Claims:	77%
Administrative:	13%
Taxes & fees:	8%
Profit:	2%

The company expects its annual medical costs to increase **4.1%**.

### Explanation of requested rate change

QCC Insurance Company ("QCC") is revising premium rates for the Pennsylvania Consumer ACA compliant products, effective from January 1, 2020.

About 42,000 members will be affected.

Changes in Taxes and Fees:

The Federal government suspended the Health Insurance Providers Fee for premiums due in 2019, but will be re-implementing it for premiums due in 2020. This adds 3.4% to 2020 premium rates.

<sup>1</sup> Note that insurers will have the opportunity to revise their rate change request in July, after they are scheduled to receive updated information about the impact of a federal program called risk adjustment. This document will be updated accordingly at that time.

#### Changes in Medical Service Costs:

Premium rates for health care insurance are increasing as the cost of health care service rise. Health care service costs increase as health care providers increase their fees, members use more health care services and supplies, and the types of health care services and supplies change, among other factors.

#### Financial Experience of the Product:

QCC is required by federal law to pay out a minimum of 80% percent of premium dollars for medical claims—this is referred to as the minimum Medical Loss Ratio (MLR). The rate action proposed in this filing is expected to achieve a Medical Loss Ratio of greater than 80% using the state's estimates for individual mandate and CSRs not being funded.

#### Changes in Benefits:

Some plan benefits are mandated by federal and state law. Benefit changes for some plans were also made. All changes in benefits are in compliance with the uniform modifications rules stipulated by the Federal government.

#### Administrative Costs:

In addition, the Affordable Care Act (ACA) imposes taxes and other levies.
