UPMC Health Plan

Individual Off Exchange HMO Rate Filing

On April 27, 2016, UPMC Health Coverage, Inc. submitted for approval a rate filing for use with Individual Off Exchange HMO customers.

Company Name/NAIC #: UPMC Health Coverage, Inc./22350

Market: Individual

Products Offered: Individual HMO

Average Rate Change Requested: 0.9% (\$1.89)

Range of Rate Change Requested: 0.9% - 0.9% (\$1.89 - \$1.89)

Currently Enrolled Lives: 7

Currently Enrolled Policyholders: 5 Experience Period Revenue: \$41,884

Additional Revenue From Rate Increase: \$159

pennsylvania INSURANCE DEPARTMENT

Rate Change Request Summary - 2017

Pennsylvania Insurance Department | www.insurance.pa.gov

UPMC Health Coverage, Inc. – Individual Plans

Rate request filing ID # UPMC-130536761- This document is a consumer tool to help explain the rate filing and the request made by the insurance company. It is not intended to describe or include all factors or information considered in the review process. For more information, see the filing at http://www.insurance.pa.gov/Consumers/ACARelatedFilings/Pages/default.aspx

Overview

Requested average rate change: 0.9%
Range of requested rate change: 0.9% - 0.9%
Effective date: 1/1/2017
People impacted: 7
Available in: 1, 2, 4, 5

Key information

Jan. 2015-Dec. 2015 financial experience

Company made (before taxes)	\$ 12,365
Administrative expenses	\$ 11,202
Claims	\$ 18,317
Premiums	\$ 41,884

How it plans to spend your premium

This is how the insurance company plans to spend the premium it collects in 2017:

 Claims:
 83.42%

 Administrative:
 12.84%

 Taxes & fees:
 1.14%

 Profit:
 2.60%

The company expects its annual medical costs to increase 3.8%.

Explanation of requested rate change

A change in the rating area factor methodology caused a slight increase in the overall rate.

The number of individuals affected by these rate increases is 7. The rate increase is 0.9%.

Jan. 2015-Dec. 2015 financial experience

Company made (before taxes)	\$ 12,365
Administrative expenses	\$ 11,202
Claims	\$ 18,317
Premiums	\$ 41,884

Cost and utilization increases are expected to increase by approximately 3.8% for 2017.

No changes in benefits contributed significantly to the increase.

No major changes in administrative costs were anticipated and thus did not affect the increase.

Actuarial Memorandum

General Info

The purpose of this actuarial memorandum is to provide certain information related to a rate submission for the company identified below. The relevant index rate is developed in accordance with federal regulations, and plan specific premiums are generated using the allowable modifiers in accordance with the single risk pool rule.

Company Identifying Information:

Company Legal Name: UPMC Health Coverage, Inc.

NAIC #: 22350 State: PA

HIOS Issuer ID: 62560 Market: Individual Effective Date: 1/1/2017

Company Contact Information:

[This information redacted for publication.]

Filing Information:

Rate Filing SERFF Tracking #: UPMC-130536761 Form Filing SERFF Tracking #: UPMC-130489187

Binder SERFF Tracking #: UPMC-PA17-125059865

Rate History

SERFF Tracking #	Year	Rate Change
UPMC-129629050	2014	0.0%
UPMC-129640573	2015	0.0%
UPMC-130072609	2016	0.0%

Proposed Rate Increase(s)

Reasons for Rate Increase(s):

The rate increase is 0%

Benefit Changes

There are no benefits changes for 2017.

Experience Period Premium and Claims

Paid Through Date:

The reported claims during the experience period have a paid through date of March 2016.

Premiums (net of MLR Rebate) in Experience Period:

Worksheet I, Section I of the URRT contains calendar year 2015 premium for the captioned company and market. An amount has been added for estimated risk adjustment. No adjustments were made for MLR rebates as we do not anticipate owing them.

Allowed and Incurred Claims Incurred During the Experience Period:

Worksheet I, Section I of the URRT contains calendar year 2015 claims experience for the captioned company and market, paid through March 2016. Allowed medical claims and pediatric vision claims are pulled directly from our data warehouse. Pediatric dental claims are administered and paid by Dominion Dental. We receive a separate report from Dominion with the claim detail. We used the standard Development/Completion Factor Method to calculate IBNR. Factors were calculated using our entire fully insured block of business. Because of the changes in membership in our community rated plans year to year, we felt it would be better to use a more established and consistent data set. Because three months run out is available the impact of IBNR is minimal.

Month	Completion Factor
1/1/2015	0.9986
2/1/2015	0.9985
3/1/2015	0.9981
4/1/2015	0.9972
5/1/2015	0.9962
6/1/2015	0.9950
7/1/2015	0.9911
8/1/2015	0.9888
9/1/2015	0.9852
10/1/2015	0.9804
11/1/2015	0.9706
12/1/2015	0.9591

Private Reinsurance:

Private reinsurance is utilized. Recoveries are subtracted from experience period claims. The average PMPM was subtracted from each plan rather than using individual plan-level recoveries for each.

Non-EHB Claims:

Benefits that were offered outside EHB include routine foot care, acupuncture, and private duty nursing. The experience period allowed claims for these benefits was \$0.00 PMPM.

Pharmacy Rebates:

Pharmacy rebates reduced the total allowed claims by \$2,256.

Experience Period Loss Ratio:

The experience period loss ratio, defined as the ratio of incurred claims to earned premium, is 43.73%.

Benefit Categories

Medical claims are split into 9 categories in our data warehouse. They are mapped into the categories on the URRT as follows:

UPMC Benefit Category	URRT Benefit Category
Inpatient	Inpatient Hospital
Catastrophic	Inpatient Hospital
Outpatient	Outpatient Hospital
Behavioral	Outpatient Hospital
PCP	Professional
Specialist	Professional
Diagnostic	Other Medical
ER	Other Medical
Other	Other Medical

Drug claims are on separate tables and directly mapped into the Prescription Drugs category.

Projection Factors

Changes in the Morbidity of the Population Insured:

We expect a morbidity trend of -3% when comparing our experience period population to our projected population. These numbers were derived from a consultant's (Optum Consulting) estimate using drug claims to project risk scores.

Changes in Benefits:

The selection of a new EHB Benchmark plan for 2017 required 3 changes to be made to existing plans:

- Fertility treatment via IUI will now be covered.
- Benefit limit increase of 26 visits for pulmonary and cardiac (In 2016, the pulmonary was 24 visits and cardiac was 12 weeks; in 2017 both benefits will have 36 visit limits, not combined).
- Benefit limit for nutritional counseling increasing from a 2-visit limit to a 6-visit limit.

Changes in Demographics:

The average age for our 2015 experience period individual risk pool was 42.2 with an average premium factor of 1.67. This is comparable to our 2016 experience so far with age 42.5 and premium factor 1.74. Due to the stability of the population no demographic adjustment has been made to the rates.

Other Adjustments:

No other adjustments to the experience period data were needed.

<u>Trend Factors (cost/utilization):</u>

Historical allowed claims were used to develop year over year trend factors for use in the projected rates. Because of the large change in membership year over year, the data specific to the block of business associated with this filing was deemed too volatile to use for trend development. The entire block of commercial business was included in Table 3 and 3b for trend development. The total impact for adjustments to benefit changes was negligible, and did not have a significant impact on the trend calculation.

Credibility Manual Rate Development

Source and Appropriateness of Manual Rate Used:

The equivalent experience period data for UPMC Health Options, Inc. individual community rated product was used. It represents the same risk pool as UPMC Health Coverage, Inc. and has a large member month count of over 600,000. Therefore, it was deemed credible to use.

Adjustments Made to the Data:

Adjustments include the items listed under "Changes in Benefits" above as part of the new EHB Benchmark plans.

Inclusion of Capitation Payments:

No benefits are projected to be paid for via capitation.

Credibility of Experience

The very limited experience period data requires 0% credibility to be used for the experience period data.

Projected Index Rate

The Projected Index Rate is calculated by first applying 2 years of 3.8% annual trend to the manual rate. Adjustments are then applied to get from the single risk pool population with broad plan offerings to the plan offerings of this specific segment.

Projected Market Adjusted Index Rate

The Projected Index Rate is adjusted by adding estimates for Risk Adjustment and Marketplace Fees (with impacts and costs spread across the whole risk pool) to obtain the Projected Market Adjusted Index Rate.

Projected Allowed Claims

The projected index rate was added with the projected allowed amounts for non-EHB benefits to obtain the Projected Allowed Claims.

Risk Adjustment and Reinsurance

Experience period Risk Adjustment PMPM was estimated to be \$18.07. An exact amount is not yet known so estimates from a consultant were used.

The projected risk adjustment assumes any membership changes involve members of average risk. Thus the total dollar impact of these membership fluctuations was estimated to remain unchanged. \$1.56 PMPY has been subtracted as a projected amount for the Risk Adjustment Administration Fee.

The net amount after accounting for the fee is subtracted from the Projected Index Rate as part of the calculation of the Market Adjusted Index Rate. For the URRT, it was entered as a positive number because the calculation subtracts the value. Table 6 of the PA Actuarial Memorandum Rate Exhibits adds this amount so it was entered as a negative value. The effect is a decrease in premium.

Experience period PMPM for the Transitional Reinsurance Program under PPACA was \$0.00. This is based on what has been accrued with 3 months runout. This program expires at the end of 2016 so no projections were included for 2017.

Non-Benefit Expenses and Profit & Risk

Table 6. Retention PMPM	
Retention Items - Express in percentages	
Administrative Expenses	
General and Claims	10.16%
Agent/Broker Fees and Commissions	2.13%
Quality Improvement Initiatives	0.55%
Taxes and Fees	
PCORI Fee (\$0.19 PMPM)	0.05%
PA Premium Tax (if applicable)	0.00%
Federal Income Tax	1.09%
Health Insurance Providers Fee	0.00%
Profit/Contingency	3.20%
Total Retention	17.2%
Projected Required Revenue PMPM	\$ 346.70

Administrative Expenses are from our 2015 Supplemental Health Care Exhibit. They are broken out by lines of business and market segments matching this filing and thus are appropriate for use.

Taxes and Fees decreased from 2016 to 2017 to account for the suspension of the Health Insurance Tax for 2017. A PCORI amount of \$0.19 PMPM has been added. As noted above in the "Projected Market Index Rate" section, Marketplace user fees are applied as an adjustment to the Index Rate at the market level. The member-weighted average of 3.5% for Marketplace enrollees combined with 0% for non-Marketplace enrollees calculates to 0.0%.

Normalization Factors

Average Age Factor:

The average age factor was calculated using our current Individual market population with the HHS Age Factors. It was assumed this represents the age distribution of the entire single risk-pool. The number of members under each age bracket was multiplied by the corresponding HHS Age Factor. These were then summed and divided by the total number of members to obtain the average age factor. The weighted average age of this population is 42.2 and the average factor is 1.670. This does not match the HHS Age Factor because the distribution of HHS Age Factors is not linear.

Average Geographic Factor:

Credible data is not available for all areas in which these plans are sold. Because of this we have set all of the geographic factors to 1.

Average Tobacco Factor:

The average tobacco factor was calculated using the most updated membership data available. A separate data pull was utilized because our data warehouse is still working on making the tobacco indicator reliable enough for use. 10.6% of the population indicated tobacco use. The tobacco load used for this market segment is 1.025. Thus the Tobacco Surcharge Adjustment implemented is 0.997.

Average Benefit Richness Factor:

This adjustment was used to keep relativities between plans similar to what they were in the previous year. This will minimize rate increase variations by plan and consumer confusion that could result. In addition, our current MLR is much higher for Platinum plans compared to the rest of the plans which suggests a wider variation is necessary than what is indicated in the company-determined Pricing AV.

Paid to Allowed Ratio

The Paid to Allowed Average Factor is the weighted average based on membership of the HHS AV Metal Values as developed using the HHS AV Calculator.

Projected Loss Ratio

The projected period loss ratio, defined as the ratio of incurred claims to earned premium, is 83.4%.

AV Metal Values

Metal values were determined using the final 2017 HHS AV Calculator.

AV Pricing Values

The allowable modifiers that make up AV Pricing Values have been included in Table 10 of the PA Rate Filing Exhibits.

Pricing AV (company-determined AV)

Pricing AVs were determined using the final 2017 HHS AV Calculator.

Benefit Richness (induced demand)

This adjustment was used to keep relativities between plans similar to what they were in the previous year. This will minimize rate increase variations by plan and consumer confusion that could result. In addition, our current MLR is much higher for Platinum plans compared to the rest of the plans which suggests a wider variation is necessary than what is indicated in the company-determined Pricing AV.

Benefits in addition to EHB

Benefits that will be offered outside EHB include routine foot care and acupuncture. The projected allowed claims for these benefits is \$1.12 PMPM.

Provider Network

Network	2017 Factor
Standard	1.12

The Standard network is similar to the Premium network filed under the UPMC Health Options, Inc. Individual product so the same network factor was used.

DOH must approve networks every year which does not happen before the submission of these rate filings. In Table 14 the date the network was submitted for approval was entered instead.

Catastrophic Eligibility

No adjustments were made for catastrophic plans. Current enrollment is minimal and not credible.

Tobacco Callibration

The average tobacco factor was calculated using the most updated membership data available. A separate data pull was utilized because our data warehouse is still working on making the tobacco indicator reliable enough for use.

Geographic Factors

Credible data is not available for all areas for which these plans are sold. Because of this we have set all of the geographic factors to 1.

Consumer Adjusted Premium Rate Development

Plan Adjusted Index Rate is divided by the age calibration factor then multiplied by the specific age,

geographic, and tobacco factors for the consumer to develop the Consumer Adjusted Premium Rate.

Membership Projections

Membership projections were developed based on our anticipated competitive positioning in the market combined with our current enrollment distribution by plan.

Warning Alerts

When validating the URRT, a warning appears indicating that cell G16 and H30 on Worksheet 1 do not match due to a minimal difference.

Effective Rate Review Information

The Pennsylvania Insurance Department is responsible for conductive effective rate review for all submitted rates.

Actuarial Certification

I, am a Member of the American Academy of Actuaries. I am currently a Manager in the Actuarial Services department for UPMC Health Plan. I certify that:

- All factor, benefit and other changes from the prior approved filing have been disclosed in this actuarial memorandum.
- New plans cannot be considered modifications of existing plans under the uniform modification standards in 45 CFR 147.106.
- The information presented in the PA Actuarial Memorandum and PA Actuarial Memorandum Rate Exhibits is consistent with the information presented in the 2017 Rate Filing Justification.
- The projected Index Rate is:
- a. In compliance with all applicable state and Federal statutes and regulations (45 CFR 156.80 and 147.102)
- b. Developed in compliance with the applicable Actuarial Standards of Practice
- c. Reasonable in relation to the benefits provided and the population anticipated to be covered
- d. Neither excessive nor deficient
- The Index Rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 156.80(d)(2) were used to generate plan level rates.
- The percent of total premium that represents EHB included in Worksheet 2, Sections III and IV, was calculated in accordance with actuarial standards of practice.
- The geographic rating factors reflect only differences in the costs of delivery and do not include differences for population morbidity by geographic area.
- The AV Calculator was used to determine the AV Metal Values shown in Worksheet 2 of the Part I URRT for all plans except those specified in the certification.
