Factors such as cost of care, taxes, utilization of health services, proposed changes in benefits, anticipated changes in morbidity in relation to the single risk pool, changes to the parameters of the Section 1332 Waiver, and updated expectations regarding the impacts of COVID-19 in the rating period all contribute to the 2024 rate change.

<sup>1</sup> Note that insurers will have the opportunity to revise their rate change request in July, after they are scheduled to receive updated information about the impact of a federal program called risk adjustment. This document will be updated accordingly at that time.
