OFFICE OF MARKET REGULATION

The Department's market regulation activities are critical to protecting consumer interests. Within the Office of Market Regulation are three Bureaus who work in collaboration to ensure the compliance of fair insurance practices. First, the Bureau of Consumer Services continues to be the "one stop" shop for Pennsylvania's citizens to seek information and submit complaints against insurers and producers. Secondly, the Bureau of Licensing and Enforcement addresses allegations of violations of the insurance laws by licensees and sets the standard for individual entering the insurance market through its licensing programs. This Bureau also plays an important role in combating insurance fraud by working with the insurance industry and law enforcement to identify trends in insurance fraud. Next, the Bureau of Market Actions plays an integral part of the Department's market regulation efforts with its compliance monitoring mission of the insurance industry to ensure consumer protection and this is accomplished through various regulatory responses that may include on-site examinations of insurers. This Bureau also receives industry information that is combined, analyzed and synthesized with other regulatory information to determine problems with carriers or trends in the marketplace. Reporting to the Deputy Insurance Commissioner are:

The Bureau also handles consumer walk-ins, phone calls, emails, and general complaints. Staff also participates in numerous consumer education and outreach programs sponsored by the General Assembly, consumer associations, insurance trade associations and other governmental entities. The Department responds to state or federally declared disasters by providing on-site staffing assistance at Disaster Recovery Centers (DRCs).

This Bureau functions as an integral part of the Department's compliance monitoring mission of the insurance industry by conducting analysis and research of market data as well as performing various types of compliance audits and interactions with insurers.

The Market Conduct Divisions use various types of compliance audit techniques to ascertain consumers are treated fairly and insurers operate in a fair market environment. These audit techniques include on-site market conduct examinations, multistate collaborative examinations, oversight compliance reviews, desktop examinations, industry surveys or studies and company interrogatories or meetings. During the

period July 1, 2011 through June 30, 2012 the Market Conduct Divisions completed 50 examinations and oversight reviews and interacted with another 30 insurers through industry surveys, interrogatories and meetings. A total of $9,992,429 in civil penalties was assessed as a result of market conduct examinations and another $11,130,274 in restitution for consumers was ordered.

The Market Analysis Division is tasked with monitoring the insurance industry through data analysis of market information. Also, the Market Analysis Division is responsible for coordinating the activities and reporting of the Department's Market Regulation Committee (MRC). Through processes known as Baseline, Level 1 and Level 2 analysis, the Market Analysis Division identifies industry trends that could be problematic and further identifies insurers which are outliers to industry norms and trends. During the period July 1, 2011 through June 30, 2012 the Market Analysis Division conducted baseline analysis on 1,500 insurers for eleven different lines of coverage (auto, home, life, etc...). Baseline analysis monitors things such as changes in premium, loss ratios, complaints ratios, etc... From baseline analysis, 63 companies were identified as outliers and had more in depth, Level 1 analysis performed. Level 1 analysis validates what was found through Baseline analysis plus it provides more details on company demographics, Market Conduct Annual Statement results, and actions taken by other states. Findings from Level 1 analysis were reported to the MRC through a series of meetings which took place during the reporting period and as a result, the Market Analysis Division was tasked by the MRC with interacting with 30 different insurers using various regulatory tools available to regulators. These interactions included written interrogatories, phone interviews, face-to-face meetings and studies. Additionally, at the direction of the MRC, another 20 insurers were referred to the Market Conduct Divisions for examinations.

BUREAU OF LICENSING AND ENFORCEMENT

The Bureau of Licensing and Enforcement is comprised of the Enforcement Division, the Anti-Fraud Compliance Division and the Licensing Compliance Division and the Licensing Services Division. This Bureau functions as an integral component of the Department's consumer protection and market place regulatory mission.

The Licensing Division develops the processes and protocols for licensing of insurance producers, public adjusters, public adjuster solicitors, surplus line agents, motor vehicle physical damage appraisers, viatical settlement brokers and professional bondsmen in the Commonwealth. The Department licenses more than 220,000 individuals in Pennsylvania to conduct the business of insurance with the general public. In a given year more than 30,000 new applications and over 900,000 insurance company appointments and terminations are processed. Additionally, the Bureau reviews and renews over 95,000 licenses annually and monitors compliance with the mandatory continuing education requirements for individual licensees as well as reporting requirements for both individuals and business entities in accordance with statutory timeframes. The Licensing Division depends heavily on the use of technology to meet the expectations of service by the regulated community.

The Enforcement Division investigates licensees suspected of violating Pennsylvania insurance statutes and regulations. In fiscal year 2011-2012, the Enforcement Division executed 101 Consent Orders and Settlement Agreements, 60 Warning Letters for minor infractions and 73 individuals surrendered their licenses or had their licenses revoked as a result of violating insurance laws. In addition, the Division imposed $133,000 in civil penalties and assessed $2,184,184 in restitution to Pennsylvania consumers.

The Anti-Fraud Compliance Division, operating through a grant of the Pennsylvania Insurance Fraud Prevention Authority, reviews insurer fraud control programs to determine insurer compliance with law, performs analysis of fraud and fraud-related issues to assist Pennsylvania anti-fraud strategy and policymaking, functions as Department liaison with federal and state agencies on insurance fraud, and through educational initiatives, increases public awareness that insurance fraud harms Pennsylvania consumers through higher insurance costs.
