REF: Comment Period-Highmark Deal

Robert Brackbill,

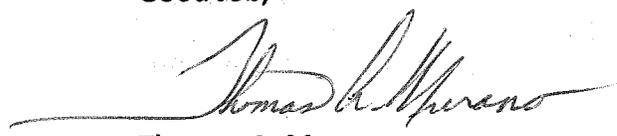

You have got to be kidding me on what you "cowards" just did to this deal between "Highmark and West Penn Allegheny Health Systems". You do not give a dam about the people and the lives that you are affecting with this "chicken s\*\*t" decision that you came up with.

You want to know what is so mind boggling about all of this. You did not and you still do not have any concerns about "UPMC" buying all the hospitals and the private practices of all the doctors in and around Western Pennsylvania. Why is it that there is no concern about them buying all this without the slightest concern on your departments part that they were and now do control this segment in Western Pennsylvania?

Is your department getting something out of all this? Please do not insult my intelligence with your "phony claim" that you are looking out for the public. If that is your claim, where were you when you allowed "UPMC" to buy up everything and eliminate competition?

I really wish that "Highmark" would sue you for anything and everything in this mess that you could care less about the public at large. While people could and will lose their jobs because you idiots play some stupid game that only "Highmark" has to play, you are still allowing "UPMC" to acquire more and more.

Good Job,

Thomas A. Murano

Cs; Gov. Tom Corbett, Highmark
