

Thinking about driving for a company like

Uber or Lyft?

A Transportation Network Company (TNC) allows you to use your personal vehicle to transport passengers to earn extra money.

IF YOU ARE THINKING ABOUT SIGNING UP FOR A TNC YOU SHOULD...

1. Talk to your insurance company. Your personal auto policy may not cover you if you are in an accident while transporting people for a fee.
2. Check with your TNC company. Do they offer any coverage? Do they cover you when you are on your way to pick someone up **AND** when you are taking them to their destination? Do they cover you if you **OR** your passengers are injured in an accident? Do they cover you when you are on your way home?
3. Ask your TNC company how your car will get fixed if it is in an accident. If you are leasing or making car payments, it is important for you to verify that your car is covered.

If you are driving for a TNC, they are required to provide you with a notice that tells you what the TNC company covers in the event of an accident and what you should do if an accident occurs.
