The insurer expects its annual medical costs to increase 6.7%.

Explanation of Requested Rate Change:

The proposed increases are being driven by rising medical care costs, which are expected to continue through the remainder of 2023 and throughout 2024 because of both higher utilization and the increasing cost of healthcare services.

¹ Note that insurers will have the opportunity to revise their rate change request in July, after they are scheduled to receive updated information about the impact of a federal program called risk adjustment. This document will be updated accordingly at that time.
