Explanation of requested rate change

Geisinger Quality Options has proposed an overall base rate increase of 7.1% for Individual PPO members renewing in the Marketplace effective January 1, 2020 through December 1, 2020. The actual range of proposed rate increases vary from a minimum of 6.2% to a maximum of 7.3%. The key drivers of this increase are changes in the expected morbidity of the population, risk adjustment and the paid to allowed ratio. The total projected 2020 administrative costs are slightly higher than those used for the current 2019 rates. As required by federal regulations and using the Federally prescribed MLR methodology, the projected loss ratio exceeds 80%. There were minimal benefit changes proposed for 2020 to maintain the desired metallic level.

¹ Note that insurers will have the opportunity to revise their rate change request in July, after they are scheduled to receive updated information about the impact of a federal program called risk adjustment. This document will be updated accordingly at that time.
