Subject: Highmark merger

Hi,

Another merger and monopoly? Are you serious?

It's not as if the consumer is already getting crushed with everything, and already paying 1/3 of our income just for healthcare costs. Now considering to remove more competition from the marketplace so they can charge more or whatever they want to charge, without any other options for us.

Please don't take away competition and choices for our healthcare insurance that we already can't afford.

Thank You,
George Omick
