note that inclusion of premium rates in this filing for a given offering should not be construed to mean that the offering will ultimately be made available for sale in the market. Final offering decisions will be made consistent with and within the timelines set forth in CMS rules and/or ACA regulations.

12. Corresponding contract form number, SERFF and Binder ID numbers: The corresponding SERFF binder number is **HGHM-PA18-125072196** affecting the following Company products and forms:

Product Name / Type	**Contract Form & SERFF #**
Balance PPO, Premier Balance PPO	PPO-SM/WG-5; HGHM-131014928
Health Savings HDHP PPO	HDHP-SM/WG-5; HGHM-131017028
Connect Blue EPO	CONB/EPO-SM/WG-2; HGHM-131016828
Connect Blue Conemaugh EPO HDHP	CONB/EPO-HDHP-SM/WG; HGHM-131034260
Connect Blue Conemaugh EPO	CONB/EPO-CM-SM/WG; HGHM-131035489
High Performance Flex PPO	FL/PPO-SM/WG-4; HGHM-131017000

13. HIOS Issuer ID # and submission tracking number: **HIOS Issuer ID # 33709, Company Filing # 1A-SG-HIGHMARK-2017 (SERFF Filing # HGHM-131014769)**

Additional Filing Disclosures

The Company has submitted all Required Documents stipulated by the Department, including the federal documents related to this filing, in its SERFF submission. In addition to the Required Documents, the Company has submitted a Supplemental Exhibits file containing additional detailed exhibits on items referenced in the PA Actuarial Memorandum. All tables, exhibits, and detail in support of this filing and the PA Actuarial Memorandum have been included in Excel format. For the Department's benefit, the Excel files have retained their formulas to the extent possible.

CMS has instructed issuers that it no longer requires any interim changes to the URRT to be submitted to HIOS. CMS is requesting that only the initial URRT and the final URRT be submitted to HIOS. As such, the Company does not intend to submit an updated URRT or Actuarial Memorandum to HIOS, reflecting this rate filing change, but will do so upon final approval of the rate filing.

Request for Confidentiality

Please note that the rates and the supporting rate development contained in this Filing are competitively sensitive, are not in the public domain, and constitute business confidential proprietary/trade secret information that would cause harm to the competitive position of Highmark if disclosed to the public.

Public disclosure of any information contained in this Filing would allow Highmark competitors to better understand or discover its confidential and proprietary rating, pricing and/or marketing practices, would undermine competition in the Small Group market, and could have negative consequences for the operation of Highmark's business. Therefore, Highmark asserts that this Filing, in its entirety, constitutes Trade Secret and Confidential Proprietary Information and should not be disclosed.

It is our understanding that the Department does not intend to publish the confidential and proprietary information contained in this Filing or to otherwise permit this Filing and its confidential information, other than the redacted information and final approved rates, to be disclosed or released.

Furthermore and pursuant to the Pennsylvania Right-to-Know Law ("RTKL"), Highmark Inc. must be notified prior to release of information contained in this Filing and be given the opportunity to respond to requests for such information. Should the Department receive such request or require the release of information contained in this Filing for its own purposes, Highmark Inc. asserts its right to release a redacted version of the Filing. In accordance with the

RTKL, please contact the Highmark Inc. RTKL representative identified below prior to release of any information contained in this Filing:

Lisa Martinelli, Esq.
RTKL Representative
VP Chief Privacy Officer
120 Fifth Avenue, FAP Suite 2114
Pittsburgh, PA 15222

Furthermore, it should be noted that Highmark Inc. is equally concerned that even if this information is released in aggregate form, it still may be easy to identify the carrier that submitted it.

Should you have any questions regarding the attached Filing, please feel free to contact me at (717) 302-2143 or via e-mail at: jeffrey.scheib@highmark.com.

Sincerely,

Jeffrey S. Scheib, ASA, MAAA
Vice President, Actuarial Services
Highmark Inc.

Highmark, Inc. – Small Group Plans

Rate request filing ID # HGHM-131014769- This document is prepared by the insurance company submitting the rate filing as a consumer tool to help explain the rate filing. It is not intended to describe or include all factors or information considered in the review process. For more information, see the filing at http://www.insurance.pa.gov/Consumers/ACARelatedFilings/

Overview

Initial requested average rate change:	0.05%[1]
Revised requested average rate change:	N/A[1]
Range of requested rate change:	-5.3% to 7.5%
Effective date:	January 1, 2018
People impacted:	12,178
Available in:	Regions 1, 2, 4, 5, 6

Key information

Jan. 2016-Dec. 2016 financial experience

Premiums	$81,723,879
Claims	$79,288,330
Administrative expenses	$10,204,825
Taxes & fees	$2,482,979
Company made (after taxes)	**($10,252,255)**

The company expects its annual medical costs to increase **9.4%**.

How it plans to spend your premium
This is how the insurance company plans to spend the premium it collects in 2018:

Claims:	85.91**%**
Administrative:	10.64**%**
Taxes & fees:	3.45%
Profit:	0.00**%**

Explanation of requested rate change

The proposed increases are being driven by increases in taxes and fees as well as rising medical care costs, which are expected to continue through the remainder of 2017 and throughout 2018 as a result of both higher utilization and increasing cost of healthcare services.

[1] Note that insurers will have the opportunity to revise their rate change request in July, after they are scheduled to receive updated information about the impact of a federal program called risk adjustment. This document will be updated accordingly at that time.

Pennsylvania Actuarial Memorandum

1. Basic Information and Data

A. Company Information (Table 0)

Table 0 has been completed as per the instructions. Please refer to the Excel file "PA Actuarial Memorandum Rate Exhibits 2018 - Final Annual Protected - HMRK NO PT - Final.xlsx" submitted with this filing containing the department's required tables.

Note that for the remainder of this document, "Company" refers to Highmark, Inc., "Market" refers to Small Group, and "Rating Area" refers to Pennsylvania Rating Regions 1, 2, 4, 5, and 6 (Western PA only). No Service Area changes were made since the last approved filing.

B. Rate History and Proposed Variations in Rate Changes

The three most recent rate changes in the Pennsylvania Small Group Market for the Company are as follows:

Year	Avg. Increase	SERFF ID#
2017	3.2%	HGHM-130535904
2016	9.9%	HGHM-130064391
2015	20.8%	HGHM-129610942

Rate changes vary by plan, as plan benefits need adjusted to help maintain compliance with metal level requirements. Other base rate components (pricing actuarial factor and network discount) are also re-evaluated each year. For 2018, the Company's proposed rate revisions vary by plan, according to the detail presented in the URRT, Worksheet 2, and the PA Rate Template Table 10.

C. Average Rate Change

The average rate change from Table 10, column AC is a 0.05% increase. The rate change presented in this table reflects the average rate change over 2017 for the entire plan year, premium weighted based on the anticipated distribution of quarterly renewals.

For comparison, the change in 21-year-old non-tobacco premium PMPM calculated in Table 11, cell AN13, is a 2.0% increase. This rate change reflects the change for first quarter 2018 rates over first quarter 2017 rates. The first quarter rate change shown in Table 11 will be higher than the rate change for the entire 2018 plan year shown in Table 10 since the first quarter 2017 rate did not include the Health Insurance Provider Fee, and the second, third, and fourth quarter 2017 rates included a pro rata component for the 2018 Health Insurance Provider Fee while the 2018 quarterly rates include the same percentage of premium fee each quarter.

The Percent Increase over the Experience Period from the URRT Worksheet 1, cell V45, is 6.60%; and the Percent Increase, Annualized, from cell V46, is 3.25%.

As noted in the URR Part III Actuarial Memorandum, the average rate increase is 0.38% weighted on the projected enrollment for renewing plans in the URRT. Please note that the rate increases by plan design will differ between the PID's PA Actuarial Memorandum Rate Exhibits 2018 - Final Annual Protected.xlsx template and the URRT worksheet 2 row 27 since we maintained the 2017 quarterly distribution of enrollment as filed last year when calculating the average 2017 Calibrated Plan Adjusted Index Rate PMPMs in column Z of table 10 in the PA Rate Exhibits while the URRT utilizes a consistent enrollment distribution by quarter for both years based on the 2018 projected distribution.

D. Membership Count (Table 1)

Table 1 has been completed according to the instructions with the average age, age breakdown and total number of members or member months, as indicated in the table. For the 2/1/2017 data, this table reflects all Small Group enrollment, including enrollment from 2016 and 2017 plan year plans.

E. Benefit Changes

Most plans required benefit changes because of the new Actuarial Value (AV) calculator released for 2018 effective dates. The plan changes were mostly required so that the plans remained within the defined metal level AV requirements, and were enacted by adjusting member cost sharing and the maximum out of pocket levels.

For the 2018 plan year, there were no benefit changes necessary to the Company's plans to cover the benefits contained in the state's Essential Health Benefit (EHB) benchmark plan.

F. Experience Period Claims and Premium (Table 2)

Please see Table 2 for the experience period data for the most recent calendar year, for the Company and Market. The experience period paid claims data represents the 2016 calendar year results for all non-grandfathered policies in the single risk pool, with run out through January 2017. This data is consistent with the data reported in Section I of Worksheet I of the URRT (see below commentary). The Company has offered only ACA-compliant policies in the Small Group market in the experience period. As such, there is no transitional policy experience to report.

The components of this exhibit were developed as follows:

- The Earned Premium represents actual revenues earned in the experience period.
- The Allowed Claims represent our best estimate of the total claims prior to member cost sharing incurred during the experience period. The Allowed Claims include:
    - One month of run out from the end of the experience period,
    - Claims processed outside of the Company's claims system (e.g., claim settlement costs), and
    - Our best estimate of claims incurred but not paid as of the end of the run out period.

  Note that the Incurred Claims and Allowed Claims presented in the URRT are net of the Prescription Drug Rebates, while Table 2 has the Prescription Drug Rebates separately

identified. As per the URR instructions, Allowed Claims do not include reinsurance recoveries or pooling charges, nor do they include quality incentive payments.

- There are no non-EHB benefits or costs in the experience period.
- There are no capitated claim services in the experience period.
- Prescription Drug Rebates are used to reduce the level of Incurred Claims in the experience period.
- The Estimated Risk Adjustment represents our best estimate of the year end risk adjustment transfer payment that the Company will incur based on the results in the experience period. This amount is developed based on an analysis of Company data (risk scores as defined in the HHS Notice of Benefit and Payment Parameters, as well as other risk transfer formula components), and an estimate as to the Market-wide risk transfer component profile. This Market-wide profile is developed from available Market data, including the Interim Summary Report for 2016 risk adjustment published by CMS, the PA Insurance Department's calculation of 2016 risk adjustment transfer amounts using the 2/10/2017 RATEE files, prior years' risk adjustment transfer results, publicly available data (such as MLR reports), and outside expertise from actuarial consultants.
- The Small Group Market is ineligible for Reinsurance Recoveries.

The Small Group Market does not allow for Special Enrollment Periods (SEPs). As such, there is no adjustment made for SEPs within our historical claims experience.

G. Credibility of Data (Tables 2b, 3b, 4b)

The experience period data for this Company is large enough to be fully credible. The results are based 100% on the experience period data, adjusted as described herein.

For the trend component development, the Company uses results from the combined experience of the following companies within the Highmark corporate structure: Highmark Inc., Highmark Choice Company, Highmark Health Insurance Company, and Highmark Coverage Advantage. The combined experience used is limited to the Company's Rating Area and Market, and provides a more credible base to analyze the trend components impacting the business in the Company's Market.

Given the combined company experience used in the trend analysis, the Company has provided Tables 3b and 4b within this filing submission.

H. Trend Identification (Table 3)

Table 3 identifies the annual medical and prescription drug allowed claims cost and utilization trends, as requested by the Pennsylvania Insurance Department. The definitions of service categories, cost, and utilization in Table 3 are consistent with the URRT instructions. The numbers entered in the Cost and Utilization columns are consistent with those entered in Worksheet I, Section 2 of the URRT, except as noted below.

To arrive at our trend assumption, the experience period cost and utilization data were pulled from Highmark's claims systems by the defined benefit categories. As discussed in Section 1.G above, the

claims are pulled from multiple Highmark companies and would represent all Small Group business within the Company's Rating Area over the trend analysis period. The trend development uses a projection of allowed claim PMPMs by service category that takes into account many factors, including the Company's expectations of changes in in-network provider contracting levels, changes in out-of-network costs, changes in utilization from medical management programs, and changes in drug costs from impacts such as generic drug development and new drug treatments.

These projected costs measure and normalize for benefit leveraging, population aging, and historical changes in fee schedules, as well as company-wide utilization management programs, and external trend drivers. Based upon the coverage and demographics of our membership, our historical claim levels, adjusted for these factors and projected forward, would represent the best estimates of trend for this block of business. Please note that since these historical claim levels are normalized throughout to account for these forces impacting claim utilization and costs, the claim levels presented will not reflect actual experience claim levels.

For the rate development, the Company uses the aggregate claim trend for all types of service, applied to the experience period. This is done so that the combined trend is reasonable in consideration of the various pricing trend components and the overall anticipated trend level. Based on a review of the projected normalized annual trends for 2017 and 2018, an annual overall claim trend of 8.8% (5% cost; 3.62% utilization) was selected for the 2018 rate development. Please refer to the "Trend Support" exhibit in the "Supplemental Exhibits - HMRK - ver 2018 no PT.xlsx" file showing the historical and projected normalized claim values for the Company's trend determination, along with our proposed rate trend.

Note that the URRT instructions require that anticipated changes in the average utilization of services due to differences in average cost sharing requirements from the experience period to the projection period be reflected in the Utilization trend component shown in Worksheet I, Section 2. This component of the trend is separately identified in Table 3, as the Induced Utilization trend.

For this Small Group Market filing, quarterly rates are proposed, with rates adjusted each quarter based on the Total Annual Trend presented in Table 3, excluding the Induced Utilization trend. The quarterly trend is based on the cost and utilization trend from Table 3.

As mentioned above, provider contracting and benefit leveraging are directly considered in our trend development as follows:

- Provider contracting is a direct component of our trend calculation. Known and anticipated changes in in-network provider contracting levels are directly factored into our trend development through percentage increases and percent of claims assumptions.
- Benefit leveraging refers to the propensity for members to make use of more services once certain benefit components, such as deductibles, are reached. Since these costs are included in our claim experience, we make adjustments to the experience claims to normalize for these factors, and account for these in our rate development in the pricing under specific benefit designs.

I. Historical Experience (Table 4)

Table 4 presents the most recent 36 months (3 calendar years) of Company data with run-out through January 2017. The Company has offered only ACA-compliant policies in the Small Group market in the experience period. As such, there is no transitional policy experience to report.

As mentioned above in Section I.G, Credibility of Data, the Company utilizes the combined experience from several companies within its corporate structure to develop the experience used in the trend development. Combined Historical Experience data from the above referenced companies is presented in Table 4b.

2. Rate Development & Change

A. Development of Projected Index Rate, Market-Adjusted Index Rate, & Total Allowed Claims (Table 5)

The development of the Projected Index Rate, Projected Market-Adjusted Index Rate, and Projected Total Allowed Claims, shown in Table 5, closely follows that utilized in the development presented in Worksheet 1 of the URRT, a discussion of which can be found in the Part III Actuarial Memorandum submitted in the Rate Filing Justification. Some of the items separately identified in Table 5 include:

- The Change in Morbidity represents an adjustment from the experience period claims to the projection period. See below for additional commentary related to the projection period assumptions.
- The Change in Demographics adjustment reflects the change in age and geography factors we expect from the experience period to the projection period.
- The Change in Network adjustment reflects the change in the allowed claims we anticipate due to changes in in-network discount levels between the experience period and the projection period.
- The Change in Benefits adjustment reflects the change in the EHB benefits (pediatric benefits) we anticipate between the experience period and the projection period, as well as the change in expected pharmacy rebates. See below for additional commentary related to these cost changes.

Please see the worksheet named “Table 5 Support” in the “Supplemental Exhibits - HMRK - ver 2018 no PT.xlsx” file for the calculation of these factors from our experience period data and projected rate results.

Our initial step in developing the index rates is to determine the expected covered membership for 2018. We estimate the covered member base by adjusting for those groups known to have lapsed during 2016, and those that we expect will lapse in 2017. Then we add in expected new business from groups with current transitional coverage moving to ACA plans, and groups currently with another carrier.

As we have seen through 2016, many of the Small Group market customers have retained their pre-ACA coverage through the transitional coverage provisions, and have yet to join the ACA risk pool. With the transitional coverage provisions extension through the end of 2018 for groups that renew on or prior to October 1, 2018, we continue to believe that many groups, especially lower-risk groups, will continue to retain their current transitional coverage until required to transfer coverage by January 1, 2019. The customers who have already transitioned to the ACA pool to date have been groups with higher morbidity and as more groups migrate to the ACA products, we expect the morbidity of the ACA pool to improve. Thus we anticipate morbidity improvement in the projection period, and reflect this with a Change in Morbidity adjustment of 0.937.

The Change in Benefits adjustment reflects our estimate of the additional costs associated with the addition of EHBs from the experience period to the coverage period, as well as a change in expected Pharmacy rebates. The rating impacts and descriptions associated with each of these items are as follows:

- Pediatric Dental ($0.22) – The estimated cost to add the pediatric dental EHB services is $0.22 PMPM. Pediatric dental costs from the EHB package are included in our experience period claims for ACA business, but not for transitional business. Thus we need to add a charge for those transitional policies that we expect will move to ACA coverage by 2018. This $0.22 PMPM cost is determined from an estimated dental cost of $24.73 PMPM for members aged 0-18 (provided by our dental vendor and developed based on dental experience for members 0-18 priced at 2018 benefit levels for this Market and Rating Area). It was projected that approximately 20.9% of the Small Group members will be between the ages of 0-18, based upon the 2016 membership distribution, and that approximately 4.3% of the 2018 ACA business was in transitional coverage in the 2016 experience period. Therefore, the estimated cost of pediatric dental was calculated as follows: $24.73 x 20.9% x 4.3% = $0.22.
- Pediatric Vision ($0.62) – The pediatric vision cost of $0.62 for 2018 was provided by our vision vendor, Davis Vision.
- Pharmacy Rebates (-$7.69) – The Company is expecting an increase in its Pharmacy rebates from the 2016 experience period to the 2018 rating period. This change in Pharmacy Rebates is due to new levels of negotiated rebates with our pharmaceutical vendor. For the Company, rebate savings are expected to increase from $9.78 PMPM in the experience period to $17.47 PMPM in the rating period. This increase in rebates reduces the 2018 projected costs by $7.69 PMPM.

The development of the Projected Paid to Allowed Ratio shown in Table 5 is presented in the "Supplemental Exhibits - HMRK - ver 2018 no PT.xlsx" file in the "Table 5 Paid-to-Allowed" worksheet. As shown in this exhibit, the projected paid to allowed ratio from the membership projections by plan included in Worksheet 2 is consistent with the value shown in Worksheet 1, Section III.

Table 5 reflects that we are assuming a Projected Risk Adjustment receipt in the projection period of $2.08 PMPM. This amount reflects an anticipated risk transfer receipt of $2.15, less a monthly charge of $0.14 for the CMS stipulated Risk Adjustment User Fee in 2018 of $1.68 for the year. This value of $2.01 is trended by the average 2018 pricing trend to arrive at the value of $2.08 reflected in Table 5.

To arrive at the anticipated risk transfer for 2018, we bring in the risk adjustment calculation components for the projected 2018 Company portfolio (as discussed above), and use our current knowledge of the Pennsylvania Small Group market profile to estimate the risk adjustment components for the entire state Market. This Market-wide profile is developed from available Market data, including the Interim Summary Report on Risk Adjustment for the 2016 Benefit Year published by CMS, the PA Insurance Department's calculation of 2016 risk adjustment transfer amounts using the 2/10/2017 RATEE files, prior years' risk adjustment transfer results, publicly available data (such as MLR reports and rate filings), and outside expertise from actuarial consultants.

In analyzing the risk transfer components from corporate Highmark's various Pennsylvania businesses, we have noticed a significant difference in results between the various regions (Western, Central, and Northeastern Pennsylvania). Thus when projecting the risk transfer components to 2018, we determine each region's risk transfer results separately to arrive at the estimated risk transfer results for each company, as appropriate for each company's region.

The Projected Paid Exchange User Fees are developed from the Exchange user fees to be charged by CMS in 2018, multiplied by the percentage of business we expect to purchase Market coverage through the Exchange for this Company. For this Company, all business will be offered Off Exchange in 2018, so there are no Exchange User Fees charged in the rate development.

For this Small Group Market filing, Table 5A has been completed, showing the number of member months renewing by quarter, and the quarterly Single Risk Pool Projected Allowed Claims.

B. Retention Items (Table 6)

Table 6 has been completed with the requested retention elements for the proposed rates for the rating period. The amounts presented separately sum to the total administrative expenses and taxes and fees presented in the rate development in Table 10. Administrative costs reflect internal costs that the Company is projected to incur in the projected experience period, and are developed from standard expense allocation methods. Agent/broker fees and commissions reflect our anticipated costs for these items in the experience period.

The development of internal administrative costs utilizes an allocation of Company costs back to lines of business. The allocation method uses measureable stats such as claims worked, inquiries worked, contracts, and members to allocate the majority of expenses. When possible, expenses are direct charged if they can be identified by product instead of going through an allocation method. For corporate allocations, a TCI (total costs incurred) methodology is generally used to allocate by product.

The following Taxes and Fees were included in the rate development:

- $2.46 per member per annum for the Patient Centered Outcomes Research Fee (0.04% of premium); and
- 3.4% for Health Insurance Providers Fee.

Note the following regarding plan level retention items:

- The rate development reflects a 0% risk/contribution to surplus margin for all products and plans.
- The administrative expenses do not vary by plan.
- Expenses for Quality Improvement Initiatives are estimated to be 7% of internal Company expenses, based upon historical analysis of these costs.

Please note that for the Small Group Market the Projected Required Revenue PMPM shown in Table 6 will not match the URRT Worksheet 1 Single Risk Pool Gross Premium Average Rate PMPM since the value in the URRT is based on a January 1 effective date without reflecting the impact of quarterly rates in the small group market.

C. Normalized Market-Adjusted Projected Allowed Total Claims (Table 7)

The normalization factors presented in Table 7 are each determined from the underlying membership demographics expected in the projected rating period. The 2017 values are pulled from the prior year's filing, while the 2018 values represent our projection for 2018 assumed in the 2018 rate development.

The Age Factor is the weighted average of the Average Age Factors for the Current ACA Book of Business as of the End of Year 2016 and for the Membership Moving to the ACA Book (from Transitional and New Business).

The Geographic Calibration Factor is the weighted average of the Area Factors by County. This average is weighted by membership.

The Tobacco Surcharge is not applicable since we do not use one.

D. Components of Rate Change (Tables 8 and 9)

Table 8 presents the components of change in the proposed 2018 Calibrated Plan Adjusted Index Rate (PMPM). The 2017 base period allowed claims as developed from the 2017 rate filing. Row H of Table 8 may differ from Row A due to the detailed breakdown of all the components of the increases in rows B through G not calculating exactly to the change in the calibrated plan adjusted index rate in Row A, which is the more accurate percentage change based on the rate development.

Table 9 presents the data elements supporting the calculations in Table 8. Note the following differences between the Table 9 values presented for 2017 and the values from the 2017 URRT:

- The 2-year trend shown in the URRT (Cost and Utilization components combined) would include the anticipated changes in the average utilization of services due to differences in average cost sharing requirements from the experience period to the projection period. This trend component is removed from the URRT Trend (2-Year Trend Factor) shown in Table 9 to be consistent with the reporting from Table 3.
- The adjustment representing the anticipated changes in the average utilization of services due to differences in average cost sharing requirements from the experience period to the

projection period is included in the URRT "Other" factor shown in Table 9 (see preceding comment).

- The Risk Adjustment shown in Table 9 is the average risk adjustment charge for the projected experience year. In the URRT, the Projected Risk Adjustments represent the risk transfer adjustment for January 1 effective dates only.
- Taxes and Fees shown in Table 9 differ from the Taxes and Fees from the URRT as the Table 9 separates out the Exchange User Fee into a separate line item. In the URRT the Exchange User Fee is included in the Taxes and Fees line item.

3. Plan Rate Development (Table 10)

Table 10 showing the plan rate development has been completed following the instructions in the 2018 ACA-Compliant Health Insurance Rate Filing Guidance. This table shows the plans that the Company intends to offer in 2018, as well as plans discontinued from the 2017 portfolio for 2018. Since many small group market enrollees as of 2/1/17 are still in plan year 2016 plans, the enrollees in plan year 2016 plans were mapped to the plan year 2017 plan that the we anticipate they will renew into in 2017. The calibrated plan adjusted index rates for 2018 and 2017, and all of the supporting factors, are calculated according to the instructions.

Each plan takes the Market Adjusted Index Rate and multiplies by the Pricing AV, Benefit Richness Factor, Benefits in Addition to EHB Factor, Provider Network Factor, Catastrophic Eligibility Factor, and Tobacco Surcharge Adjustment Factor in order to calculate the Pure Premium. The Pure Premium is then grossed up to account for expenses (Admin Costs, Taxes & Fees, and Profit or Contingency) in order to calculate the Calibrated Plan Adjusted Index Rate. Since each component of the Calibrated Plan Adjusted Index Rate is applied multiplicatively (including the Plan AV Pricing Value), plan premiums are in proportion to the Plan AV Pricing Values.

The rate change percentages calculated in Table 10 column AC by plan design will slightly differ between URRT Worksheet 2 row 27 since the PID spreadsheet maintains the 2017 quarterly distribution of enrollment as filed last year while the URRT calculation utilizes a consistent enrollment distribution by quarter for both years based on the anticipated distribution for 2018.

Note that the HHS Actuarial Value Calculator was able to accommodate all of the Company's benefit designs, and that no adjustments were needed from the values produced by the calculator.

The requested Induced Utilization Exhibit was completed and it presented within the "Supplemental Exhibits - HMRK - ver 2018 no PT.xlsx" file submitted with this filing (worksheet named "Induced Utilization"). Note that the calculated Induced Utilization factor in Column (8) is a component of the Actuarial Value Allowable Modifier. As such, it is adjusted by the Average Benefit Richness normalization factor of 1.0919. In multiplying the Induced Utilization column (8) result by the Average Benefit Richness normalization factor, the result is the Induced Utilization factor appropriate for the plan's metal level (before normalization), which are the CMS-prescribed assumptions used in the risk

adjustment transfer calculation. These factors have been unchanged since they were originally developed for the 2014 rating period.

The member-weighted average of the pure plan-level Induced Utilization factors in the last column of the induced utilization exhibit against the projected membership does match the 1.000 expectation of the Department. This calculation can be seen at the bottom of the Induced Utilization Exhibit, where the formulas used in the calculation have been retained.

The Child Capping Adjustment is applied to the Age Calibration Factor in Table 10 to reflect the limitation on the number of children allowed in rating. This factor is determined by estimating the amount of lost revenue due to this restriction, and applying the resulting factor to the normalized age factor in the base rate development. Support for the calibration factors is shown in the "Supplemental Exhibits - HMRK - ver 2018 no PT.xlsx" file on the worksheet named "Table 10 Calibration Factors".

4. Plan Premium Development for 21-Year-Old Non-Tobacco User (Table 11)

Table 11 presents the Company's 21-year-old non-tobacco premium in the Market for each rating quarter in 2018. As mentioned in Section 1.C above, the change in 21-year-old non-tobacco premium PMPM calculated in this table is a 2.0% increase, while the "percent rate change requested" from the SERFF Rate Review Detail Screen (and Table 10) is 0.05%. This difference in increases between the tables is due to the application of the prorated Health Insurance Providers Fee that was applied quarterly to the 2017 rates. This causes the rate increases reflected in Table 10 to decrease in subsequent quarters, and causes the average rate increase for the entire plan year to be lower than the first quarter only increase that is shown in Table 11.

5. Plan Factors

A. Age and Tobacco Factors (Table 12)

Please see Table 12 for the Company's age and tobacco factors.

B. Geographic Factors (Table 13)

Please see Table 13 for the Company's geographic factors. The Company's factors for the rating period are unchanged from the currently approved factors.

As mentioned in the Cover Letter, the Company is not changing its product offerings by Rating Area.

C. Network Factors (Table 14)

Please see Table 14 for the Company's network rating factors.

D. Service Area Composition

The Company follows the Rating Area designations created by the state. All counties within a Rating Area are serviced by the Company, according to the Rating Areas specified in Table 14. The Company

has submitted its current 2017 service area and its proposed 2018 service area in the file "Pennsylvania Counties Map - 2018 Filings - Highmark.ppt" submitted with this filing. There are no proposed changes to the Company's service area from 2017 to 2018.

E. Composite Rating

The Company is currently not planning to use CMS's composite rating method for any of its off-SHOP plans offered during the rating period; however, the Company is interested in the state adopting a methodology for the PA Marketplace that is more consumer friendly than the CMS method by utilizing composite rating tiers similar to transitional small group policies currently in the market (i.e. rates by contract types of Individual, Parent/Child(ren), Two Person (Adults), and Family).

6. Actuarial Certifications

I am a member of the American Academy of Actuaries and meet its qualification standards for actuaries issuing statements of actuarial opinions in the United States. This filing is prepared on behalf of the Company to accompany its rate filing (for calendar year 2018) for the small group combined Market on and off the Pennsylvania Exchange.

I hereby certify that the projected index rate is, to the best of my knowledge and understanding:

- In compliance with all applicable State and Federal Statutes and Regulations (45 CFR 156.80(d)(1) and 147.102)
- Developed in compliance with the applicable Actuarial Standards of Practice
- Reasonable in relation to the benefits provided and the population anticipated to be covered
- Neither excessive nor deficient.

I certify that the index rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2) were used to generate plan level rates. The allowable modifiers used to generate plan-level rates were:

- The actuarial value and cost-sharing design of the plan.
- The plan's provider network, delivery system characteristics, and utilization management practices.
- The benefits provided under the plan that are in addition to the essential health benefits. These estimated benefits were pooled with similar benefits within the single risk pool and the claims experience from those benefits was utilized to determine rate variations.
- Administrative costs, excluding Exchange user fees.

I certify that all factor, benefit and other changes from the prior approved filing have been disclosed in the 2018 PA Actuarial Memorandum Rate Exhibits.

I certify that the percent of total premium that represents essential health benefits included in Worksheet 2, Sections III and IV were calculated in accordance with actuarial standards of practice.

I certify that the benefits included in the Company's plans are substantially equivalent to the Essential Health Benefits (EHBs) in the State of Pennsylvania's benchmark plans. I certify that any benefit substitutions are:

- Actuarially equivalent to the benefits being replaced,
- Are made within only the same essential health benefit category,
- Are based on a standardized plan population,
- Are determined regardless of cost-sharing,
- Are not prescription drug benefits, and
- Are based on an analysis performed in accordance with generally accepted actuarial principles and methodologies.

I certify that new plans are not considered modifications of existing plans (per the uniform modification standards in 45 CFR 147.106).

I certify that the AV Metal Values included in Worksheet 2 of the Part I Unified Rate Review Template were based entirely on the Federal AV Calculator.

I certify that the geographic rating factors reflect only differences in the costs of delivery (which can include unit cost and provider practice pattern differences) and do not include differences for population morbidity by geographic area.

The Part I Unified Rate Review Template does not demonstrate the process used by the Company to develop the rates. Rather, it represents information required by Federal regulation to be provided in support of the review of rate increases, for certification of qualified health plans for federally facilitated exchanges and for certification that the index rate is developed in accordance with Federal regulation and used consistently and only adjusted by the allowable modifiers.

I certify that the information presented in the PA Actuarial Memorandum and PA Actuarial Memorandum Rate Exhibits is consistent with the information presented in the 2018 Rate Filing Justification.

Part II of the Preliminary Justification

Highmark Inc. – Small Group Market

Scope and Range:

Highmark Inc. is requesting a weighted average rate increase of **0.38%** weighted on the projected enrollment for renewing plans shown in the Unified Rate Review Template for its 2018 ACA qualifying small group products with effective dates from January 1, 2018 to December 31, 2018. This will impact 12,178 individuals.

Due to changes in benefits, metal levels and plan design pricing relativities, average increases at the plan level differ and range from **-3.56% to 7.59%** as shown in the Unified Rate Review Template.

The proposed increases are being driven by an increase in taxes and fees as well as rising medical care costs, which are expected to continue through the remainder of 2017 and throughout 2018 as a result of both higher utilization and the increasing cost of healthcare services.

The extension of pre ACA transitional policies, as originally announced by HHS on March 5, 2014 allowed small groups to keep their existing non-ACA compliant plans through October 1, 2016 effective dates. CMS extended the transitional policy on February 29, 2016 to policy years beginning on or before October 1, 2017, provided that all policies end by December 31, 2017. CMS has since extended this relief through policy years beginning on or before October 1, 2018, provided that all policies end by December 31, 2018.

Lower cost small groups are expected to remain outside the ACA single-risk pool for most of 2018 due to more favorable premium rates afforded to them in the pre ACA rating formula. The remaining population expected to enroll in the ACA qualifying products represents a small portion of the pool, and those groups generally have unfavorable demographics and higher than average claim costs.

Historical Financial Experience:
Highmark Inc.'s Small Group Market reported a financial loss in 2016.

Change in Medical Service Costs:

The cost of medical and prescription drug services increases annually due to higher demand for services by the members (utilization) and higher reimbursement required to maintain our provider network (unit cost). Annual medical costs are expected to rise by 8.8% annually from 2016 to 2018.

Change in Benefits:

Most plan designs required benefit changes for 2018 to remain within the ACA law's metal level requirements of platinum, gold, silver, and bronze.

Administrative Costs, Anticipated Operating Results, and Medical Loss Ratio:

Relative to the 2017 rate filing, taxes and fees are higher due to the return of the Health Insurance Provider Fee for 2018. The anticipated operating results are not excessive or unreasonable. In accordance with regulations, the projected medical loss ratio is over 80%.

I. General Information

Document Overview

This document contains the Part III Actuarial Memorandum for Highmark Inc.'s ("Highmark") small group block of business rate filing ("Filing"), for products with effective dates in calendar year 2018. This actuarial memorandum is submitted in conjunction with the Part I Unified Rate Review Template.

The purpose of the actuarial memorandum is to provide certain information related to the submission, including support for the values entered into the Part I Unified Rate Review Template, which supports compliance with the market rating rules and reasonableness of applicable rate increases. This information may not be appropriate for other purposes.

This information is intended for use by the State of Pennsylvania Department of Insurance, the Center for Consumer Information and Insurance Oversight (CCIIO), and their subcontractors to assist in the review of Highmark's Filing. However, we recognize that this certification may become a public document. Highmark makes no representations or warranties regarding the contents of this letter to third parties. Likewise, third parties are instructed that they are to place no reliance upon this actuarial memorandum prepared by Highmark that would result in the creation of any duty or liability under any theory of law by Highmark or its employees to third parties.

The results are actuarial projections. Actual experience is likely to differ for a number of reasons, including population changes, claims experience, and random deviations from assumptions.

I.1 Company Identifying Information:

- Company Legal Name: Highmark Inc.
- State: The State of Pennsylvania has regulatory authority over these policies.
- HIOS Issuer ID: 33709
- Market: Small Group
- Effective Date: January 1, 2018

II. Proposed Rate Increase(s)

For all rate increases by plan please see the 'Cum'tive Rate Change % (over 12 mos prior)' found in Worksheet 2 Row 27 of the URRT. The proposed rate increases for each plan differ due to benefit and some metal level changes made in the plan designs from 2017 to 2018. Most plans required benefit changes because of the new Actuarial Value (AV) calculator released for 2018 effective dates. The plan changes were required so that the plans remained within the defined metal level AV requirements. The components of the rate increase by plan are shown in rows 34 to 42 of Worksheet 2 of the URRT.

The primary drivers of the 0.38% rate increase (weighted on the projected enrollment for renewing plans in the URRT) were an increase in base experience claims and an increase in 2018 Taxes & Fees due to the reinstatement of the Insurer Fee for 2018, offset by decreases in the projected population change (morbidity), projected risk adjustment for 2018 versus 2017, and an increase in claim savings due to pharmacy rebates from the experience period to the projection period.

Since transitional policy relief was extended in the Small Group market in Pennsylvania through 2018 for groups that renew on or prior to October 1, 2018, we expect that the lower cost small groups will continue to renew their transitional policies and stay outside of the small group ACA single risk pool in 2018, while the higher cost small groups migrate into the ACA single risk pool.

III. Experience Period Premium and Claims

III.1 Paid through Date:

Experience period claims were based on incurred calendar year 2016, paid through January 2017. We only include the non-grandfathered, insured members in Highmark's 2016 book-of-business.

III.2 Premiums (net of MLR Rebate) in Experience Period:

The premiums shown for the experience period were based on calendar 2016 actual revenues, in accordance with the Unified Rate Review Instructions.

Based on preliminary information for calendar year 2016, no MLR rebates are anticipated to be refunded to enrollees. Therefore, we did not include an adjustment for MLR rebates in the 2016 premium amounts.

III.3 Allowed and Incurred Claims Incurred During the Experience Period:

- Historical Experience: To complete the URRT historical experience section we chose Highmark's current experience for the small group block of business for the period January 1, 2016 through December 31, 2016, with claims paid through January, 2017.

- Claims Incurred During the 12-month experience period: Worksheet 1, Section I shows our best estimate of the amount of claims that were incurred during the 12-month experience period for Highmark's book-of-business. This section includes:

  - The amount of claims which were processed through our claims system,

  - Claims processed outside of our claims system (Rx rebates, settlements), and

  - Our best estimate of claims incurred but not paid as of the Paid through Date stated above.

- Method for Determining Allowed Claims: For non-capitated claims, the allowed charges are summarized from Highmark's detailed claim-level historical data. We only include the non-grandfathered, insured members from Highmark's 2016 book-of-business.

- Paid Claims: We also summarized the paid claims from detailed member records. The paid-to-allowed ratio for the experience period reflects the 2016 plan designs chosen by each member.

- Incurred but Not Paid (IBNR) Claims Estimate: Highmark's estimate of the remaining incurred but not recorded (IBNR) claims reflects the anticipated IBNR as of the end of the paid claim run out period. The IBNR completion factor of 0.971 was developed for Highmark's total small group business through analysis of historical claim completion factors. The completion factor was applied equally to both paid and allowed total claims (as a change in utilization) to complete the experience.

IV. Benefit Categories

Historical cost and utilization data were pulled from Highmark's claims systems by the defined benefit categories included in Worksheet 1, Section II of the URRT. This data was used to allocate Highmark's total claims into its components on the URRT.

The data provided in this section closely adheres to the preferred definitions of the Benefit Categories included in the URRT instructions, including the "Other Medical" category. The "Other Medical" category units reflect visits for PDN/home health, trips for ambulance and procedures for DME/prosthetics. Prescription drug utilization is converted to a 30-day script count.

V. Projection Factors

V.1 Changes in the Morbidity of the Population Insured

The morbidity adjustment reflects the anticipated changes in the average morbidity of the covered population (beyond allowable rating factors) from the experience period to the rating period. As Highmark's experience period block is entirely ACA-compliant policies, we believe that the morbidity of the covered population will slightly improve. As such, we believe that the underlying morbidity of the covered population for 2018 in the Western, PA rating regions will improve over the morbidity in the experience period which included policies written in both the Western and Central Pennsylvania rating regions. For the 2018 rate development, we reflected this anticipated morbidity improvement with a 6.3% projected decrease in costs related to population health.

V.2 Changes in Benefits

We made the following adjustments to reflect the expected differences in benefits between the experience period and projection period:

- We reflected the additional cost of the following benefits that must now be covered under the essential health benefit package for members moving into ACA compliant policies from the transitional pre-ACA policies which do not cover these benefits:
  - Pediatric dental and vision benefits: +$0.84
- We reflected the following newly mandated benefits required under state law, which are not reflected in the experience period claims: None.
- We made an adjustment to reflect the removal of benefits covered in the experience period claims that will not be covered in the projection period: None.

V.3 Changes in Demographics

We are projecting an increase in the average age from the experience period to the projection period due to the fact that the combined experience and lower cost groups mentioned above in section V.1 will be slightly younger than the remaining pool and will remain in transitional policies. There is no change assumed in the projected area factor.

V.4 Other Adjustments

We are expecting an increase in savings associated with prescription drug rebates from the experience period to the projection period of $7.69 PMPM. This increase in rebates is due to new levels of negotiated rebates with our pharmaceutical vendor.

V.5 Trend Factors (cost/utilization)

This development of the CY 2018 rates reflects an annual trend rate of 8.8% (5.0% cost, 3.6% utilization). These trends reflect Highmark's expectations regarding increases in in-network contractual reimbursement. The annual trend estimates include the impact of provider contracting and anticipated utilization changes to both projected in-network and out-of-network costs. These estimates measure and normalize for benefit leverage, population aging, and historical changes for fee schedules, as well as company-wide utilization management programs, and external trend drivers.

The trend represents a blended average for all types of service and is applied to the aggregate experience for pricing. These trends represent assumed community-wide expectations. Claim variations due to the specific projected enrolled population in this single risk pool are reflected in the morbidity adjustment.

We reflected anticipated changes in the average utilization of services due to differences in average cost sharing requirements during the experience period and average cost sharing requirements in the projection period: +1.2%.

VI. Credibility Manual Rate Development

VI. 1 Source and Appropriateness of Experience Data Used

Highmark's small group experience is fully credible; no manual rate is developed or used in this projection.

VII. Credibility of Experience

The experience is for Highmark's non-grandfathered plans in 2016. It is large enough to be fully credible. Our results are based 100% on the experience rate, adjusted as described herein.

VIII. Paid to Allowed Ratio

For 2018, an average paid-to-allowed ratio of 80.7% is projected based on the 2018 product portfolio and the projected membership for each plan design.

IX. Risk Adjustment and Reinsurance

IX.1 Projected Risk Adjustments PMPM:

As we have seen through 2016, many of the Small Group market customers have retained their pre-ACA coverage through the transitional relief coverage provisions, and have yet to join the ACA risk pool. With the transitional coverage provisions extension through the end of 2018 for groups that renew on or prior to October 1, 2018, we continue to believe that many groups will retain their current transitional coverage until required to transfer coverage. The customers who have transitioned to the ACA pool to date have included members with

relatively higher morbidity and since that is the case across the ACA risk pool, we do not anticipate that the risk adjustment transfers will offset the higher average cost of these members.

To determine our estimated risk transfer for 2018, we examined historical risk scores calculated from the factors in the HHS Notice of Benefit and Payment Parameters, and other risk adjustment transfer formula components, for those members anticipated to be covered by Highmark in 2018. We then estimate the statewide average risk scores and other transfer formula components by analyzing the available risk adjustment transfer component information: the Interim Summary Report on Risk Adjustment for the 2016 Benefit Year published by CMS, the PA Insurance Department's calculation of 2016 risk adjustment transfer amounts using the 2/10/2017 RATEE files, prior years' risk adjustment transfer results, publicly available data (such as MLR reports and rate filings), and outside expertise from actuarial consultants. We do not anticipate significant migration into the small group risk pool from external populations (such as the uninsured).

In analyzing the risk transfer components from corporate Highmark's various Pennsylvania businesses, we have noticed a significant difference in results between the various regions (Western, Central, and Northeastern Pennsylvania). Thus when projecting the risk transfer components to 2018, we determine the each region's risk transfer results separately to arrive at the estimated risk transfer results for each company, as appropriate for each company's covered region.

Given the anticipated profile of the membership within Highmark in 2018, and the estimated market-wide profile, we are assuming that Highmark members will have a risk profile slightly higher than the market-wide averages, and that Highmark will receive a small contribution from the risk adjustment program in 2018, decreasing premiums in the rate development by $2.15 PMPM.

IX.2 Projected ACA Reinsurance Recoveries Net of Reinsurance:

The Individual ACA Reinsurance program terminated at the end of 2016. For the 2018 rating period, there is no Reinsurance Premium amount to include in the rate development.

X. Non-Benefit Expenses and Profit & Risk

X.1 Administrative Expense Load:

The proposed rates reflect internal administrative costs, including commissions and quality improvement admin. This cost was developed based on its standard expense allocation methods.

X.2 Profit (or Contribution to Surplus) & Risk Margin:

The proposed rates reflect 0% of premium as a risk/contribution to surplus margin. This load was applied to all products and plans.

X.3 Taxes and Fees:

The following taxes and fees were included in the 2018 rate development:

- $2.46 Per Member Per Annum for the Patient Centered Outcomes Research Fee; and
- 3.4% for the Health Insurance Provider Fee.

In total, these taxes and fees amount to 3.45% of the anticipated premium collected in 2018.

XI. Projected Loss Ratio

The anticipated medical loss ratio is about 89.0% relative to total premium less taxes and fees. This loss ratio is calculated consistent with the federally prescribed MLR methodology.

XII. Single Risk Pool

As described above the base experience used includes all of Highmark's small group non-grandfathered members in accordance with the Single Risk Pool regulations. The projected membership and their corresponding premiums and claims only include those members who will be enrolled in a fully ACA-compliant plan in 2018 under Highmark.

XIII. Index Rate

The index rates as shown on Worksheet 1 of the URRT are simply the average allowed claims for the Essential Health benefits for the experience and projected populations, respectively, for Highmark. It is not adjusted for the risk adjustment program or any other fee. For the projection period, it is the member-weighted average of the quarterly rate indices (Jan 1, Apr 1, Jul 1, and Oct 1) based on the assumed membership distribution effective in each quarter, as shown in the table below.

2018	% of Members	Projected Quarterly Index Rate PMPM
1Q	29.7%	$480.75
2Q	15.3%	$490.99
3Q	18.9%	$501.46
4Q	36.1%	$512.14
Composite	100.0%	$497.56

See the sections below for a description of how the projected index rate is adjusted to arrive at each plan adjusted index rate.

XIV. Market Adjusted Index Rate

Please see Exhibit I for a numerical demonstration of the Market Adjusted Index Rate development. The Market Adjusted Index Rate is the Index Rate further adjusted for risk adjustment and the exchange fee (all grossed up from paid to imputed allowed values). The Risk Adjustment factor is developed by taking one minus the grossed up expected risk transfer (net of the fee) and dividing by the projected incurred claims before risk adjustment. The Exchange User Fee factor is developed by adding the expected average exchange fee PMPM to the projected incurred claims after risk adjustment, then dividing by the projected incurred claims after risk adjuster. These adjustments were developed as factors in accordance with the Part III instructions.

XV. Plan Adjusted Index Rates

Plan Adjusted Index Rates are developed by taking the Market Adjusted Index Rate and adjusting for each plan's actuarial value, relative benefit richness, relative network, and remaining administrative expenses (including profit and risk, and taxes and fees). Please see Exhibit II for the development of the Plan Adjusted Index Rate for each plan. The administrative expenses do not vary by plan.

XVI. Calibration

XVI.1 Age Curve Calibration (to age 46, non-smoker, area with 1.0 geographic factor, January 1 effective date):

The projected weighted average age factor is 1.484. Each Plan Adjusted Index Rate represents the rate for an average member (i.e., a member with an age factor is 1.484). Please note that no member will pay these rates because the age factor of 1.484 is not found on the HHS Age Curve. It only represents the average age factor of the projected population. The closest age factor (1.500) is the factor for a person age 46. Please see Exhibit I for the development of the calibration factor.

XVI.2 Geographic Factor Calibration:

The projected weighted average geographic factor is 0.9703. Each Plan Adjusted Index Rate represents the rate for an average member with a geographic factor of 0.9703. Please note that no member will pay these rates because Highmark is not using a geographic factor of 0.9703 for any of the Pennsylvania rating areas. It only represents the average geographic factor of the projected population. Please see Exhibit I for the development of the calibration factor.

XVI.3 Quarterly Trend Factor Calibration:

The Plan Adjusted Index Rate represents the average rate renewing over the four quarters of 2018. Exhibit I also shows the factors to de-trend to calibrate to the rate for a 1/1/2018 renewal.

XVII. Consumer Adjusted Premium Rate Development

The Plan Adjusted Index Rate represents the rate for a non-smoker average age and average geographic member for an average quarterly renewal. Highmark is filing quarterly Index Rate trends of 2.13% per quarter. The Plan Adjusted Index Rates in Worksheet 2 Row 81 reflect an average combined trend of 3.5% for the four quarter renewal rating period.

The appropriate value to calibrate the Plan Adjusted Index Rate by is located at the bottom of Exhibit I. By applying the 'Combined Calibration Factor' found in Exhibit I to the plan adjusted index rates the resulting value will represent the plan premium for a 46 year old in a 1.0 area on 1/1/2018. The standard HHS Age Curve and area factors of 0.97 for regions 1, 2, 4, and 5; and 1.04 for region 6 can be used to calculate any rate found in the QHP rate template.

XVIII. AV Metal Values

The AV Metal Values included in Worksheet 2 of the Part I Unified Rate Review Template were based entirely on the Federal AV Calculator. No adjustments were needed for any benefits from those values produced by the AV calculator.

XIX. AV Pricing Values

The "URRT AV Pricing Value" shows the adjustment from the Market Average Index Rate to the Plan Adjusted Index Rates on Exhibit II. Please see Exhibit II for the portion of each AV pricing value that is attributable to each of the allowable modifiers.

XX. Membership Projections

Since transitional policy relief was extended through 2018 for groups that renew on or prior to October 1, 2018, we project that the bulk of the members in the small group market will remain outside of the ACA-compliant products, and remain outside the ACA single-risk pool. Since Highmark terminated its products in Central PA Service Zones D and E in 2015 (see below), Highmark is expecting to see a drop in enrollment from the 2016 experience period to 2018. See row 48 of Worksheet 2 to the URRT to see projected membership by plan.

XXI. Terminated Products

Highmark is terminating 21 QHP products that were new in 2015 and 2016. For products in Service Zones A and B, these products need to be terminated due to changes in the CMS Actuarial Value calculator for 2016, 2017, and 2018, which would have valued these plans outside of the regulated metal level bands. These products will be mapped to a corresponding QHP product of similar metal level and plan design, and the experience period members and allowed charges will be moved to the mapped plans in the URRT.

Highmark will no longer be offering products in Service Zones D and E. As such, we are terminating all products in these service zones, and will not be mapping their experience in the URRT.

Exhibit III lists all terminating plans, as well as plan mappings for the terminated QHP plans.

XXII. Plan Type

The Plan types listed in Worksheet 2, Section I of the Part I Unified Rate Review Template describe Highmark's plans adequately. No differences are needed.

XXIII. Warning Alerts

There are no Warning Alerts generated by Worksheet 2. All results from plan level projections on Worksheet 2 are within tolerable bounds of the Worksheet 1 projected amounts.

XXIV. Actuarial Certification

I am a member of the American Academy of Actuaries and meet its qualification standards for actuaries issuing statements of actuarial opinions in the United States. This filing is prepared on behalf of Highmark to accompany its rate filing (for calendar year 2018) for the small group combined market on and off the Pennsylvania Exchange.

I hereby certify that the projected index rate is, to the best of my knowledge and understanding:

- In compliance with all applicable State and Federal Statutes and Regulations (45 CFR 156.80(d)(1) and 147.102),
- Developed in compliance with the applicable Actuarial Standards of Practice
- Reasonable in relation to the benefits provided and the population anticipated to be covered
- Neither excessive nor deficient.

I certify that the index rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2) were used to generate plan level rates. The allowable modifiers used to generate plan-level rates were:

- The actuarial value and cost-sharing design of the plan.
- The plan's provider network, delivery system characteristics, and utilization management practices.
- The benefits provided under the plan that are in addition to the essential health benefits. These estimated benefits were pooled with similar benefits within the single risk pool and the claims experience from those benefits was utilized to determine rate variations.

- Administrative costs, excluding Exchange user fees.

I certify that the percent of total premium that represents essential health benefits included in Worksheet 2, Sections III and IV were calculated in accordance with actuarial standards of practice.

I certify that the benefits included in Highmark's plans are substantially equivalent to the Essential Health Benefits (EHBs) in the State of Pennsylvania's benchmark plans. I certify that any benefit substitutions are:

- Actuarially equivalent to the benefits being replaced,
- Are made within only the same essential health benefit category,
- Are based on a standardized plan population,
- Are determined regardless of cost-sharing,
- Are not prescription drug benefits, and
- Are based on an analysis performed in accordance with generally accepted actuarial principles and methodologies.

I certify that the AV Metal Values included in Worksheet 2 of the Part I Unified Rate Review Template were based entirely on the Federal AV Calculator.

I certify that the geographic rating factors reflect only differences in the costs of delivery (which can include unit cost and provider practice pattern differences) and do not include differences for population morbidity by geographic area.

The Part I Unified Rate Review Template does not demonstrate the process used by Highmark to develop the rates. Rather, it represents information required by Federal regulation to be provided in support of the review of rate increases, for certification of qualified health plans for federally facilitated exchanges and for certification that the index rate is developed in accordance with Federal regulation and used consistently and only adjusted by the allowable modifiers.

2018 Rates Table Template v7.1

All fields with an asterisk (*) are required. To validate press Validate button or Ctrl + Shift + I. To finalize, press Finalize button or Ctrl + Shift + F.

If you are in a community rating state, select Family-Tier Rates under Rating Method and fill in all columns.

If you are not in a community rating state, select Age-Based Rates under Rating Method and provide an Individual Rate for every age band.

If Tobacco is Tobacco User/Non-Tobacco User, you must give a rate for Tobacco Use and Non-Tobacco Use.

To add a new sheet, press the Add Sheet button, or Ctrl + Shift + H. All plans must have the same dates on a sheet.

2018 Rates Table Template v7.1

All fields with an asterisk (*) are required. To validate press Validate button or Ctrl + Shift + I. To finalize, press Finalize button or Ctrl + Shift + F.

If you are in a community rating state, select Family-Tier Rates under Rating Method and fill in all columns.

If you are not in a community rating state, select Age-Based Rates under Rating Method and provide an Individual Rate for every age band.

If Tobacco is Tobacco User/Non-Tobacco User, you must give a rate for Tobacco Use and Non-Tobacco Use.

To add a new sheet, press the Add Sheet button, or Ctrl + Shift + H. All plans must have the same dates on a sheet.

2018 Rates Table Template v7.1

All fields with an asterisk (*) are required. To validate press Validate button or Ctrl + Shift + I. To finalize, press Finalize button or Ctrl + Shift + F.

If you are in a community rating state, select Family-Tier Rates under Rating Method and fill in all columns.

If you are not in a community rating state, select Age-Based Rates under Rating Method and provide an Individual Rate for every age band.

If Tobacco is Tobacco User/Non-Tobacco User, you must give a rate for Tobacco Use and Non-Tobacco Use.

To add a new sheet, press the Add Sheet button, or Ctrl + Shift + H. All plans must have the same dates on a sheet.

2018 Rates Table Template v7.1

All fields with an asterisk (*) are required. To validate press Validate button or Ctrl + Shift + I. To finalize, press Finalize button or Ctrl + Shift + F.

If you are in a community rating state, select Family-Tier Rates under Rating Method and fill in all columns.

If you are not in a community rating state, select Age-Based Rates under Rating Method and provide an Individual Rate for every age band.

If Tobacco is Tobacco User/Non-Tobacco User, you must give a rate for Tobacco Use and Non-Tobacco Use.

To add a new sheet, press the Add Sheet button, or Ctrl + Shift + H. All plans must have the same dates on a sheet.

Highmark's Response to Objection Letter Dated 06/16/2017

Product Name: **HIGHMARK Small Group 2018 ACA Rate Filing**

RE: Highmark – 2018 Small Group ACA Compliant Plans (1A-SG-HIGHMARK-2017); Pennsylvania Insurance Department ID #: HGHM-131014769
Objection Letter Status: Additional Information Required
Objection Letter Date: 06/16/2017
Respond By Date: 06/23/2017
Response Date: 06/23/2017

Below please find our responses to the Highmark ("Company") Small Group 2018 ACA Rate Filing Objection Letter dated 06/16/2017. For convenience, the questions have been reproduced below, with our responses immediately following each question.

Please note that, with the objection and additional information requested, Highmark took the opportunity to update its rate filing to remove the impact of the proposed Pennsylvania premium tax in the rate development. In making this update, the discrepancies referenced in Question #8 are eliminated, as noted below, but this update would not impact any other questions from the Department or our responses.

A supplemental exhibits file has been submitted along with this response. Please see the file named "PID Response HMK 2017-06-23 - Redacted Exhibits.pdf", which contains additional exhibits and supplemental detail, as referenced in the below responses.

1. The underlying annual trend supporting the filing is 8.8%, which is further adjusted by an induced utilization adjustment of 0.57% per year, to develop the overall trend assumption of 9.42% per year.

a) Please provide quantitative support for the "Normalized Allowed PMPM" values provided in the supplemental file "Supplemental Exhibits - HMRK - ver 2018.xlsx," "Trend Support" tab which are driving the 8.8% trend assumption (e.g. show the initial monthly allowed PMPM values, the normalization adjustments, and the calculations driving the monthly PMPMs after the experience period).

Response:

Please see the "Question #1a" tab in the included supplemental exhibits file, "PID Response HMK 2017-06-23 - Redacted Exhibits.pdf," which shows the development of the normalized and adjusted allowed claims for the prior three experience years, and projected out through 2018. As discussed in the Actuarial Memorandum, to get to the adjusted allowed claims used for the development of the trend, the experience allowed claims for all Small Group business within Highmark's corporate structure are aggregated by Pennsylvania region (Western, Central, and Northeastern), and adjusted for changes in in-network provider contracting levels, changes in out-of-network costs, changes in utilization from medical management programs, and changes in drug costs from impacts such as generic drug development and new drug treatments. In addition, the trend estimates normalize for benefit leveraging, population aging, changes in fee schedules, and external trend drivers. The projection of claim costs into the rating period utilizes the same categories of adjustment factors, adjusts for seasonality, and uses a statistical regression of historical trend levels to project monthly claim levels. This normalized and adjusted claim progression, as appropriate for the Company's service area, is then used to provide the basis from which to base the Company's rating trend upon.

b) Please provide quantitative support for the annual induced utilization adjustment of 0.57%.

Response:

Please see the "Question 1b Summary" tab in the included supplemental exhibits file, "PID Response HMK 2017-06-23 - Redacted Exhibits.pdf," which shows the quantitative support for the annual induced utilization adjustment. The induced utilization adjustment is determined from the plan level utilization factors using the actual membership distribution by plan from 2016 and projected membership by plan in 2018. These utilization factors are presented in the "Question 1b 2016 Induced Demand" and "Question 1b 2018 Induced Demand" tabs of the supplemental exhibits file. As mentioned in the Actuarial Memorandum, the plan level utilization factors are the CMS-prescribed Induced Utilization factors used in the risk adjustment transfer calculation, and have been unchanged since they were originally developed for the 2014 rating period.

2. The actuarial memorandum states that the $2.08 PMPM projected risk adjustment assumption is comprised of an expected risk transfer receivable of $2.15 PMPM, less the $0.14 PMPM risk adjustment user fee, trended by the average 2018 pricing trend.

a) Please provide the source(s) for all risk adjustment input values provided in the supplemental file “Supplemental Exhibits - HMRK - ver 2018.xlsx,” “Table 5 Risk Adjustment” tab.

Response:

The projection of the 2018 risk adjustment transfer component of the rate development utilizes separate projections of the Pennsylvania Small Group marketplace factors, and internal Highmark company factors. We are expecting the Small Group ACA market to be fairly stable between the experience period and the projection period. As such, we have used historical market data, where available, and our internal company data to develop the risk adjustment transfer component used in the rate development.

The primary source for the market components is the PA Insurance Department’s calculation of 2016 risk adjustment transfer amounts using the 2/10/2017 RATEE files, which provided data on the size of the marketplace, the average actuarial value, the average induced demand, and the expected risk transfer levels by company, which allowed us to estimate relative risk levels for each company against the market. This data was supplemented with additional data from the Interim Summary Report on Risk Adjustment for the 2016 Benefit Year published by CMS on March 31, 2017. Using these two reports, a historical study of the profile of the market, and data provided by an actuarial consultant, the Company estimates the 2018 market size, risk transfer component profile, and average premium levels for the total PA market.

For the Company's risk transfer component profile, the Company uses 2016 experience data for the Small Group ACA risk pool, and adjust the experience results for anticipated lapses, new business, and business transferring from the transitional relief segment. This profile is built for each PA regional segment and applied as appropriate for the Company, based on the Company's service area.

3. With respect to the demographic adjustment equal to 1.024, please provide the distribution of membership by age and gender for the following:

- Projected for 2018
- Currently inforce in 2017
- Underlying the 2016 base experience.

Response:

Please see the "Question #3" tab in the supplemental exhibits file, "PID Response HMK 2017-06-23 - Redacted Exhibits.pdf," which shows the calculation of the demographic adjustment factor. The "Calendar Year 2016 Factors" section provides a distribution by age of our underlying 2016 experience, which is used to calculate the average age factor for the experience period, using the new age curve factors for 2018 prescribed by CMS. The "2018 Factors for ACA Members Expected to be Effective in 2018" section provides a distribution by age of the population that is expected to be active in 2018, which was used to calculate the age factor in this section, again using the 2018 CMS-prescribed age factors. This 2018 age factor is then weighted with age factors for the projected "Non-ACA in 2016 to ACA in 2018" and the 'New ACA Business in 2017 & 2018" business cohorts. These groupings weighted by their expected 2018 member months calculate the total 2018 age factor for the region. The area factors are provided in each section, and the overall demographic adjustment factor calculation is then shown on the bottom of the exhibit.

4. In developing the morbidity adjustment equal to 0.937, please provide the quantitative development of, and justification for, the $417.83 value for "2016 Allowed Claims for those Members Expected to be Effective in 2018 [(Western region)]" which was used to calculate the change in morbidity adjustment from the file "Supplemental Exhibits - HMRK - ver 2018.xlsx," "Table 5 Support" tab.

Response:

The Population Risk Morbidity factor is derived from our analysis of membership experience in calendar year 2016, compared to the experience of the membership that we expect to be in the ACA pool in the 2018 experience period. We determine the 2018 cohort by adjusting for those groups known to have lapsed during 2016, and those that we expect will lapse in 2017. We also reflect expected costs of small groups entering the ACA pool after 2016.

The development of the 2016 Allowed Claims for those Members Expected to be Effective in 2018 value is shown in the "Question #4" tab in the supplemental exhibits file, "PID Response HMK 2017-06-23 - Redacted Exhibits.pdf". This is derived from the 2016 Total Allowed Claim PMPM for Western PA Region ACA and non-ACA

(transitional) business adjusted by a factor to reflect the expected costs of the ACA only membership expected to be covered by the Company in 2018.

Since we expect that grandmothered (transitional) policies will be most attractive to lower cost groups in the Pennsylvania Small Group market while the remaining business in the Small Group ACA pool would have higher costs, the expected cost factor reflects the higher average cost for the ACA Small Group risk pool expected in 2018 versus the combined experience including the non-ACA transitional business.

5. Please demonstrate how the proposed demographic and morbidity adjustments were taken into account in calculating the projected 2018 risk scores used in the development of the projected 2018 risk adjustment payment.

Response:

The projected risk scores used in the development of the projected 2018 risk adjustment payment are determined from the 2016 HHS risk scores, determined from an internal model that follows the HHS methodology, adjusted for anticipated lapses and new business, using actual group experience for 2016 where available. Since the development of the demographic and morbidity adjustments utilize the same underlying group experience factors, any adjustments made to the expected covered population are directly reflected in the risk adjustment payment results through the aggregation of the risk scores, allowable rating factors and other impacted risk adjustment formula components, of the assumed covered population.

6. Please describe and demonstrate quantitatively how the factors in Column 5 "Network Factor" used to calculate the 2018 network adjustment in the file "Supplemental Exhibits - HMRK - ver 2018.xlsx," "Table 5 Support" tab were developed.

Response:

The network discount factors shown in Column 5 of the Supplemental Exhibits included in the initial submission of this filing apply to specific plan designs offered in the various service zones, which are also listed in Table 14 of the PID Actuarial Memorandum next to the current factors. These factors are evaluated each year to reflect the impact of anticipated network cost and utilization changes between the experience period and the projection period. The proposed factors will better align premium with the expected costs in the projection period. Note the network discount factors shown in Column 5 of

the Supplemental Exhibits included in the initial submission of this filing are before normalization is applied. The network discount factors shown in Column 6 of the Supplemental Exhibits included in the initial submission of this filing are normalized to account for the average network discount factor.

7. Please show the development of the average commission and circumstances in which broker commissions will be paid and if they will vary based on geographic location, metal level, plan, open enrollment vs SEP enrollment, etc. Additionally, the current and 2018 broker agreements should be included and used to develop the percent shown in Table 6 as well as the associated pmpm.

Response:

Response redacted.

8. Please explain the following discrepancies between URRT and the Actuarial Memorandum Exhibits and correct the necessary exhibits:

a) Administrative expenses shows 10.42% on URRT and 10.64% in Table 6 [responder's note: the initial question from the Department incorrectly referenced 3.45% as the Table 6 value]
b) Taxes & Fees shows 5.44% on URRT and 3.45% in Table 6 [responder's note: the initial question from the Department incorrectly referenced 10.64% as the Table 6 value]
c) Risk Adjustment shows $2.01 on URRT and $2.08 in Table 5

Response:

For the items listed in Question #8a and 8b, the discrepancy among the values between the URRT and Actuarial Memorandum Exhibits is due to the URRT values reflecting the inclusion of the premium tax in the rate development, while the Actuarial Memorandum Exhibits reflect no provision for premium tax in the rate development. As part of this objection and response, the Company has revised its filing so that premium tax is not included in the rate development. Thus, the discrepancies in question no longer exist between the two sets of exhibits.

For the discrepancy in the risk adjustment (8c), as mentioned in the Actuarial Memorandum, the Table 5 value for the Projected Risk Adjustment is trended by the average 2018 pricing trend to arrive at the value appropriate for the average rate for the

year. The URRT rate development reflects rate for the first quarter 2018 only, so there is no need to apply an average year pricing trend to the value presented there.

9. The average age in Table 1 should be the true age based on single year bands distribution. If not, please revise Table 1.

Response:

The underlying membership data used to populate Table 1 includes exact member age. The calculated average age reflects the true average of these individual member ages.

10. Please confirm that you have tested to ensure that the rates in Table 11 of the Actuarial Memorandum Exhibits, PA Plan Design Summary and Rate Tables, Federal Rates Template and the binder are identical.

Response:

The requested rate test has been performed and the Company can confirm that the resulting rate calculations are identical among the various documents in the rate filing uploaded to SERFF. Identical rate files have been provided for the binder filing. This validation has been performed for both the filing with the inclusion of premium tax, and the filing where impact of the premium tax has been removed from the rate development.

Highmark, Inc
2018 Small Group Rate Filing

Highmark, Inc
2018 Small Group Rate Filing
Question #4 Response

Description	Reference	Formula	Calculation
2016 Total Allowed Claim PMPM (Western Region ACA and non-ACA (transitional))	(1)		$394.93
Expected cost factor of the ACA only membership expected to be covered by Highmark, Inc in 2018	(2)		1.058
2016 Allowed Claims for those Members Expected to be Effective in 2018 [(Western region)]	(3)	=(1)*(2)	$417.83

Highmark's Response to Objection Letter Dated 07/06/2017

Product Name: **HIGHMARK Small Group 2018 ACA Rate Filing**

RE: Highmark – 2018 Small Group ACA Compliant Plans (1A-SG-HIGHMARK-2017); Pennsylvania Insurance Department ID #: HGHM-131014769
Objection Letter Status: Additional Information Required
Objection Letter Date: 07/06/2017
Respond By Date: 07/14/2017
Response Date: 07/14/2017

Below please find our responses to the Highmark ("Company") Small Group 2018 ACA Rate Filing Objection Letter dated 07/06/2017. For convenience, the questions have been reproduced below, with our responses immediately following each question.

A supplemental exhibits file has been submitted along with this response. Please see the file named "PID Response HMK 2017-07-14.xlsx", which contains additional exhibits and supplemental detail, as referenced in the below responses.

1. Regarding the response to question 1a:

a) Please provide multiple numerical examples showing the development of the Medical and Rx "Adjustment Factors" from the file "PID Response HMK 2017-06-23.xlsx," "Question #1a" tab.

Response:

Please see the exhibit tabs named "Question #1a – Medical" and "Question #1a – Drug" in the submitted response file "PID Response HMK 2017-07-14.xlsx." These exhibits demonstrate the development of the average medical and drug adjustment factors for 2018. Adjustment factors are used in the development of trend assumptions to adjust the projection of trend to a pricing trend basis, removing or adding some of the components of trend as appropriate. Since the development of trend involves the build-up of claim assumptions over time, the adjustment factors are similarly built up over time to adjust the trend, and the change in the adjustment factor over a given period becomes the necessary change in the trend to a pricing basis. Thus, any individual adjustment factor is

determined from the prior month's adjustment factor, multiplied by a factor to change the trend to the appropriate level for rate development.

As an example of the adjustment factor development, please refer to "Question #1a – Medical" exhibit. As shown in the exhibit, our estimate of medical trend for 2018 is 8.8%. However, some of the factors impacting trend do not have an impact on the rate development. So it is necessary to adjust this trend to something more appropriate for rate development. Thus we remove the following items impacting our trend during 2018 to get to our pricing trend:

- Demographic changes – utilization (1.008)
- Cancelled clients (1.005)
- New clients (0.998)
- Changes in average risk & morbidity (1.009)
- Demographic changes – unit costs (1.003)

In addition to these factors, we need to account for the aging of the population in the underlying experience period, and apply a factor of 1.011 to the adjustment factor in the pricing trend development.

By making these adjustments to the claims trend projection, we get a trend more appropriate for pricing (7.6% average trend for 2018, as shown in the exhibit). (Note that the pricing trend used in the filing represents an average trend from the 2016 experience period to the 2018 rate projection period. We are using an 8.8% average rate trend, representing the two year average trend for Medical and Rx combined.) The "Question #1a – Medical" exhibit demonstrates this determination for the average medical adjustment factor for 2018, using the 2017 average adjustment factor as the starting point.

Note that although this demonstration is shown on an annual basis, in practice the adjustment factors are developed monthly, with each successive adjustment factor determined from the prior one. In this way, any significant item that impacts the trend at a specific point in time can be accounted for appropriately in the trend development, and may spread its impact across successive experience or projection periods.

2. Regarding the response to question 4:

a) Please provide quantitative support for the 1.058 "Expected cost factor of the ACA only membership expected to be covered by Highmark, Inc in 2018," including in your response the following items:

- 2016 Allowed Cost PMPM for:
    - Groups expected to remain in the ACA pool in 2018
    - Groups known to have lapsed during 2016
    - Groups expected to lapse in 2017
- Assumed cost relativity of groups entering the ACA risk pool after 2016, including the quantitative development of the assumed cost relativity for these groups
- How the credibility of the historical experience which was utilized by group segment was taken into account

Response:

Please see the exhibit tab named "Question #2a" in the submitted response file "PID Response HMK 2017-07-14.xlsx," showing the quantitative support for the 1.058 "Expected cost factor of the ACA only membership expected to be covered by Highmark Inc in 2018."

As discussed in the Actuarial Memorandum, the historical experience for this company is large enough to be fully credible, while the components of the trend assumptions are derived from the combined experience of several companies within Highmark's corporate structure. Since we continue to see migration among group business by company within the ACA marketplace, we use the combined experience to establish our projected allowed claims for the Company, as appropriate for its Rating Area, and use the "Expected cost factor of the ACA only membership expected to be covered by Highmark Inc in 2018" to differentiate the expected claim costs for the group business covered by each entity.

3. If you wish to make adjustments to the projected RA amount included in this rate filing and the URRT, based on the June 30, 2017 Summary Report on Transitional Reinsurance Payments and Permanent Risk Adjustment Transfers, please do so in this submission. Provide narrative and an Excel spreadsheet demonstrating the development and assumptions.

Response:

The Company does not wish to make adjustments to its projected RA amount for the 2018 rating year.

4. Please note that all revisions must be reflected in this resubmission. The Department shall not allow any changes to the rates after this submission.

Response:

In accordance with the filing instructions specified by the Pennsylvania Insurance Department, the rate development in this filing is based on certain assumptions we have had to make at this point in time. Most notably, these assumptions reflect no significant changes in legislation, regulations or otherwise (i.e. rules, regulatory guidance, etc.) impacting the ACA market. In addition, there are other uncertainties that may directly or indirectly affect an already unstable insurance market and ultimately, rates. One of these uncertainties involves potential state legislation that would expand Pennsylvania state premium tax applicability to entities of this type. If any of these assumptions are ultimately incorrect or additional developments occur that similarly have a detrimental impact to the market, modifications to the rate development may be necessary. As a result, the Company reserves the right to submit a revised filing.

5. Please provide a PDF file for public review (Public Rate Filing PDF) in SERFF to show the updated rate request. The following updated supporting items must be included:

- Cover Letter
- Rate Change Request Summary (Attachment 1)
- Part 1 - Unified Rate Review Template (URRT)
- Part II – Consumer Friendly Justification
- Part III – Federal Actuarial Memorandum (redacted)
- PA Actuarial Memorandum (redacted)
- PA Actuarial Memorandum Rate Exhibits
- PA Plan Design Summary and Rate Tables
- Federal Rates Templates
- Service Area Maps
- Correspondence – Q&A's

Please remain cognizant of the limited redactions as outlined on pages 3 and 4 of the 2018 Guidance. Only those specific items may be redacted. Since AV screenshots and commission schedules are proprietary, they should not be included in this public PDF. Additionally, please ensure that documents and spreadsheets are internally consistent and that the Excel exhibit with formula corrections emailed to you on June 6, 2017 is used. The deadline for the revised PDF is COB July 18, 2017.

Response:

The Company will provide the requested PDF file for public review by July 18, 2017, through its SERFF rate submission. This document will contain all the supporting items referenced above, although due to SERFF file size limitations, the Public Rate Filing PDF was split into two files. Please note that since Question #7 from the Department's Rate Filing Objection Letter dated 06/16/2017 asked about commission schedules and agreements, the Company included a redacted response to the 06/16/2017 Rate Filing Objection Letter in its Public Rate Filing PDF.

Question #2 Response

Calculation of expected cost factor of the ACA only membership expected to be covered in 2018

Description	Member Months	Allowed PMPM	Projected Cost Relativity	Projected Member Weighting
(1) All 2016 ACA Groups (Western region)	198,238	$453.40		
(2) ACA groups known to have lapsed during 2016 (Western region)	31,534	$369.23		
(3) Active ACA Members at EOY 2016 (Western region)	166,704	$469.32		
(4) Groups expected to lapse in 2017		$469.32		
(5) Groups expected to remain in the ACA pool in 2018		$469.32	1.188	64.82%
(6) Groups entering the ACA risk pool after 2016 (Western region)			1.243	35.18%
(7) 2016 Allowed Claims for those Members Expected to be Effective in 2018 (Western region)			1.208	
(8) Adjustment Factor for groups choosing Highmark, Inc ACA products and network			0.876	
(9) 2016 Allowed Claims for those Members Expected to be Effective in 2018 (Highmark, Inc)		$417.83	1.058	
(10) 2016 Total Allowed Claim PMPM (Western region ACA and non-ACA (transitional))		$394.93
