The Company is aware that accident and health rates and forms may be disapproved, or otherwise give rise to remedies or sanctions, if they fail to comply with applicable law or regulations. *See, e.g.*, 40 P.S. § 3801.304(b).

AND further certifies, as to the below-referenced policy form, along with any related rate filing, that:

1. Rates and Forms Generally

It is/they are drafted to be in compliance with the requirements of the Patient Protection and Affordable Care Act, P.L. 111-148, 124 Stat. 119, and the Health Care and Education Reconciliation Act of 2010, P.L. 111-152, 124 Stat. 1051, together and as modified referred to as the ACA, and the regulations and federal guidance promulgated thereunder.

The Compliance Checklist submitted with the policy form is true, correct and complete.

2. Mental Health and Substance Use Disorder Coverage Parity

It is/they are drafted to be in compliance with the Mental Health Parity and Addiction Equity Act of 2008 (MHPAEA), as amended by the ACA, including the financial requirements (FR), quantitative treatment limitations (QTLs), and non-quantitative treatment limitations (NQTLs) on Mental Health or Substance Use Disorder Coverage (MH/SUD).

It is/they are drafted so that each FR, QTL, and NQTL applicable to MH/SUD benefits, as written and as to be applied, is in parity with medical/surgical benefits in the same classification, and that such parity is demonstrated by a documented and comprehensive analysis showing that:

Each FR or QTL applied to MH/SUD benefits in any classification is not more restrictive than the predominant FR or QTL of that type applied to substantially all medical/surgical benefits in the same classification, where: an FR or QTL is considered to apply to “substantially all” medical/surgical benefits in a classification if it applies to at least two-thirds of the benefits in the classification; and, if the FR or QTL applies to substantially all medical/surgical benefits in a classification, the predominant level of the FR or QTL is the level that applies to more than one-half of the medical/surgical benefits in the classification subject to the FR or QTL.

As to each NQTL applied to MH/SUD benefits in any classification, under the terms of the policy as written and to be in operation, any processes, strategies, evidentiary standards, or other factors used in applying the NQTL to MH/SUD benefits in the classification are comparable to, and are intended to be applied no more stringently than, the processes, strategies, evidentiary standards, or other factors used in applying the NQTL to medical/surgical benefits in the classification.
