Pennsylvania Department of Insurance

RE: Genworth Life Insurance Company (GLIC)
Company NAIC No: 70025
SERFF Tracking No: GEFA-132882371
Non-AARP Policy Forms: 7042 et al, 7044 et al, 7042 Rev et al, 7044 Rev et al

The referenced filing is a Long Term Care (LTC) rate schedule change request submitted for your review and applies to the referenced policy forms.

AARP policies sold in Pennsylvania are subject to contractual agreements with AARP governing rate increases. As a result, AARP policies are being filed separately from Non-AARP policies.

In this filing, GLIC requests a premium rate increase of 54.3% on the above-mentioned policy forms. In the submitted actuarial memorandum, we include detailed rate increase justification, and we demonstrate that this premium rate increase satisfies Long Term Care regulatory requirements of Pennsylvania and the Rate Stability regulation.

GLIC will offer insureds affected by the premium increase several alternative options to change their benefits in order to maintain a premium rate level reasonably similar to what they were paying prior to the rate increase. The benefit and rate combinations are consistent with the rate tables approved by the Department. Details on the available alternative options are presented in section 6 of the Actuarial Memorandum.

The following electronic items are included in this submission:

- This Cover Letter;
- Confidential Actuarial Memorandum;
- Public Actuarial Memorandum;
- Excel Version of Loss Ratio Exhibits;
- Additional Exhibits;
- Sample Policyholder Notification Letter; and
- Current and Proposed Rate Schedules.

Any applicable fees will be submitted as an EFT payment via SERFF.

CONFIDENTIAL - GENWORTH ONLY

The contact person for this filing is:

Matthew Haladay, FSA, MAAA
Assistant Vice President & Actuary
Genworth Life Insurance Company
6620 W Broad Street
Richmond, VA 23230
Phone: (804) 484-3826
Matthew.Haladay@genworth.com

Thank you for your assistance in reviewing this filing.

Respectfully,

Jamala Arland, FSA, MAAA
Vice President & Actuary, LTC Inforce Management
Genworth Life Insurance Company

Actuarial Memorandum
May 2021

CONFIDENTIAL

Policy Forms 7042 et al, 7044 et al, 7042 Rev et al, 7044 Rev et al
Non-AARP

1. Scope of this Filing

This filing applies to the referenced policy forms issued in your state. Forms 7042 and 7044 are also referred to by Genworth Life Insurance Company (GLIC) as “Choice 2”; forms 7042 Rev and 7044 Rev are also referred to by GLIC as “Choice 2.1”. Forms 7042 and 7042 Rev were marketed by the name “Classic Select” and the 7044 and 7044 Rev forms were marketed under the name “Privileged Choice”. Privileged Choice policies have many features built into the base policy that were only available as riders for Classic Select policies. These forms are no longer being sold.

Policies sold to AARP members (AARP Policies) were subject to contractual agreements with AARP governing rate increases. These contractual agreements placed certain limitations on the rate increase implementation for a period of years, that did not apply to policies sold through other channels (Non-AARP Polices). As a result, prior rate increases for AARP Policies were filed separately from Non-AARP Policies.

Since 2018, the limitations of the AARP contractual agreements no longer apply. However, since like policies (both Non-AARP and AARP) under Choice 2_2.1 policy forms sold in your state do not have identical rates schedules, AARP policies are continued to be filed separately from Non-AARP policies.

For all the policies issued in your state to which the current filing applies, refer to the Supplement for state and nationwide information on issue dates, number of issued and in-force lives, total and average premium, average issue and attained age, distributions and history of prior approved rate increases.

2. Purpose of this Filing

This actuarial memorandum has been prepared to request and support the approval of a premium rate increase in your state.

We demonstrate that the requested premium rate increase satisfies the minimum requirements and all applicable regulations in your state. This actuarial memorandum may not be suitable for other purposes.

In this filing, GLIC is requesting a premium rate increase of 54.3% applicable to the base rates and associated riders of all in-force policies referenced in Section 1 of this actuarial memorandum. The requested rate increase reflects updated assumptions and any remainder of the rate increase not approved in prior filings.

3. Justification of the Premium Rate Increase

The observed deterioration of the Lifetime Loss Ratio (LLR) between 2019 and 2020 is due to lower Claim Termination Rates (CTR) and higher Benefit Utilization Rates (BUR). More detailed information is presented in section 8 of this actuarial memorandum.

If experience emerges as currently expected, timely implementation of the requested premium rate increase may prevent the need for future premium rate increases. However, if rate increases are delayed due to late approvals, less future premium capacity remains in these blocks to absorb the rate increase. As a result, a higher percentage future premium rate increase must be applied to fewer policyholders in order to obtain the target LLR consistent with applicable regulation. It is our intent to act in a timely manner, work diligently with regulators to obtain approval for the requested rate increase, and seek to avoid more significant premium rate increases when the average policyholder's attained age is higher.

If implementation of the requested premium rate increase is delayed six years, the increase necessary to achieve the same LLR roughly doubles. Refer to the Supplement for the impact of the rate increase delay.

Since your state has not approved the prior requested rate increase in full, demonstration that the margin for Moderately Adverse Experience (MAE) included in the prior filing has been exceeded is not applicable to this filing.

The margin for Moderately Adverse Experience (MAE) included in the prior filing has been exceeded and additional rate increases are justified. The LLR in Exhibit I of the current filing, which reflects the new best estimate assumptions, is higher than the LLR in Exhibit II of the actuarial memorandum submitted in the prior filing. Refer to the Supplement for more details.

4. Marketing Method and Underwriting Description

Policies were sold by agents working through broker general agencies, financial advisors, and agents working through financial institutions.

The underwriting process included an assessment of functional and cognitive abilities at issue ages considered by GLIC to be appropriate. Various underwriting tools were used in accordance with our underwriting requirements, including an application, medical records, an attending physician's statement, telephone interview and/or face-to-face assessment.

5. Description of Benefits

These are federally tax-qualified, individually underwritten policies that provide comprehensive long-term care coverage. They cover the reimbursement of expenses incurred by the insured(s) subject to the amount of coverage purchased. Premium payments are waived after the elimination period has been satisfied.

The Privileged Choice (7044 and 7044 Rev) policy forms pay benefits on a monthly basis and include a 10-year survivorship benefit. The 10-year survivorship benefit waives future premium payments upon the death of one spouse if both spouses are insured and have met certain requirements. It also includes a waiver of elimination period for home health care benefits, and home health care service days are applied to the facility elimination period. The optional nonforfeiture benefit, restoration of benefit, 7-year survivorship benefit and return of premium riders were available for purchase for an additional premium.

The Classic Select (7042 and 7042 Rev) policy forms are comprehensive products with benefits payable on a daily basis. Riders include 7-year and 10-year survivorship, waiver of elimination period for home health care benefits, monthly maximum benefit (as opposed to daily), restoration of benefits and nonforfeiture benefits.

These policy forms can cover an individual or a couple (joint policy). The joint policy operates as two individual policies, except that the two insureds draw from one shared policy benefit pool.

These forms require an insured to meet benefit eligibility requirements that are triggered by Activities of Daily Living (ADL) deficiencies or cognitive impairment. The daily or monthly benefit, benefit period and elimination period are selected at issue.

In addition, a Benefit Increase Option (BIO) can be selected at issue. The simple BIO increases the original daily maximum by 5% each year starting with the second policy year and continuing for the life of the policy, unless terminated earlier by the insured. The compound BIO increases the prior year's daily maximum by 3% or 5% each year starting with the second policy year and continuing for the life of the policy, unless terminated earlier by the insured. The 3% compound BIO was only made available on the Choice 2.1 (7042 Rev and 7044 Rev) versions of these policy forms.

6. Alternatives to the Requested Rate Increase

GLIC will offer insureds impacted by rate filings several options for mitigating the impact of the rate increase. These options will be provided in the policyholder notification letter. In addition, policyholders will have the ability to call a dedicated team of customer service representatives that can assist with providing customized quotes for any number of other benefit adjustments.

Reduced Benefit Options. Insureds can change any number of benefit features or coverage limits in order to maintain reasonably equivalent pre- and post-rate increase premium levels, and the optimal balance of coverage and cost based on their specific needs. The available benefit and rate combinations are consistent with the combinations presented in the rate tables approved as part of the original filing. To balance coverage and cost considerations, GLIC will offer policyholders, subject to rate increases on their long-term care policies, customized options to adjust their benefits, which may include any of the following options (where available):

1. Reduction in Daily/Monthly/Lifetime Maximum amount;
2. Reduction in Benefit Period;
3. Reduction or elimination of the BIO;
4. Increases in Elimination Period; and
5. Elimination of policy riders.

If a policyholder elects to reduce or eliminate the BIO, they have the ability to retain any prior increases to their daily or monthly payment maximums. In addition, policyholders will also continue to be offered the previously approved BIO of 1% compound.

Current rate tables for 1% compound BIO reflecting any prior approved rate increase are included in Appendix A and the corresponding rate tables reflecting prior approved and the requested rate increase are in Appendix B.

Flexible Benefit Option (FBO). Policyholders will also continue to be offered the previously approved FBO. The option features the following:

1. A premium rate guarantee until at least January 1, 2025;
2. $250,000 benefit pool for non-shared, $400,000 benefit pool for shared;
3. Monthly indemnity payments that vary by type of benefit. For each full month of qualification, the benefit amounts for each type of benefit are as follows:
   - Nursing Home Benefit - monthly payments are 100% of the monthly maximum. Payments are designed to last three years if the policyholder is in a nursing home for the entire time and would be calculated by dividing the claimant's benefit pool by 36 months;
   - Assisted Care Facility Benefit - monthly payments are 75% of the monthly maximum and are for care in an assisted care facility; and
   - Flexible Care Benefit – monthly payments are 50% of the monthly maximum and are for other types of care, such as home care.

4. GLIC will adjust monthly payment amounts when the insured qualifies for benefits for only part of a month;
5. GLIC will pay only one benefit in a calendar month. If more than one benefit could apply in a calendar month, then GLIC will pay the benefit (Nursing Home Benefit, Assisted Care Facility Benefit, or the Flexible Care Benefit) with the most days of qualification in that month;
6. A 180 day elimination period applies for the Nursing Home and Assisted Care Facility Benefits, and a 90 day elimination period applies to the Flexible Care Benefit; and
7. The benefit pool and monthly maximum will remain fixed, unless the 1% compound BIO is elected. If 1% compound BIO is elected, the benefit pool and monthly maximum will inflate by 1% compounded annually.

The FBO is not available for policies that currently have a benefit pool (net of past claims) less than $250,000 for non-shared, $400,000 for shared.

Rate tables for FBO were filed as part of our prior filing. As such, these rate tables are not included with this filing and will remain in effect for policyholders that previously elected the FBO, as well as any policyholders that decide to elect the FBO with this rate increase. Policyholders that elect the FBO will have their premium rates guaranteed until at least January 1, 2025. However, we reserve the right to adjust the pricing for the FBO in future filings for policyholders that have not previously elected that option.

Other options. GLIC will continue to offer the applicable nonforfeiture option to each policyholder. Policyholders that are eligible for the Contingent Nonforfeiture Option will be presented with that as an option in their notification letter. Policyholders that have a nonforfeiture (NFO) rider with their policy may elect that option. For those policyholders that do not have either the Contingent Nonforfeiture or NFO rider available, GLIC will continue to offer its Optional Limited benefit, which provides a paid-up benefit equal to the total of premium paid, less any claims paid.

7. Premiums

a. These policies are guaranteed renewable for life, subject to policy terms and conditions;
b. Geographic area factors are not used in rating these policies;
c. Semi-annual, quarterly and monthly modal factors are applied to the annual premium. For in-force policies distribution by modal factor, refer to the Supplement;
d. For a history of previous rate revisions refer to the Supplement;
e. The requested rate increase will apply to policies on their billing anniversary date, following a 60-day policyholder notification period;
f. Premium rates are unisex, level (with the exception of approved rate increases) and payable for life (except for in-force policies with limited pay premium on these forms in your state as referenced in the section 1 of the Supplement). Premiums generally vary by issue age, daily benefit, benefit period, elimination period, BIO, and any applicable riders selected;
g. Certain underwriting discounts may have been applied to the premium rates. A preferred risk discount of 10% or 20% may have been provided to applicants in response to specified health underwriting criteria specified on the application. Where the criteria for a couple's discount were met, a discount of 40% was provided to both individuals when both submitted valid applications and both were issued coverage. If only one member of a couple was approved, the discount was reduced to 25%. Where a shared policy was issued, a couple's discount was factored into the shared policy form rates. If only one member of a couple applying for shared coverage was approved, an individual policy was issued and the couple's discount was reduced to 25%; and
h. Current rate tables reflecting any prior approved rate increase have been included in Appendix A. Corresponding rate tables reflecting any prior approved and the requested rate increase have been included in Appendix B, attached separately. Note that actual rates implemented may vary slightly from those set forth in Appendices A and B due to implementation rounding algorithms.
For more information about the rate tables on alternative options refer to section 6.

8. Actuarial Assumptions

From the time these policy forms were originally priced, GLIC has monitored and analyzed the impact of its experience on the projections and lifetime loss ratios. As new experience has emerged, GLIC has observed that it continued to unfold unfavorably and assumptions and methodologies have been adjusted to that effect. These updates have resulted in increases in the Disabled Life Reserves (DLR) and the continued need for premium rate adjustments.

A key driver for these increases has been lower than expected active life terminations. As voluntary termination (lapse) and active life mortality remained lower than anticipated, policyholders stayed in-force longer to ages at which claims were more likely to occur.

In addition to policyholders persisting to longer policy durations and lower mortality rates, claim costs, driven by the combination of claim incidence, claim continuance and benefit utilization rates, have emerged higher than originally expected. Updated claim severity assumptions have led to the significant strengthening of GLIC's DLR in 2014, 2016 and 2018.

The table below summarizes the assumption updates made since 2014 that have had the biggest impact in the premium rate increases:

Year	Update in Assumptions Due To
2014	Lower Claim Termination Rates (CTR) in later durations Higher Benefit Utilization Rate (BUR) in later durations
2015	Lower Voluntary Termination Lower Active Life Mortality
2016	Lower CTR BUR methodology enhancement
2017	Incidence differential for Lifetime and Non-Lifetime benefit periods
2018	Lower CTR BUR methodology enhancement: increase for Lifetime benefit periods
2019	New incidence assumption with improved fit by age and duration Lower Active Life Mortality
2020	Lower CTR Higher BUR

The Best Estimate (BE) assumptions are generally based on Genworth nationwide experience. Beginning with the 2020 assumptions, the disabled lives (claim severity) assumptions of benefit utilization, claim continuance and situs mix are based on Genworth nationwide experience, with company treated as an explanatory variable in the curve-fitting process. The healthy life assumptions of lapse, mortality and incidence continue to be based on Genworth nationwide experience, with no distinction by company, but the A/E fit is good for GLIC by itself. The assumptions have adjustments as considered appropriate for future projections. These adjustments are based on expected differences in experience due to either

policyholder characteristics or underwriting criteria. The BE assumptions described below for voluntary termination, mortality, and morbidity are consistent with those used for GLIC's 2020 Cash Flow Testing (CFT) prior to any provision for contingency, adverse deviation or risk margin. Beginning with 2016 CFT, GLIC converted from a total lives model to a first principles healthy lives model in which the assumptions are split between healthy lives and disabled lives.

Genworth reviews experience and assumptions every year in connection with CFT and may obtain third-party reviews when, for example, management considers changes to be material. In 2020, the CTR assumptions were reviewed by a national actuarial consulting firm. The assumptions were developed by Genworth's Long-term Care Experience Studies team in collaboration with other Genworth actuaries. Genworth's Assumption Review Committee approved these assumptions.

A. Voluntary Termination Rates:

Original Filing: The products included in this filing were originally priced in 2002 and 2007 using termination assumptions developed from experience prior to those dates. Originally filed Choice 2.1 lapse rates varied by marital status, issue age and duration. The original ultimate lapse rate for Choice 2 was 1.5% and the original ultimate lapse rate for Choice 2.1 was 1.0%.

Current Filing: The assumptions are derived from actual Genworth nationwide long-term care lapse experience through fourth quarter of 2019, with a 6-month lag and excluding the experience of recent partial policy years.

For durations 1-10, Choice 2_2.1 lapse rates are based solely on the Choice 2 and later products experience. For durations 11+, Choice 2_2.1 lapse rates are based on total Genworth nationwide experience, with a product adjustment factor. Lapse rates vary by product, issue age, duration, BIO, marital status, risk class, benefit period and the issue year bands. The assumptions setting process involves credibility weighting actual historical experience for the product with a long-term baseline assumption. This methodology reduces volatility in the assumption from year-to-year, especially in policy durations with limited experience. The Actual/Expected ratio of 99.3% for Choice 2 and later products shows a very good fit of the assumption to the inception-to-date historical experience. Experience is still emerging at the later durations and later ages, which may cause the assumption to change over time.

The following table is a sample of the current lapse rate assumptions for cells with a lifetime benefit period, married status, compound BIO, and for issue years 2009 and earlier:

Sample Voluntary Termination Rate Assumption						
UW Discount	**No**	**No**	**No**	**Yes**	**Yes**	**Yes**
Issue Age	**45**	**55**	**62**	**45**	**55**	**62**

25	0.73%	0.80%	1.22%	0.73%	0.80%	1.22%

B. Mortality:

Original Filing: Original Total Life mortality assumptions were based on the Annuity 2000 Mortality Table, without mortality improvement. Selection factors in the original filing were based on data prior to 2002 and 2007 for Choice 2 and Choice 2.1, respectively.

Current Filing: The current best estimate assumptions for expected mortality rates for healthy lives are derived from actual Genworth nationwide long-term care mortality experience through fourth quarter of 2019, with a 1-year reporting lag. Healthy lives mortality assumptions vary by product, issue age, policy duration, gender, marital status, underwriting class, BIO and benefit period. The assumptions setting process involves credibility weighting actual historical experience for the product with a long-term baseline assumption. This methodology reduces volatility in the assumption from year-to-year, especially in policy durations with limited experience. Each year, the credibility weighting procedure puts somewhat higher weight on emerging experience. The Actual/Expected ratio of 98.5% for Choice 2 and later products shows a very good fit of the assumption to the inception-to-date historical experience. Experience is still emerging at the later durations and later ages, which may cause the assumption to change over time.

The mortality improvement assumption for healthy lives continues to apply to the first 10 projection years at a compound rate of 1% per year. Remaining projection years use the accumulated improvement of 10 years. This assumption is based on Genworth experience data and is supported by statistical testing.

The following table is a sample of the current mortality rate assumptions before improvements for policies with a limited benefit period, married status, standard risk class, no BIO and issue age 65:

Sample Mortality Rate Assumption		
Gender	**M**	**F**
Duration		
1	0.21%	0.11%
2	0.35%	0.18%
3	0.43%	0.23%
4	0.51%	0.28%
5	0.58%	0.32%
6	0.66%	0.37%
7	0.75%	0.42%
8	0.84%	0.48%
9	0.94%	0.54%
10	1.05%	0.61%
11	1.17%	0.70%
12	1.31%	0.80%
13	1.49%	0.94%
14	1.72%	1.13%
15	2.02%	1.37%
16	2.40%	1.70%
17	2.89%	2.14%
18	3.54%	2.69%
19	4.38%	3.31%
20	5.04%	3.91%
21	5.38%	4.37%
22	5.71%	4.88%
23	6.01%	5.43%
24	6.46%	5.95%
25	6.91%	6.47%

C. Morbidity:

The morbidity assumption is composed of the following main parts: incidence, claim situs mix, benefit utilization and claim termination rates (sometimes described as claim continuance). The latter two assumptions constitute claim severity. Claim incidence rates measure the likelihood of a policyholder going on claim. Benefit utilization rates measure the proportion of contractually available benefits that a policyholder uses while on claim, once eligibility requirements have been met. Claim termination rates refer to the length of time until a claimant leaves their claim status, once benefit eligibility requirements have been met, and are applied from the loss date of the claim. Because the benefit utilization and claim termination assumptions vary by original care situs, the morbidity assumption also includes a claim situs

mix assumption to split newly incurred claims between Nursing Home (NH), Assisted Living Facility (ALF) and Home Care (HC) settings.

Prior to 2016, these assumptions were combined into total claim costs for use in the total life modeling approach. With the total life approach, an explicit assumption was needed to reflect policy terminations related to benefit exhaustions. Beginning in 2016, all projections were performed from first principles (i.e., incidence, benefit utilization and claim termination rates are individually reflected in the projection model) and benefit exhaustions were implicitly recognized.

Original Filing: Originally filed expected claim cost assumptions for Choice 2 were based on 2002 and prior claim cost data and did not include morbidity improvement. Originally filed expected claim cost assumptions for Choice 2.1 were based on 2006 and prior claim cost data and included morbidity improvement.

Current Filing: The main components of morbidity - incidence, benefit utilization, claim termination and claim situs mix - are described below.

1. Incidence Rates

Incidence rates vary by product, issue age, policy duration, gender, benefit period, marital status and underwriting class. The incidence assumption setting process involves credibility weighting actual historical experience for the product with a long-term baseline assumption. This methodology reduces volatility in the assumption from year-to-year, especially in policy durations with limited experience.

The assumptions are derived from actual Genworth nationwide long-term care claim incidence experience, updated through fourth quarter of 2019, with a 1-year reporting lag. The Actual/Expected ratio of 99.4% for Choice 2 and later products shows a very good fit of the assumption to the inception-to-date historical experience. Experience is still emerging at the later durations and later ages, which may cause the assumption to change over time.

In 2020, modifiers were introduced to reflect the fact that policies in NFO status have lower incidence than policies in premium-paying status.

The morbidity improvement assumption for healthy lives continues to apply to the first 10 projection years at a compound rate of 1.6% per year. Remaining projection years use the accumulated improvement of 10 years. This assumption is based on Genworth experience data and supported by statistical testing.

The following table is a sample of claim incidence rate assumptions for a married insured, issue ages 55 and 65 for lifetime benefit periods:

Sample Claim Incidence Rate Assumption								
Gender	**M**	**M**	**M**	**M**	**F**	**F**	**F**	**F**
UW Discount	**No**	**No**	**Yes**	**Yes**	**No**	**No**	**Yes**	**Yes**
Issue Age	**55**	**65**	**55**	**65**	**55**	**65**	**55**	**65**
Duration

2. Benefit Utilization Rates (BUR)

The BUR for CFT purposes is based on claims paid for services during the previous calendar year. The approach is consistent with our Disabled Life Reserving (DLR) BUR assumption, except the DLR factors are updated quarterly, using a rolling 12 months of services with a one-quarter lag, and the CFT factors also collapse the variables of diagnosis and daily maximum benefit amount due to modeling constraints. The CFT BUR assumption variables are product, benefit period, company, BIO, claim age, claim duration and care situs.

In 2020, a new data source for BUR analysis was introduced. The new data source collects payment data at the service date level, which is more granular than the prior process. The prior process started with payments made monthly on a paid date basis and allocated those payments to service dates. The old process was reasonable, but the new process allows for more accurate bucketing of the benefits paid to policy and claim duration, and therefore more accurate determination of benefits available for those payments. The new process also excludes experience from our oldest comprehensive product (Integ) because experience with that benefit structure is not relevant for products like Choice 2 which do not cap HC benefits at 50% of NH benefits. Removing Integ from the experience data caused the BUR factors to increase at claim ages 85 and later for HC compound BIO, which is a very impactful segment for future projections of Choice 2 claims.

The assumption is derived from actual Genworth nationwide long-term care paid claim experience, with company as an explanatory variable. The assumption is based on data from service year 2019 as measured on 6/30/2020. The utilization rates are segmented by care situs, BIO, benefit period, age at disability and claim duration. Genworth considers experience combined from all core reimbursement products when setting the BUR assumption for Choice 2, with some additional adjustments.

The BUR assumption development for 2019 introduced true-up factors to ensure a 100% A/E by benefit period, a process which continues to be used for 2020. Adjustments were also introduced within the core reimbursement block to improve the fit among the products (similar to the 2019 process) and key projection cells (new in 2020). The Choice 2 and later products A/E is 101.1%.

A utilization trend assumption is used for reimbursement products. Long-term trending is accomplished by inflating each of the assumed starting BURs by the applicable inflation assumption (ranging from 1.0% to 2.3%) and deflating it by the contractual BIO for the next 20 years into the future. Remaining projection years use the accumulated trending after 20 years. The trend assumption generally increases the future projected claim costs for No BIO policies and decreases the future projected claim costs for Simple and Compound BIO policies relative to recent actual experience.

The following table is a sample of base benefit utilization rate assumptions (i.e. before the application of the utilization trend assumption) for a reimbursement policy, limited benefit period (4+ years), and with compound BIO:

Sample Benefit Utilization Rate Assumption						
Age at Disability	**81**	**81**	**81**	**86**	**86**	**86**
Care Situs	**ALF**	**HC**	**NH**	**ALF**	**HC**	**NH**
Claim Duration						
Month 1-6	61.48%	33.97%	75.97%	59.35%	34.50%	75.17%
Month 712	62.80%	42.51%	76.25%	60.15%	42.83%	74.86%
Year 2	67.25%	50.49%	76.88%	64.48%	50.93%	75.56%
Year 3	70.82%	57.77%	78.35%	70.55%	60.56%	80.01%
Year 4	70.25%	61.32%	75.38%	69.74%	64.03%	76.68%
Year 5	67.70%	61.32%	70.85%	67.23%	64.06%	72.11%
Year 6	64.34%	58.65%	66.02%	64.20%	61.55%	67.50%
Year 7+	61.23%	54.48%	61.95%	61.65%	57.70%	63.93%

3. Claim Termination Rates (CTR)

The assumption is derived from actual Genworth nationwide long-term care experience for the period from inception through fourth quarter 2019, with a 6-month lag. The CTR assumption variables are product, gender, benefit period, claim age, claim duration, company and care situs.

High terminations in early claim durations are the result of acute disabilities terminating due to death or recovery. The remaining lives are permanent, long-term disabilities where recovery is unlikely. Claim terminations at these longer durations are driven by disabled life mortality rates.

The CTR assumption was updated in 2020 to include emerging experience. The company did a thorough review of CTRs in 2020 and made several adjustments to improve the fit. The most material change was separating assumptions for the oldest reimbursement block (PCS 1) vs the remainder of the reimbursement block (including Choice 2). CTRs were also established separately for GLIC vs GLICNY. The new product split had an adverse effect on Choice 2. The company split had a favorable impact on GLIC.

The Actual/Expected ratio of 100.3% for the Choice 2 and later products is a very good fit to the inception-to-date historical experience. Experience is still emerging at the later claim durations and is changing at the earliest durations, which may cause the assumption to change over time.

The following table is a sample of claim termination rate assumptions for ALF, female, limited benefit period, disability age 82, for the first 324 claim durations:

Sample Claim Termination Rate Assumption							
Duration	**Rate**	**Duration**	**Rate**	**Duration**	**Rate**	**Duration**	**Rate**
1	0.18%	**16**	1.39%	**31**	1.66%	**145-156**	2.44%
2	0.31%	**17**	1.40%	**32**	1.67%	**157-168**	2.62%
3	0.47%	**18**	1.40%	**33**	1.69%	**169-180**	2.82%
4	1.05%	**19**	1.40%	**34**	1.71%	**181-192**	3.00%
5	1.64%	**20**	1.41%	**35**	1.73%	**193-204**	3.16%
6	1.61%	**21**	1.41%	**36**	1.75%	**205-216**	3.32%
7	1.57%	**22**	1.42%	**37-48**	1.78%	**217-228**	3.49%
8	1.55%	**23**	1.43%	**49-60**	2.07%	**229-240**	3.67%
9	1.53%	**24**	1.44%	**61-72**	2.24%	**241-252**	3.84%
10	1.51%	**25**	1.56%	**73-84**	2.41%	**253-264**	3.99%
11	1.50%	**26**	1.58%	**85-96**	2.36%	**265-276**	4.12%
12	1.49%	**27**	1.59%	**97-108**	2.19%	**277-288**	4.23%
13	1.41%	**28**	1.61%	**109-120**	1.90%	**289-300**	4.30%
14	1.40%	**29**	1.62%	**121-132**	2.08%	**301-312**	4.31%
15	1.40%	**30**	1.64%	**133-144**	2.26%	**313-324**	4.31%

4. Claim Situs Mix

A claim situs mix assumption is used to split the incidence rates among the care situses: NH, ALF and HC. The Situs Mix assumption variables are product, gender, benefit period, marital status, risk class, claim age and company.

The assumption is derived from actual Genworth nationwide long-term care experience, using data from 2009 through 2019, with a 6-month lag.

At the lower attained ages, first situs claims are more likely to be for home health care. At the higher attained ages, first situs claims are more evenly distributed between home care and facility.

In 2020, three new variables (i.e. Gender, Benefit Period, and UW Class) were added to better align with the healthy life incidence assumption, and better fit experience among these variables.

The Actual/Expected ratio is 100.0% for each of the situses for Choice 2 and later products. This is a very good fit to the experience used to set the assumption.

The following table is the situs mix assumption for a female with a non-lifetime benefit period and a standard risk class for selected ages:

Sample Claim Situs Mix Rate Assumption				
	Age at Disability	**HC**	**ALF**	**NH**
Choice 2_2.1 Married	60	93.4%	3.8%	2.8%
	65	89.0%	6.8%	4.2%
	70	83.4%	10.9%	5.7%
	75	77.2%	15.8%	7.0%
	80	71.3%	21.0%	7.7%
	85	66.3%	25.9%	7.8%
	90	62.9%	29.8%	7.2%
Choice 2_2.1 Singles	60	87.1%	9.4%	3.5%
	65	80.2%	14.6%	5.2%
	70	72.6%	20.4%	7.0%
	75	65.4%	26.2%	8.4%
	80	59.5%	31.2%	9.3%
	85	55.5%	34.9%	9.6%
	90	53.6%	37.1%	9.2%

D. Expenses:

Expenses do not affect the Lifetime Loss Ratio projections or the rate increase requested in this memorandum. Expenses have not been explicitly projected.

E. Interest:

A 4.12% interest rate assumption is used to calculate historical, future and lifetime loss ratios. This is the average statutory valuation interest rate for all GLIC policies issued on these forms nationwide.

9. Development of the Requested Rate Increase

In developing the requested premium rate increase, the following has been considered:

a. In order to ensure maximum credibility, exhibits are based on GLIC nationwide experience through December 31, 2020. Projected earned premiums and incurred claims are based on the assumptions described in Section 8 of this actuarial memorandum;
b. GLIC nationwide experience includes all Choice 2_2.1 policies (AARP and Non-AARP). State specific experience only includes the policies affected by this filing, which are referenced in section 1 of this actuarial memorandum;
c. This rate action is considered to be subject to the Rate Stability regulation;
d. The nationwide premium has been restated at your state level, only reflecting your state's approved rate increases, in order to avoid subsidization among states;
e. The requested rate increase has been assumed to be implemented on August 1, 2022. The justified rate increase has been calculated to bring the lifetime loss ratio closer to the acceptable maximum lifetime loss ratio of 64.3%, including a 15% MAE and in compliance with the 58%/85% premium test defined in the Rate Stability regulation;
f. Lifetime projections of earned premiums and incurred claims reflecting all the prior approved rate increases in your state are set forth in Exhibit I. Lifetime projections of earned premiums and incurred claims reflecting all the prior approved rate increases in your state and the requested rate increase are set forth in Exhibit II;
g. Compliance of the 58%/85% premium test defined in the Rate Stability regulation has been verified, as demonstrated in Exhibit III;
h. Historical and projected earned premiums and incurred claims include provisions for waiver of premium; and
i. The majority of policies are eligible for contingent benefit upon lapse. For this reason, we have provided Additional Exhibits IV and V.

9.1 New Business Premium Rate Comparison

GLIC has compared premium rates on the referenced policy forms to the new business rates where the policy characteristics are similar. There are significant differences in benefits, underwriting and other product features between the Choice 2_2.1 products and the current form approved for sale in your state, Policy Form Number 8000R1. Where possible, adjustments have been made so that new business comparisons are meaningful. These differences affect the rate comparison in the following ways:

Benefit Differences: Several benefits, available in prior product generations, including Choice 2_2.1, are not offered in Policy Form Number 8000R1, including benefit periods of eight (8) years or longer, elimination period of zero (0) days, and limited premium payment options (none of these benefits are currently marketed). Policies with these benefit differences are not considered to exceed new business rates.

Survivorship Benefit: All 7044 and 7044Rev policies have a survivorship benefit. The current product does not have this feature, but GLIC did have a product that had this feature available as a rider. These

rider rates were added to the currently marketed product rates, which enabled these policies to be part of the new business rate comparison.

Underwriting: Product Form Number 8000R1 is subject to several underwriting enhancements that did not apply to Choice 2_2.1. While these underwriting enhancements are not directly reflected in benefits, they impact both original and new business pricing. In addition, Product Form Number 8000R1 has four underwriting categories (Standard, Select, Preferred, and Best), while Choice 2_2.1 had only two such categories (Standard and Preferred). GLIC recently made the decision to discontinue sales of Preferred and Best. Ignoring Preferred policies would limit the comparison significantly. GLIC has made a good faith effort to compare these policies and map the two underwriting categories of Choice 2_2.1 to the four underwriting categories of Policy Form Number 8000R1 despite the differences.

Issue Ages: Current marketing limits issue ages to between 40 and 75. Policyholders with issue ages outside of this range are not considered to exceed new business rates.

Policies with 50% Home Health Care: Due to the small number of in-force policies with this benefit, these policies have not been included in the comparison and are not considered to exceed new business rates.

Gender Based Pricing: Product Form Number 8000R1 was priced on a gender-specific basis, as opposed to the unisex basis applicable to Choice 2_2.1. A blend of female/male rates based on pricing assumptions was used to develop approximate unisex rates.

Informal Home Care: Product Form Number 8000R1 covers services provided by informal caregivers to policyholders receiving care at home, but requires caregivers to be registered, and reimburses that care only up to 50% of the available nursing home benefit. Choice 2_2.1 covers services provided by informal caregivers to policyholders receiving care at home, but does not require caregivers to be registered, and reimburses that care up to 100% of the available nursing home benefit. An adjustment to rates for this difference could not be approximated.

Claims Offset: Product Form Number 8000R1 reduces available benefit by claims paid before benefit increases are calculated. Choice 2_2.1 products reduce available benefits by claims paid after benefit increases are calculated. An adjustment to rates for this difference could not be approximated.

Marketing and Distribution: Choice 2_2.1 were sold during the peak years of LTC production when sales and distribution channels were in a growing stage; the current environment is the exact opposite, with decreasing sales and distribution outlets. In 2004-2009 sales were conducted 66% by Independent Agents and Financial Advisors and 33% by Career Agents. Choice 2.1 was sold also through AARP. GLIC's lower ratings today also impact the current distribution and the amount of production of the currently marketed product is an insignificant fraction of the Choice 2_2.1 business sold.

Delay in Approvals and Unapproved Amounts: The rate comparison is sensitive to the approval timing and amounts of prior rate increase request. Delays in approval of the full requested rate increase result in higher percentage future premium rate increases and increases the likelihood of proposed rate levels exceeding the new business rates.

In accordance with the Rate Stability regulation and the Long-term Care Rate Stability Practice Note issued by the American Academy of Actuaries in 2012, we believe the differences noted above sufficiently justify a rate level greater than the new business rates for some of the Choice 2_2.1 in-force policies in your state. Since GLIC prioritizes rate sufficiency and company solvency, the greater rate level is required in order to certify that, if experience emerges as expected, no further rate increases are anticipated.

10. Active Life Reserves and Claim Liability Reserves

Active life reserves have not been used in this rate increase analysis. Claim reserves as of December 31, 2020, have been discounted to the date of incurral of each respective claim and included in historical incurred claims. Incurred but not reported reserve balances as of December 31, 2020, have been allocated to a calendar year of incurral and included in historic incurred claims. Discounting occurs at 4.12%.

11. Trend Assumptions

As this is not medical insurance, we have not included any explicit medical cost trends in the projections.

12. Future Rate Increases

Policies to which this premium rate increase filing applies may also be subject to future additional rate increases if the full amount of the rate increase requested in this filing is not approved or if underlying assumptions are not realized and the future experience exceeds a 15% MAE. We defined “exceeds a 15% margin” as any change that results in a lifetime loss ratio greater than projected in Exhibit II of this memorandum.

13. Confidentiality

Pursuant to 65 P.S. § 67.101 *et seq*. (the "Right-to-Know Law"), Genworth Life Insurance Company ("GLIC") respectfully requests that the following sections to be treated as confidential and not subject to disclosure.

Sections 3, 8, the Supplement, Exhibit I, Exhibit II, and Exhibit III of the Actuarial Memorandum, and all Additional Exhibits.

The materials sought to be maintained as confidential are referred to as the "GLIC Confidential Materials" herein.

The GLIC Confidential Materials are being filed in connection with GLIC's request for a rate increase on certain long term care insurance products. However, these materials contain GLIC's confidential trade secrets, and/or other confidential proprietary information, including but not limited to actuarial formulas, statistics and/or assumptions, which are not generally known to, or ascertainable by proper means by, persons or entities other than GLIC who could obtain economic value from their disclosure or use.

65 P.S. § 67.101(a) sets forth Pennsylvania's general rule that a public record should generally be available for inspection by members of the public. However, under 65 P.S. § 67.708(b)(11), "trade secrets" and "confidential proprietary information" are explicitly excluded from the list of records that are subject to public disclosure under the Right-to-Know Law. Specifically, § 67.708(b)(11) states as follows:

> (b) Exceptions: Except as provided in subsections (c) and (d) [neither of which apply here], the following are exempt from access by a requester under this act:
>
> (11) A record that constitutes or reveals a trade secret or confidential proprietary information.

In turn, 65 P.S. § 67.102 (the "Definitions" section of the Right-to-Know Law) defines the term "trade secret," in pertinent part, as follows:

> Information, including a formula, drawing, pattern, compilation, including a customer list, program, device, method, technique or process that:
>
> (1) derives independent economic value, actual or potential, from not being generally known to and not being readily ascertainable by proper means by other persons who can obtain economic value from its disclosure or use; and
>
> (2) is the subject of efforts that are reasonable under the circumstances to maintain its secrecy.

Section 67.102 defines the term "confidential proprietary information" as follows:

> Commercial or financial information received by an agency: (1) which is privileged or confidential; and (2) the disclosure of which would cause substantial harm to the competitive position of the person that submitted the information.

Pennsylvania's insurance laws recognize the confidential nature of actuarial reports, work papers, and other materials supporting an actuarial opinion, and provide that they are not subject to disclosure under the Right-to-Know Law. *See* 40 P.S. § 443(d)(1)(i).

The GLIC Confidential Materials fall squarely within the disclosure exemptions for "trade secrets" and "confidential proprietary information" embodied within § 67.708(b)(11). In *Christopher M's Hand Poured Fudge, Inc. v. Hennon*, 699 A.2d 1272 (Pa. Super. Ct. 1997), Pennsylvania's Superior Court set forth six factors that courts can consider in determining whether information qualifies as a trade secret, including:

> (1) the extent to which the information is known outside the owner's business; (2) the extent to which it is known by employees and others involved in the owner's business; (3) the extent of measures taken by the owner to guard the secrecy of the information; (4) the value of the information to the owner and to his competitors; (5) the amount of effort or money expended by the owner in developing the information; and (6) the ease or difficulty with which the information could be properly acquired or duplicated by others.

Id. at 1275. Each of these factors, along with the "substantial harm" element of the "confidential proprietary information" definition weighs heavily in favor of maintaining the confidentiality of the GLIC Confidential Materials.

GLIC and its predecessors have been providing long-term care insurance coverage to policyholders for more than 35 years. GLIC's lengthy experience in the long-term care insurance business has placed it in a unique position in the long-term care insurance marketplace, in that no other long-term care insurance carrier has as much experience in that line of business as GLIC and its predecessors. Because GLIC has been marketing long-term care insurance products longer than its competitors, it has been able to accumulate experience-related data that its competitors have not been able to gather. GLIC takes active measures to maintain the secrecy of the information in the GLIC Confidential Materials. Among other measures, GLIC obtains non-disclosure agreements with potential reinsurers before providing those potential reinsurers with any experience-related data. Furthermore, access to the data is limited and available only to employees of GLIC who are deemed likely to need the information in the course of their duties; those employees are subject to non-disclosure agreements under which they agree not to share the information except in furtherance of the business of GLIC.

The GLIC Confidential Materials discuss, among other things, GLIC's assumptions in pricing certain long term care insurance products, GLIC's proprietary persistency and incurred claims data, and GLIC's policy demographics. In addition to pricing long-term care insurance products, GLIC's extensive data also allows it to effectively manage its policies, by enabling it to accurately set reserves and conduct reliable asset tests. None of this information is available to GLIC's competitors or to the public generally, and it is plainly protectable under the statutes discussed above. *See Giurintano v. Dep't of Gen. Servs.*, 20 A.3d 613, 615-17 & n.5 (Pa. Commw. Ct. 2011) (holding that the identities of

interpreters hired by state contractor were excluded from public disclosure under 65 P.S. §67.708(b)(11) because the contractor (a) kept their identities confidential "to protect its investment," (b) the interpreters were "business assets," and (c) disclosing the identities "would cause substantial harm to the [contractor's] competitive position in the industry").
GLIC's accumulation of data over its long duration in the long-term care insurance business has come at a substantial cost. For numerous years, GLIC had to price and manage policies without having the benefit of the extensive data and experience that it now possesses. GLIC endured substantial losses on many of those policies that did not perform as expected, and GLIC has incurred and will continue to incur billions of dollars of claims on these policies.

If the GLIC Confidential Materials are released to the public, GLIC would be deprived of its hard-earned competitive advantage, which would cause substantial harm to the company. GLIC's competitors could use GLIC's data and assumptions to price long-term care insurance policies as well as GLIC, without the work, time, expense, and (most significantly) the previous losses that GLIC incurred. If the GLIC Confidential Materials were disclosed, GLIC's competitors would be permitted to exploit GLIC's hard earned, proprietary information for their own benefit, and to GLIC's competitive and economic disadvantage. *See Smith Butz, LLC v. Pa. Dep't of Envtl. Prot.*, ___ A.3d ___, 2017 WL 1833472, at *9 (Pa. Commw. Ct. 2017) (finding that records that would enable the company's competitors to copy valuable and proprietary business methods constituted confidential proprietary information and/or trade secrets). For these reasons, GLIC respectfully submits that the GLIC Confidential Materials are exempt from disclosure pursuant to 65 P.S. §67.708(b)(11), and requests that they be treated as confidential by the Pennsylvania Insurance Department.

This submission contains the complete, unredacted, confidential version of GLIC's Actuarial Memorandum. GLIC has also filed a publicly available version of this Actuarial Memorandum and other exhibits referenced above, which redacts the GLIC Confidential Materials. Because the enclosed actuarial memorandum contains GLIC's actuarial formulas, statistics, and assumptions that are confidential, proprietary and competitively sensitive in nature, we request that it not be made available for public access.

14. Actuarial Certification

I am a Fellow of the Society of Actuaries and a Member of the American Academy of Actuaries, and I meet the American Academy of Actuaries' qualification standards for rendering this opinion and am familiar with the requirements for filing for increases in long-term care insurance premiums.

This memorandum has been prepared in conformity with all applicable Actuarial Standards of Practice, including ASOP No. 18, 23, 25, 41 and 56. Policy design, underwriting, and claims adjudication practices have been considered.

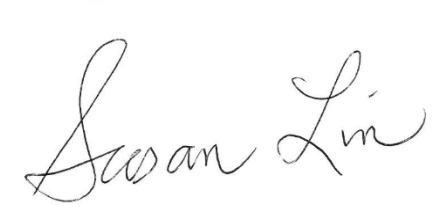
I have relied on historical cash flows and projections completed by GLIC's In-force Actuarial Infrastructure team. All future projections included in this memorandum, while based on GLIC's best estimates, are uncertain and may not emerge as expected.

I have relied on the LTC Strategy & Analytics team for the pricing, methodology and design of the alternative options presented in Section 6 of this actuarial memorandum.

I have relied on statutory valuations as of December 31, 2020, for Claim Reserves (i.e., Disabled Life Reserves, Pending Claims reserves, Incurred But Not Reported reserves, and Dead But Not Reported reserves) provided by GLIC's Long-Term Care Valuation team.

I have also relied on assumptions developed by GLIC's Long-Term Care Experience Studies team in collaboration with other GLIC actuaries, which assumptions were approved by Genworth's Assumption Review Committee. The assumptions present the actuary's best judgement and are consistent with the issuer's business plan at the time of the filing.

I hereby certify that, to the best of my knowledge and judgment, this rate submission is in compliance with the applicable laws and regulations of your state and the Long-term Care Insurance regulation. If the requested premium rate schedule increase is implemented and the underlying assumptions, which reflect moderately adverse conditions, are realized, no further premium rate schedule increases are anticipated. In my opinion, the rates are not excessive or unfairly discriminatory.



Susan Lin, F.S.A., M.A.A.A.

Exhibit III: Choice 2 & 2.1 Policy Forms - Nationwide Experience
With Requested 54.3% Rate Increase*
58/85 Test

This exhibit demonstrates compliance with the Rate Stability Regulation which requires that on a lifetime present value basis, incurred claims are at least equal to 58% of original premiums and 85% of increased premiums. This test is satisfied if Line 11 is "True". Note that a provision for Moderately Adverse Experience has been added.

Row	Description	Value

Policy Forms 7042 et al, 7044 et al, 7042 Rev et al, 7044 Rev et al
Non-AARP

1. Scope of this Filing

This filing applies to the referenced policy forms issued in your state. Forms 7042 and 7044 are also referred to by Genworth Life Insurance Company (GLIC) as “Choice 2”; forms 7042 Rev and 7044 Rev are also referred to by GLIC as “Choice 2.1”. Forms 7042 and 7042 Rev were marketed by the name “Classic Select” and the 7044 and 7044 Rev forms were marketed under the name “Privileged Choice”. Privileged Choice policies have many features built into the base policy that were only available as riders for Classic Select policies. These forms are no longer being sold.

Policies sold to AARP members (AARP Policies) were subject to contractual agreements with AARP governing rate increases. These contractual agreements placed certain limitations on the rate increase implementation for a period of years, that did not apply to policies sold through other channels (Non-AARP Polices). As a result, prior rate increases for AARP Policies were filed separately from Non-AARP Policies.

Since 2018, the limitations of the AARP contractual agreements no longer apply. However, since like policies (both Non-AARP and AARP) under Choice 2_2.1 policy forms sold in your state do not have identical rates schedules, AARP policies are continued to be filed separately from Non-AARP policies.

For all the policies issued in your state to which the current filing applies, refer to the Supplement for state and nationwide information on issue dates, number of issued and in-force lives, total and average premium, average issue and attained age, distributions and history of prior approved rate increases.

2. Purpose of this Filing

This actuarial memorandum has been prepared to request and support the approval of a premium rate increase in your state.

We demonstrate that the requested premium rate increase satisfies the minimum requirements and all applicable regulations in your state. This actuarial memorandum may not be suitable for other purposes.

In this filing, GLIC is requesting a premium rate increase of 54.3% applicable to the base rates and associated riders of all in-force policies referenced in Section 1 of this actuarial memorandum. The requested rate increase reflects updated assumptions and any remainder of the rate increase not approved in prior filings.

3. Justification of the Premium Rate Increase

Redacted pursuant to Section 13, below.

4. Marketing Method and Underwriting Description

Policies were sold by agents working through broker general agencies, financial advisors, and agents working through financial institutions.

The underwriting process included an assessment of functional and cognitive abilities at issue ages considered by GLIC to be appropriate. Various underwriting tools were used in accordance with our underwriting requirements, including an application, medical records, an attending physician's statement, telephone interview and/or face-to-face assessment.

5. Description of Benefits

These are federally tax-qualified, individually underwritten policies that provide comprehensive long-term care coverage. They cover the reimbursement of expenses incurred by the insured(s) subject to the amount of coverage purchased. Premium payments are waived after the elimination period has been satisfied.

The Privileged Choice (7044 and 7044 Rev) policy forms pay benefits on a monthly basis and include a 10-year survivorship benefit. The 10-year survivorship benefit waives future premium payments upon the death of one spouse if both spouses are insured and have met certain requirements. It also includes a waiver of elimination period for home health care benefits, and home health care service days are applied to the facility elimination period. The optional nonforfeiture benefit, restoration of benefit, 7-year survivorship benefit and return of premium riders were available for purchase for an additional premium.

The Classic Select (7042 and 7042 Rev) policy forms are comprehensive products with benefits payable on a daily basis. Riders include 7-year and 10-year survivorship, waiver of elimination period for home health care benefits, monthly maximum benefit (as opposed to daily), restoration of benefits and nonforfeiture benefits.

These policy forms can cover an individual or a couple (joint policy). The joint policy operates as two individual policies, except that the two insureds draw from one shared policy benefit pool.

These forms require an insured to meet benefit eligibility requirements that are triggered by Activities of Daily Living (ADL) deficiencies or cognitive impairment. The daily or monthly benefit, benefit period and elimination period are selected at issue.

In addition, a Benefit Increase Option (BIO) can be selected at issue. The simple BIO increases the original daily maximum by 5% each year starting with the second policy year and continuing for the life

of the policy, unless terminated earlier by the insured. The compound BIO increases the prior year's daily maximum by 3% or 5% each year starting with the second policy year and continuing for the life of the policy, unless terminated earlier by the insured. The 3% compound BIO was only made available on the Choice 2.1 (7042 Rev and 7044 Rev) versions of these policy forms.

6. Alternatives to the Requested Rate Increase

GLIC will offer insureds impacted by rate filings several options for mitigating the impact of the rate increase. These options will be provided in the policyholder notification letter. In addition, policyholders will have the ability to call a dedicated team of customer service representatives that can assist with providing customized quotes for any number of other benefit adjustments.

Reduced Benefit Options. Insureds can change any number of benefit features or coverage limits in order to maintain reasonably equivalent pre- and post-rate increase premium levels, and the optimal balance of coverage and cost based on their specific needs. The available benefit and rate combinations are consistent with the combinations presented in the rate tables approved as part of the original filing. To balance coverage and cost considerations, GLIC will offer policyholders, subject to rate increases on their long-term care policies, customized options to adjust their benefits, which may include any of the following options (where available):

1. Reduction in Daily/Monthly/Lifetime Maximum amount;
2. Reduction in Benefit Period;
3. Reduction or elimination of the BIO;
4. Increases in Elimination Period; and
5. Elimination of policy riders.

If a policyholder elects to reduce or eliminate the BIO, they have the ability to retain any prior increases to their daily or monthly payment maximums. In addition, policyholders will also continue to be offered the previously approved BIO of 1% compound.

Current rate tables for 1% compound BIO reflecting any prior approved rate increase are included in Appendix A and the corresponding rate tables reflecting prior approved and the requested rate increase are in Appendix B.

Flexible Benefit Option (FBO). Policyholders will also continue to be offered the previously approved FBO. The option features the following:

1. A premium rate guarantee until at least January 1, 2025;
2. $250,000 benefit pool for non-shared, $400,000 benefit pool for shared;
3. Monthly indemnity payments that vary by type of benefit. For each full month of qualification, the benefit amounts for each type of benefit are as follows:

- Nursing Home Benefit - monthly payments are 100% of the monthly maximum. Payments are designed to last three years if the policyholder is in a nursing home for the entire time and would be calculated by dividing the claimant's benefit pool by 36 months;
- Assisted Care Facility Benefit - monthly payments are 75% of the monthly maximum and are for care in an assisted care facility; and
- Flexible Care Benefit – monthly payments are 50% of the monthly maximum and are for other types of care, such as home care.

4. GLIC will adjust monthly payment amounts when the insured qualifies for benefits for only part of a month;
5. GLIC will pay only one benefit in a calendar month. If more than one benefit could apply in a calendar month, then GLIC will pay the benefit (Nursing Home Benefit, Assisted Care Facility Benefit, or the Flexible Care Benefit) with the most days of qualification in that month;
6. A 180 day elimination period applies for the Nursing Home and Assisted Care Facility Benefits, and a 90 day elimination period applies to the Flexible Care Benefit; and
7. The benefit pool and monthly maximum will remain fixed, unless the 1% compound BIO is elected. If 1% compound BIO is elected, the benefit pool and monthly maximum will inflate by 1% compounded annually.

The FBO is not available for policies that currently have a benefit pool (net of past claims) less than $250,000 for non-shared, $400,000 for shared.

Rate tables for FBO were filed as part of our prior filing. As such, these rate tables are not included with this filing and will remain in effect for policyholders that previously elected the FBO, as well as any policyholders that decide to elect the FBO with this rate increase. Policyholders that elect the FBO will have their premium rates guaranteed until at least January 1, 2025. However, we reserve the right to adjust the pricing for the FBO in future filings for policyholders that have not previously elected that option.

Other options. GLIC will continue to offer the applicable nonforfeiture option to each policyholder. Policyholders that are eligible for the Contingent Nonforfeiture Option will be presented with that as an option in their notification letter. Policyholders that have a nonforfeiture (NFO) rider with their policy may elect that option. For those policyholders that do not have either the Contingent Nonforfeiture or NFO rider available, GLIC will continue to offer its Optional Limited benefit, which provides a paid-up benefit equal to the total of premium paid, less any claims paid.

7. Premiums

a. These policies are guaranteed renewable for life, subject to policy terms and conditions;
b. Geographic area factors are not used in rating these policies;
c. Semi-annual, quarterly and monthly modal factors are applied to the annual premium. For in-force policies distribution by modal factor, refer to the Supplement;
d. For a history of previous rate revisions refer to the Supplement;
e. The requested rate increase will apply to policies on their billing anniversary date, following a 60-day policyholder notification period;
f. Premium rates are unisex, level (with the exception of approved rate increases) and payable for life (except for in-force policies with limited pay premium on these forms in your state as referenced in the section 1 of the Supplement). Premiums generally vary by issue age, daily benefit, benefit period, elimination period, BIO, and any applicable riders selected;
g. Certain underwriting discounts may have been applied to the premium rates. A preferred risk discount of 10% or 20% may have been provided to applicants in response to specified health underwriting criteria specified on the application. Where the criteria for a couple's discount were met, a discount of 40% was provided to both individuals when both submitted valid applications and both were issued coverage. If only one member of a couple was approved, the discount was reduced to 25%. Where a shared policy was issued, a couple's discount was factored into the shared policy form rates. If only one member of a couple applying for shared coverage was approved, an individual policy was issued and the couple's discount was reduced to 25%; and
h. Current rate tables reflecting any prior approved rate increase have been included in Appendix A. Corresponding rate tables reflecting any prior approved and the requested rate increase have been included in Appendix B, attached separately. Note that actual rates implemented may vary slightly from those set forth in Appendices A and B due to implementation rounding algorithms.
For more information about the rate tables on alternative options refer to section 6.

8. Actuarial Assumptions

Redacted pursuant to Section 13, below.

9. Development of the Requested Rate Increase

In developing the requested premium rate increase, the following has been considered:

a. In order to ensure maximum credibility, exhibits are based on GLIC nationwide experience through December 31, 2020. Projected earned premiums and incurred claims are based on the assumptions described in Section 8 of this actuarial memorandum;
b. GLIC nationwide experience includes all Choice 2_2.1 policies (AARP and Non-AARP). State specific experience only includes the policies affected by this filing, which are referenced in section 1 of this actuarial memorandum;
c. This rate action is considered to be subject to the Rate Stability regulation;
d. The nationwide premium has been restated at your state level, only reflecting your state's approved rate increases, in order to avoid subsidization among states;
e. The requested rate increase has been assumed to be implemented on August 1, 2022. The justified rate increase has been calculated to bring the lifetime loss ratio closer to the acceptable maximum lifetime loss ratio of 64.3%, including a 15% MAE and in compliance with the 58%/85% premium test defined in the Rate Stability regulation;
f. Lifetime projections of earned premiums and incurred claims reflecting all the prior approved rate increases in your state are set forth in Exhibit I. Lifetime projections of earned premiums and incurred claims reflecting all the prior approved rate increases in your state and the requested rate increase are set forth in Exhibit II;
g. Compliance of the 58%/85% premium test defined in the Rate Stability regulation has been verified, as demonstrated in Exhibit III;
h. Historical and projected earned premiums and incurred claims include provisions for waiver of premium; and
i. The majority of policies are eligible for contingent benefit upon lapse. For this reason, we have provided Additional Exhibits IV and V.

9.1 New Business Premium Rate Comparison

GLIC has compared premium rates on the referenced policy forms to the new business rates where the policy characteristics are similar. There are significant differences in benefits, underwriting and other product features between the Choice 2_2.1 products and the current form approved for sale in your state, Policy Form Number 8000R1. Where possible, adjustments have been made so that new business comparisons are meaningful. These differences affect the rate comparison in the following ways:

Benefit Differences: Several benefits, available in prior product generations, including Choice 2_2.1, are not offered in Policy Form Number 8000R1, including benefit periods of eight (8) years or longer, elimination period of zero (0) days, and limited premium payment options (none of these benefits are

currently marketed). Policies with these benefit differences are not considered to exceed new business rates.

Survivorship Benefit: All 7044 and 7044Rev policies have a survivorship benefit. The current product does not have this feature, but GLIC did have a product that had this feature available as a rider. These rider rates were added to the currently marketed product rates, which enabled these policies to be part of the new business rate comparison.

Underwriting: Product Form Number 8000R1 is subject to several underwriting enhancements that did not apply to Choice 2_2.1. While these underwriting enhancements are not directly reflected in benefits, they impact both original and new business pricing. In addition, Product Form Number 8000R1 has four underwriting categories (Standard, Select, Preferred, and Best), while Choice 2_2.1 had only two such categories (Standard and Preferred). GLIC recently made the decision to discontinue sales of Preferred and Best. Ignoring Preferred policies would limit the comparison significantly. GLIC has made a good faith effort to compare these policies and map the two underwriting categories of Choice 2_2.1 to the four underwriting categories of Policy Form Number 8000R1 despite the differences.

Issue Ages: Current marketing limits issue ages to between 40 and 75. Policyholders with issue ages outside of this range are not considered to exceed new business rates.

Policies with 50% Home Health Care: Due to the small number of in-force policies with this benefit, these policies have not been included in the comparison and are not considered to exceed new business rates.

Gender Based Pricing: Product Form Number 8000R1 was priced on a gender-specific basis, as opposed to the unisex basis applicable to Choice 2_2.1. A blend of female/male rates based on pricing assumptions was used to develop approximate unisex rates.

Informal Home Care: Product Form Number 8000R1 covers services provided by informal caregivers to policyholders receiving care at home, but requires caregivers to be registered, and reimburses that care only up to 50% of the available nursing home benefit. Choice 2_2.1 covers services provided by informal caregivers to policyholders receiving care at home, but does not require caregivers to be registered, and reimburses that care up to 100% of the available nursing home benefit. An adjustment to rates for this difference could not be approximated.

Claims Offset: Product Form Number 8000R1 reduces available benefit by claims paid before benefit increases are calculated. Choice 2_2.1 products reduce available benefits by claims paid after benefit increases are calculated. An adjustment to rates for this difference could not be approximated.

Marketing and Distribution: Choice 2_2.1 were sold during the peak years of LTC production when sales and distribution channels were in a growing stage; the current environment is the exact opposite, with decreasing sales and distribution outlets. In 2004-2009 sales were conducted 66% by Independent Agents and Financial Advisors and 33% by Career Agents. Choice 2.1 was sold also through AARP. GLIC's lower ratings today also impact the current distribution and the amount of production of the currently marketed product is an insignificant fraction of the Choice 2_2.1 business sold.

Delay in Approvals and Unapproved Amounts: The rate comparison is sensitive to the approval timing and amounts of prior rate increase request. Delays in approval of the full requested rate increase result in higher percentage future premium rate increases and increases the likelihood of proposed rate levels exceeding the new business rates.
In accordance with the Rate Stability regulation and the Long-term Care Rate Stability Practice Note issued by the American Academy of Actuaries in 2012, we believe the differences noted above sufficiently justify a rate level greater than the new business rates for some of the Choice 2_2.1 in-force policies in your state. Since GLIC prioritizes rate sufficiency and company solvency, the greater rate level is required in order to certify that, if experience emerges as expected, no further rate increases are anticipated.

10. Active Life Reserves and Claim Liability Reserves

Active life reserves have not been used in this rate increase analysis. Claim reserves as of December 31, 2020, have been discounted to the date of incurral of each respective claim and included in historical incurred claims. Incurred but not reported reserve balances as of December 31, 2020, have been allocated to a calendar year of incurral and included in historic incurred claims. Discounting occurs at 4.12%.

11. Trend Assumptions

As this is not medical insurance, we have not included any explicit medical cost trends in the projections.

12. Future Rate Increases

Policies to which this premium rate increase filing applies may also be subject to future additional rate increases if the full amount of the rate increase requested in this filing is not approved or if underlying assumptions are not realized and the future experience exceeds a 15% MAE. We defined “exceeds a 15% margin” as any change that results in a lifetime loss ratio greater than projected in Exhibit II of this memorandum.

13. Confidentiality

Pursuant to 65 P.S. § 67.101 *et seq*. (the "Right-to-Know Law"), Genworth Life Insurance Company ("GLIC") respectfully requests that the following sections to be treated as confidential and not subject to disclosure.

Sections 3, 8, the Supplement, Exhibit I, Exhibit II, and Exhibit III of the Actuarial Memorandum, and all Additional Exhibits.
.
The materials sought to be maintained as confidential are referred to as the "GLIC Confidential Materials" herein.

The GLIC Confidential Materials are being filed in connection with GLIC's request for a rate increase on certain long term care insurance products. However, these materials contain GLIC's confidential trade secrets, and/or other confidential proprietary information, including but not limited to actuarial formulas, statistics and/or assumptions, which are not generally known to, or ascertainable by proper means by, persons or entities other than GLIC who could obtain economic value from their disclosure or use.

65 P.S. § 67.101(a) sets forth Pennsylvania's general rule that a public record should generally be available for inspection by members of the public. However, under 65 P.S. § 67.708(b)(11), "trade secrets" and "confidential proprietary information" are explicitly excluded from the list of records that are subject to public disclosure under the Right-to-Know Law. Specifically, § 67.708(b)(11) states as follows:

> (b) Exceptions: Except as provided in subsections (c) and (d) [neither of which apply here], the following are exempt from access by a requester under this act:
>
> (11) A record that constitutes or reveals a trade secret or confidential proprietary information.

In turn, 65 P.S. § 67.102 (the "Definitions" section of the Right-to-Know Law) defines the term "trade secret," in pertinent part, as follows:

> Information, including a formula, drawing, pattern, compilation, including a customer list, program, device, method, technique or process that:
>
> (1) derives independent economic value, actual or potential, from not being generally known to and not being readily ascertainable by proper means by other persons who can obtain economic value from its disclosure or use; and
>
> (2) is the subject of efforts that are reasonable under the circumstances to maintain its secrecy.

Section 67.102 defines the term "confidential proprietary information" as follows:

> Commercial or financial information received by an agency: (1) which is privileged or confidential; and (2) the disclosure of which would cause substantial harm to the competitive position of the person that submitted the information.

Pennsylvania's insurance laws recognize the confidential nature of actuarial reports, work papers, and other materials supporting an actuarial opinion, and provide that they are not subject to disclosure under the Right-to-Know Law. *See* 40 P.S. § 443(d)(1)(i).

The GLIC Confidential Materials fall squarely within the disclosure exemptions for "trade secrets" and "confidential proprietary information" embodied within § 67.708(b)(11). In *Christopher M's Hand Poured Fudge, Inc. v. Hennon*, 699 A.2d 1272 (Pa. Super. Ct. 1997), Pennsylvania's Superior Court set forth six factors that courts can consider in determining whether information qualifies as a trade secret, including:

> (1) the extent to which the information is known outside the owner's business; (2) the extent to which it is known by employees and others involved in the owner's business; (3) the extent of measures taken by the owner to guard the secrecy of the information; (4) the value of the information to the owner and to his competitors; (5) the amount of effort or money expended by the owner in developing the information; and (6) the ease or difficulty with which the information could be properly acquired or duplicated by others.

Id. at 1275. Each of these factors, along with the "substantial harm" element of the "confidential proprietary information" definition weighs heavily in favor of maintaining the confidentiality of the GLIC Confidential Materials.

GLIC and its predecessors have been providing long-term care insurance coverage to policyholders for more than 35 years. GLIC's lengthy experience in the long-term care insurance business has placed it in a unique position in the long-term care insurance marketplace, in that no other long-term care insurance carrier has as much experience in that line of business as GLIC and its predecessors. Because GLIC has been marketing long-term care insurance products longer than its competitors, it has been able to accumulate experience-related data that its competitors have not been able to gather. GLIC takes active measures to maintain the secrecy of the information in the GLIC Confidential Materials. Among other measures, GLIC obtains non-disclosure agreements with potential reinsurers before providing those potential reinsurers with any experience-related data. Furthermore, access to the data is limited and available only to employees of GLIC who are deemed likely to need the information in the course of their duties; those employees are subject to non-disclosure agreements under which they agree not to share the information except in furtherance of the business of GLIC.

The GLIC Confidential Materials discuss, among other things, GLIC's assumptions in pricing certain long term care insurance products, GLIC's proprietary persistency and incurred claims data, and GLIC's policy demographics. In addition to pricing long-term care insurance products, GLIC's extensive data also allows it to effectively manage its policies, by enabling it to accurately set reserves and conduct reliable asset tests. None of this information is available to GLIC's competitors or to the public generally, and it is plainly protectable under the statutes discussed above. *See Giurintano v. Dep't of Gen. Servs.*, 20 A.3d 613, 615-17 & n.5 (Pa. Commw. Ct. 2011) (holding that the identities of

interpreters hired by state contractor were excluded from public disclosure under 65 P.S. §67.708(b)(11) because the contractor (a) kept their identities confidential "to protect its investment," (b) the interpreters were "business assets," and (c) disclosing the identities "would cause substantial harm to the [contractor's] competitive position in the industry").
GLIC's accumulation of data over its long duration in the long-term care insurance business has come at a substantial cost. For numerous years, GLIC had to price and manage policies without having the benefit of the extensive data and experience that it now possesses. GLIC endured substantial losses on many of those policies that did not perform as expected, and GLIC has incurred and will continue to incur billions of dollars of claims on these policies.

If the GLIC Confidential Materials are released to the public, GLIC would be deprived of its hard-earned competitive advantage, which would cause substantial harm to the company. GLIC's competitors could use GLIC's data and assumptions to price long-term care insurance policies as well as GLIC, without the work, time, expense, and (most significantly) the previous losses that GLIC incurred. If the GLIC Confidential Materials were disclosed, GLIC's competitors would be permitted to exploit GLIC's hard earned, proprietary information for their own benefit, and to GLIC's competitive and economic disadvantage. *See Smith Butz, LLC v. Pa. Dep't of Envtl. Prot.*, ___ A.3d ___, 2017 WL 1833472, at *9 (Pa. Commw. Ct. 2017) (finding that records that would enable the company's competitors to copy valuable and proprietary business methods constituted confidential proprietary information and/or trade secrets). For these reasons, GLIC respectfully submits that the GLIC Confidential Materials are exempt from disclosure pursuant to 65 P.S. §67.708(b)(11), and requests that they be treated as confidential by the Pennsylvania Insurance Department.

This submission contains the publicly available version of this Actuarial Memorandum and other exhibits referenced above, which redacts the GLIC Confidential Materials. A complete, unredacted, confidential version of GLIC's Actuarial Memorandum has been filed separately.

14. Actuarial Certification

I am a Fellow of the Society of Actuaries and a Member of the American Academy of Actuaries, and I meet the American Academy of Actuaries' qualification standards for rendering this opinion and am familiar with the requirements for filing for increases in long-term care insurance premiums.

This memorandum has been prepared in conformity with all applicable Actuarial Standards of Practice, including ASOP No. 18, 23, 25, 41 and 56. Policy design, underwriting, and claims adjudication practices have been considered.

I have relied on historical cash flows and projections completed by GLIC's In-force Actuarial Infrastructure team. All future projections included in this memorandum, while based on GLIC's best estimates, are uncertain and may not emerge as expected.

I have relied on the LTC Strategy & Analytics team for the pricing, methodology and design of the alternative options presented in Section 6 of this actuarial memorandum.

I have relied on statutory valuations as of December 31, 2020, for Claim Reserves (i.e., Disabled Life Reserves, Pending Claims reserves, Incurred But Not Reported reserves, and Dead But Not Reported reserves) provided by GLIC's Long-Term Care Valuation team.

I have also relied on assumptions developed by GLIC's Long-Term Care Experience Studies team in collaboration with other GLIC actuaries, which assumptions were approved by Genworth's Assumption Review Committee. The assumptions present the actuary's best judgement and are consistent with the issuer's business plan at the time of the filing.

I hereby certify that, to the best of my knowledge and judgment, this rate submission is in compliance with the applicable laws and regulations of your state and the Long-term Care Insurance regulation. If the requested premium rate schedule increase is implemented and the underlying assumptions, which reflect moderately adverse conditions, are realized, no further premium rate schedule increases are anticipated. In my opinion, the rates are not excessive or unfairly discriminatory.

The premium on your long term care insurance policy is increasing.

You have [4] options:

1. Keep your current coverage the same and pay the premium increase
2. Elect the Flexible Benefit option and avoid additional increases until at least 2025
3. Review and adjust your coverage to reduce your premiums
4. **<if nonfor available>**{See Addendum for CNF, OLB, NFO text}

Dear [Insured_name1][and [insured name2]],

Thank you for choosing Genworth Life Insurance Company for your long term care insurance needs. We value your business and remain committed to providing quality service and being here when you need us the most.

We are writing to let you know that, as a result of higher than expected aggregate policyholder claims costs, **the premium on your current long term care coverage will increase from [$99,999.99] to [$99,999.99] beginning on your next billing anniversary date, [Mmmm dd, yyyy].** [**<if phased>This increase will take place in a phased manner, over multiple years, as detailed on the enclosed *Coverage Options* page.**] Please refer to the following pages for more details and other important information about this increase[**<if future increases planned>**, as well as plans for future increases]. Please note that this increase is not specific to you or to any change in your health, age, or claims history.

We appreciate that premium increases can be difficult for our policyholders. **To assist you, we are offering you several choices, including the Flexible Benefit option that allows you to adjust your coverage to mitigate [<if no future increases planned>the increase<else>both the current and already planned future increases] and lock in your new premium until at least 2025.** We have also included other alternatives to consider as you evaluate your coverage needs. These options and your personalized information are outlined on the enclosed pages. There may also be additional options available to reduce your premium. We encourage you to discuss them with your financial advisor or a member of our Customer Service Team by calling [999 999.9999] before making a decision.

For additional information regarding premium increases, we encourage you to visit [Genworth.com/LTCpremiums].

Once again, thank you for being a Genworth Life Insurance Company policyholder.

Sincerely,

[signature name]
[signature title]

P.S. This premium increase notice is not a bill [**<if not EFT>** - you will be billed separately]. Please take time to read the *Important Information Regarding This Premium Increase* included with this letter.

Addendum:

For Point #4 in upper right:

[<if CNF >Pay nothing more by electing the Contingent Nonforfeiture Benefit

<or if OLB>Pay nothing more by electing the Optional Limited Benefit

<or if NFO>Pay nothing more by exercising your Non-Forfeiture rider**]**

Considerations

Your long term care insurance policy protects you financially should you require care in the future. However, we understand that evolving financial situations combined with increasing premiums may cause you to re-evaluate your coverage. **On the *Coverage Options* page that follows**, we include the **Flexible Benefit** option [and we offer [several<or> an] alternative[s] for keeping coverage in place and within budget].

Overview of the Flexible Benefit option

Currently, payments under your policy are made on a reimbursement basis. This means you may have to show receipts or invoices and you are only reimbursed for your actual expenses, subject to policy limits.

With our Flexible Benefit option, instead of submitting receipts and getting reimbursed for care, we simply pay eligible benefits to you in fixed payment amounts, which vary primarily by whether you are at home, in a nursing home, or in an assisted care facility. **These payments can then be used any way you choose**. If you choose the Flexible Benefit option, you will have:

1. A **remaining lifetime benefit amount of [$250,000<or>$400,000].** NOTE: This may be significantly less than your current remaining lifetime benefit amount.
2. An **optional** 1% annual compound inflation protection benefit.
3. A guarantee that your new premium **will not increase until at least January 1, 2025**.

For each full calendar month that you qualify, you will receive one of the following:

- Nursing Home Benefit for care in a nursing home - you receive 100% of your Monthly Maximum of [$6,945<or>$5,556]
- Assisted Care Facility Benefit for care in an assisted care facility - you receive 75% of your Monthly Maximum: [$5,209 <or> $4,167]
- Flexible Care Benefit, which you can use to help cover the costs of care outside of a nursing home or assisted care facility, including home care and even care provided by family members - you receive 50% of your Monthly Maximum: [$3,473 <or> $2,778]

  If you select the optional 1% inflation protection benefit, your Monthly Maximum and remaining lifetime benefit amount **[<if 7042 or 7042Rev>**, less future benefits we pay,] will increase 1% each year to help offset rising costs of long term care.

An extended Elimination Period (EP) of 180 days applies to the Nursing Home and Assisted Care Facility benefits and an EP of 90 days applies to the Flexible Care Benefit. The EP is the number of days you must meet applicable benefit eligibility requirements, before your coverage begins to pay benefits.

The premium for this option is shown on the *Coverage Options page*. Fixed monthly payment benefits provided by the endorsement replace other policy payment benefits. Payments are adjusted when you are eligible for benefits for only part of a calendar month and when more than one type of benefit may apply in a calendar month.

For complete details, including information on how to qualify for benefits, please read the accompanying *Important Information Regarding this Premium Increase* and sample Flexible Benefit option endorsement. Only the endorsement has the actual terms of the Flexible Benefit option.

Review and adjust your Long Term Care Coverage

The additional choice[s] shown under "Adjust your coverage" on the following *Coverage Options* page provide[s a] way[s] for you to tune-up your coverage and keep the benefits most important to you, scale back on benefits that no longer seem as essential, and help keep your premiums within your budget. [Each <or>The] option presented has a set of benefits that, while less than what you currently have, is designed to help you align your long term care insurance to your financial needs.

Options for reducing benefits and premiums other than those presented in this package may be available. You can speak with your financial advisor or contact our Customer Service Team. We are available to talk with you, discuss options, and help answer your questions. You can also visit our website at [genworth.com/ltcpremiums].

What the research shows

As you think about your options, consider that a publicly available industry study performed by PwC indicated that the average duration of a long term care event is about three years and that approximately 75%-80% of long term care events will cost less than $250,000[1]. Keep in mind that these figures are averages and approximations and your actual experience may be different. The U.S. Dept. of Health and Human Services also has information on cost of care at: LongTermCare.gov.

[1] The formal cost of long-term care services: How can society meet a growing need? ©2017. Based on 2000-2015 data and reports figures in 2016 dollars.

We encourage you to carefully read the enclosed materials before making a decision.

Genworth

Important Information Regarding This Premium Increase

from Genworth Life Insurance Company

Genworth Life
Administrative Office:
[3100 Albert Lankford Drive]
[Lynchburg, VA 24501]

About this premium increase

This premium increase is based on our expectation of aggregate future claims by our insureds. All policyholders in your class are receiving this rate increase. It is not due to a change in your individual health, age, claims history, or any other individual characteristic. We are implementing this increase in accordance with the laws and regulations of [issue state name] in which your policy was issued for delivery. States require insurance companies to notify them of a rate increase for long term care policies. Additionally, state regulation requires insurance carriers, like Genworth, to support rate increase requests with actuarial justification. The Premium Increase Notice [**<if quote>** and *Coverage Options* page show] [**<if no quote>**s] what your new premium will be if you elect to keep your current coverage. Also shown is the percentage increase for your premium rate, which is a part of your premium. The rate increase percentage shown may vary slightly from the actual percentage of your premium increase. For additional information regarding premium increases, please go to [Genworth.com/LTCpremiums].[**<if quote enclosed & not joint>**In addition, if you are registered on [Genworth.com] you may select one of the coverage options shown in this letter online.]

Policy is Guaranteed Renewable and subject to future premium increases

Your long term care insurance coverage is guaranteed renewable, meaning that we cannot cancel or refuse to continue your coverage because of a change in your individual health or age. As long as you pay the required premium on time and have not used all of your benefits, coverage will continue.

Guaranteed renewable does not mean that premiums are guaranteed to remain the same indefinitely. In accordance with the terms of your policy, we reserve the right to change premiums, and it is [possible**<or>**likely] that your premium will increase again in the future. [**<if quote>**However, if you elect the Flexible Benefit option, your new premium will not increase until at least 2025.]

[**<if future increases likely>** For policies subject to this rate increase, we began providing advance notice of the rate increase to policyholders in [MM/YYYY]. Please be aware that, at that time, we planned to request at least [999%] in additional rate increases on your policy and policies like yours in the state where your policy was issued. The actual increases we seek may differ. For example, they may be higher or more numerous than the plans described above and any more recently updated plans. To see if our rate increase plans have changed you may register or log on to your account at [genworth.com] and go to the section entitled 'I want to'.

Planned rate increases will take effect only as permitted by the applicable state insurance department and state law.] Please note, our ability to obtain needed future rate increases is important to Genworth Life Insurance Company's ability to pay future claims. The inability to obtain needed future rate increases may impair our ability to do so.

Benefits

[**<if quote>**The benefit values presented in the accompanying letter are approximate due to rounding.]Covered benefits payable at the time of a claim will be calculated in accordance with your policy. Benefits are payable only when you meet the terms and contitions for receiving benefits under your policy.

Considerations related to adjusting your coverage

Value of coverage reduction options. All options available to you may not be of equal value. [**<if quote>**For example, we price the Flexible Benefit option differently than other options so we can change how benefits are paid and offer a guarantee that premiums will not increase for a period of time. This means, coverage under the Flexible Benefit option may cost more than similar coverage under a different reduced benefits option.]Some states require policyholders to maintain minimum benefit levels, which may reduce the options available. [**<if partnership>**If you have a Partnership policy, reducing your coverage may result in a loss of Partnership status, a change in your asset protection type and/or may reduce your overall protection.]

Benefit period. Your benefit period is the period of time that is used to calculate the lifetime payment maximum. Your coverage is based on this lifetime payment maximum, not a certain period of time. If your daily/monthly benefit amount and/or the benefit period are reduced, the maximum benefits payable under your policy will automatically be reduced because the policy maximum is a function of the daily benefit amount and the benefit period.

Benefit amounts. In addition, other benefit amounts may be reduced. Changes to the daily/monthly maximum benefit and/or benefit increase option will change the related original benefit amounts and the amount of any benefit increase option increment.

If you elect to drop or reduce your benefit increase option (if applicable), you will keep your increased daily/monthly maximum benefit and your premium will be adjusted accordingly. You may also reduce your daily/monthly maximum benefit and your premium will be further adjusted.

[**<if quote>**This description of the benefit change process does not apply to the election of the Flexible Benefit option. Please refer to the section entitled Understanding the Flexible Benefit Option for specific information regarding the impact to your benefits if this option is selected.]

Benefits paid or payable. Any benefits paid or payable are deducted from the reduced policy maximum. If you have previously been on claim, adjusting your elimination period may not be appropriate. Reducing benefits while you are receiving policy benefits is generally not advisable.

Pay nothing more. If you can't pay further premiums you may have the option of stopping further payments and obtaining a benefit for long term care services approximately equal to the amount of premium paid[**<if quote enclosed>**, please refer to the *Coverage Options* page for further details].

<For those with unlimited benefits in states where different rate increase percentage approved for lifetime vs. limited>

Moving from unlimited lifetime benefits to limited benefits

The rate increase percentage for policyholders with an unlimited lifetime benefit is higher because expected aggregate claims are disproportionately greater for these policyholders. You can reduce the premium increase by switching to a limited benefit period. [**<if quote>**Note: This section does not apply if you elect the Flexible Benefit option.]

<if quote >

Understanding the Flexible Benefit option

The Flexible Benefit option is designed to help mitigate the impact of premium increases by changing your benefits, while also guaranteeing that your new premium will not increase until at least 2025. This option will change your policy from one that reimburses you for actual expenses incurred to one that pays fixed monthly payment benefits regardless of the amount of the expenses you incur. Overall, the Flexible Benefit option provides a simpler claims process and allows you flexibility in the way you can use your benefit dollars.

The fixed monthly payment benefits vary, primarily by the type of benefit for which you qualify. The types of benefits are the Nursing Home Benefit (up to 100% of the monthly maximum), Assisted Care Facility Benefit (up to 75% of the monthly maximum), or Flexible Care Benefit (up to 50% of the monthly maximum). Payments are adjusted when you are eligible for benefits for only part of a month. When more than one benefit could apply in a month, we will pay only the benefit with the longest period of qualification in that month.

The requirements to qualify for fixed monthly payment benefits are in the Flexible Benefit option endorsement, including the requirement that you meet the policy's initial and ongoing benefit eligibility requirements. Additionally, before we can provide monthly payment benefits, you will have to satisfy the applicable Elimination Period, which is 180 days for the Nursing Home Benefit and Assisted Care Facility Benefit, and 90 days for the Flexible Care Benefit. We will periodically verify your continued eligibility for benefits, including any continued confinement in a Nursing Home or Assisted Care Facility.

Please review the *Considerations* and *Coverage Options* pages and the sample endorsement for more details regarding how your benefit and premium amounts may change. In most instances, your benefit levels will be lower with the Flexible Benefit option. You will have the opportunity to select the Flexible Benefit option with or without the 1% inflation protection. All policyholders selecting the Flexible Benefit option will get the same new lifetime maximum and opportunity to select a 1% inflation protection. This means some policyholders selecting the Flexible Benefit option will reduce their available coverage by more than other policyholders. The new lifetime maximum will not be reduced by benefits already paid before selecting the Flexible Benefit option, but future benefit payments will reduce and/or exhaust the lifetime maximum as described in your policy.

There may be other options available to you to mitigate or offset the current premium increase; however, only the Flexible Benefit option includes the guarantee of having no further premium increases implemented on your policy until at least 2025.

Please note: By accepting any change in benefits, you may have a lower dollar amount of benefits available for future claims. This will be shown on the updated schedule page that you will receive if you elect this option. In accordance with your policy, any days which have already satisfied your Elimination Period will continue to count towards your new Elimination Period under the Flexible Benefit option.

The Flexible Benefit option is available up to 60 days after the next Billing Anniversary Date on which your rate increase is effective. If you choose this option, you may change your decision in writing within 60 days of our written confirmation of your benefit changes under this option.

After the 60 day period, you cannot revert back to the benefits you had prior to electing the Flexible Benefit option. The only benefit change that will be available to you going forward is to drop an applicable rider or to elect other changes that we may make available for you to reduce your coverage.

Important Tax Information: The benefit provided by the Flexible Benefit option endorsement is a periodic payment without regard to any actual expenses that you incur. Your receipt of benefits under this endorsement may result in taxable income. Genworth does not provide tax advice. You should consult with your tax advisor and other professional advisors to understand potential tax consequences.

<if OLB or NFO Rider or CNB>

Select a Limited Benefit with no further premium requirement

<if OLB>**You may elect an Optional Limited Benefit.** As a result of this premium increase, we are offering an Optional Limited Benefit. This endorsement allows you to elect a limited paid-up long term care insurance benefit. This benefit is available up to 120 days after the next Billing Anniversary Date on which your rate increase is effective. This benefit provides a paid-up benefit with total coverage equal to the total premium paid, excluding waived premium, less any claims paid. A policy lapse at any time during the 120-day period following the due date of the increased premium will be deemed an election of this benefit.

Please note: This Endorsement could significantly reduce the policy benefits. Please review the Optional Limited Benefit Endorsement for more detailed information prior to making this election.

<OR>

<if NFO Rider on Policy >

You may exercise the Non-Forfeiture Rider. Your policy includes the Non-Forfeiture Rider which you may elect to exercise at any time. This Rider allows you to have a paid-up long term care insurance benefit as described in the Rider.

Please note: This rider could significantly reduce the policy benefits. Please review the Non-Forfeiture Rider in your policy for more detailed information prior to making this election.

<OR>

<if CNF >

You may elect a Contingent Non-Forfeiture Benefit. This rate increase qualifies you to receive a Contingent Non-Forfeiture Benefit. This benefit is available up to 120 days after the next Billing Anniversary Date on which your rate increase is effective. This endorsement allows you to reduce your policy benefits so the required premium payments are not increased and convert your coverage to a paid-up status with a shortened benefit period and reduced benefits plan. A policy lapse at any time during the 120-day period following the due date of the increased premium will be deemed an election of this benefit.

Please note: This Endorsement could significantly reduce the policy benefits. Please review the Contingent Non-Forfeiture Benefit Endorsement for more detailed information prior to making this election.

Waiver of Premium benefit

If you are currently receiving a Waiver of Premium benefit, you will not be required to pay the increased premium until the Waiver of Premium benefit no longer applies, as provided for in your policy. At that time, you may want to call one of our Customer Service Representatives to discuss options to reduce the premium increase by changing your policy benefits.

If your policy does not provide a Waiver of Premium benefit, you will be required to pay the increased premium, even if you are receiving policy benefits. Prior to paying your bill with the increased premium you may want to call one of our Customer Service Representatives to discuss options you may have to reduce your premiums by changing your policy benefits.

Payments by automatic withdrawal/third-party account/online banking

If you are using automatic withdrawals, the new required premium will be automatically deducted from your bank checking account. If you are using a third-party account or online banking to pay your premiums, please be sure to make the proper adjustments and arrangements for paying the new required premium amount.

Time frame to reverse decision

If you opt to reduce your benefits or cancel your coverage, your request to reverse any such decision must be in writing, signed by you, and received by us no more than 60 days after the date of our written confirmation of your reduction/cancellation.

Rate increase history

In accordance with the requirements of [issue state name] where your policy was issued for delivery, we are providing you with the history of previous rate increases that have been implemented on policies that were underwritten by Genworth companies.

About Genworth

Genworth companies began selling long term care insurance in 1974 and have been the largest provider of long term care insurance policies in the United States. It is important to note that Genworth regularly monitors the business performance of these policies and believes that its companies' reserves are adequate and appropriate at this time. As you review your options, you should know that A.M. Best, a global credit rating agency focused on evaluating the claims paying ability of insurance companies, downgraded its rating of Genworth Life Insurance Company's financial strength to C++ in September 2019, indicating A.M. Best's view that Genworth Life Insurance Company has "marginal ability to meet ongoing insurance obligations." To obtain information regarding Genworth company financial strength, please visit [genworth.com].

The premium on your long term care insurance policy is increasing.

You have [3] options:

1. Keep your current coverage the same and pay the premium increase
2. Review and Adjust your coverage to reduce your premiums
3. <If nonfor available> {See Addendum for CNF, OLB, NFO text variations}

Dear [Insured_name1][and [insured name2]],

Thank you for choosing Genworth for your long term care insurance needs. We value your business and are committed to providing quality service and being here when you need us the most.

We are writing to let you know that, as a result of higher than expected aggregate policyholder claims costs, **the premium on your current long term care coverage will increase from [$99,999.99] to [$99,999.99] beginning on your next billing anniversary date, [Mmmm dd, yyyy]. [<if phased>This increase will take place in a phased manner, over multiple years, as detailed on the enclosed *Coverage Options page.*]** Please refer to the following pages for more details and other important information about this increase [**<if future increases planned>** , as well as plans for future increases]. Please note that this increase is not specific to you or to any change in your health, age, or claims history.

We appreciate the financial difficulty premium increases can cause. That is why we are offering coverage adjustment options to help you manage your premium cost while still maintaining important coverage. The enclosed pages outline these options along with your personalized information. There may also be additional options available to reduce your premium.

We encourage you to discuss your options with your financial advisor or a member of our Customer Service Team by calling [999 999.9999] before making a decision. For additional information regarding premium increases, we encourage you to visit [Genworth.com/LTCpremiums].

Once again, thank you for being a Genworth policyholder.

Sincerely,

[Signature name]

[Signature title]

P.S. This premium increase notice is not a bill [<if not EFT> - you will be billed separately]. Please take time to read the *Important Information Regarding This Premium* Increase included with this letter.

Policy is Guaranteed Renewable and subject to future premium increases

Your long term care insurance coverage is guaranteed renewable, meaning that we cannot cancel or refuse to continue your coverage because of a change in your individual health or age. As long as you pay the required premium on time and have not used all your benefits, coverage will continue.

Guaranteed renewable does not mean that premiums are guaranteed to remain the same indefinitely. In accordance with the terms of your policy, we reserve the right to change premiums and it is [possible**<or>**likely] that your premium will increase again in the future.

[<if future rate increases likely>For policies subject to this rate increase, we began providing advance notice of the rate increase to policyholders in [MM/YYYY]. Please be aware that, at that time, we planned to request at least [999%] in additional rate increases on your policy and policies like yours in the state where your policy was issued. The actual increases we seek may differ. For example, they may be higher or more numerous than the plans described above and any more recently updated plans. To see if our rate increase plans have changed you may register or log on to your account at [genworth.com] and go to the section entitled 'I want to'.

Planned rate increases will take effect only as permitted by the applicable state insurance department and state law.**]** Please note, our ability to obtain needed future rate increases is important to Genworth Life Insurance Company's ability to pay future claims. The inability to obtain needed future rate increases may impair our ability to do so.

Benefits

[**<if quote>**The benefit values presented in the accompanying letter are approximate due to rounding.]Covered benefits payable at the time of a claim will be calculated in accordance with your policy**.** Benefits are payable only when you meet the terms and conditions for receiving benefits under your policy**.**

Considerations related to reducing your benefits

Value of coverage reduction options. All of the options available to you as alternatives to paying the full premium increase may not be of equal value. Some states require policyholders to maintain minimum benefit levels, which may reduce the options available. **[<if Partnership>**If you have a Partnership policy, reducing your coverage may result in a loss of Partnership status, a change in your asset protection type and may reduce your overall protection.]

Benefit period. Your benefit period is the period of time that is used to calculate the lifetime payment maximum. Your coverage is based on this lifetime payment maximum, not a certain period of time. If your daily/monthly benefit amount and/or the benefit period are reduced, the maximum benefits payable under your policy will automatically be reduced because the policy maximum is a function of the daily benefit amount and the benefit period.

Benefit amounts. In addition, other benefit amounts may be reduced. Changes to the daily/monthly maximum benefit and/or benefit increase offer will change the related original amounts and the amount of any benefit increase option increment. If you elect to drop or reduce your benefit increase option (if applicable), you will keep your increased daily/monthly maximum benefit and your premium will be adjusted accordingly. You may also reduce your daily/monthly maximum benefit and your premium will be further adjusted.

Benefits paid or payable. Any benefits paid or payable are deducted from the reduced policy maximum. If you have previously been on claim, adjusting your elimination period may not be appropriate. Reducing benefits while you are receiving policy benefits is generally not advisable.

Pay nothing more. If you can't pay further premiums you may have the option of stopping further payments and obtaining a benefit for long term care services approximately equal to the amount of premium paid[**<if quote>**, please refer to the *Coverage Options* page for further details].

[**<if limited pay>** **Paid-up feature.** Your policy has a limited number of premium payments required to become paid-up. That means if you pay all required premiums as they become due, this policy will be paid-up and no future premiums will be required including rate increases. Careful consideration should be given before selecting an option that stops further payments. Our customer service representatives would be happy to discuss this option with you.]

<For those with unlimited benefits in states where higher rate increase percentage approved for lifetime vs. limited>
Moving from unlimited lifetime benefits to limited benefits

The rate increase percentage for policyholders with an unlimited lifetime benefit is higher because expected aggregate claims are disproportionately greater for these policyholders. You can reduce the premium increase by switching to a limited benefit period.

<if CNF or OLB, or NFO rider >

Select a Limited Benefit with no further premium requirement

<if OLB>**You may elect an Optional Limited Benefit.** As a result of this premium increase, we are offering an Optional Limited Benefit. This endorsement allows you to elect a limited paid-up long term care insurance benefit. This benefit is available up to 120 days after the next Billing Anniversary Date on which your rate increase is effective. This benefit provides a paid-up benefit with total coverage equal to the total premium paid, excluding waived premium, less any claims paid. A policy lapse at any time during the 120-day period following the due date of the increased premium will be deemed an election of this benefit.

Please note: This Endorsement could significantly reduce the policy benefits. Please review the Optional Limited Benefit Endorsement for more detailed information prior to making this election.

<OR>

<if NFO Rider on Policy >

You may exercise the Non-Forfeiture Rider. Your policy includes the Non-Forfeiture Rider which you may elect to exercise at any time. This Rider allows you to have a paid-up long term care insurance benefit as described in the Rider.

Please note: This rider could significantly reduce the policy benefit. Please review the Non-Forfeiture Rider in your policy for more detailed information prior to making this election.

<OR>

<if CNF >

You may elect a Contingent Non-Forfeiture Benefit. This rate increase qualifies you to receive a Contingent Non-Forfeiture Benefit. This benefit is available up to 120 days after the next Billing Anniversary Date on which your rate increase is effective. This endorsement allows you to reduce your policy benefits so the required premium payments are not increased and convert your coverage to a paid-up status with a shortened benefit period and reduced benefits plan. A policy lapse at any time during the 120-day period following the due date of the increased premium will be deemed an election of this benefit.

Please note: This Endorsement could significantly reduce the policy benefit. Please review the Contingent Non-Forfeiture Benefit Endorsement for more detailed information prior to making this election.

Waiver of Premium benefit

If you are currently receiving a Waiver of Premium benefit, you will not be required to pay the increased premium until the Waiver of Premium benefit no longer applies, as provided for in your policy. At that time, you may want to call one of our customer service representatives to discuss options to reduce the premium increase by changing your policy benefits.

If your policy does not provide a Waiver of Premium benefit, you will be required to pay the increased premium, even if you are receiving policy benefits. Prior to paying your bill with the increased premium you may want to call one of our customer service representatives to discuss options you may have to reduce your premiums by changing your policy benefits.

Payments by automatic withdrawal/third-party account/online banking

If you are using automatic withdrawals, the new required premium will be automatically deducted from your bank checking account. If you are using a third-party account or online banking to pay your premiums, please be sure to make the proper adjustments and arrangements for paying the new required premium amount.

Time frame to reverse decision

If you opt to reduce your benefits or cancel your coverage, your request to reverse any such decision must be in writing, signed by you, and received by us no more than 60 days after the date of our written confirmation of your reduction/cancellation.

Rate increase history

In accordance with the requirements of [issue state name] where your policy was issued for delivery, we are providing you with the history of previous rate increases that have been implemented on policies that were underwritten by Genworth companies.

About Genworth

Genworth companies began selling long term care insurance in 1974 and have been the largest provider of long term care insurance policies in the United States. It is important to note that Genworth regularly monitors the business performance of these policies and believes that its companies' reserves are adequate and appropriate at this time. As you review your options, you should know that A.M. Best, a global credit rating agency focused on evaluating the claims paying ability of insurance companies, downgraded its rating of Genworth Life Insurance Company's financial strength to C++ in September 2019, indicating A.M. Best's view that Genworth Life Insurance Company has "marginal ability to meet ongoing insurance obligations." To obtain information regarding Genworth company financial strength, please visit [genworth.com].

Objection Response
Genworth Life Insurance Company

This letter is in response to the comments received in your objection letter, dated July 03, 2021, to Genworth Life Insurance Company's (GLIC's) Choice 2 & 2.1 Pennsylvania rate increase request. The comments and our responses are as follows:

1. Why does Exhibit I from filing GEFA-132882371 (non-AARP) and filing GEFA-132882395 (the AARP filing) differ slightly?.

The Exhibit I from filing GEFA-132882371 (non-AARP) and filing GEFA-132882395 (the AARP filing) differ slightly because the rate increase histories between the two filings are not the same. In Pennsylvania cumulative approved rate increase for non-AARP block is 121.6%, while for AARP it is 126%.

2. Please provide a table in an Excel spreadsheet (perhaps similar to Exhibit I) which shows the historical and projected nationwide earned premium and incurred claims on a calendar year basis assuming no rate increase is granted. Please restate the historical and projected earned premium so that the business from inception appears to have been all been earned at the current Pennsylvania rate level.

Please see Attachment 1 in 'PA_Choice 2 & 2.1 nAARP Objection 1 Attachments.xlsx' for the requested exhibit with the current Pennsylvania rate level applied since issue.

3. Please provide a table in an Excel spreadsheet (perhaps similar to Exhibit I) which shows the historical and projected nationwide earned premium and incurred claims on a calendar year basis assuming no rate increase is granted. Please restate the historical and projected earned premium so that the business from inception appears to have been all been earned at the original rate level. The original rate level is the rate level that would have existed if no increase was ever granted on any policy nationwide.

Please see Attachment 2 in 'PA_Choice 2 & 2.1 nAARP Objection 1 Attachments.xlsx' for the requested exhibit with the original Pennsylvania rate level applied since issue.

4. How many AARP 7044 & 744 Rev policies were issued nationwide? How many AARP 7044 & 7044 Rev policies remain in force nationwide?

For nationwide sales of the AARP 7044 & 7044 Rev polices, 14,989 policies were issued, of which 13,187 policies remain in force.

5. How many Non-AARP 7044 & 744 Rev policies were issued nationwide? How many Non-AARP 7044 & 7044 Rev policies remain in force nationwide?

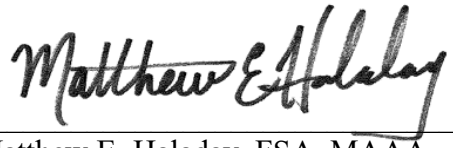
For Non-AARP 7044 & 7044 Rev polices, 254,148 policies were issued nationwide, and 231,781 policies remain in force.

Objection Response
Genworth Life Insurance Company

6. Please provide the cumulative weighted average increase granted on the combined block (i.e. AARP and Non-AARP) in PA as a single number.

The cumulative weighted average increase granted on the combined block in PA is 121.8%.

Regards,



Matthew E. Haladay, FSA, MAAA
