The books and records of each Pennsylvania domestic insurance company are reviewed by an examiner at least once every five years.

OFFICE OF MARKET REGULATION

The Department's market regulation activities are critical to protecting consumer interests. Within the Office of Market Regulation are four Bureaus who work in collaboration to ensure the compliance of fair insurance practices. First, the Bureau of Consumer Services continues to be the "one stop" shop for Pennsylvania's citizens to seek information and submit complaints against insurers and producers. Secondly, the Bureau of Licensing and Enforcement addresses allegations of violations of the insurance laws by licensees and sets the standard for individual entering the insurance market through its licensing programs. This Bureau also plays an important role in combating insurance fraud by working with the insurance industry and law enforcement to identify trends in insurance fraud. Next, the Bureau of Market Conduct plays an integral part of the Department's market regulation efforts with compliance monitoring mission of the insurance industry to ensure consumer protection and this is accomplished through various regulatory responses that may include on-site examinations of insurers. Lastly, the Bureau of Market Analysis and Education participates in outreach events to educate consumers. This Bureau also receives industry information that is combined, analyzed and synthesized with other regulatory information to determine problems with carriers or trends in the marketplace. Reporting to the Deputy Insurance Commissioner are:

BUREAU OF CONSUMER SERVICES

Direct assistance is provided to consumers through the Bureau of Consumer Services. Through its Harrisburg Regional Office, more than 100,000 consumer complaints and inquiries are processed annually. The Bureau serves as the eyes and ears of the Department in monitoring the insurance marketplace. The information gathered by the Bureau serves as the foundation for the market analysis. The Bureau also handles consumer walk-ins, phone calls, emails, and general complaints. Staff also participates in numerous consumer education and outreach programs sponsored by the General Assembly, consumer associations, insurance trade associations and other governmental entities. The Department responds to state or federally declared disasters by providing on-site staffing assistance at Disaster Recovery Centers (DRCs).

Additionally, the Bureau is responsible for reviewing market and product withdrawal activity.

BUREAU OF MARKET ACTIONS

The Bureau of Market Actions is comprised of the Property & Casualty Market Conduct Examination Division, the Life & Health Market Conduct Examination Division and the Market Analysis Division. This Bureau functions as an integral part of the Department's compliance monitoring mission of the insurance industry by conducting analysis and research of market data as well as performing various types of compliance audits and interactions with insurers.

The Market Conduct Divisions use various types of compliance audit techniques to ascertain consumers are treated fairly and insurers operate in a fair market environment. These audit techniques include on-

site market conduct examinations, multistate collaborative examinations, oversight compliance reviews, desktop examinations, industry surveys or studies and company interrogatories or meetings. During the period July 1, 2010 through June 30, 2011 the Market Conduct Divisions completed 21 examinations and interacted with another 60 insurers through oversight compliance reviews, industry surveys and interrogatories or meetings. A total of $1,349,972 in civil penalties was assessed as a result of market conduct examinations and another $1,319,994 in restitution for consumers was ordered.

The Market Analysis Division is tasked with monitoring the insurance industry through data analysis of market information. Also, the Market Analysis Division is responsible for coordinating the activities and reporting of the Department's Market Regulation Committee (MRC). Through processes known as Baseline, Level 1 and Level 2 analysis, the Market Analysis Division identifies industry trends that could be problematic and further identifies insurers which are outliers to industry norms and trends. During the period July 1, 2010 through June 30, 2011 the Market Analysis Division conducted Baseline analysis on 1,505 insurers for nine different lines of coverage (auto, home, life, etc...). Baseline analysis monitors things such as changes in premium, loss ratios, complaints ratios, etc... From baseline analysis, 103 companies were identified as outliers and had more in depth, Level 1 analysis performed. Level 1 analysis validates what was found through Baseline analysis plus it provides more details on company demographics, Market Conduct Annual Statement results, and actions taken by other states. Findings from Level 1 analysis were reported to the MRC through a series of meetings which took place during the reporting period and as a result, the Market Analysis Division was tasked by the MRC with interacting with 27 different insurers using various regulatory tools available to regulators. These interactions included written interrogatories, phone interviews, face-to-face meetings and studies. Additionally, at the direction of the MRC, another 10 insurers were referred to the Market Conduct Divisions for examinations.

BUREAU OF LICENSING AND ENFORCEMENT

The Bureau of Licensing and Enforcement is comprised of the Field Investigations Division, the Anti-Fraud Compliance Division, the Licensing Compliance Division and the Licensing Services Division. This Bureau functions as an integral component of the Department's consumer protection and market place regulatory mission.

The Licensing Divisions develop the processes and protocols for licensing of insurance producers, public adjusters, public adjuster solicitors, surplus line agents, motor vehicle physical damage appraisers, viatical settlement brokers and professional bondsmen in the Commonwealth. The Department licenses more than 208,000 individuals in Pennsylvania to conduct the business of insurance with the general public. In a given year more than 30,000 new applications and over 900,000 insurance company appointments and terminations are processed. Additionally, the Bureau reviews and renews over 75,000 licenses annually and monitors compliance with the mandatory continuing education requirements for individual licensees as well as reporting requirements for both individuals and business entities in accordance with statutory timeframes. The Licensing Divisions depend heavily on the use of technology to meet the expectations of service by the regulated community.

The Field Investigation Division investigates licensees suspected of violating Pennsylvania insurance statutes and regulations. In fiscal year 2010-2011, the Field Investigations Division executed 129 Consent Orders and Settlement Agreements, 46 Warning Letters for minor infractions and 71 individuals surrendered their licenses or had their licenses revoked as a result of violating insurance laws. In addition, the Division imposed $221,500.00 in civil penalties and assessed $594,031.00 in restitution to Pennsylvania consumers.

The Anti-Fraud Compliance Division, operating through a grant of the Pennsylvania Insurance Fraud Prevention Authority, reviews insurer fraud control programs to determine insurer compliance with law, performs analysis of fraud and fraud-related issues to assist Pennsylvania anti-fraud strategy and policymaking, functions as Department liaison with federal and state agencies on insurance fraud, and

through educational initiatives, increases public awareness that insurance fraud harms Pennsylvania consumers through higher insurance costs.

BUREAU OF MARKET ANALYSIS AND EDUCATION

The Bureau of Market Analysis and Education includes the Division of Market Analysis and the Outreach Division. The Division of Market Analysis is tasked with protecting consumers by ensuring that companies are operating in accordance with Commonwealth Pennsylvania law and by creating an environment to allow a level playing field for companies to compete in. This is accomplished primarily through educational reviews, data calls and market analysis. Educational reviews and data calls of insurance companies allow the Division to make sure that the industry has properly implemented newly enacted or changed laws and regulations. Through educational reviews, the Division examines forms and documents, conducts written, telephonic and on-site surveys of licensees and consumers, and reviews internal company procedures and advertising materials, in addition to other functions. Through data calls, data is analyzed in attempt to identify industry trends that could be problematic. Through these tools, feedback is provided to the industry in order to affect compliance by companies and to ensure that consumers are receiving the full extent of protections under the law. They review statutes and regulations and create an outline to determine the topics and target of analysis reviews, data calls and analysis projects which will later be used as reference guides during analysis projects. Specific violations of Pennsylvania insurance statutes, regulations and/or policy conditions are identified. Surveys to the insurance industry are conducted to gather information and data report findings from analysis of the information and data to the Director and Insurance Commissioner and all other interested parties. Surveys and studies allow us to formulate public policy, or at least, become more knowledgeable of the industry we regulate. Ultimately, Market Analysis presents all their data collection findings to the Market Regulatory Review Committee to determine what response/action on the continuum of regulatory responses should be taken. Market analysis enables the Division to identify general market disruptions and important market conduct problems as early as possible to eliminate, or limit, the harm to consumers. It also allows the Department to better prioritize a coordinate various market conduct functions.

The Outreach Division represents consumers by reviewing and commenting on proposed legislation, and by speaking at legislative, and public hearings on behalf of consumers. They are actively involved in conducting policy research, investigations and reporting on hot topics that impact consumers such as healthcare reform, long term care, climate change and automobile direct repair programs. Most recently, the Outreach Division performs professional program development and evaluation work, directly in connection with the implementation by the PA Insurance Department (PID) of certain provisions of the Patient Protection and Affordable Care Act (Affordable Care Act, Public Law 111-148) and the Health Care & Education and Recovery Act of 2010 (Public Law 11-152). Specifically, the Bureau has taken the lead in the creation of a high risk insurance pool (PA Fair Care) and ultimately will develop an insurance exchange for the Commonwealth by January 1st, 2014. The Bureau performs other duties in support of the above effort and researches best practices with the National Association of Insurance Commissioners (NAIC) and other states in support of this effort.

OFFICE OF INSURANCE PRODUCT REGULATION, ADMINISTRATION AND CHIP

Reporting to the Insurance Commissioner, the Office of Insurance Product Regulation, under the direction of an Executive Deputy Insurance Commissioner, is responsible for reviewing and regulating certain insurance rates charged and policy forms used in Pennsylvania for accident and health, life, and property and casualty insurance. The Human Resources and EEO Division provides support in the areas of recruitment and placement, classification and salary administration, labor relations, employee training and development, employee benefits, leave administration, transactions, safety and related human resources programs. BUREAU OF LIFE AND ACCIDENT AND HEALTH

The Bureau of Life and Accident and Health Insurance oversees health maintenance organizations (HMOs), preferred provider organizations (PPOs) and commercial and non-profit insurers, including Blue Cross/Blue Shield plans. The Bureau also coordinates the licensing of HMOs with the Department of Health. In addition, the Bureau is responsible for determining that all state laws and regulations related to health insurance are in compliance with applicable federal legislation. Rate and form filings are reviewed for compliance with all statutory and regulatory requirements. The Bureau reviews approximately 1,300 health product rate filings and 1,800 form filings annually. The Bureau also reviews life insurance, annuity and credit insurance values, policies and forms and credit insurance rates for compliance with the Department's laws and regulations. The Bureau provides valuation of life and accident health insurance reserves to determine compliance with the valuation law. (Valuation is a process of determining a company's liability under its policy obligations.) This Bureau performs the valuation of life and health insurance reserves. The valuation function generates approximately $3,800,000 annually. Filings are reviewed for compliance with all statutory and regulatory requirements. The Bureau annually reviews approximately 2,000 life rate filings and 3,800 form filings.

BUREAU OF PROPERTY AND CASUALTY

The Bureau of Property and Casualty Insurance is responsible for personal and commercial property and casualty lines of business such as automobile, homeowners', workers' compensation and liability insurance. The Bureau works closely with the Department of Labor and Industry on workers' compensation issues and with the Medical Care Availability and Reduction of Error Fund. Rate and form filings are reviewed for compliance with all statutory and regulatory requirements. The Bureau reviews approximately 3,000 rate filings and 2,750 form filings each year.

BUREAU OF MCARE

Reporting to the Insurance Commissioner, the Bureau of Mcare under the direction of a Deputy Insurance Commissioner, plans, develops, coordinates and administers the Medical Care Availability and Reduction

of Error Fund in accordance with state statutory requirements, which provides excess medical professional liability insurance coverage to eligible health care providers.

DIVISION OF MEDICAL MALPRACTICE ADMINISTRATION

Division of Medical Malpractice Administration - Directs an excess liability insurance coverage program in accordance with a statutory scale of limits in excess of primary insurance provided by medical malpractice liability insurance companies or self-insured health care provider programs. Coordinates and monitors health care providers' compliance with statutory coverage requirements. Identifies health care providers who appear to be in non-compliance with Pennsylvania's mandatory malpractice insurance requirements, and reports such to the appropriate licensing authority.

The Bureau of Medical Malpractice Administration collects, deposits and analyzes assessments received from licensed or approved insurance companies and approved self-insured entities that are remitted on behalf of health care providers net of any assessment abatements in effect in certain years. From this, a record of Mcare coverage is created for each health care provider. The Bureau coordinates with the Office of Administration's Bureau of Information Technology to manage technology resources in carrying out responsibilities mandated by statute. The Policy Division within the Bureau oversees the noncompliance program which identifies health care providers for whom medical malpractice insurance has not been reported on their behalf to Mcare. Prior to reporting such health care providers to the applicable licensing authority for disciplinary action, notices are sent to health care providers. The Fiscal and Administrative Support Division administers a program to collect Mcare assessment repayments from health care providers who did not fulfill the requirements of the abatement program, as well as experience rated adjustments to assessments for health care providers who have claims histories that subject them to paying Mcare more than the standard assessment amounts.

DIVISION OF MCARE CLAIMS ADMINISTRATION

OFFICE OF CHIEF COUNSEL

The Governor's Office of General Counsel oversees the legal offices for the Commonwealth, including the Department's Office of Chief Counsel. The attorneys in the Office of Chief Counsel, under the direction of the Chief Counsel, provide legal advice to the Commissioner and Department staff. The attorneys, who report to the Chief Counsel, are responsible for providing counsel on general regulatory law; the CHIP program; litigation and administrative hearings; liquidations, rehabilitations and special funds; and the Mcare Fund. Attorneys are assigned to one of three areas: (1) the regulatory/litigation area; (2) the liquidation, rehabilitation and special funds area; or (3) the Mcare Fund.

The regulatory and litigation attorneys handle the interpretation and implementation of the insurance laws of the Commonwealth and application of relevant federal legislation. They also assist in the drafting of

proposed legislation, regulations and policy recommendations. Regulatory and litigation attorneys also prosecute actions to enforce Pennsylvania insurance laws and regulations (including those related to hazardous financial condition) and represent the Department in administrative proceedings. Support is also provided by this area with respect to Act 68 (HMO appeals) and compliance with the Right to Know Act, as well as Department procurements and contracts. The attorneys regularly represent the Department in state and federal courts in cases of original and appellate jurisdiction involving all insurance regulatory issues.

The attorneys in the liquidations, rehabilitations and special funds area represent the Commissioner in his capacity as statutory receiver for domestic insurers placed into rehabilitation or liquidation by Order of the Commonwealth Court. They supervise the legal affairs of insurers in liquidation or rehabilitation, dealing with reinsurance recoveries, commutations and the distribution priority of company assets. Attorneys in this area also supervise the pursuit through forensic investigation and litigation of monetary recoveries from parties legally responsible for the demise of insurers in liquidation or rehabilitation. These attorneys also provide legal counsel to the Underground Storage Tank Indemnification Fund, the Workers' Compensation Security Fund, and the automobile Catastrophic Loss Benefits Fund, including related representation before administrative tribunals as well as the courts.

The Mcare attorneys provide legal advice to the Commissioner and Deputy Commissioner, and the claims staff at Mcare on all legal issues, mediation matters and coverage disputes. The attorneys regularly represent the Department in state and federal courts in cases of original and appellate jurisdiction involving Mcare issues.
