Ms. Johanna Fabian-Marks, Special Deputy & Acting Director Commonwealth of Pennsylvania Insurance Department Bureau of Life, Accident & Health Insurance 1311 Strawberry Square Harrisburg, PA 17120

Re: First Priority Health 2018 ACA Rate Filing (Individual Market) Filing # 1A-DP-17-FPH (SERFF # HGHM-131020597)

This constitutes Notice pursuant to Section 707 of the Pennsylvania Right-to-Know Law that the attached First Priority Health (FPH) 2018 Individual Market Rate Filing contains Trade Secret and Confidential Proprietary Information. Therefore, FPH must, prior to the release of any portion of this Filing, be notified of any request by a third party for access to this Filing, and the Trade Secret and/or Confidential Proprietary Information identified by FPH should be redacted before release.

Dear Ms. Fabian-Marks:

This Filing update removes the impact of the proposed Pennsylvania premium tax expansion from the original filing and includes the revised First Priority Health ("FPH", "Company") Individual Market rates and the supporting rate development for policies with effective dates on or after January 1, 2018.

In the event the Department decides to publish this Filing in the PA Bulletin, the company information requested in the Department's 2018 ACA-Compliant Health Insurance Rate Filing Guidance, Section B, is provided below:

Requested Company Information

- 1. Company Name & NAIC #: First Priority Health, NAIC # 96601
- 2. Market: Individual
- 3. On or Off Exchange: This filing reflects that FPH anticipates selling plans on and off of the exchange.
- 4. Effective date of coverage: January 1, 2018

Ms. Johanna Fabian-Marks, Special Deputy & Acting Director FPH 2018 Individual Market Rates June 23, 2017 Page 2 of 4

5. Average rate change requested: **8.7% increase**

6. Range of rate change requested: 5.1% to 13.0% increase

7. Product(s): **HMO**

8. Rating Areas and the change from 2017: Rating Area 3

There are no changes in our covered Rating Areas from the 2017 rate filing.

- 9. Metal Levels and Catastrophic Plans: This filing reflects that the Company anticipates selling the following Metal Levels in the indicated Market: **Gold, Silver, Bronze, and Catastrophic**
- 10. Current number of covered lives and of policyholders as of February 1, 2017: **23,251** covered lives; **16,223** policyholders
- 11. Number of plans offered in 2018 and the change this represents from 2017: 10

The Company offered 8 plans in 2017. For 2018, the Company is offering 4 new plans in the Market and removing 2 plans from the Market.

Please note that inclusion of premium rates in this filing for a given offering should not be construed to mean that the offering will ultimately be made available for sale in the Market. Final offering decisions will be made consistent with and within the timelines set forth in CMS rules and/or ACA regulations.

12. Corresponding contract form #, SERFF and Binder ID#s: The corresponding SERFF binder number is HGHM-PA18-125072219 affecting the following Company products and forms:

Product Name / Type	Contract Form & SERFF#
my Priority Blue Flex HMO	FP-1-I-MPBF-HMO-01-1/1/18; HGHM-131033297
my Priority Blue Flex HMO QHD	FP-1-I-MPBF-HMO-QHD-01-1/1/18; HGHM-131033326
my Lehigh Valley Flex Blue HMO	FP-1-I-LVFB-HMO-1/1/18; HGHM-131033358
my Priority Blue Major Events HMO	FP-1-I-MEB-HMO-01-1/1/18; HGHM-131033446

13. HIOS Issuer ID # and submission tracking number: **HIOS Issuer ID #83731, Company Filing #1A-DP-17-FPH (SERFF Filing # HGHM-131020597)**

Additional Filing Disclosures

The Company has submitted all Required Documents stipulated by the Department, including the federal documents related to this filing, in its SERFF submission. In addition to the Required

Ms. Johanna Fabian-Marks, Special Deputy & Acting Director FPH 2018 Individual Market Rates June 23, 2017 Page 3 of 4

Documents, the Company has submitted a Supplemental Exhibits file containing additional detailed exhibits on items referenced in the PA Actuarial Memorandum. All tables, exhibits, and detail in support of this filing and the PA Actuarial Memorandum have been included in Excel format. To assist in the Department's review, the Excel files have retained their formulas to the extent possible.

CMS has instructed issuers that it no longer requires any interim changes to the URRT to be submitted to HIOS. CMS is requesting that only the initial URRT and the final URRT be submitted to HIOS.

Potential Changes to Federal Regulations

In accordance with the filing instructions specified by the Pennsylvania Insurance Department, the rate development in this filing is based on certain assumptions we have had to make at this point in time. Most notably, these assumption include that CSR payments and advance payment of premium credits (APTCs) will continue until the end of 2018, there will be no significant changes in legislation, regulations or otherwise (i.e. rules, regulatory guidance, etc.) impacting the ACA market, and all Pennsylvania QHP issuers currently participating on the Marketplace will continue to do so throughout 2018. In addition, there are other uncertainties that may directly or indirectly affect an already unstable insurance market and ultimately, rates. One of these uncertainties includes the prospective enforcement of the ACA individual mandate. If any of these assumptions are ultimately incorrect or additional developments occur that similarly have a detrimental impact to the market, modifications to the rate development may be necessary. As a result, FPH reserves the right to submit a revised filing.

Request for Confidentiality

Please note that the rates and the supporting rate development contained in this Filing are competitively sensitive, are not in the public domain, and constitute business confidential proprietary/trade secret information that would cause harm to the competitive position of FPH if disclosed to the public.

Public disclosure of any information contained in this Filing would allow FPH competitors to better understand or discover its confidential and proprietary rating, pricing and/or marketing practices, would undermine competition in the Individual market and could have negative consequences for the operation of FPH's business. Therefore, FPH asserts that this Filing, in its entirety, constitutes Trade Secret and Confidential Proprietary Information and should not be disclosed.

It is our understanding that the Department does not intend to publish the confidential & proprietary information contained in this Filing or to otherwise permit this Filing and its confidential information, other than the redacted information and final approved rates, to be disclosed or released.

Ms. Johanna Fabian-Marks, Special Deputy & Acting Director FPH 2018 Individual Market Rates June 23, 2017 Page 4 of 4

Furthermore and pursuant to the Pennsylvania Right-to-Know Law ("RTKL"), FPH must be notified prior to release of information contained in this Filing and be given the opportunity to respond to requests for such information. Should the Department receive such request or require the release of information contained in this Filing for its own purposes, FPH asserts its right to release a redacted version of the Filing. In accordance with the RTKL, please contact the FPH RTKL representative identified below prior to release of any information contained in this Filing:

Lisa Martinelli, Esq. RTKL Representative VP Chief Privacy Officer Highmark Health 120 Fifth Avenue, Suite 2114 Pittsburgh, PA 15222

Furthermore, it should be noted that FPH is equally concerned that even if this information is released in aggregate form, it still may be easy to identify the carrier that submitted it.

Should you have any questions regarding the attached Filing, please feel free to contact me at (717) 302-2143 or via e-mail at: jeffrey.scheib@highmark.com.

Sincerely,

Jeffrey Scheib, ASA, MAAA Vice President, Actuarial Services

Highmark Inc.

First Priority Health - Individual Plans

Rate request filing ID # 1A-DP-17-FPH; SERFF # HGHM-131020597 - This document is prepared by the insurance company submitting the rate filing as a consumer tool to help explain the rate filing. It is not intended to describe or include all factors or information considered in the review process. For more information, see the filing at http://www.insurance.pa.gov/Consumers/ACARelatedFilings/

Overview

Initial requested average rate change: $8.7\%^1$ Revised requested average rate change: N/A^1

Range of requested rate change: 5.1% to 13.0% Effective date: January 1, 2018

People impacted: 23,251

Available in: Rating Area 3

Key information

Jan. 2016-Dec. 2016 financial experience

Premiums	N/A
Claims	N/A
Administrative expenses	N/A
Taxes & fees	N/A
Company made (after taxes)	N/A

How it plans to spend your premium

This is how the insurance company plans to spend the premium it collects in 2018:

86%
8%
6%
0%

The company expects its annual medical costs to increase 12.9%.

Explanation of requested rate change

These premium rates are being set at a level that is required to adequately cover rising costs, primarily due to increasing medical and pharmacy services in the Individual market and the re-introduction of the federal insurer fee.

¹ Note that insurers will have the opportunity to revise their rate change request in July, after they are scheduled to receive updated information about the impact of a federal program called risk adjustment. This document will be updated accordingly at that time.

Actuarial Memorandum

1. Basic Information and Data

A. Company Information

The appropriate company information has been provided in Table 0.

B. Rate History and Proposed Variations in Rate Changes

The three most recent rate changes in Pennsylvania for First Priority Health (FPH) are as follows:

Year	Avg. Increase	SERFF ID#
2017	Initial Filing	HGHM-130536973
2016	N/A	N/A
2015	N/A	N/A

The proposed 2018 increase varies by product. This is due to updates to cost sharing levels to meet federal AV requirements as well as updates in the pricing AV and benefit richness factors. The plan level increases can be found in Table 10.

C. Average Rate Change

The average rate changes as presented in the filing are:

- Table 10: 8.7%Table 11: 9.0%
- URRT Worksheet 1 Cell V45: Not Applicable since FPH did not offer plans in 2016
- URRT Worksheet 1 Cell V46: Not Applicable since FPH did not offer plans in 2016

Table 10 calculates the percentage change in the member weighted average rate for 2017 and the member weighted average rate for 2018. Table 11 calculates the percentage increase for each plan and then member weights the percentage increases. These two methods produce slightly different results. FPH feels that the best representation of the rate increase is the value from Table 10.

In accordance with the filing instructions specified by the Pennsylvania Insurance Department, the rate development in this filing is based on certain assumptions we have had to make at this point in time. Most notably, these assumption include that CSR payments and advance payment of premium credits (APTCs) will continue until the end of 2018, there will be no significant changes in legislation, regulations or otherwise (i.e. rules, regulatory guidance, etc.) impacting the ACA market, and all Pennsylvania QHP issuers currently participating on the Marketplace will continue to do so throughout 2018. In addition, there are other uncertainties that may directly or indirectly affect an already unstable insurance market and ultimately, rates. One of these uncertainties includes the prospective enforcement of the ACA individual mandate. If any of these assumptions are ultimately incorrect or additional

developments occur that similarly have a detrimental impact to the market, modifications to the rate development may be necessary. As a result, FPH reserves the right to submit a revised filing.

D. Membership Count

Please see Table 1 for the average age, age breakdown, and total membership for the periods shown.

E. Benefit/Cost Sharing Changes

The majority of FPH's 2018 plan offering consists of renewal plans with benefit adjustments due to the revised Federal AV calculator.

The screenshots from the HHS AV calculator, showing the plan benefits and the resulting actuarial value, are in Attachment E. Also, the PA Plan Design Summary and Rate Tables with the HIOS Plan IDs are submitted in the SERFF Rate/Rule Schedule Tab.

F. Experience Period Claims and Premium

There are no Calendar Year 2016 experience period ACA claims for FPH.

G. Credibility of Data

FPH did not offer any products in 2016. The 2018 rates are based on the 2016 experience of First Priority Life Insurance Company (FPLIC) and adjusted for the expected FPH population. This experience is chosen because it is large and reasonably represents the population expected to buy FPH products.

Table 2b is populated with the FPLIC data as follows:

- The Earned Premium represents actual revenues earned in the experience period.
- Incurred Claims represent claims paid net of expected CSR recoveries. Note that the URRT includes capitated services and is net of Rx Rebates. Those values are not included here as they are listed as separate items.
- The Allowed Claims represent our best estimate of the total claims prior to member cost sharing incurred during the experience period. The Allowed Claims include:
 - One month of run out from the end of the experience period,
 - Claims processed outside of the Company's claims system (e.g., claim settlement costs),
 and
 - o Our best estimate of claims incurred but not paid as of the end of the run out period.

Note that allowed claims in the URRT include capitation and are net of drug rebates. They are not included here as they are called out separately in the exhibit.

- Allowed Charges for non EHB services are included in column G. The amount of non EHB included is shown in column H.
- Prescription Drug Rebates are used to reduce the level of Incurred Claims in the experience period.
- Total EHB capitation includes amounts for the pediatric vision benefit (\$0.34).
- The Estimated Risk Adjustment for the experience period represents our best estimate of the year end risk adjustment transfer payment that FPLIC will incur. This amount is developed based on

an analysis of FPLIC data (risk scores as defined in the HHS Notice of Benefit and Payment Parameters, as well as other risk transfer formula components), and an estimate as to the Marketwide risk transfer component profile. This Market-wide profile is developed from available Market data, including prior years' risk adjustment transfer results, publicly available data (such as MLR reports), and outside expertise from actuarial consultants.

Estimated Reinsurance Recoveries reflect what FPLIC expects to receive for the experience period.
 FPLIC is assuming a \$90,000 attachment point and 40% coinsurance up to \$250,000. The coinsurance value is different than the current CMS regulations due to uncertainty surrounding how CMS will treat treasury payments.

H. Trend Identification

Table 3b identifies the annual medical and prescription drug allowed claims cost and utilization trends. The underlying total annual trend is 11.0%. Additionally, there is an induced utilization adjustment of 1.73% per year applied to reach the overall trend of 12.91% shown in Table 3b column G. The definitions of service categories, cost, and utilization in Table 3b are consistent with the URRT instructions. The numbers entered in the Cost and Utilization columns are consistent with those entered in Worksheet I, Section 2 of the URRT, except as noted below.

The cost trends presented in Table 3b reflect FPH's expectations regarding increases in in-network contractual reimbursement, as well as projected out-of-network costs. These estimates measure and normalize for benefit leverage, population aging, and historical changes for fee schedules, as well as company-wide utilization management programs, and external trend drivers.

The trend components represent a blended average for all types of service and are applied to the aggregate experience for pricing, and as such Table 3b shows the same trend components for each service category. Due to the significant change in the make-up of the ACA population in the first two years, the data included in Table 4b was not used in the development of the trend. A separate regression study was developed by the FPH valuation team that analyzed the ACA trend levels of cohorts of ACA members that were continuously enrolled in a significant portion of both 2015 and 2016. The analysis took into consideration seasonality and removed outlier months. The resulting trend was compared to the group business and any industry available ACA data.

I. Historical Experience

Table 4 is not applicable since FPH did not offer products during the 2014 to 2016 time period. Table 4b presents the most recent 36 months (3 calendar years) of FPLIC data with run-out through January 2017. This date was not used to develop the trend in Table 3b. Please see Section H for further details.

2. Rate Development & Change

A. Development of Projected Index Rate, Market-Adjusted Index Rate, & Total Allowed Claims

The development of the Projected Index Rate, Projected Market-Adjusted Index Rate, and Projected Total Allowed Claims, shown in Table 5, closely follows that utilized in the development presented in Worksheet 1 of the URRT, a discussion of which can be found in the Part III Actuarial Memorandum submitted in the Rate Filing Justification. Some of the items separately identified in Table 5 include:

- The Change in Demographics adjustment reflects the change in age and geography factors we expect from the experience period to the projection period.
- The Change in Network adjustment reflects the change in the allowed claims we anticipate due to network contracting changes between the experience period and the projection period.
- There is no explicit Change in Benefits adjustment.
- The Change in Other adjustment reflects improved contracting with our pharmacy benefits provider.

Please see Attachment A for a more detailed calculation of these factors. These factors can also be found in the accompanying spreadsheet.

The -\$36.62 Risk Adjustment assumption in cell C31 represents our best estimate of the year end risk adjustment transfer payment that FPH will incur. This amount is developed based on an analysis of FPH/FPLIC data (risk scores as defined in the HHS Notice of Benefit and Payment Parameters, as well as other risk transfer formula components), and an estimate as to the Market-wide risk transfer component profile. This Market-wide profile is developed from available Market data, including prior years' risk adjustment transfer results, publicly available data (such as MLR reports), and outside expertise from actuarial consultants.

The -\$36.62 PMPM projected risk adjustment assumption is comprised of an expected risk transfer payable of \$36.48 PMPM, less the \$0.14 PMPM risk adjustment user fee. The development of the -\$36.48 PMPM is shown in Attachment B as well as the attached spreadsheet. Since FPH is offering catastrophic metal level plans and these plans are pooled separately for the purpose of risk adjustment transfers, we developed both catastrophic and non-catastrophic risk transfer assumptions for 2018. These assumptions were then blended together using the projected enrollment by pool to arrive at a single assumption to use for pricing. Our expected payable of \$36.62 reflects that we anticipate FPH's average risk score (net of allowable rating factors) to be lower than the statewide average.

The exchange user fee in cell C32 is developed by taking the required user fee percentage of 3.5% and multiplying by the percentage of total members in expected to be on exchange of 80.0%. This results in a percentage of 2.8%. The PMPM of \$17.38 is calculated as 2.8% of the total required premium in cell C63.

B. Retention Items

Table 6 has been completed with the requested retention elements for the proposed rates for the rating period. The amounts presented separately sum to the total administrative expenses and taxes and fees presented in the rate development. Administrative costs reflect internal costs that the FPH is projected to incur in the projected experience period, and are developed from standard expense allocation methods. Agent/broker fees and commissions reflect our anticipated costs for these items in the experience period.

Note the following regarding plan level retention items:

- The Profit/Contingency for all plans is set to 0%.
- The Health Insurance Provider Fee of 3.4%
- The administrative expenses do not vary by plan
- 0% Pennsylvania Premium Tax was included
- The \$0.21 PMPM PCORI fee was factored into the administrative expense percentage of premium.
- Expenses for Quality Improvement Initiatives are 0.30%.

FPH has voluntarily refrained from adding a risk and contingency factor in this filing. By this voluntary restraint, FPH is not waving any right to include a risk and contingency factor which FPH believes is consistent with historical and legal interpretations of FPH and the Pennsylvania Insurance Department.

The proposed rate development assumes an average broker commission of \$0 for 2018. A schedule of the current broker commission amounts is included in Attachment D.

C. Normalized Market-Adjusted Projected Allowed Total Claims

The normalization factors presented in Table 7 are each determined from the underlying membership demographics expected in the projected rating period. The 2017 values are pulled from the prior year's filing, while the 2018 values represent our projection for 2018 assumed in the 2018 rate development.

D. Components of Rate Change

Table 8 presents the components of change in the proposed 2018 Calibrated Plan Adjusted Index Rate (PMPM). Cell C72 is populated with the base period allowed charges found in the 2017 plan year rate filing. The difference between Row H and Row A is insignificant and may be caused by rounding error.

Table 9 presents the data elements supporting the calculations in Table 8. Note the following differences between the Table 9 values presented for 2017 and the values from the 2017 URRT:

Taxes and Fees shown in Table 9 differ from the Taxes and Fees from the URRT as Table 9 separates out the Exchange User Fee into a separate line item. In the URRT the Exchange User Fee is included in the Taxes and Fees line item.

The 2017 values are populated using the 2017 filed factors adjusted for the membership mix as of February 1, 2017.

3. Plan Rate Development

Table 10 shows the plan rate development for 2018. This table shows the plans that FPH intends to offer in 2018, as well as all plans offered in 2017 portfolio. The calibrated plan adjusted index rates for 2017 are calculated according to the instructions. The 2018 rating factors are consistent with the factors found in Exhibit II of the Part III URRT memorandum with the pricing effect further broken out into pricing AV and benefit richness. Additionally, the tobacco surcharge factor is broken out in Table 10 as requested. This surcharge factor is included as part of calibration in the URRT. Admin effect is broken into admin costs, taxes and fees, and profit or contingency.

The benefit richness factors in column L are populated with the factors found in Attachment C. The table in Attachment C can also be found in the attached spreadsheet. The derivation of the AV and Cost Sharing factors can also be found in Attachment C. Please note that the attachment includes the tobacco factor in the AV and Cost Sharing Factor as requested. This will make the values inconsistent with those found in the URRT as the URRT treats tobacco as a calibration factor. The values in column 9 of the attachment represent the pure induced utilization for each plan. FPH's utilization factors are consistent with those used in the Federal Risk Adjustment program. Each plan's factor was then normalized by the average utilization factor. The average is a weighted average using projected membership as the weight. After normalization the average factor as shown in Attachment C is 1.000.

Note that the HHS Actuarial Value Calculator was unable to accommodate all of FPH's benefit designs. Plans needing certification are marked in column I of Table 10. Screen shots of all of the AV calculations and the appropriate certifications are included in Attachment E.

For discontinuing plans where members are being mapped into a new plan, an effective rate increase is calculated by comparing the 2017 rate of the discontinuing plan to the 2018 rate of the plan the members are being mapped to.

Columns AG through AQ are populated with the February 1, 2017 enrollment by 2018 plan and rating area.

4. Plan Premium Development for 21-Year-Old Non-Tobacco User

Table 11 presents FPH's 21-year-old non-tobacco premium in the Individual Market. As mentioned in Section 1.C above, the change in 21-year-old non-tobacco premium PMPM calculated in this table is 9.0% which is not consistent with the SERFF Rate Review Detail Screen "percent rate change requested" for the reasons cited above.

5. Plan Factors

A. Age and Tobacco Factors

Please see Table 12 for FPH's age and tobacco factors.

B. Geographic Factors

Please see Table 13 for FPH's geographic factors. FPH's factors for the rating period are unchanged from the currently approved factors.

C. Network Factors

Please see Table 14 for FPH's network rating factors.

D. Service Area Composition

FPH's offerings are split into multiple service areas. The Plan Design Summary exhibit uploaded as a separate document contains the service areas related to this filing. As requested, service area maps are included.

6. Actuarial Certifications

am a member of the American Academy of Actuaries and meet its qualification standards for actuaries issuing statements of actuarial opinions in the United States. This filing is prepared on behalf of FPH to accompany its rate filing (for calendar year 2018) for the Individual Market on and off the Pennsylvania Exchange.

I hereby certify that the projected index rate is, to the best of my knowledge and understanding:

- In compliance with all applicable State and Federal Statutes and Regulations (45 CFR 156.80(d)(1) and 147.102),
- Developed in compliance with the applicable Actuarial Standards of Practice
- Reasonable in relation to the benefits provided and the population anticipated to be covered
- Neither excessive nor deficient.

I certify that the index rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2) were used to generate plan level rates. The allowable modifiers used to generate plan-level rates were:

- The actuarial value and cost-sharing design of the plan.
- The plan's provider network, delivery system characteristics, and utilization management practices.
- The benefits provided under the plan that are in addition to the essential health benefits. These
 estimated benefits were pooled with similar benefits within the single risk pool and the claims
 experience from those benefits was utilized to determine rate variations.
- Administrative costs, excluding Exchange user fees.

I certify that all factors, benefit and other changes from the prior approved filing have been disclosed in the 2018 PA Actuarial Memorandum Rate Exhibits. I certify that the benefits included in FPH's plans are substantially equivalent to the Essential Health Benefits (EHBs) in the State of Pennsylvania's benchmark plans. I certify that any benefit substitutions are:

- Actuarially equivalent to the benefits being replaced,
- Are made within only the same essential health benefit category,
- Are based on a standardized plan population,
- Are determined regardless of cost-sharing,
- Are not prescription drug benefits, and
- Are based on an analysis performed in accordance with generally accepted actuarial principles and methodologies.

I certify that new plans are not considered modifications of existing plans (per the uniform modification standards in 45 CFR 147.106).

I certify that the AV Metal Values included in Table 10 were based entirely on the Federal AV Calculator or one of the approved alternative approaches.

I certify that the geographic rating factors reflect only differences in the costs of delivery (which can include unit cost and provider practice pattern differences) and do not include differences for population morbidity by geographic area.

I certify that the information presented in the PA Actuarial Memorandum and PA Actuarial Memorandum Rate Exhibits is consistent with the information presented in the 2018 Part II Rate Filing Justification.

ACTUARIAL MEMORANDUM

First Priority Health

Individual Rate Filing - January 1, 2018

In a manufacture of the American Academy of Actuaries and meet its qualification standards for preparing individual rate filings. As a consulting actuary, I was requested by First Priority Health ("FPH") to review the development of the market-wide base rate for the individual market on and off the Pennsylvania Exchange. The confidential material presented in this filing was prepared for the specific purpose of submitting the rating formula for the Pennsylvania Insurance Department and may not be appropriate for other purposes. This filing represents premium rates for individuals sold or renewed effective January 1, 2018. The rates are guaranteed until December 31, 2018.

To the best of my knowledge and judgment, the following are true with respect to this filing:

- 1. Premium rates are established in accordance with generally accepted actuarial principles and the applicable Actuarial Standards of Practice. They are not excessive, inadequate, or unfairly discriminatory. Rates are reasonable in relationship to the benefits provided. However, it is certain that actual experience will not conform exactly to the assumptions used in this analysis. To the extent that actual experience is different from the assumptions used in developing the rates, the actual results will also deviate from the projected amounts.
- 2. In compliance with all applicable Pennsylvania and Federal Statutes and Regulations (45 CFR 156.80(d)(1)).
- 3. The rating factors and rating methodology are reasonable and consistent with FPH's business plan at the time of the filing.

Fellow, Society of Actuaries Member, American Academy of Actuaries June 22, 2017

Part II of the Preliminary Justification

First Priority Health - Individual Market

Scope and Range:

First Priority Health (FPH) is requesting an average rate increase of 8.2% ranging from 5.1% to 13.0% for the 2018 ACA-qualifying individual products with effective dates from January 1, 2018 to December 31, 2018. This is projected to affect 16,772 members.

These premium rates are being set at a level that is required to adequately cover rising costs, primarily due to increasing medical and pharmacy services in the Individual market and the reintroduction of the federal insurer fee.

Historical Financial Experience:

FPH did not have ACA financial experience in 2016.

Change in Medical Service Costs:

The projected average cost of medical care for the projected population is expected to increase. The increase will emerge in utilization and average cost per service, and is spread across all types of services.

Change in Benefits and Cost Sharing:

Some cost sharing parameters were changed in order to maintain compliance with Federal AV requirements. Additionally, some out of pocket maximum parameters were changed to keep up with the rising cost of health care. These out of pocket maximum changes also aided in mitigating the rate increase.

Administrative Costs and Anticipated Operating Results:

Overall, administrative costs as a percentage of premium is less in 2018 than 2017. The anticipated operating results are not excessive or unreasonable. In accordance with regulations, the projected medical loss ratio is over 80%.

Part III Actuarial Memorandum

First Priority Health

Individual Rate Filing

Effective January 1, 2018

Actuarial Services 06/23/2017

I. General Information

Document Overview

This document contains the Part III Actuarial Memorandum for First Priority Health's (FPH) individual block of business rate filing, for products with an effective date of January 1, 2018. This actuarial memorandum is submitted in conjunction with the Part I Unified Rate Review Template.

The purpose of the actuarial memorandum is to provide certain information related to the submission, including support for the values entered into the Part I Unified Rate Review Template, which supports compliance with the market rating rules and reasonableness of applicable rate increases. This information may not be appropriate for other purposes.

This information is intended for use by the Pennsylvania Insurance Department, the Center for Consumer Information and Insurance Oversight (CCIIO), and their subcontractors to assist in the review of FPH's rate filing. However, we recognize that this certification may become a public document. FPH makes no representations or warranties regarding the contents of this letter to third parties. Likewise, third parties are instructed that they are to place no reliance upon this actuarial memorandum that would result in the creation of any duty or liability under any theory of law by FPH.

The results are actuarial projections. Actual experience is likely to differ for a number of reasons, including population changes, claims experience, and random deviations from assumptions.

I.1 Company Identifying Information:

- Company Legal Name: First Priority Health,
- State: The Commonwealth of Pennsylvania has regulatory authority over these policies.
- HIOS Issuer ID: 83731
- Market: Individual
- Effective Date: January 1, 2018

I.2 Company Contact Information:

- Primary Contact Name:
- Primary Contact Telephone Number:
- Primary Contact Email Address;

II. Proposed Rate Increase(s)

For all rate increases by plan see the 'Cum'tive Rate Change % (over 12 mos prior)' found in Worksheet 2 Row 27 of the URRT. The rate increase varies by plan due to an update in several of our pricing factors and changes in cost sharing required to meet Actuarial Value and other cost sharing restrictions under the Affordable Care Act as well as mappings between discontinued and new plans.

The primary drivers of the rate increase are increasing medical and pharmacy services in the Individual market and the re-introduction of the federal insurer fee.

In accordance with the filing instructions specified by the Pennsylvania Insurance Department, the rate development in this filing is based on certain assumptions we have had to make at this point in time. Most notably, these assumption include that CSR payments and advance payment of premium credits (APTCs) will continue until the end of 2018, there will be no significant changes in legislation, regulations or otherwise (i.e. rules, regulatory guidance, etc.) impacting the ACA market, and all Pennsylvania QHP issuers currently participating on the Marketplace will continue to do so throughout 2018. In addition, there are other uncertainties that may directly or indirectly affect an already unstable insurance market and ultimately, rates. One of these uncertainties includes the prospective enforcement of the ACA individual mandate. If any of these assumptions are ultimately incorrect or additional developments occur that similarly have a detrimental impact to the market, modifications to the rate development may be necessary. As a result, FPH reserves the right to submit a revised filing.

III. Experience Period Premium and Claims

III.1 Paid through Date:

There are no calendar year 2016 experience period ACA claims for FPH.

III.2 Premiums (net of MLR Rebate) in Experience Period:

There are no calendar year 2016 experience period ACA premiums for FPH.

III.3 Allowed and Paid Claims Incurred During the Experience Period:

There are no calendar year 2016 experience period ACA claims for FPH.

IV. Benefit Categories

The data provided in this section closely adheres to the preferred definitions of the Benefit Categories included in the URRT instructions, including the "Other Medical" category. The "Other Medical" category units reflect visits for PDN/home health, trips for ambulance and procedures for DME/prosthetics. Prescription drugs utilization were converted to a "per 30-day" script count.

V. Projection Factors

Not applicable, as FPH did not have experience in the experience period. See explanation of projection factors for manual rates below.

VI. Credibility Manual Rate Development

VI. 1 Source and Appropriateness of Experience Data Used

The 2016 claims experience from First Priority Life Insurance Company (FPLIC) was used as the basis for the 2018 FPH manual rate. The FPLIC individual experience is fully credible.

VI. 2 Adjustments Made to the Data

Trend

This development of the CY2018 rates reflects an annual trend rate of 11.0% (5% cost, 5.7% utilization). These trends reflect FPH's expectations regarding increases in innetwork contractual reimbursement. The annual trend estimates include the impact of trends in both projected in-network and out-of-network costs. These estimates measure and normalize for benefit leverage, population aging, and historical changes for fee schedules, as well as company-wide utilization management programs, and external trend drivers.

The trend represents a blended average for all types of service and is applied to the aggregate experience for pricing. These trends represent assumed community-wide expectations. Claim variations due to the specific projected enrolled population in this single risk pool are reflected in the morbidity adjustment.

FPH has also included an adjustment of 1.73% per year for the anticipated change in utilization due to cost sharing requirements.

• Population Morbidity

We applied an adjustment of approximately 0.3% to reflect the anticipated changes in the average morbidity of the covered population (beyond allowable rating factors). This morbidity adjustment reflects multiple changes including blending of the ACA business with new members from multiple sources including uninsured and the employer markets.

Demographics

We project that the average rating factor (age, tobacco load and area combined) will increase by about 5.8% due to the change in the population. This is primarily due to the expectation that the new members from the group and/or uninsured populations to be slightly older than the population in the underlying experience. This increases the projected allowed claims (utilization) by the same amount.

VII. Credibility of Experience

FPH does not have 2016 ACA claims experience. The rate is 100% manual.

VIII. Paid to Allowed Ratio

The paid to allowed ratio of 0.731 is a weighted average of the 2018 plan level paid to allowed ratios. Plan level paid to allowed factors were developed using an internal model based on FPH individual claims experience.

IX. Risk Adjustment and Reinsurance

IX.1 Projected Risk Adjustments PMPM:

The estimated average risk score for FPH's projected 2018 population was developed by using FPLIC's 2016 claim diagnoses and the risk adjustment coefficients as finalized in the Notice of Benefit and Payment Parameters. Similarly, allowable rating factors, actuarial value factors, and induced demand factors were estimated for FPH based upon its projected 2018 population.

We estimated the statewide average risk transfer factors based on current market assumptions. We estimated the statewide average premium using current market premium assumptions with adjustments for anticipated rate changes for 2018.

The actual calculation of the risk transfer followed the risk transfer methodology as prescribed.

The analysis resulted in FPH paying into the risk adjustment pool. This value is reflected in worksheet 1 net of the risk adjuster fee (\$0.14 PMPM) consistent with the single risk pool regulations

IX.2 Projected ACA Reinsurance Recoveries Net of Reinsurance:

The Federal Reinsurance Program was terminated in 2017 resulting in projected 2018 reinsurance of \$0.

X. Non-Benefit Expenses and Profit & Risk

X.1 Administrative Expense Load:

The proposed rates reflect internal administrative costs including quality improvement administrative expenses. This cost was developed based on standard expense allocation methods.

X.2 Profit (or Contribution to Surplus) & Risk Margin:

FPH has voluntarily refrained from including a risk and contingency factor in this filing. By this voluntary restraint, FPH is not waiving any right to include a risk and contingency factor which FPH believes is consistent with historical and legal interpretations of FPH and the Pennsylvania Insurance Department.

X.3 Taxes and Fees:

The following fees were added:

- \$0.21 Per Member Per Month for the Patient Centered Outcomes Research Fee.
- 3.4% for the Health Insurance Provider Fee
- 3.5% Exchange Fee x 80.0% assumed on exchange percentage (= 2.8% included in the single risk pool base rate)
- 0% Pennsylvania Premium Tax

XI. Projected Loss Ratio

The anticipated medical loss ratio is about 91.8% relative to total premium less taxes and fees. This loss ratio is calculated consistently with the federally prescribed MLR methodology.

XII. Single Risk Pool

As described above, the base experience used includes all FPH individual members in accordance with the Single Risk Pool regulations. The projected membership and their corresponding premiums and claims only include those members who will be enrolled in a fully FPH ACA-compliant plan in 2018.

XIII. Index Rate

Please see Exhibit I for the numerical development of the projected index rate. The index rates as shown on Worksheet 1 of the URRT are simply the average allowed claims for the Essential Health Benefits for the experience and projected populations, respectively, for FPH. For the experience period, only non-grandfathered plans are included. The projection period Index Rate is not adjusted for reinsurance or risk adjustment programs or any other fee.

XIV. Market Adjusted Index Rate

Please see Exhibit I for a numerical demonstration of the Market Adjusted Index Rate development. The Market Adjusted Index Rate is the Index Rate further adjusted for risk adjustment, reinsurance, and the exchange fee. The Risk Adjustment factor is developed by

taking one minus the expected risk transfer (net of the fee) and dividing by the projected incurred claims before reinsurance and risk adjustment. The Federal Reinsurance Program factor is developed by taking one minus the expected reinsurance recovery (net of the reinsurance premium) and dividing by the projected incurred claims, before reinsurance recoveries, net of reinsurance premium. The Exchange User Fee factor is developed by adding the expected average exchange fee PMPM and the projected incurred claims after risk adjuster and reinsurance, then dividing by the projected incurred claims after risk adjuster and reinsurance. These adjustments were developed as factors in accordance with the Part III instructions.

XV. Plan Adjusted Index Rates

A Plan Adjusted Index Rate is developed by taking the Market Adjusted Index Rate and adding a plan's actuarial value, relative benefit richness, relative network, any non EHB benefits, and retention. Please see Exhibit II for the development of the Plan Adjusted Index Rate for each plan.

XVI. Calibration

XVL1 Age Curve Calibration:

The projected weighted average age factor for billable members is 1,850. This factor is calculated by dividing the all members age factor of 1,854 by the ratio of all members to billable members (1,003). Each Plan Adjusted Index Rate represents the rate for an average member with an age factor of 1,850. Please note that no member will pay these rates because the age factor of 1,850 is not found on the HHS Age Curve. It only represents the average age factor of the projected population. The nearest age to that factor is for age 51, which has a factor of 1,865. Please see Exhibit I for the development of the calibration factor.

XVI.2 Geographic Factor Calibration:

The projected weighted average geographic factor is 1.0. Each Plan Adjusted Index Rate represents the rate for an average member with a geographic factor of 1.0. Please see Exhibit I for the development of the calibration factor.

XVI.3 Tobacco Factor Calibration:

The projected weighted average tobacco factor is 1.013. Each Plan Adjusted Index Rate represents the rate for an average member with a tobacco factor of 1.013. Please see Exhibit I for the development of the calibration factor.

XVII. Consumer Adjusted Premium Rate Development

The plan adjusted index rate represents the rate for an average age and average geographic member with a mix of tobacco users and non-tobacco users. Multiplying by the Combined Calibration Factor found in Exhibit I results in the value for a 51 year old non-tobacco user in

a 1.0 geographical area. The standard HHS Age Curve along with the filed tobacco factors and geography factors can be used to calculate any rate found in the QHP rate template.

XVIII. AV Metal Values

The AV Metal Values included in Worksheet 2 of the Part 1 Unified Rate Review Template were based the Federal AV Calculator. Some plans did require an adjustment to the inputs entered into the AV calculator. Screen shots and certifications for these plans were submitted as part of FPH's QHP application.

XIX. AV Pricing Values

Please see Exhibit II for the portion of each AV pricing value that is attributable to each of the allowable modifiers. The utilization due to differences in cost sharing is based on the factors adopted by the risk adjustment methodology. No differences due to health status are in these adjustments.

XX. Membership Projections

Membership projections reflect FPH's expectations for 2018. These projections reflect expected changes in market share due to market competition and changes in FPH's plan offerings.

FPH expects membership in 2018 to follow a similar metal level distribution as the Individual ACA experience period in the markets where plans will continue to be offered.

For the Silver level plans, the projected membership by cost sharing subsidy levels is based on the observed distribution of ACA members that were eligible under the federal poverty levels as determined by the federal health insurance exchange. The projected enrollment by plan and subsidy level is as follows:

FPL	Subsidy Level	% of Silver Membership	% of Total Membership
<150%	94%	18,9%	8.7%
150%-200%	87%	31.4%	14.5%
200%-250%	73%	17.9%	8.3%
>250%	70%	<u>31.8%</u>	14.7%
Total	and a local	100.0%	46.2%

XXI. Terminated Plans and Products

FPH has some plans that were offered only in 2017 (not offered in the experience period or in the projection period.) These plans are shown in Exhibit III. Mappings were performed in a manner consistent with FPH's understanding of the URRT instructions.

XXII. Plan Type

The Plan types listed in Worksheet 2, Section I of the Part I Unified Rate Review Template describe FPH's plans adequately. No differences are needed.

XXIII. Warning Alerts

There were no warning alerts in Worksheet 2.

XXIV. Actuarial Certification

I, am a member of the American Academy of Actuaries and meet its qualification standards for actuaries issuing statements of actuarial opinions in the United States. This filing is prepared to accompany FPH's rate filing for the individual combined market on and off the Pennsylvania Exchange.

I hereby certify that the projected index rate is, to the best of my knowledge and understanding:

- In compliance with all applicable State and Federal Statutes and Regulations (45 CFR 156.80(d)(1) and 147.102),
- Developed in compliance with the applicable Actuarial Standards of Practice
- Reasonable in relation to the benefits provided and the population anticipated to be covered
- Neither excessive nor deficient.

I certify that the index rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2) were used to generate plan level rates. The allowable modifiers used to generate plan-level rates were:

- The actuarial value and cost-sharing design of the plan.
- The plan's provider network, delivery system characteristics, and utilization management practices.
- The benefits provided under the plan that are in addition to the essential health benefits. These estimated benefits were pooled with similar benefits within the single risk pool and the claims experience from those benefits was utilized to determine rate variations.

- Administrative costs, excluding Exchange user fees.
- With respect to catastrophic plans, the expected impact of the specific eligibility categories for those plans.

I certify that the percent of total premium that represents essential health benefits included in Worksheet 2, Sections III and IV were calculated in accordance with actuarial standards of practice.

I certify that the benefits included in FPH's plans are substantially equivalent to the Essential Health Benefits (EHBs) in the Commonwealth of Pennsylvania's benchmark plans. I certify that any benefit substitutions are:

- Actuarially equivalent to the benefits being replaced.
- · Are made within only the same essential health benefit category,
- Are based on a standardized plan population,
- Are determined regardless of cost-sharing,
- Are not prescription drug benefits, and
- Are based on an analysis performed in accordance with generally accepted actuarial principles and methodologies.

I certify that the AV Calculator was used to determine the AV Metal Values shown in Worksheet 2 of the Part 1 Unified Rate Review Template for all plans. The AV Metal Values included in Worksheet 2 of the Part I Unified Rate Review Template were based on the Federal AV Calculator. If any adjustments were required outside of the AV Calculator, appropriate certification has been provided to CMS through the QHP application process.

I certify that the geographic rating reflect only differences in the costs of delivery (which can include unit cost and provider practice pattern differences) and do not include differences for population morbidity by geographic area.

The Part I Unified Rate Review Template does not demonstrate the process used by FPH to develop the rates. Rather, it represents information required by Federal regulation to be provided in support of the review of rate increases, for certification of qualified health plans for Federally facilitated exchanges and for certification that the index rate is developed in accordance with Federal regulation and used consistently and only adjusted by the allowable modifiers.

ACTUARIAL MEMORANDUM

First Priority Health

Individual Rate Filing - January 1, 2018

I, am a member of the American Academy of Actuaries and meet its qualification standards for preparing individual rate filings. As a consulting actuary, I was requested by First Priority Health ("FPH") to review the development of the market-wide base rate for the individual market on and off the Pennsylvania Exchange. The confidential material presented in this filing was prepared for the specific purpose of submitting the rating formula for the Pennsylvania Insurance Department and may not be appropriate for other purposes. This filing represents premium rates for individuals sold or renewed effective January 1, 2018. The rates are guaranteed until December 31, 2018.

To the best of my knowledge and judgment, the following are true with respect to this filing:

- 1. Premium rates are established in accordance with generally accepted actuarial principles and the applicable Actuarial Standards of Practice. They are not excessive, inadequate, or unfairly discriminatory. Rates are reasonable in relationship to the benefits provided. However, it is certain that actual experience will not conform exactly to the assumptions used in this analysis. To the extent that actual experience is different from the assumptions used in developing the rates, the actual results will also deviate from the projected amounts.
- 2. In compliance with all applicable Pennsylvania and Federal Statutes and Regulations (45 CFR 156.80(d)(1)).
- 3. The rating factors and rating methodology are reasonable and consistent with FPH's business plan at the time of the filing.

Fellow, Society of Actuaries Member, American Academy of Actuaries June 22, 2017

TO: Ms. Rashmi Mathur, ASA, MAAA, Actuary

Bureau of Life, Accident & Health Insurance

Pennsylvania Insurance Department

FROM: Actuarial Manager

Highmark Inc.

DATE: June 23, 2017

SUBJECT: First Priority Health 2018 Individual Market Rates

Response to June 16, 2017 Objection Letter

Filing Number: 1A-DP-17-FPH

SERFF Tracking Number: HGHM-131020597

Below are Highmark's responses to your objection letter dated June 16, 2017. We have included the questions along with the responses for your convenience.

- 1. The underlying annual trend supporting the filing is 11.0%, which is further increased by an induced utilization adjustment of 1.73% per year, to develop the overall trend assumption of 12.91% per year.
 - a) Please provide quantitative support for the 11.0% trend assumption (e.g. demonstrate that it is reasonably consistent with recent historical changes in claim costs).
 - b) Please provide quantitative support for the annual induced utilization adjustment of 1.73%.

Responses:

- a) Due to the significant change in the make-up of the ACA population over the past few years, alternative approaches were necessary to develop the trend. A separate regression study was developed that analyzed the ACA trend levels of cohorts of PA ACA members that were continuously enrolled in 2015 and thru 2016 in the same metal level. The analysis took into consideration seasonality in order to determine the regression trend. Resulting r-squared levels were compared to determine confidence levels of the resulting regression trends to develop a reasonable range of trend assumptions. The assumed pricing trend of 11% fell within the range of the regression study. This assumed trend was further compared to the group business and any industry available ACA data for reasonability. The graphs from the regression study are included in the attachment (see worksheet name "PID Response O1a").
- b) Please see worksheet name "PID Response Q1b" for the development.
- 2. The actuarial memorandum states that "the (\$36.62) PMPM projected risk adjustment assumption is comprised of an expected risk transfer payable of \$36.48 PMPM, less the \$0.14 PMPM risk adjustment user fee."
 - a) Please provide the sources for all risk adjustment input values provided in Attachment B.
 - b) In calculating the \$36.48 PMPM expected payable please demonstrate quantitatively how the prescribed 0.86 factor, which is to be applied to statewide average premium for 2018, was incorporated into the risk adjustment calculation.

Responses:

a) The projection of the 2018 risk adjustment transfer component of the rate development utilizes separate projections of the Pennsylvania Individual Market statewide factors and internal Highmark

company factors. We are expecting the Individual ACA market to experience volatility between the experience period and the projection period. This volatility is caused by a changing competitive landscape, overall market contraction, membership churn between carriers, and changes in plan/service area offerings. As such, we have used historical market data, with adjustments where appropriate, and our internal company data to develop the risk adjustment transfer components used in the rate development.

The data sources for the market components include the PA Insurance Department's calculation of 2016 risk adjustment transfer amounts using the 5/1/2017 RATEE files and the PA Insurance Department's Q1 2017 Enrollment by Metal Level survey. These sources provided data on the size of the marketplace, the average actuarial value, the average induced demand, and the overall risk of the 2016 market. Given the aforementioned volatility, this data was supplemented with additional insights into the expected 2018 market size, risk transfer component profile, and average premium levels for the total PA market.

For the Company's risk transfer component profile, the Company used 2016 experience data for the Individual ACA risk pool and adjusted the experience results for anticipated lapses and new business.

- b) The Company calculated a statewide average premium assumption of PMPM for the 2018 Pennsylvania Individual Non-Catastrophic market. The PMPM was multiplied by the 0.86 factor to arrive at the PMPM value shown in Attachment B.
- 3. The tobacco rates are between 2.5% (for a 21 year old) to 22.5% (for a 64 year old) higher than non-tobacco rates. Please provide quantitative justification for the proposed tobacco rating factors?

Responses:

The tobacco load factors for the age range in question are consistent with what the PID has approved for the Individual ACA market in the previous rate filings. For administrative efficiency and consistency, the tobacco rates for FPH are set to use the same tobacco loads as the other PA Individual ACA companies.

- 4. With respect to the demographic adjustment equal to 1.058, please provide the distribution of membership by age and gender for the following:
 - Projected for 2018
 - Currently inforce in 2017
 - Underlying the 2016 base experience

Responses:

The projected 2018 demographic factor is assumed to be similar to the 2017 demographics of the population used to develop the manual rate as described in the Actuarial Memorandum in aggregate. Thus, this 2017 demographic factor is used as the best estimate for 2018 ACA projected enrollment.

Please see worksheet name "PID Response – Q4" for the development of the 2017 and 2016 factors.

5. In developing the morbidity adjustment equal to 1.003, per Attachment A, a mix of membership from the HHIC ACA, HHIC Medically Underwritten, and the Uninsured & Employer Markets segments is assumed to make up the projected 2018 ACA membership. However, the 2018 Normalized Allowed PMPM shown in Attachment A appears to be the same for each of these member segments. Please describe and demonstrate quantitatively how the 2018 Normalized Allowed PMPM was calculated for each member segment.

Responses:

First, there is a typo in the labels for "HHIC ACA" and "HHIC Medically Underwritten". They should be labeled as "FPH ACA" and "FPH Medically Underwritten" instead.

Second, for the FPH 2018 projection, we assumed that the allowed PMPMs from the FPH MU and the Uninsured & Employer Markets to be the same as the ACA retained segment itself since it is the majority (almost 90%) of the enrollment.

See worksheet name "PID Response – Q5" for the PMPMs development.

The 2016 Normalized Allowed PMPM is calculated using the 2016 ACA BEP claims for the population used to develop the manual rate as described in the Actuarial Memorandum and adjusting the demographic factor and trend for the 2018 rating period.

The 2018 Normalized Allowed PMPM is calculated using the 2017 February snapshot ACA members as the proxy for the 2018 retained ACA members. Underlying 2016 allowed claims of these members are then adjusted for demographic, trend, and projected risks for the 2018 rating period.

6. Please demonstrate how the proposed demographic and morbidity adjustments were taken into account in calculating the projected 2018 FPH Non-Catastrophic Pool risk score of used in the development of the projected 2018 risk adjustment transfer.

Responses:

FPH used the same projected population that was used to develop the morbidity and demographic factors to develop the risk score of Since this risk score already reflects the expected population, no explicit adjustments for morbidity or demographics are required.

7. Please demonstrate quantitatively how the CY2018 Network Factor in Attachment A equal to 0.946 was developed and describe what specific network contracting changes are expected to result in a 5.8% decrease in projected costs relative to the base experience.

Responses:

In Attachment A, the 0.946 change in network reflected a change from a PPO to an HMO.

8. The Administrative expenses shown in Table 6 of the Actuarial Memorandum Exhibits is 7.73%, whereas, the URRT shows this as 7.56%. Please explain this discrepancy and revise the incorrect exhibit.

Responses:

The Administrative Expenses for FPH on a PMPM basis are \$47.96. The 7.73% in Table 6 reflects this PMPM as a percentage of premium after removing premium tax from the filing. The 7.56% in the URRT is the same PMPM as a percentage of premium prior to removing premium tax. In conjunction with its response to these questions FPH has submitted an updated version of all filing documents consistent with the removal of the proposed Pennsylvania premium tax expansion.

- 9. Please provide the workbook with support data and calculations for the following
 - Age calibration factor of 1.850
 - Tobacco factor of 0.987

Responses:

Please see worksheet named "PID Response – Q4" for the development.

10. For the expanded Bronze plans, please demonstrate that the copay is less than or equal to 50% coinsurance for that category.

Responses:

The Prescription Drug Benefit Plan provides three major services, as defined on page 94142 of the Federal Register, of coverage that are less than or equal to 50% coinsurance and available prior to any deductible. These services include: generic drugs, specialty drugs, and preferred branded drugs. The coinsurance percentages corresponding to these categories can be found in the AV screenshots provided as part of the Actuarial Memorandum. A certification of the coinsurance values used can also be found in the Actuarial Memorandum.

11. The average age in Table 1 should be the true age based on single year bands distribution. If not, please revise Table 1.

Responses:

Please see worksheet named "PID Response – Q4" for the development.

12. Please confirm that you have tested to ensure that the rates in Table 11 of the Actuarial Memorandum Exhibits, PA Plan Design Summary and Rate Tables, Federal Rates Template and the binder are identical.

Responses:

FPH confirms that testing has been done to ensure that all presented rates are consistent.

Valuation Date: January 31, 2017

Notes:

PMPM scale (on left) is allowed charges. Enrollment scale (on right) is monthly membership. Regression uses data from CY15 and CY16.

Cohorts, by segment, are all members with exactly 12 months in each of 2015 and 2016 and no metal level changes.

Response to July 7, 2017 Objection Letter

Filing Number: 1A-DP-17-FPH

SERFF Tracking Number: HGHM-131020597

Below are FPH's responses to your objection letter dated July 7, 2017. We have included the questions along with the responses for your convenience.

1. Regarding the response to Question 1:

- a) The December 2016 estimated adjusted PMPM provided in the response to Question la appears quite high relative to the other months provided and appears to show a seasonality impact far greater than was observed in December 2015. Please provide updated estimated adjusted PMPMs by incurral month and regression results using at least three months of run-out (e.g. a Valuation Date equal to March 31, 2017 or later).
- b) With respect to the December 2016 adjusted PMPM, please provide the component of the \$655.98 value which is associated with paid claims (as of January 31, 2017) and that which is associated with IBNR.
- c) Please provide the development of the CY2016 and CY2018 Benefit Richness factors provided in the response to Question lb.
- a) We agree that December is the highest adjusted PMPM for both years and that a seasonality factor definitely occurs due to that. In general, the primary drivers include members reaching calendar year out-of-pockets, anticipated changes of coverage for the upcoming renewal year, anticipation changes in members switching markets, and the amount of retroactive cancelations that occur in the month of December.
 - Please see exhibit named "Response Q1a Exhibit 1" for the revised regression with run-out thru March. Additionally, "Response Q1a Exhibit 2" was included as an additional regression based on CY2016 only rather than a two-year period for reference
- b) The completion factor used in the original regression study for December was 0.835.
- c) The CY2018 benefit richness factor was calculated by applying the metal level distribution of the CY2018 to the following factors: Gold = 1.08, Silver = 1.03, Bronze = 1.00, and Catastrophic = 0.92. For the CY 2016 benefit richness factor, a similar approach was done but using the 2016 filed and approved the plan level factors instead.

- 2. Regarding the response to Ouestion 4:
- a) In the calculation being used to develop the demographic adjustment equal to 1.058, please explain why the 2016 Base Experience factors are calculated using the 2016 age and tobacco factors instead of the 2018 age and tobacco factors.
- b) By using two different sets of rating factors for the calculation, the demographic adjustment appears to not only measure the anticipated impact to costs due to the change in projected demographic mix between the base period and 2018, but also the change in proposed rating factors. Please confirm and clarify why it is appropriate to incorporate the change in proposed rating factors (age and tobacco) in the development of the projected Index Rate.

Response:

- a) In order to capture the rate impact of all rating factors, the pre-2018 age curve was used in the base period and the 2018 age curve was used in the 2018 rating period.
- b) We agreed. The overall rate increase should reflected the impact of change in the age curve as well as the change in the demographic mixed.
- 3. Regarding the response to Question 5:
- a) Please provide numerical support for the \$159,395,891 2016 "Projected Normalized Allowed Claims" and the \$103,592,741 2018 "Projected Normalized Allowed Claims" from the tab "PID Response Q5" from the provided file "1A-DP-17-FPH Objection 1 Response Exhibits.xlsx), including the following items for each of the two figures referenced in your response:
- Starting non-normalized allowed claims and membership volumes
- Demographic normalization factor
- Trend normalization factor
- Projected risk normalization factor
- Any other normalization factors which were applied
- b) Please reconcile the 274,124 "Member Months (Feb 2017 Snapshot)" with the provided February 1, 2017 membership equal to 23,251.

Response:

- a) The development can be found in the "Response Q3" tab of the attached worksheet.
- b) The February 1, 2017 membership of 23,251 represents the total number of members enrolled as of that point in time. The 274,124 member months was calculated by taking the snapshot membership by coverage effective date and deriving the total number of member months. Additionally, in instances where there were plan discontinuations and service area changes, only a subset of the total snapshot membership was used in the development of the morbidity factor.
- 4. If you wish to make adjustments to the projected RA amount included in this rate filing and the URRT, based on the June 30, 2017 Summary Report on Transitional Reinsurance Payments and Permanent Risk Adjustment Transfers, please do so in this submission. Provide narrative and an Excel spreadsheet demonstrating the development and assumptions.

Response:

The Company does not wish to make adjustments to its projected RA amount for the 2018 rating year.

5. Please note that all revisions must be reflected in this resubmission. The Department shall not allow any changes to the rates after this submission.

Response:

In accordance with the filing instructions specified by the Pennsylvania Insurance Department, the rate development in this filing is based on certain assumptions we have had to make at this point in

time. Most notably, these assumptions include that CSR payments and advance payment of premium credits (APTCs) will continue until the end of 2018, there will be no significant changes in legislation, regulations or otherwise (i.e. rules, regulatory guidance, etc.) impacting the ACA market, and all Pennsylvania QHP issuers currently participating on the Marketplace will continue to do so throughout 2018. In addition, there are other uncertainties that may directly or indirectly affect an already unstable insurance market and ultimately, rates. One of these uncertainties includes the prospective enforcement of the ACA individual mandate. Another uncertainty involves potential state legislation that would expand Pennsylvania state premium tax applicability to entities of this type. If any of these assumptions are ultimately incorrect or additional developments occur that similarly have a detrimental impact to the market, modifications to the rate development may be necessary. As a result, the Company reserves the right to submit a revised filing.

6. Please provide a PDF file for public review (Public Rate Filing PDF) in SERFF to show the updated rate request. The following updated supporting items must be included:

- Cover Letter
- Rate Change Request Summary (Attachment 1)
- Part 1 Unified Rate Review Template (URRT)
- Part II Consumer Friendly Justification
- Part III Federal Actuarial Memorandum (redacted)
- PA Actuarial Memorandum (redacted)
- PA Actuarial Memorandum Rate Exhibits
- PA Plan Design Summary and Rate Tables
- Federal Rates Templates
- Service Area Maps
- Correspondence Q&A's

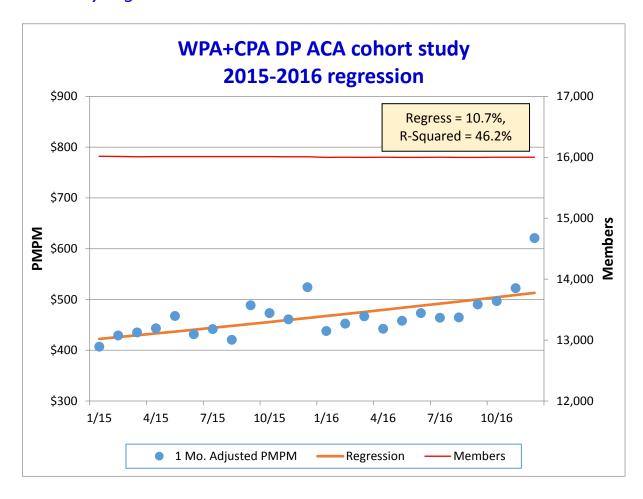

Please remain cognizant of the limited redactions as outlined on pages 3 and 4 of the 2018 Guidance. Only those specific items may be redacted. Since AV screenshots and commission schedules are proprietary, they should not be included in this public PDF. Additionally, please ensure that documents and spreadsheets are internally consistent and that the Excel exhibit with formula corrections emailed to you on June 6, 2017 is used. The deadline for the revised PDF is COB July 18, 2017.

Response:

The Company will provide the requested PDF file for public review by July 18, 2017, through its SERFF rate submission. This document will contain all the supporting items referenced above, although due to SERFF file size limitations, the Public Rate Filing PDF may need to be split into two files. Please note that since Question #2 & #6 from the Department's Rate Filing Objection Letter dated 06/16/2017 pertained to relative risk levels (i.e. the risk adjustment development), the Company included a redacted response to the 06/16/2017 Rate Filing Objection Letter in its Public Rate Filing PDF.

Regression Analysis

DP ACA by region

Notes:

PMPM scale (on left) is allowed charges. Enrollment scale (on right) is monthly membership. Regression uses data from CY15 and CY16. Cohorts, by segment, are all members with exactly 12 months in each of 2015 and 2016. Monthly PMPMs restated from Jan-17 valuation using an adjustment factor to make comparable to Mar-17 valuation.

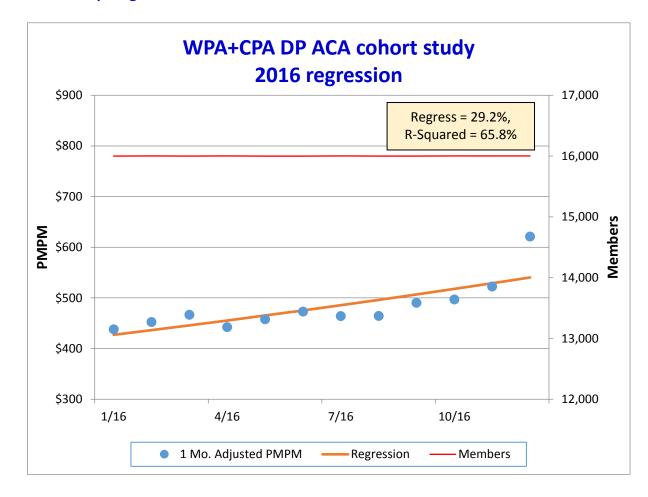

Valuation Date: March 31, 2017
