Dear John Wisniewski,

Introduction:

June 17, 2015

John Wisniewski, Director, Actuary

Pittsburgh, PA 15219

RE: UPMC Health Options, Inc. – Small Group – PPO and EPO – On/Off SHOP
Received: May 15, 2015 SERFF Tracking# UPMC-130071358

Dear Mr. Wisniewski:

The Pennsylvania Insurance Department has received and conducted a review of the above captioned filing. In order to complete the review, we are requesting the following information. To facilitate a timely review, we request this information be provided within 14 days of the date of this letter. If you have any questions or difficulties in providing the information within this time frame, please call me.

1. For the January 1, 2016, through October 1, 2016 will UPMC Health Options allow current enrolled groups of size 51-100 transitional relief? That is, will you allow a particular group to continue under the large group rating process? What is your current (2015) definition of small group? Please be advised that the experience period data should only include groups that meet the 2-50 group size. However, in the projection period, expected claims experience should reflect group policies for employers with 100 or fewer employees that the issuer expects to be enrolled in single risk pool compliant plans during the projection period. This may be done through the projection factors, use of a manual rate, or combination of the two. Please acknowledge your company’s understanding and compliance.

2. Have all of the proposed network options been approved by the Department of Health? Please provide a copy of the network approvals. Please provide an exhibit that shows the network names, areas and factors.

3. The actuarial memorandum indicates that there are no rate increases proposed because these are entirely new products and plans. Department records indicate that UPMC Health Options, Inc. has 2015 small group products approved in the Pennsylvania market. Are you terminating all currently offered products and plan designs? Is there enrolled membership in these products and plans? What will UPMC do with these enrollees? If UPMC is mapping the 2015 enrollees to 2016 products and plans, please provide a mapping illustration that shows the development of the rate impact to consumers.

4. Did you seek guidance from CMS to verify that the proposed product and plan designs are new products and plan designs? If so, please provide the inquiry made to CMS and their response.

5. Please provide side-by-side exhibit that shows the approved 2015 and proposed 2016 products and plans and their corresponding HIOS ID #s and premium rates.

6. Please discuss the product and plan design changes (benefit and cost sharing) proposed in this filing and discuss why these changes have been proposed? What is the net cost change to benefits?

7. Your URRT and narrative do not meet the standard as prescribed by CMS in the 2016 Unified Rate Review Instructions (Rate Filing Justification: Parts I (v2.0.4, II, and III) version 2/21/15. Please provide a URRT (Worksheet 1 and 2) and narrative that meet the level of detail required.
